DEVIA TIONS FROM THE GENERAL IMPLEMENTING PROVISIONS

This chapter of these Tender Specifications holds the specific provisions that apply to this public contract by way of derogation from the 'General Implementing Rules for public procurement and for concessions for public works’ of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR', or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

These tender documents do not derogate from the General Implementing Rules.
1. Technical Specifications

1.1 Requirements for the services

1.1.1 Technical methodology

The Contractor shall provide the services and the deliverables as specified hereafter by applying a technical methodology which factors in the following aspects.

1.1.1.1 Background information

Enabel in Uganda is transforming to a new country portfolio. The Uganda country portfolio shall have coverage in Rwenzori Albertine region covering Kasese district, Kabarole district, Fort Portal City, Kyegegwa district, Hoima City and Hoima district, Busoga region covering Jinja District, Jinja City as well as Kamuli district, West Nile region covering Arua district, Arua City, Yumbe district, Adjuman district, Madiokollo district, Terego district and Kiryandongo district, Northern region covering Gulu district, Gulu City, Kitgum district and Lamwo district and Metropolitan Kampala covering KCCA, Mukono district and Wakiso district.

The overall objective of the Uganda country portfolio 2023-2027 is that “young people and women in Uganda develop into active, economically independent citizens in a sustainable society that respects human rights and ensures quality basic services”.

Two general objectives have been defined, which are articulated into two main pillars:

1. Young people, especially young women, acquire skills and find decent jobs or entrepreneurship opportunities in agriculture and the green and sustainable economy.
2. The right to safe and quality education and health care is more transparently ensured, in particular for vulnerable groups including children, girls and women, and refugees.

The first pillar focuses on providing young people, and especially young women, with the right vocational skills and genuine opportunities to generate an income and contribute to the economy through sustainable, decent work. This objective will be pursued by addressing barriers both from the supply-side (employability) and the demand-side (jobs and entrepreneurship). The pillar will follow an economic sector logic approach, with a focus on specific value chains in agriculture and the green economy.

The second pillar focuses specifically on i) inclusive access and completion of quality lower secondary education; ii) reducing child and maternal mortality and increasing knowledge of and access to Sexual and Reproductive Health and Rights (SRHR); and iii) increasing the capacities of
local authorities and communities to participate in the management and administration of social services. A rights-based approach will be applied to the whole pillar, with a focus on both rights-holders (demand side), and duty-bearers (supply side), as well as their interactions at the local level.

1.1.1.2 General objective:

The general objective of the car rental services is to support the implementation of regular visits of project Enabel staff and consultants to the beneficiary organizations that are located in and around Kampala and up country in Uganda.

The cars shall generally be required by Enabel for official work, transporting consultants, staff and other dignitaries on trips within Uganda etc.

1.1.1.3 Specific requirements per lot:

Litigation: Court action.

Subcontractor in the meaning of public procurement regulations: The economic operator proposed by a tenderer or contractor to perform part of the contract. The subcontractor is understood as the economic operator with the capacity which the applicant or tenderer relies upon or to whom he entrusts all or part of his engagements.

Controller in the meaning of the GDPR: the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data.

Sub-contractor or processor in the meaning of the GDPR: a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

Recipient in the meaning of the GDPR: a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not.

Personal data: any information relating to an identified or identifiable natural person (‘data subject’); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location
data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

2.6 Processing of personal data by the contracting authority and confidentiality

Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

Confidentiality

The tenderer or contractor and Enabel are bound to secrecy vis-à-vis third parties with regards to any confidential information obtained within the framework of this public contract and will only divulge such information to third parties after receiving the prior written consent of the other party. They will disclose this confidential information only among appointed parties involved in the assignment. They guarantee that said appointed parties will be adequately informed of their obligations in respect of the confidential nature of the information and that they shall comply therewith.

PRIVACY NOTICE OF ENABEL: Enabel takes your privacy serious. We undertake to protect and process your personal data with due care, transparently and in strict compliance with privacy protection legislation.

See also: https://www.enabel.be/content/privacy-notice-enabel

2.7 Deontological obligations

Any failure to comply with one or more of the deontological clauses may lead to the exclusion of the candidate, tenderer or contractor from other public procurement for Enabel. For the duration of the contract, the contractor and his staff respect human rights and undertake not to go against political, cultural or religious customs of the beneficiary country. The tenderer or contractor is bound to respect fundamental labour standards, which are internationally agreed upon by the International Labour Organisation (ILO), namely the conventions on union freedom and collective bargaining, on the elimination of forced and obligatory labour, on the elimination of employment and professional discrimination and on the abolition of child labour.
In accordance with Enabel’s Policy regarding sexual exploitation and abuse, the contractor and his staff have the duty to behave in an irreproachable manner towards the beneficiaries of the projects and towards the local population in general. They must abstain from any acts that could be considered a form of sexual exploitation or abuse and they must abide by the basic principles and guidelines laid down in this policy.

Any attempt of a candidate or a tenderer to obtain confidential information, to proceed to illicit arrangements with competitors or to influence the evaluation committee or the contracting authority during the investigation, clarification, evaluation and comparison of tenders and candidates’ procedure will lead to the rejection of the application or the tender.

Moreover, in order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to appointees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract.

The contracting authority will be allowed to proceed to any desk review or on-the-spot check, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure. Depending on the gravity of the facts observed, the contractor having paid unusual commercial expenditure is liable to have his contract cancelled or to be permanently excluded.

In accordance with Enabel’s Policy regarding sexual exploitation and abuse of June 2019 and Enabel’s Policy regarding fraud and corruption risk management complaints relating to issues of integrity (fraud, corruption, etc.) must be sent to the Integrity desk through the https://www.enabelintegrity.be website.

### 2.8 Applicable law and competent courts

The contract must be performed and interpreted according to Belgian law.

The parties commit to sincerely perform their engagements to ensure the good performance of this contract.

In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution.

If agreement is lacking, the Brussels courts are the only courts competent to resolve the matter.

The tenderer can be awarded one or several lots provided he/she has the required capacity to execute the assignment. This shall be verified before the award of the contract.

3.4 Items
Each lot of this procurement contract consists of the items stated in part 1 of this tender document.
These items are pooled and form one single contract. It is not possible to tender for one or several items and the tenderer must submit price quotations for all items of the contract.

### 3.5 Duration of the public contract

For each of the lots, the procurement contract starts upon award notification and shall last four calendar years.

### 3.6 Quantities

This public contract is a price-schedule contract, i.e. a contract in which only the unit prices are flat fee prices. The price to be paid shall be obtained by applying the unit prices given in the inventory to the quantities actually performed.

Quantities shall be determined in the Purchase Orders. The presumed quantities below are given for information purposes only.

Therefore, the contracting authority does not commit in any way as to quantities that will actually be ordered under this framework contract.

**NOTE:** the maximum amount under this framework is 250,000 euros exc. VAT.
4. Specific Contractual Conditions

4.1 Deviations from the General Implementing Rules

This chapter of these Tender Specifications holds the specific provisions that apply to this public contract by way of derogation from the 'General Implementing Rules for public procurement and for concessions for public works’ of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR', or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

4.2 Managing official (Art. 11)

The managing official shall be the logistician at each project of Enabel in Uganda. Once the contract is concluded, the managing official is the main contact point for the service provider. Any correspondence or any questions with regards to the performance of the contract will be addressed to him/her, unless explicitly mentioned otherwise in these Tender Specifications.

The managing official is responsible for the follow-up of the performance of the contract. The managing official is fully competent for the follow-up of the satisfactory performance of the contract, including issuing service orders, drawing up reports and states of affairs, approving the services, progress reports and reviews. He or she may order any modifications to the contract with regards to its subject-matter provided that they remain within its scope.

However, the signing of amendments or any other decision or agreement implying derogation from the essential terms and conditions of the contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under the contracting authority.

Under no circumstances is the managing official allowed to modify the terms and conditions (e.g., performance deadline) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the Tender Specifications and that has not been notified by the contracting authority, will be considered null and void.

4.3 Subcontractors (Art. 12 to 15)
The fact that the contractor entrusts all or part of his commitments to subcontractors does not relieve him of liability to the contracting authority. The latter does not recognize contractual relation with third parties.

The contractor remains, in any case, solely liable to the contracting authority.

The service provider undertakes to have the contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the contract. Any replacements must be approved by the contracting authority.

When the contractor uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

4.4 Confidentiality (art. 18)

The knowledge and information gathered by the tenderer under the framework of this public contract is strictly confidential.

Under no circumstances can the information collected, regardless of its origin and nature, be transferred to third parties in any form.

The tenderer is therefore bound by the duty of discretion.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);
• Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);
• Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;
• Return, at the first request of the contracting authority, the above elements;
• In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

4.5 Protection of personal data

Processing of personal data by the contracting authority
The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

Processing of personal data by a subcontractor

PROCESSING OF PERSONAL DATA BY A CONTROLLER (RECIPIENT)
During contract performance, the contractor may process personal data of the contracting authority or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

Given the public contract, it is to be considered that the contracting authority and the contractor will each be responsible, individually, for the processing.

4.6 Intellectual property (Art. 19 to 23)
The contracting authority does not acquire the intellectual property rights created, developed or used during performance of the contract.

4.7 Performance bond (Art. 25 to 33)
In accordance with art. 25, §2, third phrase, of the GIR, the performance bond for this framework agreement is set per concluded contract. In application of Article 25, §1 of the GIR, no performance bond will be required for contracts whose performance period does not exceed forty-five days, nor for those contracts with an amount less than EUR 50,000 excluding VAT.

4.8 Conformity of performance (Art. 34)
The services must comply in all respects with the procurement documents. Even in the absence of technical specifications in the procurement documents, the works, supplies and services must comply in all aspects with good practice.

4.9 Zero tolerance Sexual exploitation and abuse
In application of Enabel’s Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

4.10 Changes to the public contract (Art. 37 to 38/19)
Replacement of the contractor (Art. 38/3)
Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).
The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of the supplies and services already delivered, the new contractor’s contact details and the documents and certificates which the contracting authority cannot access free of charge.
The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the contract.

Revision of prices (Art. 38/7)
For this contract, the contract price upon finalization and approval shall be fixed for a period of one year. At the beginning of the second and every following year of the Framework contract, each price may be revised upwards or downwards at the request of one of the parties.
To calculate the price revision, the following formula applies:

\[ P_r = P_o \left( \frac{I_r}{I_o} \right) \]

where:

- \( P_r \) = Price after revision
- \( P_o \) = Price quoted in the tender
- \( I_o \) = Index for the month in which the framework Contract (FWC) enters into force;
- \( I_r \) = Index for the month in which the request to revise prices is received

This revision shall be determined by the trend in the harmonized consumer price index published by the Uganda Bureau of Statistics (UBOS) Database for the applicable index appropriate for the industry.

The price revision may only be applied if the price increase or decrease following the request or if the price revision request amounts to at least 3% of the price quoted in the tender (for the first price revision) or of the last price revised or imposed (as of the second price revision). The total revision under this clause shall be subject to a ceiling of plus or minus 10% of the price quoted in the tender.

### 4.11 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

The contracting authority reserves the right to suspend the performance of the contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the
materials from potential damage caused by unfavorable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance period and at least ten working days or two calendar weeks, depending on whether the performance period is expressed in working days or calendar days;
- The suspension is not owing to unfavorable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the contract.

4.12 Unforeseen circumstances

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this public contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.13 Preliminary technical acceptance (Art. 42)

The contracting authority reserves the right to request an activity report at any time of the assignment from the service provider (meetings held, persons met, institutions visited, summary of results, problems encountered and unresolved issues, deviations from the planning and deviations from the ToR...).

4.14 Performance modalities (Art. 146 et seq.)

**Deadlines and terms (Art. 147)**

The services must be performed within four calendar years as of the second working day following the date of dispatch of the order form. The closure of the service provider’s business for annual holidays is not included in this calculation. Furthermore, the actual date of each event shall be mentioned in each order form. The order forms shall be addressed to the contractor at least 05 working days before the events.
The order form is addressed to the service provider either by registered letter, or by fax, or by any other means through which the date of dispatch can be determined unambiguously. Any further correspondence pertaining to the order form (and to the performance of the services) follows the same rules as those for the dispatch of the order form when a party wants to establish proof of its intervention.

In the event the acknowledgement of receipt of the order form is received after the period of two working days, upon written demand and justification of the service provider, the performance period may be extended pro rata of the delay of the acknowledgement of receipt of the order form. When the service that placed the order, upon examination of the written demand of the service provider, estimates that the demand is founded or partially founded, it will inform the service provider in writing of which extension of the period is accepted.

When the order form is clearly incorrect or incomplete and implementation of the order becomes impossible, the service provider immediately notifies the service that placed the order about this in writing in order to find a solution to allow for normal implementation of the order. If necessary, the service provider shall ask for an extended service performance period under the same conditions as those foreseen in case of late reception of the order form. In any event, complaints about the order form are not admissible any more if they are not submitted within 15 calendar days from the day following the date on which the service provider has received the order form.

Place where the services must be performed and formalities (Art. 149)
The services shall be performed at the location specified in the tender specification (part 1).

4.15 Inspection of the services (Art. 150)
If during contract performance irregularities are found, the contractor will be notified about this immediately by fax or e-mail, which will be confirmed consequently by registered letter. The contractor is bound to perform the non-complying services again.

The service provider advises the managing official by registered post or e-mail showing the exact date of dispatch, at which date the services can be controlled.

4.16 Liability of the service provider (Art. 152-153)
The service provider takes the full responsibility for mistakes and deficiencies in the services provided.
Moreover, the service provider indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the services or due to failure of the service provider.

4.17 Means of action of the contracting authority (Art. 44-51 and 154-155)

The service provider's default is not solely related to services as such but also to the whole of the service provider's obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the contract, it is strictly forbidden to the service provider to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned directly or indirectly by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

In case of violation, the contracting authority may impose a lump-sum fine to the service provider for each violation, which can be to up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the contractor hoped to obtain by offering the advantage to the employee. The contracting authority will decide independently about the application and the amount of this fine.

This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the contract and/or the exclusion from procurement by the contracting authority for a determined duration.

Failure of performance (Art. 44)

§1 The contractor is considered to be in failure of performance under the contract:

1° when the delivery is not carried out in accordance with the conditions specified in the procurement documents;

2° at any time, when the delivery has not progressed in such a way that it can be fully completed on the due dates;

3° when he does not observe written orders, which have been given in due form by the contracting authority.

§2 Any failure to comply with the provisions of the contract, including the non-observance of orders of the contracting authority, is recorded in a report ('process verbal'), a copy of which will be sent immediately to the contractor by registered mail.

The contractor must repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of
dispatch of the report (process verbal). Silence on his part after this period shall be deemed as acknowledgement of the reported facts.

Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 154 and 155.

**Fines for delay (Art. 46 and 154)**

The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance period without the issuing of a report and they are automatically applied for the total number of days of delay.

Regardless of the application of any fines for delay, the contractor indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the contract.

**Measures as of right (Art. 47 and 155)**

§1 When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiry of the term given in Article 44, §2, when the contractor has explicitly recognized the defects detected.

§2 The measures as of right are:

1° Unilateral termination of the contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;

2° Performance under regie of all or part of the non-performed contract;

3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures referred to in 1°, 2° and 3° will be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract will be borne by the new contractor.

**4.18 End of the public contract**

**Acceptance of the services performed (Art. 64-65 and 156)**

The managing official will closely follow up the services during performance.
The services will not be accepted until after fulfilling audit checks, technical acceptance and prescribed tests.

The contracting authority disposes of a verification term of thirty days starting on the final or partial end date of the services, set in conformity with the modalities in the procurement documents, to carry out the acceptance formalities and to notify the result to the service provider. This term commences provided that the contracting authority possesses, at the same time, the list of services delivered or the invoice. Upon expiry of the thirty-day term following the date stipulated for completion of the entirety of the services, depending on the case, an acceptance report or a refusal of acceptance report will be drawn up.

Where the services are completed before or after this date, it is the responsibility of the service provider to notify the managing official by registered letter, and at the same time to ask for the acceptance procedure to be carried out. Within thirty days after the date of receipt of the service provider’s request, an acceptance or a refusal of acceptance report will be drawn up, depending on the case.

The acceptance specified above is final.

### 4.19 Invoicing and payment of services (Art. 66 to 72 – 160)

The contractor shall send (one copy only of) the invoices and the contract acceptance report (original copy) to the address that shall be indicated in the Purchase order form.

Only service delivery that has been performed correctly may be invoiced.

The contracting authority disposes of a verification term of thirty days starting on the end date for the services, set in conformity with the modalities in the procurement documents, to carry out the technical acceptance and provisional acceptance formalities and to notify the result to the service provider.

The amount owed to the service provider must be paid within thirty days with effect from the expiry of the verification term or with effect from the day after the last day of the verification term, if this is less than thirty days. And provided that the contracting authority possesses, at the same time, the duly established invoice and contract (or reference to the contract if it is not the first payment, transport hire order form, signed copies of the car log books indicating mileage undertaken and the original fuel receipts may be required.

When the procurement documents do not provide for any separate debt claim, the invoice will constitute the debt claim.

The invoice must be in **EUROS**.

Tender Specifications – Procurement procedure reference 2800UGA-10094
No advance may be asked by the contractor and the payment shall be made after final acceptance of each service delivery of a same order.

Payment corresponding to 100% of the order form shall be made following the satisfactory provision of the above-mentioned document.

4.20 Litigation (Art. 73)

The competent courts of Brussels have exclusive jurisdiction over any dispute arising from the performance of this public contract. French or Dutch are the languages of proceedings.

The contracting authority will in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of this contract. The contractor indemnifies the contracting authority against any claims for compensation by third parties in this respect.

In case of ‘litigation’, i.e., court action, correspondence must (also) be sent to the following address:

Enabel, public-law company
Legal unit of the Logistics and Acquisitions service (L&A)
To the attention of Ms Inge Janssens rue Haute 147

5. The Procurement Procedure

5.1 Type of procedure

This contract is awarded in accordance with Article 36 of the Law of 17 June 2016 via an open procedure.

5.2 Publication

5.2.1 Official notification

This contract is officially advertised in the Belgian Public Tender bulletin and in the Official Journal of the European Union.

5.2.2 Enabel publication

This contract is furthermore published on the Enabel website https://www.enabel.be/content/enabel-tenders

5.3 Information

The awarding of this contract is coordinated by Contract Service Centre of Enabel Uganda. Throughout this procedure all contacts between the contracting authority and the (prospective) tenderers about this contract will exclusively pass through this service / this person. (Prospective) tenderers are prohibited to contact the contracting authority in any other way with regards to this contract, unless otherwise stipulated in these Tender Specifications.

Until 15 calendar days before the time for the receipt of tenders, candidate-tenderers may ask questions about these Tender Specifications and the contract. Questions will be in writing to UGA_CSC_CONTRACTS@enabel.be with copy to sandra.adero@enabel.be. The e-mail comprising the question shall indicate in the subject the procurement procedure reference number and the contract title, as stated on the cover page of these tender specifications. They shall be answered in the order received. The complete overview of questions asked shall be available at the address mentioned above.

Until the notification of the award decision no information will be given about the evolution of the procedure.

The tenderer is to submit his tender after reading and taking into account any corrections made to the Tender Specifications that are published on the Enabel website or that are sent to him by Tender Specifications – Procurement procedure reference 2800UGA-10094
e-mail. To do so, when the tenderer has downloaded the Tender Specifications, it is strongly advised that he gives his coordinates to the public procurement administrator mentioned above and requests information on any modifications or additional information.

The tenderer is required to report immediately any gap, error or omission in the procurement documents that precludes him from establishing his price or compare tenders, within ten days at the latest before the deadline for receipt of tenders.

5.4 Preparation and Submission of the Tender

5.4.1 Preparation of the tender

The tenderer shall prepare separately, the administrative, technical and financial proposals as explained below;

5.4.1.1 Content of tenders

The tenderer must use the tender form in annex. In case he does not use this form, he is fully responsible for the perfect concordance between the documents he has used and the form.

The tender and the annexes to the tender form are drawn up in English.

By submitting a tender, the tenderer automatically renounces to his own general or specific sales conditions, even if these are mentioned in any of the annexes to his tender.

The tenderer clearly designates in his tender which information is confidential and/or relates to technical or business secrets and may therefore not be divulged by the contracting authority.

The tender shall contain the following parts:

1. **Administrative Proposal**

The tenderer shall use the tender forms included in the corresponding section of the Annex.

The Administrative proposal shall respect the following structure:

- Legal identification form
- Financial Identification Form
- Subcontractor form
- Exclusion Criteria Form
- Integrity form
- Tax Clearance Certificate (e.g; URA, as applicable)
- Social Security Contribution Clearance (e.g., NSFF as applicable)
- At the latest before award, the tenderer must provide an extract from the criminal record in the name of the tenderer (legal person) or his/her representative (natural person) if there is no criminal record for legal persons (ex. certificate of good conduct from Interpol).
• Technical capacity form
• Financial capacity form
• Certificate of incorporation
• Copies of certification for transportation operation

2. **Technical Proposal**
The technical proposal may be presented in free format. It shall not exceed ten pages, not counting the CVs. It shall respect the following page limit and structure:

• Technical methodology (max. 6 pages)
• Project management (max. 2 pages)
• Resource management (proposal (max. 2 pages) + CVs of experts)

3. **Financial Proposal**
The tenderer shall use the tender forms included in the corresponding section of the Annex.

Determination of prices
All prices given in the tender form must obligatorily be quoted in **EUROS**.
This procurement contract is a price-schedule contract, i.e., a contract in which only the unit prices are lump-sum prices. The price to be paid will be obtained by applying the unit prices mentioned in the inventory to the quantities actually performed.

**Elements included in the price**
The contractor shall include in his unit and global prices any charges and taxes generally applied to services, with the exception of the value-added tax. The following are in particular included in the prices:

▪ Car rent + driver (including allowances for food and overnight stay);
▪ Insurances applicable;
▪ Maintenance of the car;
▪ In case of an overnight stay, accommodation and welfare of the driver, safety of the car, parking and any related costs remain under the responsibility of the contractor;

**Note:**
Fuel cost shall not be included in the contract price. Fuel shall be reimbursed separately to the contractor at cost per litre based on the pump prevailing market price for either petrol or diesel (whichever was actually used) at the time of travel.
Validity of the tender
The tenderers are bound by their tender for a period of 120 calendar days from the reception deadline date.

5.4.2 Submission of tenders
Without prejudice to any variants, the tenderer may submit one tender only per lot. If a tenderer submits a tender for more than one lot, it shall submit a complete tender separately for each lot tendered for.

The tenderer submits his tender as follows:
The tenderer shall submit separately (in separate envelopes), the administrative, technical and financial proposals. The sealed envelopes containing the different proposals shall then be put together and sealed in one big envelope to be submitted to the contracting authority.

One original copy of the completed tender shall be submitted on paper. Electronic copies shall be submitted in one or more PDF files on a USB stick.

The tender shall be submitted in a properly sealed envelope bearing the following information:
Name of tenderer, as well as the title of the contract and the reference of the procurement procedure, as stated on the cover page of the tender specifications
It shall be submitted:
a) By mail (standard mail or registered mail)
In this case, the sealed envelope is put in a second closed envelope addressed to:
Enabel Uganda
Contract Service Center
Lower Kololo Terrace, Plot 1B
PO Box 40131 Kampala – Uganda

OR
b) Delivered by hand with acknowledgement of receipt.
The service can be reached on working days during office hours: from 9:00am to 12:00pm and from 2:00pm to 4:00pm (see the address given under point a) above).

The tender shall be received by the Contracting Authority before 15th September, 2023, at 11:00 am, Kampala time. Tenders that arrive late shall not be accepted. (Article 83 of the Royal Decree on Awarding)
5.4.3 Modification or withdrawal of submitted tenders

When a tenderer wants to change or withdraw a tender already sent or submitted this must be done in accordance with the provisions of Articles 43 and 85 of the Royal Decree of 18 April 2017.

To change or withdraw a tender already sent or submitted, a written statement is required, which will be correctly signed by the tenderer or his representative. The subject-matter and the scope of the changes must be indicated in detail. Any withdrawal must be unconditional. The withdrawal may also be communicated by fax or electronic means, provided that it is confirmed by registered letter deposited at the post office or against acknowledgement of receipt at the latest the day before the tender acceptance deadline.

The subject-matter and the scope of the changes must be indicated in detail.
The withdrawal must be pure and simple.

5.5 Opening of Tenders

The opening of tenders will take place on the day of the final date for receiving tenders indicated above. Tenders not received before this time will be rejected. The opening will take place behind closed doors.

5.6 Evaluation of Tenders

5.6.1 Selection of tenderers

Exclusion grounds

The obligatory and facultative grounds for exclusion grounds are given in attachment to these Tender Specifications.

By submitting this tender, the tenderer certifies that he is not in any of the cases of exclusion listed in the Articles 67 to 70 of the Law of 17 June 2016 and the Articles 61 to 64 of the Royal Decree of 18 April 2017.

The contracting authority will verify the accuracy of this Declaration on honour for the tenderer with the best tender.

For that purpose, the contracting authority shall ask the tenderer concerned to provide information or documents allowing the contracting authority to verify the tenderer’s personal situation by the fastest means and within the term set by the contracting authority.

The contracting authority will itself ask for information or documents that it can obtain free of charge by digital means from the instances that manage the information or documents.
Selection criteria

Moreover, by means of the documents requested below, the tenderer must prove that he is sufficiently capable, from an economic and financial as well as from a technical point of view, to successfully perform this public contract.

Only tenders from tenderers who meet the selection criteria are taken into consideration in order to participate in the comparison of tenders on the basis of the award criteria set out below, subject to the regularity of these tenders.

A tenderer may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which he has with these entities. In that case, the following rules apply:
Where an economic operator wants to rely on the capacities of other entities, it shall prove to the contracting authority that it shall have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.

The contracting authority shall verify whether the entities on whose capacity the economic operator intends to rely fulfil the relevant selection criteria and whether there are grounds for exclusion.

Where an economic operator relies on the capacities of other entities with regard to criteria relating to economic and financial standing, the contracting authority may require that the economic operator and those entities be jointly liable for the execution of the contract.

The contracting authority may require certain essential tasks to be carried out directly by the tenderer himself or, if the tender is submitted by a group of economic operators, by a member of the said group.

Under the same conditions, a group of candidates or tenderers may submit the capacities of the group’s participants or of other entities.

**Regularity of tenders**

The tenders submitted by the selected tenderers shall be evaluated as to formal and material regularity. Irregular tenders shall be rejected.

Before starting the evaluation and comparison of the tenders, the contracting authority examines their regularity.

The tenders must be drawn up in such a way that the contracting authority can make a selection without starting negotiations with the tenderer. For this reason, and in order to be able to assess the tenders fairly, it is essential that the tenders be completely in conformity with the provisions of the Tender specification, both formally and materially.

The substantially irregular tenders are excluded.

A substantial irregularity is such as to give a discriminatory advantage to the tenderer, to distort competition, to prevent the evaluation of the tenderer's tender or its comparison with the other tenders, or to render non-existent, incomplete or uncertain the commitment of the tenderer to perform the contract under the conditions laid down.

The following irregularities are deemed substantial:

1° failure to comply with environmental, social or labour law, provided that such noncompliance is punishable by law;

Tender Specifications – Procurement procedure reference 2800UGA-10094
2° failure to comply with the requirements of Articles 38, 42, 43, § 1, 44, 48, § 2, clause 1, 54, § 2, 55, 83 and 92 of the Royal Decree of 18 April 2017 and of Article 14 of the Law, insofar as they contain obligations vis-à-vis the tenderers;

3° failure to comply with the minimum requirements and the requirements that are indicated as substantial in the procurement documents;

4° tenders that do not bear an original handwritten signature on the tender form.

The contracting authority shall also declare void any tender that is affected by several non-substantial irregularities which, by reason of their accumulation or combination, are capable of having the same effect as described above (in accordance with Article 76 of the Royal Decree of 18 April 2017).

Conflicts of interest - Revolving door (Art. 51 Royal Decree 18/04/2017).

Without prejudice to Articles 6 and 69, clause1, 5° of the Law a conflict of interest is considered any situation in which a natural person who has worked for a contracting authority as an internal staff member, whether in a hierarchy relation or not, as a concerned civil servant, public officer or any other person linked whatsoever to the contracting authority, would later intervene under a public contract awarded by this contracting authority and where a relation exists between the former activities that the above person conducted for the contracting authority and the activities he or she conducts under the contract.

The application of above-mentioned provision is limited however to a two-year term from the resignation of said person or any other type of termination of the former activities.

Qualitative and financial evaluation of tenders

Award Criteria

The contracting authority selects the regular tender that it finds to be most advantageous, taking account of the following criteria:

- Qualitative award criteria: 30 %

The tenderer proposes a technical methodology and a project management plan based on the instructions given in the technical specifications. They are subject to evaluation according to the following sub-criteria:

<table>
<thead>
<tr>
<th>N.</th>

2. Quality of the proposed Project Management (quality management, work plan and schedule, risks and risk mitigation strategies) 10

3. Quality of the proposed Resource management (Selection and Management of Experts) 10

Only tenders with scores of at least 20 points out of 30 points qualify for the financial evaluation.

- **Price:** 70 %;

For all the lots, with regards to the ‘price’ criterion, the following formula shall be used:

</tbody>
</table>

**Final score**

The scores for the qualitative and financial award criteria shall be added up. The procurement contract shall be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the Declaration on honour of this tenderer and provided the control shows that the Declaration on honour corresponds with reality.

Tender Specifications – Procurement procedure reference 2800UGA-10094
5.7 Award and Conclusion of the Contract

5.7.1 Awarding the public contract
The lots of the procurement contract shall be awarded to the tenderer who has submitted the most economically advantageous tender for the lot.
Notice though that in accordance with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the procurement contract.
The contracting authority may either decide not to award the procurement contract; either redo the procedure, if necessary, through another award procedure.
The contracting authority maintains the right to award only a certain lot or certain lots.

5.7.2 Concluding the public contract
In accordance with Art. 88 of the Royal Decree of 18 April 2017, the contract occurs through the notification to the selected tenderer of the approval of his tender.
Notification is via e-mail.
So, the full contract consists of a contract awarded by Enabel to the chosen tenderer in accordance with:
• These Tender Specifications and its annexes;
• The approved BAFO of the contractor and all of its annexes;
• The registered letter of notification of the award decision;
• Any later documents that are accepted and signed by both parties, as appropriate.
In an objective of transparency, Enabel undertake to publish each year a list of recipients of its contracts. By introducing his tender, the successful tenderer declares that he agrees with the publication of the title of the contract, the nature and object of the contract, its name and location, and the amount of the contract.

Declaration on honour – exclusion criteria

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare that the tenderer does not find himself in one of the following situations:

1) The tenderer or one of its ‘directors [1]’ was found guilty following a conviction by final judgement for one of the following offences:
   1° involvement in a criminal organisation
   2° corruption
   3° fraud
   4° terrorist offences, offences linked related to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
   5° money laundering or terrorist financing
   6° child labour and other trafficking in human beings
   7° employment of foreign citizens under illegal status
   8° creating a shell company.

2) The counterparty which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the counterparty can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.

3) The counterparty who is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganization or has admitted bankruptcy or is the subject of a liquidation procedure or judicial reorganization, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;

4) When Enabel can demonstrate by any appropriate means that the counterparty or any of its directors has committed serious professional misconduct which calls into question his integrity.

Are also considered such serious professional misconduct:

   a. A breach of Enabel’s Policy regarding sexual exploitation and abuse – June 2019
   b. A breach of Enabel’s Policy regarding fraud and corruption risk management – June 2019
   c. A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace
   d. The counterparty was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of
grounds for exclusion or the satisfaction of the selection criteria, or concealed this information

e. Where Enabel has sufficient plausible evidence to conclude that the counterparty has committed acts, entered into agreements or entered into arrangements to distort competition

The presence of this counterparty on one of Enabel’s exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

5) When a conflict of interest cannot be remedied by other, less intrusive measures;

6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also, failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered ‘significant’.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human rights violations, the destabilization of sovereign states and de proliferation of weapons of mass destruction.

The counterparty or one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:

For the United Nations, the lists can be consulted at the following address:
https://finances.belgium.be/fr/tresorierie/sanctions-financieres/sanctionsinternationales-nations-unies

For the European Union, the lists can be consulted at the following address:

For Belgium:
https://finances.belgium.be/fr/sur_le_spf/structure_et_services/administrations_generales/tr%C3%A9sorierie/contr%C3%B4le-des-instruments-1-2
8) << If Enabel executes a project for another funder or donor, other grounds for exclusion may be added.

**Integrity statement for the tenderers**

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither member of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.

- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).

- I have / we have read and understood the articles about deontology and anticorruption included in the Tender Documents (see 1.7.), as well as *Enabel’s Policy regarding sexual exploitation and abuse of June 2019* and *Enabel’s Policy regarding fraud and corruption risk management of June 2019* and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.

- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the abovementioned advantages appreciable in cash.

- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
• The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
