The fact that the contractor entrusts all or part of his commitments to subcontractors does not release him of his responsibility towards the contracting authority. The latter does not recognize any contractual relation with these third parties.

The contractor remains, in any case, the only person liable towards the contracting authority. The contractor commits to having the contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the contract. Any replacements must be approved by the contracting authority.

4.5 Confidentiality (Art. 18)

The contractor and his employees are bound by a duty of reserve concerning the information which comes to their knowledge during performance of this contract. This information cannot under any circumstances be communicated to third parties without the written consent of the contracting authority. The contractor may, nevertheless, give this contract as a reference, provided that it indicates its status correctly (e.g. 'in performance') and that the contracting authority has not withdrawn this consent due to poor contract performance.

4.6 Intellectual property (Art. 19-23)

The contracting authority does not acquire the intellectual property rights created, developed or used during performance of the contract.

Without prejudice to paragraph 1 and unless otherwise stipulated in the contract documents, when the object of the contract consists of the creation, manufacture or the development of drawings and models or of logos, the contracting authority acquires the intellectual property thereof, as well as the right to trademark them, to have them registered and to have them protected.

For domain names created under the contract, the contracting authority also acquires the right to register and protect them, unless otherwise stipulated in the contract documents.

When the contracting authority does not acquire the intellectual property rights, it obtains a licence to exploit the results protected by the intellectual property rights for the exploitation modes that are mentioned in the contract documents.

4.7 Performance bond (Art. 25-33)

For this public contract, no performance bond is foreseen.

4.8 Conformity of performance (Art. 34)

The works, supplies and services must comply in all respects with the contract documents. Even in the absence of technical specifications in contract documents, the works, supplies and services must comply in all respects with good practice.

4.9 Changes to the public contract (Art. 37 to 38/19)

4.9.1 Revision of prices (Art. 38/7)

§1 For this contract, price revisions are not permitted.

4.9.2 Unforeseen circumstances (Art. 38/9)

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.10 Preliminary technical acceptance (Art. 41-42)

The products cannot be affected unless they have been previously approved by the contract manager or his delegate.

Products which, at a given stage, do not comply with the verifications imposed are declared not to be in a technical acceptance status. At the request of the contractor, the contracting authority shall verify in accordance with the tender documents whether the products meet the required qualities or, at least, comply with good practice and comply with market conditions.

Where the contracting authority finds that the product presented is not in conformity with the requirements for examination, the contractor's request shall be deemed to have been void. A new request is made when the product is ready for reception.

4.11 Means of action of the contracting authority (Art. 44-51 and 123-124)

Failure of the contractor is not only related to services themselves but also to the whole of his obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical position.

In case of violation, the contracting authority can impose a set fine to the contractor for each violation, which can be up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the successful

tenderer hoped to obtain by offering the advantage to the employee. The contracting authority can decide independently about the application and the amount of this fine.

This term is without prejudice to the possible application of other measures as of right provided in the General Implementing Rules, namely the unilateral termination of the contract and /or the exclusion of contracts of the contracting authority for a determined duration.

4.11.1 Failure of performance (Art. 44)

The contractor is considered to be in failure of performance of the contract:

- When the delivery is not carried out in accordance with the conditions defined by the contract documents;
- At any time, when the performance is not conducted in such a way that it can be fully completed at the dates set;
- When the contractor does not follow written orders, which are given in due form by the contracting authority.

Any failure to comply with the provisions of the contract, including the non-observance of orders of the contracting authority, shall be recorded in a 'failure report', a copy of which shall be sent immediately to the successful tenderer by registered letter or equivalent.

The contractor shall repair the deficiencies without any delay. He can assert his right of defence by registered letter addressed to the contracting authority within fifteen calendar days from the date of dispatch of the 'failure report'. His silence is considered, after this period, as an acknowledgement of the facts recorded.

Any deficiencies found on his part render the contractor liable for one or more of the measures provided for in Art. 45 to 49 and 123 and 124.

4.11.2 Fines for delay (Art. 46-123)

Fines for delay are not related to penalties provided under Art. 46. They shall be due, without the need for notice, simply by the expiry of the implementation period without the issuing of a report, and they shall be automatically applied for the total number of days of delay.

Notwithstanding the application of fines for delay, the contractor shall continue to guarantee the contracting authority against any claims for compensation for which it may be liable to third parties due to the delay in performance of the contract.

4.11.3 Measures as of right (Art. 47-124)

§ 1 When upon the expiration of the deadline given in Art. 44, § 2 for asserting his right of defence the successful tenderer has remained inactive or has presented means that are considered unjustified by the contracting authority, the latter may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiration of the deadline given in Art. 44, § 2, when the successful tenderer has explicitly recognized the deficiencies found.

§ 2 The measures as of right are:

1° Unilateral termination of the contract. In this case the entire bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum

damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part of the contract;

2° Performance under own management of all or part of the non-performed contract;

3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures referred to in 1°, 2° and 3° shall be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract shall be borne by the new successful tenderer.

4.12 Performance modalities (Art. 115 and seq.)

4.12.1 Delivery time (Art. 116)

Supplies shall be delivered within the following maximum periods, 10 calendar days from the date of dispatch of purchase order. If the tenderer has the supplies ordered in stock, he is invited to deliver them as to deliver these supplies as quickly as possible.

4.12.2 Time of delivery

Delivery shall take place between 9am and 4pm, on weekdays excluding public holidays. The supplies must be delivered within maximum 10 calendar days following the receipt of an order form. This delivery period is binding for the contractor and starts from the date of dispatch of the order form by e-mail.

4.12.3 Delivery modalities (Art. 118)

The supplies shall be delivered at the adresse(s) mentioned in the technical specifications.

4.12.4 Packaging (art. 119)

Packaging shall become the property of the contracting authority, without the supplier being entitled to make any claim to compensation in this regard.

4.12.5 Verification of the delivery (Art. 120)

The contractor supplies only goods that have no apparent and/or hidden defects and that correspond strictly to the order (in kind, quantity, quality...) and, if necessary, to the prescriptions of related documents as well as applicable regulations, in compliance with good practice, the state of the art, the highest standards of usage, of reliability and of longevity, and for the purposes that the contracting authority has in mind, which the supplier knows or at least should know.

In case of full or partial refusal of a delivery, the supplier is bound to take back, at his own costs and risks, the products refused. The contracting authority may ask the contractor to supply goods that comply as soon as possible, either cancel the order and get supplied by another supplier.

4.12.6 Liability of the supplier (Art. 122)

The supplier shall be liable for his supplies up to the time when the inspection and notification formalities referred to under "Inspection of the supplies delivered (Art. 120)" are carried out, unless losses or damage occurring in the warehouses of the consignee are due to the events or circumstances referred to in Art. 54 and 56.

Moreover, the supplier shall guarantee the contracting authority against any claims for compensation for which he is liable towards third parties due to late performance of the contract or due to failure of the supplier.

4.13 General payment modalities (Art. 66-72 and 127)

The amount owed to the contractor must be paid within 30 calendar days with effect from the expiry of the verification period (see point **Error! Reference source not found.** “**Error! A representative of the contracting authority shall closely follow up the contract during performance (see point 4.3 “Contract manager (Art. 11)”).

4.14.1 Transfer of ownership (Art. 132)

Acceptance only takes place after the complete verification by the contracting authority of the conformity of the supplies and services delivered. It implies the transfer of ownership and risks of damage and loss.

The signature of (a staff member of) the contracting authority, in particular in electronic reception devices, upon delivery of the materials, does consequently only count as evidence of the transfer of ownership and does not concern the acceptance of the materials.

4.14.2 Provisional acceptance (Art. 128-129)

Upon expiration of the thirty-day period following the date stipulated for verification of the delivery, depending on the case, an acceptance report or a refusal of acceptance report shall be drawn up.

4.14.3 Final acceptance and guarantee period (Art. 134-135)

No guarantee period applies; however, in the event of defects, the contracting authority may require the supplier to replace, without any time limit within the duration of the present contract, and at its own expense, supplies with defects that do not allow them to be used in accordance with the conditions of the contract. conditions of the contract.

4.15 Changes to the procurement contract (Art. 37 to 38/19)

4.15.1 Adjusting the prices (Art. 38/7)

The price revision is calculated using the following formula:

Ir = Index for the month in which the request to revise prices is received

From the second year onwards, the successful tenderer may submit a new price offer as defined above at the beginning of the year. The revised prices will only be applied once they have been accepted by the contracting authority.

6.2 Integrity statement for the tenderers

By submitting this tender, the tenderer declares on honour the following (cf. Art. 52 and seq. of the Law of 17 June 2016):

- Neither members of administration or staff members, or any person or legal person the tenderer has concluded an agreement with in view of performing the contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the firms, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- He has read and understood the articles about deontology and anti-corruption included in the tender documents and declares going along completely and respecting these articles.

He is also aware of the fact that the personnel of Enabel are tied to the provisions of an ethical code, which states that: “In order to ensure the impartiality of personnel, they are not allowed to solicit, demand or receive gifts, bonuses or any other kind of benefits for themselves or third parties, whether in exercising their function or not, when said gifts, bonuses or benefits are linked to that exercising. Privately, staff members do not accept any financial or other bonus, gift or benefit for services rendered”.

If above-mentioned contract is awarded to the tenderer, he declares, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the contract, it is strictly forbidden to the contractor of the contract (i.e. members of administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical position.
- Any (public procurement) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to conform with one or more of the deontological terms may lead to the exclusion of the contractor from this contract and from other contracts for Enabel.
- The contractor of the public contract commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
