Contract title: Provision of English language training course to FUNAE staff
Reference: MOZ1503411-10068

N°	Issue / question raised	Response
1.	Should all courses be taught in person? For example, we have our facilities in Maputo and can deliver in person. However, for the provinces we have an online platform that can be accessed from anywhere in the world and the classes are interactive and live, that is, like a normal class with a trainer teaching. There is the possibility of sending trainers to other locations, but please keep in mind that in addition to the cost of the course, you will have additional logistical costs.	The courses must be taught in person,
2.	Would it be possible to have a breakdown in terms of the number of participants per location? Or we can present the cost per participant which will give you an idea of the total cost.	Please see document attached. You should present a unit price for the requested item.
3.	In the ToR it says classes should be in person in the different locations, but further on it says the 'The service provider will be responsible for ensuring all the logistics for the online training'. Does this mean that training could also be online? If so, could same level students from different cities join in one group (possibly in a hybrid setting, where students in Maputo join in person, and students from the provinces join online)?	There may have been a lapse, but classes must be in person. The logistics mentioned in the ToR refers to the materials to be used (books, audio disks, etc).
4.	If online or hybrid is not possible, can assessment tests be done online (to avoid sending a teacher to the different cities only for testing)?	The assessment tests can be done online.
5.	If lessons are to be in person, quotation will include accommodation/travel costs/per diem etc. for the teacher. Will classrooms be available at the premises of FUNAE?	FUNAE does not have facilities at their premises to accommodate in person classes.
6.	We see that the objective is to teach 66 students, divided over the different locations. Can you inform us about the number of students per separate location?	Please see document attached.

7.	According to the terms of reference, trainers must have internationally recognized certifications, such as CELTA, DELTA, CertTESOL and DipTESOL. Therefore, other internationally recognized certifications, such as ICELT, are valid?	Yes, this is correct.
8.	What is the preferred time to carry out the training?	Still to be defined.
