

Questions raised during the information meeting

Question 1: Is this consultancy in coordination with the schools? Are we going to ask them about their needs?

- *The Jerusalem directorate of Education the school principal and the engineers will be involved during the design, meaning their feedback will be provided through the Contracting Authority.*

Question 2: Are we going to built toilet units?

- *No, no built facilities are planned. The consultants shall ensure that no parts of the proposed design require a building permit (maximum height of walls, maximum size of canopies, etc.).*
- *The location of the 2 toilet units will be further discussed during the design phase.*

Questions raised during Al-Safa kindergarten site visit

Question 3: Are we going to demolish the existing storage in the playground?

- *We don't prefer to demolish any part of an old building. However, this will be further discussed during the design to select the best location for the new toilet units.*

Question 4: What is the condition of the wall between this playground and the neighbours?

- *This needs to be inspected during the design.*

Question 5: Is the roof going to be used by the kindergarten?

- *No, the JDoE has no plan to use the roof at the moment.*

Question 6: There are no windows in the two rooms, what are we going to do about it?

- *proper ventilation should be taken into consideration during the design.*

Question 7: Is there a need for a teachers room?

- *As this will be a kindergarten, each teacher will be with her students inside the class.*

Questions raised during Al-Sheikh Saad girls school site visit

Question 8: Will there be any works within the existing school building?

- *The scope of work is limited to developing the external works at this project; however, depending on budget availability and after concluding the design of the said works, and in coordination with school management and JDoE Engineers, minor interventions may be tackled within the building.*

Question 9: Is there an existing and accurate survey for the external works?

- *As part of the documents that will be provided to the successful candidate, is a layout plan of the external yard and building; however, the consultant will have to verify and review the information and if needed, perform new survey plan.*
