Enabel?

Enabel is a Belgian variant of the English verb enable, but with ‘-bel’ at the end – a clear reference to Belgium. Enabel is a name, a word, not an abbreviation. Through its link with English all the meanings of the English word are transferred to the name of the agency. These meanings fully correspond to the activities of the renewed Belgian development agency.

Enabel means making things possible, facilitating and empowering, which is exactly what the Belgian development agency does: We enable our partners to do what is required to achieve sustainable development in their country. We help create circumstances enabling development; we support, we motivate, we encourage and we promote change; we bring partners and organisations together to put things in motion and foster change.

**Vision**

We build a sustainable world where women and men live under the rule of law and are free to pursue their aspirations.

We are a European player enhancing the impact of Belgium in international development.

As a knowledge centre we think and act in terms of strategy and policy influence to promote sustainable development.

We can quickly mobilise expertise through our networks to implement sustainable development initiatives which are in line with the priorities of Belgium and the objectives of our partners.

**Mission**

Enabel is the development agency of Belgium’s federal government. We implement Belgium’s international development policy.

Under the 2030 Agenda for Sustainable Development, we carry out public service assignments in Belgium and abroad.

We provide customised expertise, including Belgian public expertise, we promote the involvement of all and we pursue top-level partnerships.

Enabel enhances the impact of Belgium in international development by carrying out assignments for Belgian and international third-party donors.

There is one and only one Enabel logo; it is the same in all languages. Enabel is spelled in sentence case, with a capital E. Never write ENABEL in all caps.

The expression ‘Belgian development agency’ may never be a part of the logo as such.

Download the logo from GoFast >> Groups >> Support >> Communication >> Visual_Identity
Our institutional colours are dark grey (not black), yellow and red, as indicated below.

### Institutional colours

- RGB 88/87/86
- CMYK 0/0/0/80
- Pantone Cool Grey 11 C

- RGB 249/181/0
- CMYK 0/32/100/0
- Pantone 1255 C

- RGB 216/26/26
- CMYK 7/98/96/1
- Pantone 485 C

### Secondary colours

Secondary colours may be used in the lay-out of publications. Use no more than two colours per publication.

- RGB 103/38/102
- CMYK 68/96/22/12
- Pantone 260

- RGB 0/125/165
- CMYK 100/30/25/1
- Pantone 314

- RGB 230/83/0
- CMYK 178/100/2
- Pantone 166

- RGB 203/151/0
- CMYK 40/100/2
- Pantone 117

- RGB 76/156/46
- CMYK 10/98/0
- Pantone 362

### Neutral colours

We recommend to use shades of grey for tables, backgrounds etc.

#### Cold

Titles
Fonts to use for titles are: Calibri or Aller. Never justify a title.

Body text
Georgia is the font for body text in publications. However, in Powerpoint presentations the font to use is Calibri. Font size for body text is 9 pt., line spacing is 12 pt.

Alignment
We recommend to align the text to the left of the page. Justified text is allowed in certain cases (but never in a title).

Download the Aller font here:
https://www.fontsquirrel.com/fonts/aller

For a header of a letter with a partner’s logo, that partner logo must be where the red and yellow blocks are in the right-hand top corner and aligned with the Enabel logo.

The height of the Enabel logo is the maximum height. Left-alignment is in relation to the Address field.
Business card

For the head office:
There are 2 variants of cards:
• front FR and back NL
• front FR and back EN

For the field:
• front = country language
• back = other useful language

A business card measures 85 mm by 55 mm.

Did you know that 80% of business cards handed out are lost or dumped?
So, why not use a business card manager on your smartphone instead? We recommend this one: https://camcard.com

Download the business card template from GoFast >> Groups >> Support >> Communication
Compliments card

Format: 210 X 100 mm.
Printed on both sides: FR front and NL back

Envelope

Example of an American format envelope (mandatory right-window). The position of the logo is always in the left corner of the envelopes.

⚠️ To reduce envelope printing costs 34 X 65 mm format labels can be printed with the logo and address.
Folder

With a 5 mm back

Stamp

Example of a stamp - Use of symbol only + contact details
E-mail signature

All Enabel staff members have to use the e-mail signature as shown in the example below.

Instructions on how to insert an electronic signature in Outlook, a Word document with a pre-formatted signature and a logo specifically cropped for the e-mail signature are available on GoFast.

Layout

A4 format: The cover is divided in 8 horizontal rows and 2 or 3 vertical columns.

Use of colours

Limit of 2 colours per section, publication or project in addition to institutional colours, where needed. These are a few examples:
Hierarchy of logos

Cover
On a cover, the Enabel logo is placed in the bottom right corner.

Investir
dans le développement
de la main-d’œuvre

Poster / Banner
If you have several logos, respect the following hierarchy:
You cannot insert a photograph.

In a report with a partner logo, that logo must be placed above the red block at the bottom to the left.

The height of the Enabel logo is the maximum height. Left-alignment is in relation to the beginning of the Title field.

Download the report template from GoFast >> Groups >> Support >> Communication
PowerPoint

There are 2 presentation formats:
- Format 4:3 for older screens and beamers
- Format 16:9

In a PowerPoint presentation with a partner logo, that logo must be placed at the bottom left under the title and subtitle.

The height of the Enabel logo is the maximum height. Left-alignment is in relation to the beginning of the Title field.

Download the PowerPoint presentation from GoFast >> Groups >> Support >> Communication
Digitally or in paper format

Digitally by default

We recommend promoting digital tools (websites, social media...) in your communication strategy and plan.

People increasingly obtain information via mobile applications; make sure that your choice is digital and mobile-friendly!

Yet, print is not forbidden. But if you use printed materials, make sure it gets distributed (plan). You must therefore plan dissemination activities for your printed materials, such as mailings, distribution at events, meetings, workshops... Do not forget this!

Choice of paper

• FSC or PEFC paper (environmental certification);
• ideally minimum 50% recycled;
• matte paper or semi-matte paper; shiny paper is not recommended.

Weight

The weight recommended for the different elements in function of the choice of paper:

• Stationery       80-100 g/m\(^2\)
• Envelope         80-100 g/m\(^2\)
• Business card    300 g/m\(^2\)
• Compliments card 300 g/m\(^2\)
Project flyer

- American format
- Closed: 99 X 210 mm / Open: 297 X 210 mm
- Paper: 170 g/m² - coated matte FSC
- Printed on both sides: quadrichromy
- Processing: 2 parallel roll folds

2 colour versions

Check with your SPOC or the Communication team to get support and the In-Design template.

Amélioration des services de l'eau potable et de l'assainissement en milieu rural

République du Sénégal
Ministère de l'hydraulique et de l'assainissement

Zones d'intervention

Contexte

En décembre 2013, le Sénégal a atteint l'objectif du Millénaire pour le développement qu’il s’était fixé en matière d’accès à l’eau potable (82 % en 2015) ; l’accès à l’assainissement progresse mais à un rythme insuffisant pour réaliser l’objectif fixé (59 % en 2015). La coopération entre la Belgique et le Sénégal se doit de répondre à cette situation en orientant ses interventions sur la pérennisation du service de l’eau potable et de la gestion de la ressource tout en poursuivant les efforts pour le développement de l’accès à l’assainissement.

C’est dans ce contexte que s’inscrit le projet d’amélioration des services de l’eau potable et de l’assainissement en milieu rural (PASEPAR) qui est intégré dans la programmation nationale du secteur de l’eau et de l’assainissement du Sénégal.

Objectif

L’objectif du projet est d’améliorer quantitativement et qualitativement les services d’eau potable et d’assainissement fournis aux populations rurales de la zone d’intervention, de manière durable et dans le respect d’une approche intégrée en matière de gestion des ressources en eau.

Résultats attendus

- Eau potable : les populations rurales de la zone d’intervention ont accès de manière durable à un service public d’eau potable répondant aux normes de qualité en vigueur au Sénégal.
- Hygiène et assainissement : les populations rurales de la zone d’intervention ont accès de manière durable à un assainissement amélioré et les pratiques en matière d’hygiène sont améliorées.
- Gestion intégrée des ressources en eau : les ressources en eau sont mieux connues et gérées de manière rationnelle, dans le respect des intérêts des différents groupes d’usagers.

Activités principales

- Réaliser 5 infrastructures d’Adduction d’Eau Potable (AEP) dans le département de Linguère.
- Appuyer la réforme de l’hydraulique rurale en soutenant l’Office des Forages Ruraux (OFOR) sur :
  - la communication au niveau local ;
  - la mise en place d’un fond de soutien pour les AEP ;
  - le suivi technique et financier et l’appui conseil aux différents acteurs de l’AEP rurale.
- Améliorer la qualité de l’eau produite au niveau du Bassin Arachidier en réalisant des mini-transferts d’eau, en installant des unités de potabilisation par osmose inverse et des dispositifs de chloration de l’eau en sortie de forage.
- Financer des projets d’assainissement innovants mis en œuvre par des ONG dans 4 régions (Thies, Diourbel, Fatick et Kaolack).

Social media

Social media are user-friendly and often free communication tools. Some of the most popular platforms include Facebook, Twitter and Instagram. They can be an important asset to communicate about project or country achievements.

But before setting out, there are a few things to keep in mind:
• First of all, ask yourself this question: Where do these social media accounts fit into the communication plan and what are we trying to achieve with them?
• The decision to use a social media tool must always be validated by your hierarchical supervisor and, at the country office, by the Resident Representative. The communication unit in Brussels must also be consulted beforehand.
• The communication unit in Brussels must be informed about the login and the password of the social media account(s). For Facebook, the communication unit should be included as an administrator of the page. Please contact communication@enabel.be.

Enabel visual identity on social media

Profile picture: use the Enabel symbol (the bird)

Header/Cover picture: The header or cover picture of your social media account is an excellent opportunity to showcase the work of projects. Find the best pictures you have and change your header or cover picture every month.

Social media toolkits

The Facebook and Twitter toolkits provide more information on how to set up the account, which specific username to choose and what to write in the ‘about’ section of social media platforms. Always consult the toolkits before creating your account.

All the toolkits are available on Gofast >> Groups >> Support >> Communication >> Toolkits
Questions?

Please contact your SPOC in the country office or the communications team in Brussels through communication@enabel.be
