Once the contract is concluded, the managing official is the main contact point for the service provider. Any correspondence or any questions with regards to the performance of the contract shall be addressed to him/her, unless explicitly mentioned otherwise in these tender documents (see namely, "Payment" below).

The managing official is fully competent for the follow-up of the satisfactory performance of the contract, including issuing service orders, drawing up reports and states of affairs, approving the services and signing acceptance and failure report(s).

However, the signing of amendments or any other decision or agreement implying a deviation from the essential terms and conditions of the contract are not part of the

competence of the managing official. For such decisions the contracting authority is represented as stipulated under point 1.2 “Contracting authority”.

Under no circumstances is the managing official allowed to modify the terms and conditions (e.g., performance deadline, etc.) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the tender documents and that has not been notified by the contracting authority, shall be considered null and void.

4.4 Subcontractors (Art. 12-15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not release him of his responsibility towards the contracting authority. The latter does not recognize any contractual relation with these third parties.

The contractor remains, in any case, the only person liable towards the contracting authority. The contractor commits to having the contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the contract. Any replacements must be approved by the contracting authority.

When the contractor uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

4.5 Confidentiality (Art. 18)

The contractor and his employees are bound by a duty of reserve concerning the information which comes to their knowledge during performance of this contract. This information cannot under any circumstances be communicated to third parties without the written consent of the contracting authority. The contractor may, nevertheless, give this contract as a reference, provided that it indicates its status correctly (e.g. ‘in performance’) and that the contracting authority has not withdrawn this consent due to poor contract performance.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);

- Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);
- Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;
- Return, at the first request of the contracting authority, the above elements;
- In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

4.6 Protection of personal data

4.6.1 Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

4.6.2 Processing of Personal Data by a Subcontractor

During contract performance, the contractor may process personal data of the contracting authority or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

Given the public contract, it is to be considered that the contracting authority and the contractor will each be responsible, individually, for the processing.

4.7 Intellectual property (Art. 19-23)

The contracting authority do not acquire the intellectual property rights created, developed or used during performance of the contract.

4.8 Performance bond (Art. 25-33)

For this public contract, no performance bond is foreseen.

4.9 Conformity of performance (Art. 34)

The works, supplies and services must comply in all respects with the contract documents. Even in the absence of technical specifications in contract documents, the works, supplies and services must comply in all respects with good practice.

4.10 Changes to the procurement contract (Art. 37 to 38/19)

4.10.1 The value of the change is minimal (38/4)

The contracting authority has the right to change the initial tender unilaterally, if the following conditions are respected:

- 1° the scope of the contract remains unaltered.
- 2° the modification is limited to 10 % of the initial awarded amount.

The essential terms and conditions can only be modified with reasons, to be mentioned in an amendment.

4.10.2 Adjusting the prices (Art. 38/7)

For this procurement contract, price reviews are not permitted.

4.10.3 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

The contracting authority reserves the right to suspend the performance of the procurement contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance time and at least ten working days or two calendar weeks, depending on whether the performance time is expressed in working days or calendar days;
- The suspension is not due to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the procurement contract.

4.10.4 Unforeseen circumstances (Art. 38/9)

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this procurement contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.11 Preliminary technical acceptance (Art. 41-42)

The contracting authority reserves the right to demand an activity report at any time of the activity to the service provider (meetings held, summary of results, problems encountered and problems solved, deviation from the planning and deviations from the ToR...).

4.12 Performance modalities (Art. 146 and seq.)

4.12.1 Implementation period (Art. 147)

The services will be performed during 18 months, after awarding of the contract.

4.12.2 Place where the services shall be performed (Art. 149)

The services shall be performed at the addresses mentioned in the terms of references.

4.12.3 Evaluation of the services performed

If during contract performance irregularities are found, the contractor shall be notified about this immediately by fax or e-mail, which shall be confirmed consequently. The contractor is bound to perform the non-complying services again.

When the services have been performed, the quality and conformity of the services shall be evaluated. A report of this evaluation shall be drawn up. The original copy of this report will be sent to the contractor. Any services that have not been performed correctly or in conformity shall be started again.

4.12.4 Liability of the service provider (Art. 152-153)

The service provider takes the full responsibility for mistakes and deficiencies in the services provided.

Moreover, the service provider shall guarantee the contracting authority against any claims for compensation for which he is liable towards third parties due to late performance of the services or due to failure of the service provider.

4.13 Zero tolerance sexual exploitation and abuse

In application of Enabel's Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

4.14 Means of action of the contracting authority (Art. 44-51 and 154-155)

Failure of the contractor is not only related to services themselves but also to the whole of his obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical position.

In case of violation, the contracting authority can impose a set fine to the contractor for each violation, which can be up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the successful tenderer hoped to obtain by offering the advantage to the employee. The contracting authority can decide independently about the application and the amount of this fine.

This term is without prejudice to the possible application of other measures as of right provided in the General Implementing Rules, namely the unilateral termination of the contract and /or the exclusion of contracts of the contracting authority for a determined duration.

4.14.1 Failure of performance (Art. 44)

The contractor is considered to be in failure of performance of the contract:

- When services are not performed in accordance with the conditions defined by the contract documents;
- At any time, when the performance is not conducted in such a way that it can be fully completed at the dates set;
- When the contractor does not follow written orders, which are given in due form by the contracting authority.

Any failure to comply with the provisions of the contract, including the non-observance of orders of the contracting authority, shall be recorded in a 'failure report', a copy of which shall be sent immediately to the successful tenderer by registered letter or equivalent.

The contractor shall repair the deficiencies without any delay. He can assert his right of defence by registered letter addressed to the contracting authority within fifteen calendar days from the date of dispatch of the 'failure report'. His silence is considered, after this period, as an acknowledgement of the facts recorded.

Any deficiencies found on his part render the contractor liable for one or more of the measures provided for in Art. 45 to 49 and 154 and 155.

4.14.2 Fines for delay (Art. 46-154)

Fines for delay are not related to penalties provided under Art. 45. They shall be due, without the need for notice, simply by the expiry of the implementation period without the issuing of a report, and they shall be automatically applied for the total number of days of delay.

Notwithstanding the application of fines for delay, the contractor shall continue to guarantee the contracting authority against any claims for compensation for which it may be liable to third parties due to the delay in performance of the contract.

4.14.3 Measures as of right (Art. 47-155)

§ 1 When upon the expiration of the deadline given in Art. 44, § 2 for asserting his right of defence the successful tenderer has remained inactive or has presented means that are considered unjustified by the contracting authority, the latter may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiration of the deadline given in Art. 44, § 2, when the successful tenderer has explicitly recognized the deficiencies found.

§ 2 The measures as of right are:

1° Unilateral termination of the contract. In this case the entire bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part of the contract;

2° Performance under own management of all or part of the non-performed contract;

3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures referred to in 1°, 2° and 3° shall be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract shall be borne by the new successful tenderer.

4.15 Invoicing and payment of services (Art. 66-72 and 160)

The amount owed to the contractor must be paid within 30 calendar days with effect from the expiry of the verification period (see point 4.16.1 “Acceptance of the services performed”), and provided that the contracting authority possesses, at the same time, the duly established invoice.

The contractor shall send one copy of the invoice with a copy of the contract acceptance report to the following address:

**Enabel Representation
Av. Kenneth Kaunda, 264
Maputo, Mozambique**

The invoice will mention:

- **“Enabel, the Belgian development Agency, in Mozambique**
- the name of the contract: “Project Coordinator for the GCF Readiness Programme in Mozambique”
- the reference of the tender documents: “MOZ21001-10003”
- the name of the managing official: “Intervention Manager”.

The invoice shall be in Euros (should the tenderer have a Euro bank account). Payment will be by bank transfer only.

The tenderer will submit invoice after acceptance of the services performed on a monthly basis.

4.16 End of the contract (Art. 64-65, 150 and 156-157)

A representative of the contracting authority shall closely follow up the contract during performance (see point 4.3 “Managing official (Art. 11)”).

4.16.1 Acceptance of the services performed

The services shall be only accepted after fulfilling requirements and after technical acceptance(s).

Provisional / final acceptance(s) shall be provided upon completion of performance of the services as mentioned in the Terms of Reference (see also point 4.15 “General payment modalities (Art. 66-72 and 160)”).

Upon expiration of the thirty-day period following the date stipulated for completion of the entirety of the services, depending on the case, an acceptance report or a refusal of acceptance report shall be drawn up.

Where the services are completed before or after this date, it shall be the responsibility of the service provider to notify the managing official by registered letter, and at the same time to ask for the acceptance procedure to be carried out. Within thirty calendar days after the date of receipt of the service provider's request, an acceptance or a refusal of acceptance report shall be drawn up, depending on the case.

4.17 Litigation (Art. 73)

This contract and all legal consequence that might ensue fall fully within the scope of Belgian law. In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution.

If agreement is lacking, the competent courts of Brussels shall have exclusive jurisdiction over any dispute arising from the performance of this contract. French or Dutch are the languages of proceedings.

The contracting authority shall in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of this contract. The contractor guarantees the contracting authority against any claims for compensation by third parties in this respect.

In case of "litigation", i.e. court actions, correspondence must (also) be sent to the following address:

5 Terms of reference

Enabel is the Belgian Development Agency. It executes the Belgian governmental cooperation. The Agency also implements actions for other national and international organisations. Together with its Belgian and international partners, Enabel provides solutions to address pressing global challenges - climate change, urbanization, human mobility, peace and security, social and economic inequalities - and to promote global citizenship. With 2,000 employees, Enabel manages some 170 projects in some twenty countries, in Belgium, Africa and the Middle East.

Background

Climate change has been identified as one of the main factors that is constraining inclusive and socio-economic development in Mozambique. The country is not only considered as one of the most vulnerable countries to climate shocks but is also increasingly exposed to international climate policies, such as international carbon pricing mechanisms.

In order to respond to such challenges, the Government of Mozambique started preparing several plans and strategies listing priority climate mitigation and adaptation measures as well as medium- and long-term climate ambitions. To effectively implement the planned actions and ambitions, the country will need to mobilize additional and new sources of funding, both nationally and internationally. One such key source of funding is the Green Climate Fund (GCF), the world's largest climate fund, which has been mandated to support developing countries to raise and realize their Nationally Determined Contributions (NDC) under the Paris Agreement (<https://www.greenclimate.fund/>).

To date, Mozambique has benefitted little from GCF funding. Since 2015, seven projects have started implementation with an estimated GCF contribution of USD 40 million. There is, however, a healthy pipeline of project ideas under development that could possibly benefit from GCF funding in the coming years.

To more successfully tap into GCF funding opportunities, Mozambique's Ministry of Economy and Finance, in collaboration with Enabel, will implement a 2-year capacity building and readiness project. The project is receiving financial support from the GCF's Readiness and Support Programme (<https://www.greenclimate.fund/readiness>). Its principal objective is "to provide capacity building and institutional support to Mozambique to enable the country to accelerate and scale up the mobilization of national and international sources of climate finance for the implementation of Mozambique's NDC".

To achieve this objective, the project will implement three inter-related interventions:

1. The readiness project will pilot a country-driven and forward-looking planning and coordination framework for the formulation of high-quality climate finance programmes and projects in Mozambique, while at the same time building capacity of the members of the National Designated Authority (NDA) and its Advisory Committee (and/or other relevant institutions) to drive this process forward in the future. The specific objectives of the planning and coordination framework will be: 1) to better tailor the scope and design of climate finance programmes and projects to the national context and circumstances, 2) to improve the complementarity and alignment of different climate finance flows (both from domestic and international sources); and 3) establish a strong link between the climate finance programmes and projects, on the one hand, and the policy and regulatory context in which they operate, on the other hand. The piloting of the planning and coordination framework will be tested on three real sector cases.
2. Actively engage with private sector actors through dedicated information and training sessions.
3. Support national entities such as FNDS and FUNAE with building institutional and planning capacities with a view to strengthen their role for the effective mobilization of various sources of climate finance, particularly from the GCF.

For the implementation of the readiness project, a project team will be established consisting of a Project Coordinator, an Assistant Project Coordinator and a Climate Finance Expert. The project team will be contracted by Enabel (in its capacity as Delivery Partner for the project) and will report to a Project Steering Committee which will consist of representatives of the Ministry of Economy and Finance and Enabel.

Roles and responsibilities of the Consultant

As Project Coordinator, you will be responsible for the overall management and supervision for the readiness project. Specific roles and responsibilities include:

6.3 Declaration on honour – exclusion criteria

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare that the tenderer does not find himself in one of the following situations:

- 1) The tenderer or one of its 'directors [1]' was found guilty following a conviction by final judgement for one of the following offences:
 - 1° involvement in a criminal organisation
 - 2° corruption
 - 3° fraud
 - 4° terrorist offences, offences linked related to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
 - 5° money laundering or terrorist financing
 - 6° child labour and other trafficking in human beings
 - 7° employment of foreign citizens under illegal status
 - 8° creating a shell company.
- 2) The counterparty which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the counterparty can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.
- 3) The counterparty who is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganisation or has admitted bankruptcy or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;
- 4) When Enabel can demonstrate by any appropriate means that the counterparty or any of its directors has committed serious professional misconduct which calls into question his integrity.

Are also considered such serious professional misconduct:

- a. A breach of Enabel's Policy regarding sexual exploitation and abuse – June 2019
- b. A breach of Enabel's Policy regarding fraud and corruption risk management – June 2019
- c. A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace
- d. The counterparty was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed this information
- e. Where Enabel has sufficient plausible evidence to conclude that the counterparty has committed acts, entered into agreements or entered into arrangements to distort competition

The presence of this counterparty on one of Enabel's exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

- 5) When a conflict of interest cannot be remedied by other, less intrusive measures;
- 6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also, failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

- 7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

The counterparty or one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:

6.4 Integrity statement for the tenderers

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
