The tenderer must use the tender form in annex. In case he does not use this form, he is fully responsible for the perfect concordance between the documents he has used and the form.

The tender and the annexes to the tender form are drawn up in English.

Where a candidate or tenderer relies on the capacity of other entities in the meaning of paragraph 1, the candidate or tenderer, as appropriate, answers the question given in part II, C, of the ESPD referred to in Article 38 of the Royal Decree of 18 April 2017. He also mentions for which part of the public contract he will rely on such capacity and which other entities he proposes.

The tender also comprises a separate ESPD for the entities in the meaning of paragraph 1.

3.4.2 Period the tender is valid

§64 The tenderers remain bound by their tender for a period of 90 calendar days from the tender reception deadline date.

3.4.3 Determination of prices

§65 All prices given in the tender form must obligatorily be quoted in euro.

§66 This contract is a price-schedule contract, i.e. a contract in which only the unit prices are lump-sum prices. The price to be paid will be obtained by applying the unit prices given in the inventory to the quantities actually performed.

§67 In accordance with Article 37 of the Royal Decree of 18 April 2017, the contracting authority may for the purpose of verifying the prices carry out an audit of any and all accounting documents and perform on-the-spot checks with a view of verifying the correctness of the indications supplied.

3.4.4 Elements included in the price

3.5 Selection of tenderers

3.5.1 European Single Procurement Document (ESPD)

By submitting his tender together with the completed European Single Procurement Document (ESPD) the tenderer declares officially on his honour that:

- he is not in one of the mandatory or facultative exclusion cases, which must or may lead to his exclusion;
- he fulfils the selection criteria established by the contracting authority in this public contract

The European Single Procurement Document (ESPD) is a self-declaration by economic operators providing preliminary evidence replacing the certificates issued by public authorities or third parties. As provided in Article 73 of the Law of 17 June 2016, it is a formal statement by the economic operator that it is not in one of the situations in which economic operators shall or may be excluded; that it meets the relevant selection criteria.

The tenderer generates the ESPD via [https://dume.publicprocurement.be/](https://dume.publicprocurement.be/) and then attaches it to his tender.

Where the tender is submitted by a group of economic operators, it must include an ESPD for each of the participants in the group:

Where a candidate or tenderer relies on the capacity of other entities. (particularly subcontractors or independent subsidiaries) for economic and financial capacity criteria and technical and vocational capacity criteria (see 3.5.3 Selection criteria) in the meaning of paragraph 1 of Article 73 of the Royal Decree of 18 April 2017, the candidate or tenderer, as appropriate, answers the question in part II, C, of the ESPD referred to in Article 38 of the Royal Decree of 18 April 2017. He also mentions for which part of the public contract he will rely on such capacity and which other entities he proposes.

The tender also comprises a separate ESPD for the entities in the meaning of paragraph 1 of Article 73 of the Royal Decree of 18 April 2017.

In accordance with Article 38 §2 of Article 73 of the Royal Decree of 18 April 2017, regarding part IV of the ESPD on the selection criteria, the contracting authority has decided to limit the information to be filled out to one single question, namely whether the economic operator fulfils the required selection criteria, in accordance with the section "Global indication for all selections criteria" ("Indication globale pour tous les critères de sélection"). So, only this section must be completed.

The contracting authority will ask the tenderer, if necessary, at any time during the procedure, to provide all or part of the supporting documents, if necessary to ensure the smooth proceeding of the procedure. The tenderer is not required to submit any supporting documents or other evidence.
if and to the extent that the contracting authority has the possibility to directly obtain certificates or relevant information by accessing a free national database in a Member State.

With the exception of the exclusion grounds relating to tax and social security, the tenderer that is in one of the mandatory or optional exclusion situations can prove on his own initiative that he has paid or undertaken to pay compensation for any prejudice caused by the criminal offence or the fault, clarified totally the facts and circumstances by collaborating actively with the authorities in charge of the enquiry and taken concrete specific technical, organisational and personnel measures to prevent a new criminal offence or a new fault.

3.5.2 Exclusion grounds

The mandatory and facultative grounds for exclusion are given in the ESPD and the declaration on honour regarding the exclusion grounds.

The contracting authority is to check the Declaration on honour on the basis of the following documents:

1) An extract from the criminal record made out to the name of the tenderer (legal person) or of his representative (natural person) where no criminal records exist for legal entities;
2) The document certifying that the tenderer is in order with the payment of social contributions, except where the contracting authority has the possibility to directly obtain certificates or relevant information by accessing a free national database in a Member State.
3) The document certifying that the tenderer is in order with the payment of levies and taxes, except where the contracting authority has the possibility to directly obtain certificates or relevant information by accessing a free national database in a Member State.
4) The document certifying that the tenderer is not in a state of bankruptcy, liquidation, cessation of activities or judicial reorganisation, except where the contracting authority can directly obtain certificates or relevant information by accessing a free national database in a Member State.

The tenderer may attach these documents directly to his tender.

If the documents are not attached, the tenderer must be able to provide the documents listed above within 5 working days following the contracting authority’s request.

If the tenderer does not submit the document(s) requested within the term set, the contracting authority reserves the right to exclude the tenderer.

Tenderers are strongly advised not to wait until the contracting authority files the request and to apply as quickly as possible with the competent authorities of the country where they are established any documents that they may not have attached to their tender. The waiting times for obtaining certain documents can indeed be long.

3.5.2.1 Conflicts of interest - Revolving doors (Art. 51 Royal Decree 18/04/2017).

§81 Without prejudice to Articles 6 and 69, paragraph 1, 5° of the Law, a conflict of interest is also considered any (‘revolving doors’) situation in which a natural person who has worked for a contracting authority as an internal staff member, whether in a hierarchy...
relation or not, as a concerned civil servant, public officer or any other person linked whatsoever to the contracting authority, would later intervene under a public contract awarded by this contracting authority and where a relation exists between the former activities that the above person conducted for the contracting authority and the activities he or she conducts under the contract.

§82 The application of above-mentioned provision is limited however to a two-year term from the resignation of said person or any other type of termination of the former activities.

3.5.3 Selection criteria

§83 Moreover, by means of the documents requested below, the tenderer must prove that he is sufficiently capable, from an economic and financial as well as from a technical point of view, to successfully perform this public contract.

§84 The selection will be done on a fail/pass basis using the following 4 criteria:

- Selection Criterion 1: Average annual turnover (see part 6)
- Selection Criterion 2: Similar supply deliveries (see part 6)
- Selection Criterion 3: Quality and compliance with the specification of the provided samples – tenderers will be asked to send samples at a later stage.

3.5.4 Modalities relating to tender examination and regularity of the tenders

§85 Before starting the evaluation and comparison of the tenders, the contracting authority examines their regularity.

§86 The tenders must be drawn up in such a way that the contracting authority can make a selection without starting negotiations with the tenderer. For this reason, and in order to be able to assess the tenders fairly, it is essential that the tenders be completely in conformity with the provisions of the Tender Specifications, both formally and materially.

§87 The substantially irregular tenders are excluded.

§88 A substantial irregularity is such as to give a discriminatory advantage to the tenderer, to distort competition, to prevent the evaluation of the tenderer’s tender or its comparison with the other tenders, or to render non-existent, incomplete or uncertain the commitment of the tenderer to perform the contract under the conditions laid down.

§89 The following irregularities are deemed substantial:

1° failure to comply with environmental, social or labour law, provided that such non-compliance is punishable by law;

2° failure to comply with the requirements of Articles 38, 42, 43, §1, 44, 48, §2, clause 1, 1alinéa 1er, 54, §2, 55, 83 and 92 of the Royal Decree of 18 April 2017 and of Article 14 of the Law, insofar as they contain obligations vis-à-vis the tenderers;

3° failure to comply with the minimum requirements and the requirements that are indicated as substantial in the procurement documents;

4° tenders that do not bear an original handwritten signature on the tender form.

§90 The contracting authority will also declare void any tender that is affected by several non-substantial irregularities which, by reason of their accumulation or combination, are capable of having the same effect as described above (in accordance with Article 76 of the Royal Decree of 18 April 2017).

3.5.5 Award criteria
§91 The contracting authority will choose the regular tender that it finds being most economically advantageous, taking account of the following criteria: **price 100%**.

### 3.5.5.1 Final score

§92 The contract will be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the ESPD and the Declaration on honour of this tenderer and provided the check shows that the Declaration on honour corresponds with reality.

§93 The award criteria is evaluated as follows:

- Award criterion is evaluated on the basis of the financial price evaluation (100%)

\[ \text{Points tender } A = \frac{\text{amount of lowest tender}}{\text{amount of tender } A} \times 100 \]

### 3.5.5.2 Awarding the public contract

§94 The lot(s) of the contract will be awarded to the tenderer(s) who have submitted the most economically advantageous tender for the lot.

§95 Notice though that, in accordance with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the contract.

§96 The contracting authority may either decide not to award the contract, either redo the procedure, if necessary through another award procedure.

§97 The contracting authority also reserves the right to award only certain lots and to decide that the other lots will be the subject matter of one or more new contracts, if necessary according to another award procedure in accordance with Article 58 §1, third paragraph.

### 3.5.6 Concluding the public contract

§98 In accordance with Art. 88 of the Royal Decree of 18 April 2017, the contract occurs through the notification to the selected tenderer of the approval of his tender.

§99 Notification is via digital platforms, e-mail or fax and, on the same day, by registered post.

§100 So, the full contract consists of a contract awarded by Enabel to the chosen tenderer in accordance with:

- These Tender Specifications and its annexes;
- The approved tender of the contractor and all of its annexes;
- The registered letter of notification of the award decision;
- Any later documents that are accepted and signed by both parties, as appropriate.

§101 In view of transparency, Enabel undertakes to annually publish the list contractors of its public contracts. By submitting tender, the contractor of the public contract declares agreeing with the publication of the contract title, the nature and subject-matter of the contract, his name and location as well as the value of the contract.
4 Special contractual provisions

§102 This chapter of these Tender Specifications holds the specific provisions that apply to this public contract by way of derogation from the 'General Implementing Rules for public procurement and for concessions for public works' of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR' or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

§103 These Tender Specifications derogate derogate Articles 25. §2 and 26 of the General Implementing Rules – GIR (Royal Decree of 14 January 2013).

4.1 Managing official (Art. 11)

§104 The managing official is the Intervention Manager, Joeri Leysen, e-mail: joeri.leysen@enabel.be.

§105 Once the public contract is concluded the managing official is the main contact point for the supplier. Any correspondence or any questions with regards to the performance of the contract will be addressed to him or her, unless explicitly mentioned otherwise in these Tender Specifications.

§106 The managing official is responsible for the follow-up of the performance of the contract.

§107 The managing official is fully competent for the follow-up of the satisfactory performance of the contract, including issuing service orders, drawing up reports and states of affairs, approving the services, progress reports and reviews. He or she may order any modifications to the contract with regards to its subject-matter provided that they remain within its scope.

§108 However, the signing of amendments or any other decision or agreement implying derogation from the essential terms and conditions of the contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under 'The contracting authority'.

4.2 Subcontractors (Art. 12 to 15)

§109 The fact that the successful tenderer (or supplier) entrusts all or part of its commitments to subcontractors does not release its liability towards the contracting authority. The latter does not recognize any contractual link with these third parties.

§110 The successful tenderer remains, in all cases, solely responsible vis-à-vis the contracting authority.

§111 When the supplier uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

§112 In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.
4.3 Confidentiality (Art. 18)

§113 Knowledge and information obtained by the contractor, including any persons responsible for the mission and another person involved in this public contact, are strictly confidential.

§114 Under no circumstances can the information collected, regardless of its origin and nature, be transferred to third parties in any form.

§115 All parties directly or indirectly involved are therefore bound by the duty of discretion.

§116 In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer or contractor undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

§117 Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);

- Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);

- Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;

- Return, at first request of the contracting authority, the above elements;

- In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract, or the fact that the tenderer or contractor performs this public contract for the contracting authority, or, where applicable, the results obtained in this context, unless having obtained prior and written consent of the contracting authority. »

4.4 Personal data protection

4.4.1 Processing of personal data by the contracting authority

§118 The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

4.4.2 Processing of personal data by a subcontractor

§119 Where during contract performance, the contractor may process personal data of the contracting authority exclusively in the name and on behalf of the contracting authority, for the sole purpose of performing the services in accordance with the provisions of the Tender Specifications or in execution of a legal obligation.
§120 For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

§121 By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

§122 The personal data that will be processed are confidential. The contractor will therefore limit access to data to the strictly necessary personnel for the performance, management and monitoring of the public contract.

§123 For the performance of the public contract, the contracting authority will determine the purposes and means of processing personal data. In this case, the contracting authority will be responsible for the processing and the contractor will be its processor, within the meaning of Article 28 of the GDPR.

§124 Processing carried out on behalf of a controller must be governed by a contract or other legal act that is binding on the processor with regard to the personal data controller and that sets out that the subcontractor acts only on the instruction of the person in charge of the processing and that the confidentiality and security obligations regarding the processing of personal data are also the responsibility of the subcontractor Article 28 §3 of the GDPR.

§125 To this end, the tenderer must fill out, sign and submit to the contracting authority the subcontracting agreement given in Annex [6.13]. Filling out and signing this annex is therefore a condition of regularity of the tender.

4.5 Intellectual property (Art. 19 to 23)

§126 The contracting authority does not acquire the intellectual property rights created, developed or used during performance of the public contract.

§127 Without prejudice to clause 1 and unless otherwise stipulated in the procurement documents, when the subject-matter of the public contract consists of the creation, manufacture or the development of designs or of logos, the contracting authority acquires the intellectual property thereof, as well as the right to trademark them, to have them registered and to have them protected.

§128 For domain names created under the contract, the contracting authority also acquires the right to register and protect them, unless otherwise stipulated in the procurement documents.

§129 Where the contracting authority does not acquire the intellectual property rights, it obtains a patent licence of the results protected by intellectual property law for the exploitation modes that are mentioned in the procurement documents.

§130 The contracting authority lists the exploitation modes for which it intends to obtain a licence in the procurement documents.

4.6 Performance bond (Art. 25 to 33)

§131 The performance bond is set at 5 % of the total value, excluding VAT, of lots awarded. The value thus obtained is rounded up to the nearest 10 euros.
§132 In accordance with the legal and regulatory provisions, the performance bond may be constituted either of cash or of public funds or may take the form of a joint performance bond.

§133 The performance bond may also take the form of a surety bond issued by a credit institution meeting the requirements of the law on the statute and control of credit institutions, or by an insurance company meeting the requirements of the law on control of insurance companies and approved for branch 15 (bonds).

§134 By way of derogation from Article 26 the performance bond may be posted through an establishment that has its registered office in one of the countries of destination of the services. The contracting authority reserves the right to accept or refuse the posting of the bond through that institution. The tenderer mentions the name and address of this institution in the tender.

§135 This derogation is founded on the idea of providing possible local tenderers with an opportunity to submit a tender. This measure is made essential by the specific requirements of the contract.

§136 The contractor must, within 30 calendar days from the day of contract conclusion, furnish proof that he or a third party has posted the bond in one of the ways set out below:

1° in the case of cash, by transfer of the amount to the bpost bank account number of the Deposit and Consignment Office Complete the following form as well as possible: https://finances.belgium.be/sites/default/files/01_marche_public.pdf (PDF, 1.34 Mo), and forward it by e-mail to info.cdcck@minfin.fed.be

2° in the case of public funds, by depositing such funds, for the account of the Deposit and Consignment Office, with the State Cashier at the head office of the National Bank in Brussels or at one of its provincial agencies or with a public institution with an equivalent function

3° in the case of a joint surety, by deposit via an institution that lawfully carries out this activity of a deed of joint surety with the Deposit and Consignment Office or with a public institution with an equivalent function

4° in the case of a guaranty, by the deed of undertaking of the credit institution or the insurance company.

§137 Such proof is provided, as appropriate, by submission to the contracting authority of:

1° the deposit receipt of the Deposit and Consignment Office or of a public institution with an equivalent function; or

2° a debit notice issued by the credit institution or the insurance company; or

3° the deposit certificate issued by the State Cashier or public institution with an equivalent function; or

4° the original copy of the deed of joint surety stamped by the Depot and Consignment Office or by a public institution with an equivalent function; or

5° the original copy of the deed of undertaking issued by the credit institution or the insurance company granting a guaranty.

§138 These documents, signed by the depositor, must state why the performance bond was posted and its precise usage, consisting of a concise indication of the subject-matter of the contract and a reference to the procurement documents, as well as the name, first name and full address of the contractor and, where relevant, that of the third party that made the deposit on the contractor’s account, bearing the statement “lender” or “mandatory” as appropriate.
§139  The period of 30 calendar days specified above is suspended during the period of closure of the contractor’s business for paid annual holidays and the days off in lieu stipulated by regulation or by a collective binding labour agreement.

§140  Proof that the required performance bond has been posted must be sent to the address that will be mentioned in the contract conclusion notification.

§141  **Request by the contractor for the acceptance procedure to be carried out:**

1°  For provisional acceptance: This is equal to a request to release the first half of the performance bond.

2°  For final acceptance: This is equal to a request to release the second half of the performance bond, or, in case no provisional acceptance applied, to release the whole of the performance bond.

### 4.7 Conformity of performance (Art. 34)

§142  The works, supplies and services must comply in all respects with the procurement documents. Even in the absence of technical specifications in the procurement documents, the works, supplies and services must comply in all aspects with good practice.

### 4.8 Changes to the public contract (Art. 37 to 38/19)

#### 4.8.1 Replacement of the contractor (Art. 38/3)

§143  Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the supplier with whom the initial contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

§144  The supplier submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of the supplies and services already delivered, the new contractor’s contact details and the documents and certificates which the contracting authority cannot access free of charge.

§145  The replacement will be recorded in an amendment dated and signed by all three parties. The initial supplier remains liable to the contracting authority for the performance of the remainder of the contract.

#### 4.8.2 Revision of prices (Art. 38/7)

§146  For this contract, price revisions are not permitted.

#### 4.8.3 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

§147  The contracting authority reserves the right to suspend the performance of the contract for a given period, mainly when it considers that the contract cannot be performed without inconvenience at that time.

§148  The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

§149  When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.
The supplier has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance period and at least ten working days or two calendar weeks, depending on whether the performance period is expressed in working days or calendar days;
- The suspension is not owing to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the supplier or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the contract.

4.8.4 Unforeseeable circumstances

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this public contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.8.5 Terms of introduction (Art. 38/14)

The contracting authority or the successful tenderer who wishes to rely on one of the review clauses, as referred to in Articles 38/09 to 38/12, must disclose the facts or circumstances on which it is based, in writing within 30 days of their occurrence or of the date on which the successful tenderer or the contracting authority should normally have known of them.

4.9 Preliminary technical acceptance (Art. 41-42)

Products may not be used if they have not been accepted by the managing official or his or her representative.

Products that at a given stage do not satisfy the technical acceptance tests imposed will be declared unfit for technical acceptance. Upon the request of the supplier, the contracting authority in accordance with the procurement documents verifies whether the products have the required qualities or at the very least comply with good practice and satisfy the conditions of the contract. If certain products are destroyed during verification, the supplier replaces these at its own expense. The procurement documents specify the quantity of products to be destroyed.

Where the contracting authority declares that the product presented is not in the required condition for examination, the acceptance request by the building supplier will be considered not having been made. A new request is made when the product is fit for acceptance.

4.10 Performance modalities (Art. 115 et seq.)

4.10.1 Deadlines and terms (Art. 116)

The supplies must be delivered within the following timeframes:
<table>

§159 The Purchase Order is addressed to the supplier either by registered letter, fax or any other means through which the date of dispatch can be determined unambiguously.

§160 When the Purchase Order is clearly incorrect or incomplete and implementation of the order becomes impossible, the supplier immediately notifies the service that placed the order about this in writing in order to find a solution to allow for normal implementation of the order.

4.10.2 Quantities to be supplied (Art. 117)

§161 The public contract’s minimum quantities are mentioned under ‘Quantities’.

§162 Without prejudice to the possibility for the contracting authority to terminate the contract if the supplies delivered do not meet the requirements imposed or if they are not delivered by the deadlines asked, by concluding this contract the supplier acquires the right to deliver these quantities, under penalty of indemnification by the contracting authority.

4.10.3 Place where the services must be performed and formalities (Art. 149)

§163 The supplies will be delivered to the location mentioned in Annex (2) - Delivery locations. Delivery will have two phases one at the Directorate level for committee validation and then delivered to schools.

§164 Prices provided should include the delivery cost.

4.10.4 Packaging (Art. 119)

§165 Packaging will become the property of the contracting authority, without the supplier having any claim to compensation in this regard.

§166 There are 5 packages in total that will need to be delivered to schools.

- **Lot 1**: Package Electronics
- **Lot 2**: Package Electrical Tools
- **Lot 3**: Package Fabrication Equipment
- **Lot 4**: Package Robotics
Lot 5: Package Hand Tools

All items should be packed per package, and per school. See annex (3).

4.10.5 Inspection of the supplies delivered (Art. 120)

§167 The supplier delivers only goods that have no apparent and/or hidden defects and that correspond strictly to the order (in kind, quantity, quality...) and, if necessary, to the prescriptions of related documents as well as applicable regulations, in compliance with good practice, the state of the art, the highest standards of usage, of reliability and of longevity, and for the purposes that the contracting authority has in mind, which the supplier knows or at least should know.

§168 Acceptance (provisional acceptance) only takes place after the complete inspection by the contracting authority of the conformity of the goods and services delivered. The contracting authority disposes of a period for verification of thirty days. This period will begin on the day after arrival of the supplies at the place of delivery, provided that the contracting authority is in possession of the delivery note or invoice.

§169 The signature of (a staff member of) the contracting authority, in particular in electronic reception devices, upon delivery of the goods, does consequently only count as evidence of taking possession and does not concern the acceptance of the goods.

§170 Acceptance on site counts as complete provisional acceptance

§171 Acceptance implies the transfer of ownership and of risks of damage and loss.

§172 In case of full or partial refusal of a delivery, the supplier is bound to take back, at his own costs and risks, the products refused. The contracting authority may ask the supplier to deliver goods that comply as soon as possible, either cancel the order and get supplied by another supplier.

4.10.6 Gender equality

§173 In accordance with article 3, 3° of the law of January 12, 2007 “Gender Mainstreaming”, public contracts must take into account any differences between women and men (the gender dimension). The successful tenderer must therefore analyze, depending on the area concerned by the contract, whether there are any differences between women and men. As part of the performance of the contract, it must therefore take into account the differences noted. Communication should fight against sexist stereotypes in terms of message, image and language, and take into account the differences in the situation between women and men in the target audience.

4.10.7 Zero tolerance Sexual exploitation and abuse

§174 In application of Enabel’s Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

4.11 Liability of the supplier (Art. 122)

§175 The supplier shall be liable for his supplies up to the time when the inspection and notification formalities referred to under Article 120 are carried out, unless losses or damage sustained in the warehouses of the consignee are due to the events or circumstances referred to in Articles 54 and 56.

§176 Moreover, the supplier indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the contract or due to failure of the supplier.
4.12 Means of action of the contracting authority (Art. 44-51 and 123-126)

§177 The supplier's default is not solely related to performance as such but also to the whole of the contractor's obligations.

§178 In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the supplier to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to appointees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

§179 In case of violation, the contracting authority may impose a lump-sum fine to the supplier for each violation, which can be to up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the supplier hoped to obtain by offering the advantage to the employee. The contracting authority will decide independently about the application and the amount of this fine.

§180 This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the contract and/or the exclusion from procurement by the contracting authority for a determined duration.

4.12.1 Failure of performance (Art. 44)

§181 The supplier is considered to be in failure of performance under the public contract:

1° when the delivery is not carried out in accordance with the conditions specified in the procurement documents;

2° at any time, when the delivery has not progressed in such a way that it can be fully completed on the due dates;

3° when he does not observe written orders, which have been given in due form by the contracting authority.

§182 Any failure to comply with the provisions of the public contract, including the non-observance of orders of the contracting authority, is recorded in a report (‘process verbal’), a copy of which will be sent immediately to the supplier by registered mail.

§183 The contractor must repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed acknowledgement of the reported facts.

§184 Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 154 and 155.

4.12.2 Fines for delay (Art. 46 and 123)

§185 The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance period without the issuing of a report and they are automatically applied for the total number of days of delay.

§186 Regardless of the application of any fines for delay, the contractor indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the contract.

4.12.3 Measures as of right (Art. 47 and 124)
§187 When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.

§188 However, the contracting authority may apply measures as of right without waiting for the expiry of the term given in Article 44, §2, when the contractor has explicitly recognised the defects detected.

§189 The measures as of right are:

1° Unilateral termination of the contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;

2° Performance under regie of all or part of the non-performed contract;

3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

§190 The measures referred to in 1°, 2° and 3° will be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract will be borne by the new contractor.

4.13 End of the public contract

4.13.1 Acceptance of the products delivered (Art. 64-65 and 128)

§191 The managing official will closely follow up the delivery.

§192 The contracting authority disposes of a period for verification of thirty days starting on the end date of the delivery, set in conformity with the modalities in the procurement documents, to carry out the technical acceptance and provisional acceptance formalities and to notify the result to the supplier.

§193 When the supplies will be delivered before or after this date, it is the responsibility of the supplier to inform them by registered mail or electronic mail, ensuring in an equivalent manner the date of dispatch to the managing official and to ask, at the same time, to proceed to reception. Within thirty days of the date of receipt of the suppliers request, a report of receipt or refusal of receipt is drawn up, as the case may be.

§194 In this contract, the following acceptance are provided for:

§195 Provisional acceptance

§196 Full acceptance is proceeded to at the place of delivery without partial acceptance at the place of manufacture;

§197 Provisional acceptance is carried out in full at the place of delivery. To investigate and test the supplies as well as to notify its decision to accept or reject the delivery, the contracting authority disposes of a period of thirty days

§198 This period will begin on the day after the date of arrival of the supplies at the place of delivery, provided that the contracting authority is in possession of the delivery note or invoice. It comprises the 30-day period stipulated in Article 120.

4.13.2 Transfer of ownership (Art. 132)

§199 The contracting authority automatically becomes the owner of the supplies as soon as they have been accepted for payment pursuant to Article 127 of GIR.

4.13.3 Guarantee (Art. 134)
The warranty period commences on the date on which provisional acceptance is given.

The period for each item may differ in accordance with the stipulated duration provided within Annex (1): Bill of Quantities – BoQs

The duration of warranty and its respective description typically falls within one of the following criterion:

<table>
<thead>
<tr>
<th>Warranty Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 or 2</td>
<td>1 or 2 year/s standard warranty, or otherwise as stipulate in respective item description, from manufacturer and supplier</td>
</tr>
</tbody>
</table>

4.13.4 Final acceptance (Art. 135)

Final acceptance occurs upon expiry of the warranty period. It is implicit when the delivery has not led to any claims during said period.

If delivery has led to complaints during the warranty period, a final acceptance or refusal of acceptance report will be issued within 15 days prior to the expiry of said period.

4.13.5 Invoicing and payment of services (Art. 66 to 72 – 160)

The supplier sends (one copy only of) the invoices and the contract acceptance report (original copy) to the following address:

The invoice address is: Enabel, Royal Center Building, 7th Floor- Al Balou’, Mecca Street. Only delivery that has been performed correctly may be invoiced.

Payment will be made within 30 days after submission and approval of the invoice.

In case several lots are awarded to the same tenderer, separate invoices shall be issued for each lot.

The amount owed to the supplier must be paid within thirty days with effect from the expiry of the verification term or with effect from the day after the last day of the verification term, if this is less than thirty days. And provided that the contracting authority possesses, at the same time, the duly established invoice and any other documents that may be required.

When the procurement documents do not provide for any separate debt claim, the invoice will constitute the debt claim.

The invoice must be in EUROS.

No advance may be asked by the contractor and the payment is made after final acceptance of each delivery of a same order.

Payment will be by bank transfer only.

Payments will be made exclusively on the bank account specified by the tenderer in 6.1 Identification form.

4.14 Litigation (Art. 73)

The competent courts of Brussels have exclusive jurisdiction over any dispute arising from the performance of this public contract. French or Dutch are the languages of proceedings.

The contracting authority will in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of this contract. The contractor indemnifies the contracting authority against any claims for compensation by third parties in this respect.
§217 In case of ‘litigation’, i.e. court action, correspondence must (also) be sent to the following address:

1° use the goods delivered for the needs stipulated under the public contract and in accordance with technical user guidance provided by the supplier;

1° make not changes to the goods delivered without the written preliminary approval of the supplier.

4.16 Obligations of the supplier (Art. 137 and 138)

3° ensure their maintenance and make all necessary repairs within the timing imposed to keep the goods in good state during the public contract term.

Where a candidate or tenderer relies on the capacity of other entities in the meaning of paragraph 1, the candidate or tenderer, as appropriate, answers the question given in part II, C, of the ESPD referred to in Article 38 of the Royal Decree of 18 April 2017. He also mentions for which part of the public contract he will rely on such capacity and which other entities he proposes.

The tender also comprises a separate ESPD for the entities in the meaning of paragraph 1.

Management of VAT will depend on where the tenderers are registered.

For tenderers registered with the Palestinian Authority, contracts will be exempted from VAT. Enabel will be in charge of obtaining a VAT exemption from the Palestinian Ministry of Finance.
for the entire contract immediately after awarding. The contractor will be issuing invoices with zero-VAT.

For tenderers registered in Israel, Enabel will not be able to obtain a VAT exemption nor refund. VAT will therefore be paid by Enabel on each invoice on top of the prices mentioned in the financial offer.

In both cases, the tenderer shall fill their prices without VAT as part of their financial offer in the tender.

Please note that financial offers will be evaluated according to the cost actually incurred to the contracting authority. Therefore, for the evaluation of the award criterion, prices from tenderers registered in Palestine will be taken without VAT and be compared with prices with VAT for the tenderers registered in Israel.

Reminder: joint venture agreements may be set up for this tender, including for the purpose of providing more competitive offers.
6.4 Declaration on honour – Exclusion grounds

§225 Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer declare that the tenderer is not in any of the following cases of exclusion:

1. The tenderer nor any of its directors was found guilty following an **indefeasible judgement** for one of the following offences:
   1. Involvement in a criminal organisation
   2. Corruption
   3. Fraud
   4. Terrorist offence, offence linked to **terrorist activities** or incitement to commit such offence, collusion or attempt to commit such an offence
   5. **Money laundering** or **financing of terrorism**
   6. **Child labour** and other trafficking in human beings
   7. Employment of foreign citizens under **illegal** status
   8. The creation of a shell company.

The exclusions on the basis of this criterion apply for a 5-year term from the date of judgement.

2. The tenderer which fails to fulfil his obligations relating to the payment of taxes or **social security contributions** for an amount in excess of EUR 3 000, except if the tenderer can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges;

3. The tenderer is in a state of **bankruptcy, liquidation, cessation of activities, judicial reorganisation**, or has admitted bankruptcy, or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;

4. The tenderer or one of its directors has committed **serious professional misconduct** which calls into question their integrity.

The following are considered serious professional misconduct, among others:

A breach of Enabel’s Policy regarding sexual exploitation and abuse – June 2019

a) A breach of Enabel’s Policy regarding fraud and corruption risk management – June 2019 [https://www.enabel.be/content/integrity-desk](https://www.enabel.be/content/integrity-desk);

b) A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace;

c) The tenderer was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed this information;

   d) Where Enabel has sufficient plausible evidence to conclude that the tenderer has committed acts, entered into agreements or entered into arrangements to distort competition.

The presence of this tenderer on one of Enabel’s exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.
5. When a conflict of interest cannot be remedied by other, less intrusive measures;

6. Significant or persistent failures by the tenderer were detected during the execution of an essential obligation incumbent on him in the framework of a previous public contract placed with a contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction. Failures to respect applicable obligations regarding environmental, social and labour rights under European Union law, national law, labour agreements or international provisions on environmental, social and labour rights are considered ‘significant’. The presence of the tenderer on the exclusion list of Enabel because of such a failure serves as evidence.

7. Restrictive measures have been taken vis-à-vis the contractor with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

8. The tenderer or one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:

For the United Nations, the lists can be consulted at the following address: [https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-internationales-nations-unies](https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-internationales-nations-unies)

9. If Enabel executes a project for another funder or donor, other grounds for exclusion may be added.

The tenderer formally declares being able, when asked and without delay, to provide the relevant certificates and other kinds of supporting documents, except if:

a. Enabel can directly obtain the supporting documents concerned by consulting a national database in a Member State that is accessible for free, provided the tenderer has given the required information (website address, responsible authority for providing the information, specific reference of the documents) so Enabel can obtain these, with concomitant permission to access them;

b. Enabel already has said documents. The tenderer formally agrees with Enabel accessing the supporting documents substantiating the information provided in this document.

6.5 Integrity Statement of the tenderer

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves of for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.

- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).

- I have / we have read and understood the articles about deontology of this public contract (see 1.7.) as well as Enabel’s Policy regarding sexual exploitation and abuse and Enabel’s Policy regarding fraud and corruption risk management and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I / we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.

- Any failure to comply with one or more of the deontological clauses will lead to the exclusion of the contractor from this and other public contracts for Enabel.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.

6.6 Financial statement - Average Annual Turnover

6.6.1.1 Historical Financial Performance

§226 The tenderer shall include in his tender (Appendix 2 – Audited balance sheets and optional proofs of additional financial resources) audited balance sheets for the last three years (2020-2022) to demonstrate the current soundness of the tenderer’s financial position and its prospective long term profitability. If these are not yet available for the year 2022, (s)he shall declare them on honour and will have to provide the audited documents as soon as possible. Inaccurate declarations will be a cause of ending the contract, if awarded.

§227 (S)he shall include in his tender a statement on the total turnovers achieved over the last three years, unless total turnover is mentioned in the approved Financial Statements that can be consulted via the digital portal (i.e. Financial Statements deposited with the National Bank of Belgium, in a full or shortened accounting scheme in which the option of turnover achieved has been filled out).

6.6.1.2 Selection Criterion 1: Average annual turnover

§228 In one of the past three financial years the tenderer must have achieved a total turnover of at least:

<table>
<thead>
<tr>
<th></th>
<th>Total turnover</th>
</tr>
</thead>
<tbody>
<tr>
<td>For participating in Lot 1</td>
<td>145,000€</td>

<tr>
<td>For participating in Lot 2</td>

<tr>
<td>For participating in Lot 3</td>
<td>20,000</td>
</tr>
<tr>
<td>For participating in Lot 4</td>
<td>170,000</td>
</tr>
<tr>
<td>For participating in Lot 5</td>
<td>50,000</td>
</tr>
</tbody>
</table>

For participating in more than one lot, it is the summation of the minimum for the lot. (for example submitting for lot 1 and 3 the minimum amount is 165,000 Euro)

§229 In the case of a response to several lots, the criteria are accumulated. The tenderer must therefore present the number of references required cumulatively for the different lots for which (s)he is submitting a tender.

§230 The tenderer must complete the following table of financial data based on his annual accounts.

<table>

6.7 Similar supply deliveries

For each lot, tenderer must provide in his offer the list of the **main similar supplies (min. 3 – max 6) delivered in the last 3 years (2021 till present)**, including the amount involved and the relevant dates, and the public or private bodies on behalf of which they were carried out showing that the tenderer has experience in delivering those supplies.

In order to be selected for each of the lots of this contract, the tenderer must have relevant **at least three contracts** relevant similar reference(s) carried out to the highest standard and to the client’s full satisfaction, for the following minimum amounts in Euro (incl. VAT).

<table>
<thead>

For participating in more than one lot, it is the summation of the minimum for the lot. (for example submitting for lot 1 and 3 the minimum amount is 55,000 Euro).

The aim is to present similar projects, both in terms of duration, services installation, within public or private bodies.

In the case of a response to several lots, the criteria are accumulated. The tenderer must therefore present the number of references required cumulatively for the different lots for which (s)he is submitting a tender.
