1 General point

1.1 Deviations from the General Implementing Rules

Point 4 “Specific contractual provisions” of these tender documents includes the administrative and contractual terms that apply to this public contract as a deviation of the ‘General Implementing Rules of public contracts’ (Royal Decree of 14 January 2013) or as a complement or an elaboration thereof.

These tender documents do derogate from Art. 25-33 of the General Implementing Rules (see point 4.8 “Performance bond (Art. 25-33)”). These deviations are founded on the idea of providing possible local tenderers with an opportunity to submit a tender.

1.2 Contracting authority

The contracting authority of this public contract is Enabel, Belgian development agency, further called “Enabel”, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels in Belgium (enterprise number 0264.814.354, RPM/RPR Brussels).

Enabel, supports the developing countries in the fight against poverty on behalf of the Belgian government. In addition to this public service mission, Enabel also performs services for other national and international organisations contributing to sustainable human development. Moreover, Enabel can also perform other development cooperation missions at the request of public interest organisations, and it can develop its own activities to contribute towards realization of its objectives.

For this public contract, Enabel is represented by Sandra Galbusera, Resident Representative of Enabel in Mozambique, and Cédric De Bueger, Expert in Contracting.

² Belgian Gazette of 30 December 1998

³ Belgian Official Gazette of 11 December 2017

The tenderers' attention is drawn to Art. 52 of the Law of 17 June 2016 (Prior participation of tenderers) and Art. 51 of the Royal Decree of 18 April 2017 (Conflicts of Interest - Tourniquet).

Any infringement of these measures which may be likely to distort the normal conditions of competition is punishable in accordance with the provisions of Art. 5 of the Law of 17 June 2016 on public procurement. In practice, this penalty consists, as the case may be, either of rejecting the offer or of terminating the contract.

3.8.1 Exclusion grounds and selection criteria

Exclusion grounds

By submitting this tender, the tenderer certifies that he is not in any of the cases of exclusion listed in point 6.3 “Declaration on honour”.

The tenderer will provide the required supporting document(s) with regard to the exclusion criteria mentioned under point 6 “Forms” to the contracting authority at the latest upon contract awarding, namely the following:

1. Signed and dated **declaration of honour** form;
2. Copies of the most recent documents showing the **legal status** and **place of registration** of the tenderer's headquarters (certificate of incorporation or registration...);
3. The document certifying that the tenderer is in order with the **payment of social contributions**;
4. The document certifying that the tenderer is in order with the **payment of taxes**;
5. The document certifying that the tenderer is not into **bankruptcy**.

Pursuant to section 70 of the Law of 17 June 2016, any tenderer who is in one of the situations referred to in sections 67 or 69 of the Law of 17 June 2016 may provide evidence to show that the actions taken by him are sufficient to demonstrate his reliability despite the existence of a relevant ground for exclusion. If this evidence is considered sufficient by the contracting authority, the tenderer concerned is not excluded from the award procedure.

The contracting authority may also check whether there are grounds for exclusion for subcontractor(s) within the meaning of Articles 67 to 69 of the Law of Law of 17 June 2016.

Selection criteria

Before the contracting authority can start investigating the regularity of the tenders and evaluating them on the basis of the award criterion/criteria, tenderers that do not meet certain minimum quality conditions shall be excluded from the procedure and their tender shall not be evaluated.

In view of the qualitative selection of tenderers and in conformity with Art. 65 to 74 of the Royal Decree of 18 April 2017, for this contract the tenderer must add to his tender documents a selection file with the information requested in point 6 “Forms”, namely the following:

- List of the **main similar supplies (min. 1) in the last three (3) years**, including the amount involved and the relevant dates, and the public or private bodies on behalf of which they were carried out showing that the tenderer has experience in performing those services (**see point 6.9**).

3.8.2 Regularity of tenders

Before proceeding to the evaluation and the comparison of the tenders, the contracting authority examines their regularity.

Tenders that have reservations about the tender documents, that are incomplete, unclear or ambiguous, or that contain elements that do not correspond to reality, may be rejected from the procedure.

The contracting authority reserves the right to regularise irregularities before and/or during the negotiations.

3.8.3 Negotiations

The formally and materially regular tenders shall be evaluated as to content by an evaluation commission. This evaluation shall be conducted on the basis of the award criteria mentioned below.

With a view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The minimum requirements and the award criteria are not negotiable. However, the contracting authority may also decide not to negotiate. In this case, the initial tender is the final tender.

When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any best and final offer (BAFO).

Once negotiations are closed, the BAFO will be compared with the exclusion, selection and 'price/cost' award criteria. The tenderer whose regular BAFO is the best value for money will be appointed the contractor for this contract.

The BAFOs of the tenderers with whom negotiations have been conducted will be evaluated as to their regularity. Irregular BAFOs will be excluded.

Only the regular BAFOs will be considered and assessed against the award criteria.

3.8.4 Award criteria

The contracting authority selects the regular tender, taking account of the **only single price criterion**.

3.8.5 Awarding the public contract

The contract will be awarded to the (selected) tenderer who submitted the cheapest bid, possibly improved, tender on the basis of the criteria mentioned above. We need to point out though, that in conformity with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the contract.

The contracting authority can either renounce to award the contract, either redo the procedure, if necessary, through another awarding procedure.

3.9 Concluding the contract

Pursuant to Art. 95 of the Royal Decree of 18 April 2017, the contract is formalized by the notification to the chosen tenderer of the approval of his tender. Notification is by registered letter, by fax or by any other electronic means in as far, in the latter two cases, the content of the notification be confirmed within five calendar days by registered letter.

So, the full contract agreement consists of a public contract awarded by Enabel to the chosen tenderer in accordance with the following documents, in the order of precedence:

- these tender documents and the annexes;
- the approved Best and Final Offer (BAFO) of the contractor and all of its annexes;
- the notification of the award decision;
- if any, minutes of the information session and/or clarifications and/or the addendum;
- any later documents that are accepted and signed by both parties.

Once the contract is concluded, the managing official is the main contact point for the supplier. Any correspondence or any questions with regards to the performance of the contract shall be addressed to him/her, unless explicitly mentioned otherwise in these tender documents (see namely, "Payment" below).

The managing official is fully competent for the follow-up of the satisfactory performance of the contract, including issuing service orders, drawing up reports and states of affairs, approving the services and signing acceptance and failure report(s).

However, the signing of amendments or any other decision or agreement implying a deviation from the essential terms and conditions of the contract are not part of the

competence of the managing official. For such decisions the contracting authority is represented as stipulated under point 1.2 “Contracting authority”.

Under no circumstances is the managing official allowed to modify the terms and conditions (e.g. delivery deadlines) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the tender documents and that has not been notified by the contracting authority, shall be considered null and void.

4.4 Subcontractors (Art. 12-15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not release him of his responsibility towards the contracting authority. The latter does not recognize any contractual relation with these third parties.

The contractor remains, in any case, the only person liable towards the contracting authority. The contractor commits to having the contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the contract. Any replacements must be approved by the contracting authority.

When the contractor uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

4.5 Confidentiality (Art. 18)

The contractor and his employees are bound by a duty of reserve concerning the information which comes to their knowledge during performance of this contract. This information cannot under any circumstances be communicated to third parties without the written consent of the contracting authority. The contractor may, nevertheless, give this contract as a reference, provided that it indicates its status correctly (e.g. ‘in performance’) and that the contracting authority has not withdrawn this consent due to poor contract performance.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);

- Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);
- Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;
- Return, at the first request of the contracting authority, the above elements;
- In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

4.6 Protection of personal data

4.6.1 Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

4.6.2 Processing of Personal Data by a Subcontractor

During contract performance, the contractor may process personal data of the contracting authority or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

Given the public contract, it is to be considered that the contracting authority and the contractor will each be responsible, individually, for the processing.

4.7 Intellectual property (Art. 19-23)

The contracting authority acquires the intellectual property rights created, developed or used during performance of the contract.

Without prejudice to paragraph 1 and unless otherwise stipulated in the contract documents, when the object of the contract consists of the creation, manufacture or the development of drawings and models or of logos, the contracting authority acquires the intellectual property thereof, as well as the right to trademark them, to have them registered and to have them protected.

For domain names created under the contract, the contracting authority also acquires the right to register and protect them, unless otherwise stipulated in the contract documents.

When the contracting authority does not acquire the intellectual property rights, it obtains a licence to exploit the results protected by the intellectual property rights for the exploitation modes that are mentioned in the contract documents.

4.8 Performance bond (Art. 25-33)

No performance bond will be requested, considering that the execution time of the order does not exceed 45 calendar days.

4.9 Conformity of performance (Art. 34)

The works, supplies and services must comply in all respects with the contract documents. Even in the absence of technical specifications in contract documents, the works, supplies and services must comply in all respects with good practice.

4.10 Changes to the procurement contract (Art. 37 to 38/19)

4.10.1 Replacement of the contractor (Art. 38/3)

Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial procurement contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of supplies and services already performed, the new contractor's contact details and the documents and certificates which the contracting authority cannot access free of charge.

The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the procurement contract.

4.10.2 Adjusting the prices (Art. 38/7)

For this procurement contract, price reviews are not permitted.

4.10.3 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

The contracting authority reserves the right to suspend the performance of the procurement contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance time and at least ten working days or two calendar weeks, depending on whether the performance time is expressed in working days or calendar days;

- The suspension is not due to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the procurement contract.

4.10.4 Unforeseen circumstances (Art. 38/9)

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this procurement contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.11 Preliminary technical acceptance (Art. 41-42)

Products may not be used if they have not been accepted by the managing official or his or her representative.

Products that at a given stage do not satisfy the technical acceptance tests imposed will be declared unfit for technical acceptance. Upon the request of the contractor, the contracting authority in accordance with the procurement documents verifies whether the products have the required qualities or at the very least comply with good practice and satisfy the conditions of the contract. If certain products are destroyed during verification, the contractor replaces these at its own expense. The procurement documents specify the quantity of products to be destroyed.

Where the contracting authority declares that the product presented is not in the required condition for examination, the acceptance request by the building contractor will be considered not having been made. A new request is made when the product is fit for acceptance.

4.12 Performance modalities (Art. 115 and seq.)

4.12.1 Deadlines and terms (Art. 116)

The supplies must be delivered **within 30 calendar day** after notification of awarding of the contract.

4.12.2 Quantities to be supplied (Art. 117)

Without prejudice to the possibility for the contracting authority to terminate the contract if the supplies delivered do not meet the requirements imposed or if they are not delivered by the deadlines asked, by concluding this contract the supplier acquires the right to deliver these quantities, under penalty of indemnification by the contracting authority

4.12.3 Place where the supplies must be delivered and formalities (Art. 149)

The supplies will be delivered in **Maputo, Mozambique**, at the address mentioned in the terms of reference.

4.12.4 Inspection of the supplies delivered (Art. 120)

The supplier delivers only goods that have no apparent and/or hidden defects and that correspond strictly to the order (in kind, quantity, quality...) and, if necessary, to the

prescriptions of related documents as well as applicable regulations, in compliance with good practice, the state of the art, the highest standards of usage, of reliability and of longevity, and for the purposes that the contracting authority has in mind, which the supplier knows or at least should know.

Acceptance (provisional acceptance) only takes place after the complete inspection by the contracting authority of the conformity of the goods and services delivered. The contracting authority disposes of a period for verification of thirty days starting on the date of delivery. This period will begin on the day after arrival of the supplies at the place of delivery, provided that the contracting authority is in possession of the delivery note or invoice.

The signature of (a staff member of) the contracting authority, in particular in electronic reception devices, upon delivery of the goods, does consequently only count as evidence of taking possession and does not concern the acceptance of the goods.

Acceptance on the premises of the contracting authority counts as complete provisional acceptance.

Acceptance implies the transfer of ownership and of risks of damage and loss.

In case of full or partial refusal of a delivery, the supplier is bound to take back, at his own costs and risks, the products refused. The contracting authority may ask the supplier to deliver goods that comply as soon as possible, either cancel the order and get it supplied by another supplier.

4.12.5 Liability of the supplier (Art. 122)

The supplier shall be liable for his supplies up to the time when the inspection and notification formalities referred to in Article 120 are carried out, unless losses or damage sustained in the warehouses of the consignee are due to the events or circumstances referred to in Articles 54 and 56.

Moreover, the supplier indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the contract or due to failure of the supplier.

4.13 Zero tolerance sexual exploitation and abuse

In application of Enabel's Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

4.14 Means of action of the contracting authority (Art. 44-51 and 123-126)

Failure of the supplier is not only related to services themselves but also to the whole of his obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical position.

In case of violation, the contracting authority may impose a lump-sum fine to the supplier for each violation, which can be to up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the

contractor hoped to obtain by offering the advantage to the employee. The contracting authority will decide independently about the application and the amount of this fine.

This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the contract and/or the exclusion from procurement by the contracting authority for a determined duration.

4.14.1 Failure of performance (Art. 44)

§1 The contractor is considered to be in failure of performance of the contract:

1° When performance is not carried out in accordance with the conditions specified in the contract documents;

2° At any time, when performance has not progressed in such a way that it can be fully completed on the due dates;

3° When the contractor does not observe written orders, which have been given in due form by the contracting authority.

§2 Any failure to comply with the provisions of the contract, including the non-observance of orders of the contracting authority, shall be recorded in a 'failure report', a copy of which shall be sent immediately to the successful tenderer by registered letter or equivalent.

The contractor shall repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of dispatch of the 'failure report'. Silence on his part after this period shall be deemed acknowledgement of the reported facts.

Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 154 and 155.

4.14.2 Fines for delay (Art. 46 and 123)

The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance period without the issuing of a report and they are automatically applied for the total number of days of delay.

Regardless of the application of any fines for delay, the contractor indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the contract.

4.14.3 Measures as of right (Art. 47-155)

§1 When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiration of the deadline given in Art. 44, § 2, when the contractor has explicitly recognised the detected defects.

§2 The measures as of right are:

1° Unilateral termination of the contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;

2° Performance under regie of all or part of the non-performed contract;

3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures referred to in 1°, 2° and 3° will be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract will be borne by the new contractor.

4.15 End of the public contract

4.15.1 Acceptance of the products delivered (Art. 64-65 and 128)

The managing official will closely follow up the delivery.

The products are stored for delivery in the supplier's warehouses. Delivery cannot occur prior to the contracting authority's accepting the goods stored for delivery. The managing official who will carry out acceptance is named in the contract award notification if his/her name has not yet been mentioned in the procurement documents.

Provisional acceptance

Upon expiry of the thirty-day period specified in Article 120, §2, as appropriate, a provisional acceptance report or acceptance refusal report will be drawn up.

Provisional acceptance is carried out in full at the place of delivery. To investigate and test the supplies as well as to notify its decision to accept or reject the delivery, the contracting authority disposes of a period of thirty days.

This period will begin on the day after the date of arrival of the supplies at the place of delivery, provided that the contracting authority is in possession of the delivery note or invoice. It comprises the thirty-day period stipulated in Article 120.

4.15.1 Transfer of ownership (Art. 132)

The contracting authority automatically becomes the owner of the supplies as soon as they have been accepted for payment pursuant to Article 127 of GIR.

4.15.2 Guarantee period (Art. 134)

The warranty period commences on the date on which provisional acceptance is given. It lasts three (3) years.

4.15.3 Final acceptance (Art. 135)

Final acceptance occurs upon expiry of the warranty period. It is implicit when the delivery has not led to any claims during said period.

If delivery has led to complaints during the warranty period, a final acceptance or refusal of acceptance report will be issued within 15 days prior to the expiry of said period.

4.16 Invoicing and payment of services (Art. 66 to 72 and 127)

The contractor sends (one copy only of) the invoices and the contract acceptance report (original copy) to the following address:

**Mr. Boaventura Muvale
Av. Kenneth Kaunda, 762
Maputo, Mozambique**

Only delivery that has been performed correctly may be invoiced.

The invoice will mention:

- **“Enabel, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels in Belgium (enterprise number 0264.814.354, RPM/RPR Brussels)”**;
- the name of the contract: “supply of an electric or hybrid vehicle ”;
- the reference of the tender documents: **“2508MOZ-10008”**;
- the name of the managing official: **“Mr. Boaventura Mucavele”**;

The contracting authority disposes of a period for verification of thirty days starting on the end date of the delivery, set in conformity with the modalities in the procurement documents, to carry out the technical acceptance and provisional acceptance formalities and to notify the result to the supplier.

The amount owed to the supplier must be paid within thirty days with effect from the expiry of the verification term or with effect from the day after the last day of the verification term, if this is less than thirty days. And provided that the contracting authority possesses, at the same time, the duly established invoice and any other documents that may be required.

The invoice shall be in Euros (should the tenderer have a Euro bank account) or MZN (should the tenderer have a Metical bank account). Payment will be by bank transfer only.

In order for Enabel to obtain the VAT exemption and customs clearance documents as quickly as possible, the original invoice and all ad hoc documents will be transmitted as soon as possible before provisional acceptance.

No advance payment may be requested and payment will be made only after provisional acceptance.

Withholding tax

Certain additional taxes may be claimed on the provision of services: These taxes are due by the service provider and there is therefore no distinction in relation to the regime (exemption or suspension) which is applicable.

- either to be paid by the service provider
- either to be paid by Enabel (for example “withholding tax” or “withholding tax”).

Enabel deducts this amount from the price to be paid to the service provider and pays it to the local tax administration.

In these two cases, it is the responsibility of the service provider to find out about the applicable regime and the obligations incumbent on them.

4.17 Litigation (Art. 73)

The competent courts of Brussels have exclusive jurisdiction over any dispute arising from the performance of this public contract. French or Dutch are the languages of proceedings.

The contracting authority will in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of

this contract. The contractor indemnifies the contracting authority against any claims for compensation by third parties in this respect.

In case of “litigation”, i.e. court actions, correspondence must (also) be sent to the following address:

Belgian development agency - Enabel
Legal unit of the Logistics and Acquisitions service (L&A)
To the attention of Ms. Inge Janssens
Rue Haute 147, 1000 Brussels, Belgium

4.18 Obligations of the supplier (Art. 137 and 138)

The supplier shall:

1° put the supplies at the disposal of the contracting authority within the deadline set in the procurement documents;

2° ensure their maintenance and make all necessary repairs within the timing imposed to keep the goods in good state during the public contract term.

Where the supplies are completely or partially destroyed during the contact term without the contracting authority being liable, the supplier shall replace these or repair them at his costs within the deadline set.

- 5) When a conflict of interest cannot be remedied by other, less intrusive measures;
- 6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also, failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

- 7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

6.4 Integrity statement for the tenderers

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- I have / we have read and understood the articles about deontology and anti-corruption included in the Tender Documents (see 1.7.), as well as *Enabel's Policy regarding sexual exploitation and abuse* of June 2019 and *Enabel's Policy regarding fraud and corruption risk management* of June 2019 and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.
- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
