Date: 27th April 2023

This document shall be printed, stamped and submitted with the tender documents.

Question: Regarding page 43, 6.8.2 "Financial Solvability – Other additional financial resources", If a tenderer is considered as one of the subsidiaries of (industrial and commercial companies) group. And can therefore share additional financial resources with these companies if needed. Can this be added as other additional resources and what other documents are required for this addition.

Answer:

A tenderer may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which he has with these entities. In that case, the following rules apply:

- Where an economic operator wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.*
- The contracting authority verifies whether the entities on whose capacity the economic operator intends to rely fulfil the relevant selection criteria and whether there are grounds for exclusion.*

Under the same conditions, a group of candidates or tenderers may submit the capacities of the group's participants or of other entities.
