1 General provisions

1.1 Derogations from the General Implementing Rules

Chapter ‘Specific contractual and administrative conditions’ of these Tender Specifications (CSC/Cahier Spécial des Charges) holds the specific administrative and contractual provisions that apply to this public procurement contract as a derogation of the Royal Decree of 14.01.2013 or as a complement or an elaboration thereof.

1.2 Contracting authority

The contracting authority of this public procurement contract is Enabel, the Belgian development agency, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels in Belgium (enterprise number 0264.814.354, RPM/RPR Brussels). Enabel has the exclusive competence for the execution, in Belgium and abroad, of public service tasks of direct bilateral cooperation with the partner countries. Moreover, it may also perform other development cooperation tasks at the request of public interest organisations, and it can develop its own activities to contribute towards realisation of its objectives.

For this procurement contract, Enabel is represented by Mr. Arnaud Leclercq, Portfolio Manager and Ms Mia Sichelko, Intervention Manager of Team Europe Democracy.

1.3 Institutional setting of Enabel

The general framework of reference in which Enabel operates is:
- The Belgian Law on Development Cooperation of 19 March 2013;
- The Belgian Law of 21 December 1998 establishing the Belgian Technical Cooperation as a public-law company;
- The Belgian Law of 23 November 2017 changing the name of the Belgian Technical Cooperation and defining the missions and functioning of Enabel, the Belgian development agency, published in the Belgian Official Gazette on 11 December 2017.

The following initiatives are also guiding Enabel in its operations: We mention as main examples:

- In the field of international cooperation: the United Nations Sustainable Development Goals and the Paris Declaration on the harmonisation and alignment of aid;
- In the field of Human Rights: the United Nations’ Universal Declaration of Human Rights (1948) as well as the 8 basic conventions of the International Labour Organisation on Freedom of Association (C. n°87), on the Right to
Organise and Collective Bargaining (C. n°98), on Forced Labour (C. n°29 and 105), on Equal Remuneration and on Discrimination in Respect of Employment (C. n°100 and 111), on Minimum Age for Admission to Employment (C. n°138), on the Prohibition of the Worst Forms of Child Labour (C. n°182);

- In the field of environmental protection: The Climate Change Framework Convention in Paris, 12 December 2015;

- The first Management Contract concluded between Enabel and the Belgian federal State (approved by the Royal Decree of 17.12.2017, Belgian Official Gazette 22.12.2017) that sets out the rules and the special conditions for the execution of public service tasks by Enabel on behalf of the Belgian State.

### 1.4 Rules governing the procurement contract

- The following, among other things, applies to this public procurement contract:

- The Law of 17 June 2016 on public procurement contracts;

- The Law of 17 June 2013 on justifications, notification and legal remedies for public procurement contracts and certain procurement contracts for works, supplies and services;

- The Royal Decree of 18 April 2017 on the award of public procurement contracts in the classic sectors;

- Royal Decree of 14 January 2013 establishing the General Implementing Rules for public procurement contracts and for concessions for public works;

- Circulars of the Prime Minister with regards to public procurement contracts.

- All Belgian regulations on public procurement contracts can be consulted on [www.publicprocurement.be](http://www.publicprocurement.be).

- Enabel’s Policy regarding sexual exploitation and abuse – June 2019;

- Enabel’s Policy regarding fraud and corruption risk management – June 2019;

- Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation – ‘GDPR’), and repealing Directive 95/46/EC.

- Law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

All Belgian regulations on public contracts can be consulted on [www.publicprocurement.be](http://www.publicprocurement.be).

---

Enabel’s Code of Conduct and the policies mentioned above can be consulted on Enabel’s website via https://www.enabel.be/content/integrity-desk.

1.5 Definitions

The following definitions apply to this procurement contract:

**The tenderer**: An economic operator submitting a tender;

**The contractor/service provider**: The tenderer to whom the procurement contract is awarded;

**The contracting authority**: Enabel, represented by Mr. Arnaud Leclercq, Portfolio Manager and Ms Mia Sichelkow, Intervention Manager of Team Europe Democracy

**The tender**: Commitment of the tenderer to perform the procurement contract under the conditions that he has submitted;

**Days**: In the absence of any indication in this regard in the Tender Specifications and the applicable regulations, all days should be interpreted as calendar days;

**Procurement documents**: Tender Specifications including the annexes and the documents they refer to;

**Technical specifications**: A specification in a document defining the characteristics of a product or a service, such as the quality levels, the environmental and climate performance levels, the design for all needs, including accessibility for people with disabilities, and the evaluation of conformity, of product performance, of the use of the product, safety or dimensions, as well as requirements applicable to the product as regards the name by which it is sold, terminology, symbols, testing and test methods, packaging, marking or labelling, instructions for use, the production processes and methods at every stage in the life cycle of the supply or service, as well as the evaluation and conformity procedures;

**Variant**: An alternative method for the design or the performance that is introduced either at the demand of the contracting authority, or at the initiative of the tenderer;

**Option**: A minor and not strictly necessary element for the performance of the procurement contract, which is introduced either at the demand of the contracting authority, or at the initiative of the tenderer;

**Inventory**: The procurement document which splits up the performance in different items and specifies the quantity or the method to determine the price for each of them;

**General Implementing Rules (GIR)**: Rules laid down in the Royal Decree of 14.01.2013 establishing the General Implementing Rules for public procurement contracts and for concessions for public works;

**The Tender Specifications** (Cahier spécial des charges/CSC): This document and its annexes and the documents it refers to;

**Corrupt practices**: The offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of
a procurement contract or performance of a procurement contract already concluded with the contracting authority;

Litigation: Court action.

Subcontractor in the meaning of public procurement regulations: The economic operator proposed by a tenderer or contractor to perform part of the contract. The subcontractor is understood as the economic operator with the capacity which the applicant or tenderer relies upon or to whom he entrusts all or part of his engagements.

Controller in the meaning of the GDPR: the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data.

Sub-contractor or processor in the meaning of the GDPR: a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

Recipient in the meaning of the GDPR: a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not.

Personal data: any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

1.6 Processing of personal data by the contracting authority and confidentiality

1.6.1 Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

1.6.2 Confidentiality

The tenderer or contractor and Enabel are bound to secrecy vis-à-vis third parties with regards to any confidential information obtained within the framework of this public contract and will only divulge such information to third parties after receiving the prior written consent of the other party. They will disclose this confidential information only among appointed parties involved in the assignment. They guarantee that said appointed parties will be adequately informed of their obligations in respect of the confidential nature of the information and that they shall comply therewith.

PRIVACY NOTICE OF ENABEL: Enabel takes your privacy serious. We undertake to protect and process your personal data with due care, transparently and in strict compliance with privacy protection legislation.

See also: https://www.enabel.be/content/privacy-notice-enabel
1.7 Deontological obligations

1.7.1. Any failure to comply with one or more of the deontological clauses may lead to the exclusion of the candidate, tenderer or contractor from other public procurement contracts for Enabel.

1.7.2. For the duration of the procurement contract, the contractor and his staff respect human rights and undertake not to go against political, cultural or religious customs of the beneficiary country. The tenderer or contractor is bound to respect fundamental labour standards, which are internationally agreed upon by the International Labour Organisation (ILO), namely the conventions on union freedom and collective bargaining, on the elimination of forced and obligatory labour, on the elimination of employment and professional discrimination and on the abolition of child labour.

1.7.3. In accordance with Enabel’s Policy regarding sexual exploitation and abuse, the contractor and his staff have the duty to behave in an irreproachable manner towards the beneficiaries of the projects and towards the local population in general. They must abstain from any acts that could be considered a form of sexual exploitation or abuse and they must abide by the basic principles and guidelines laid down in this policy.

1.7.4. Any attempt of a candidate or a tenderer to obtain confidential information, to proceed to illicit arrangements with competitors or to influence the evaluation committee or the contracting authority during the investigation, clarification, evaluation and comparison of tenders and candidates procedure will lead to the rejection of the application or the tender.

1.7.5. Moreover, in order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the procurement contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to agents of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the procurement contract, regardless of their hierarchical rank.

1.7.6. The contractor of the procurement contract commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure. Depending on the gravity of the facts observed, the contractor having paid unusual commercial expenditure is liable to have its contract cancelled or to be permanently excluded from receiving funds.

1.7.7. In accordance with Enabel’s Policy regarding sexual exploitation and abuse of June 2019 and Enabel’s Policy regarding fraud and corruption risk management complaints relating to issues of integrity (fraud, corruption, etc.) must be sent to the Integrity desk through the https://www.enabelintegrity.be website.

1.8 Applicable law and competent courts

The procurement contract must be performed and interpreted according to Belgian law.

The parties commit to sincerely perform their engagements to ensure the good performance of this procurement contract.
In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution.

If agreement is lacking, the Brussels courts are the only courts competent to resolve the matter.
2 Subject-matter and scope of the procurement contract

2.1 Type of procurement contract

This procurement contract is a services procurement contract. Conclusion of this contract confers no exclusive rights to the service provider. The contracting authority may, even during the validity term of this contract, have other service providers or its own departments deliver services that are identical or similar to those referred to in these Tender Specifications. Consequently, the service provider may not lay claim to the payment of any sort of compensation.

2.2 Subject-matter of the procurement contract

This services procurement contract consists in the performance of consultancy services in conformity with the conditions of these Tender Specifications.

2.3 Items

This procurement contract consists of the following items:

- Governance Expert.s
- Governance Expert.s on field

The expert.s will have the following qualifications:

- University degree: law, economic and political sciences, anthropology, or others closely related areas to the object of the analysis
- Minimum of 5 years experiences in the field of governance
- Good knowledge of governance challenges in Uganda and in EU policies and programs as NDICI-Global Europe, the EU Action Plan for Human Rights and Democracy, the Gender Action Plan III, and the EU Multi-Annual Indicative Programme (MIP) 2021-2027 for Uganda.

2.4 Term of the procurement contract

The contract runs from the first working day following the notification of the award until the acceptance of the services.

2.5 Variants

Each tenderer may submit only one tender. Variants are forbidden.

---

9 Please note: term of the procurement contract not to be confused with performance period.
2.6 Options

No mandatory or authorized options have been foreseen.
Free options are forbidden.

2.7 Quantity

This procurement contract is packaged in one fixed block (40 days of consultancy) and two conditional blocks (20 consultancy days each).

The execution of each conditional block is subject to a decision by the contracting authority that depends on the European Delegation and the Member States.

Though the contract conclusion pertains to the whole of the contract, it only binds the contracting authority for the fixed block. The performance of each conditional block depends on a decision by the contracting authority of which the contractor is notified in accordance with the modalities provided in the initial procurement documents. The performance of the conditional block may not change the global nature of the contract.
3 Subject-matter and scope of the procurement contract

3.1 Award procedure

3.2 Publication

3.2.1 Official publication
This procurement contract is officially advertised in the Belgian Public Tender bulletin.

3.2.2 Further notification
These Tender Specifications are published on the Enabel website (www.enabel.be).

3.3 Information
The awarding of this procurement contract is coordinated by John Tallon, Expert en Contractualisation / Global Projects Portfolio.

Any question about this procurement contract will be raised exclusively through the ‘forum’ related to the contract notice accessible on the site https://enot.publicprocurement.be, by the 12th of April 2024 the latest. A global answer to these questions will be provided the 17th of April.

3.4 Tender

3.4.1 Data to be included in the tender
The tenderer must use the tender form in annexe. In case he does not use this form, he is fully responsible for the perfect concordance between the documents he has used and the form. The tender and the annexes to the tender form are drawn up in English.

By submitting a tender, the tenderer automatically renounces to his own general or specific sales conditions, even if these are mentioned in any of the annexes to his tender.

The tenderer clearly designates in his tender which information is confidential and/or relates to technical or business secrets and may therefore not be divulged by the contracting authority.

3.4.2 Period the tender is valid
The tenderers are bound by their tender for a period of 120 calendar days from the reception deadline date. The validity of the tender will be negotiated, if the deadline stated above is overrun.
3.4.3 Determination of prices

All prices given in the tender form must obligatorily be quoted in EUROS.

This procurement contract is mixed, meaning that the prices are defined according to the following settings:

- **Lump-sum price** procurement: The procurement contract in which the flat rate price covers the whole performance or each of the items.
- **Schedule of prices** procurement: A procurement contract in which the unit prices of the different items are flat rate prices and the quantities, in as far as these quantities are set for the items, are presumed or expressed within a range. The items are charged on the basis of the quantities effectively ordered and implemented.

In accordance with Article 37 of the Royal Decree of 18 April 2017, the contracting authority may for the purpose of verifying the prices carry out an audit of any and all accounting documents and an on-site audit to check the correctness of the indications supplied.

3.4.3.1 Elements included in the price

The service provider is deemed to have included in his unit and global prices any charges and taxes generally applied to services, with the exception of the value-added tax.

The following are in particular included in the prices:

- The administrative management and secretariat;
- Travel, transportation and insurance;
- The perdiems (daily allowance);
- Documentation pertaining to the services;
- The delivery of documents or of pieces related to the performance;
- The packaging;
- Training required for operation;
- Where applicable, the measures imposed by occupational safety and worker health legislation;
- Customs and excise duties for equipment and products used;

3.4.4 How to submit tenders?

The tenderer submits his tender via the e-tendering internet site https://eten.publicprocurement.be/, which ensures compliance with the conditions of Article 14, §7 of the Law.

Further information can be obtained on the site http://www.publicprocurement.be or by calling the e-procurement department helpdesk: +32 (0)2 790 52 00.
The tenderer must not sign the tender and its annexes individually when they are uploaded to the electronic platform. These documents are signed **globally** by affixing a **signature to the relevant submission report**.

Any request for participation or tender must arrive before the final submission date and time. Requests for participation or tenders that arrive late will not be accepted.

### 3.5 Submission of tenders E-tendering

**Legal framework**

Article 14 of the Law of 17 June 2016 imposes that notifications and the sharing of information between the contracting authority and the economic operators be by electronic means of communication, including the digital transfer and reception of tenders, subject to the exception listed in §2 to 4 of said Article (for instance, Negotiated Procedure without Prior Publication with an estimated value below the threshold set for European publication).

**Tender Specifications clause**

In accordance with rules applicable to means of communication, only tenders submitted by electronic means are accepted. Consequently, it is not allowed to submit a tender on paper and the contracting authority will only take into account the tender submitted by electronic means.

For this procurement contract, electronic submission of a tender is via the internet applications of Belgium’s federal **e-Procurement service** ([https://my.publicprocurement.be](https://my.publicprocurement.be)).

For more information on registration or the connection with the platform please consult the manual (in French, Dutch and English) given in attachment or use one of the links below:

There are technical limits imposed by the platform for uploading documents:

- maximum 80 MB per document (but the tenderer may split the document in two or more clearly separate files);
- maximum 350 MB for the whole of the documents;
- maximum 20 documents uploaded simultaneously;
- maximum 50 documents per tender;

The documents must be in a .pdf or equivalent format.
The tender must be uploaded on the https://eten.publicprocurement.be website, more specifically on the page on which this publication is posted by clicking on “Access to the e-Tendering Platform”.

The documents are signed globally by placing a signature on the related submission report. It must be signed with the qualified electronic signature of the legal representative (or mandatary) of the tenderer.

### 3.5.1 Change or withdrawal of a tender that has already been submitted

When a tenderer wants to change or withdraw a tender already sent or submitted this must be done in accordance with the provisions of Articles 43 and 85 of the Royal Decree of 18 April 2017.

To change or withdraw a tender already sent or submitted, a written statement is required, which will be correctly signed by the tenderer or his representative. The subject-matter and the scope of the changes must be indicated in detail. Any withdrawal must be unconditional.

The withdrawal may also be communicated by fax or electronic means, provided that it is confirmed by registered letter deposited at the post office or against acknowledgement of receipt at the latest the day before the tender acceptance deadline.

When the tender is submitted via e-tendering, the tender is modified or withdrawn in accordance with Article 43, §2 of the Royal Decree of 18 April 2017.

Thus, a tender that is modified or withdrawn after the signing of the submission report means that a new submission report, signed in accordance with paragraph 1, must be sent.

The subject-matter and the scope of the changes must be indicated in detail. The withdrawal must be pure and simple.

When the submission report drawn up following the modifications or withdrawal set out in clause 1 does not bear the signature referred to in paragraph 1, the modification or withdrawal is automatically deemed null and void. This nullity applies only to the modifications or withdrawal, not to the tender itself.

### 3.5.2 Opening of Tenders

The tenders must be in the possession of the contracting authority before the 22nd of April 2024 at 17 pm (UTC+2).

Tenders will be opened behind closed doors.

### 3.5.3 Selection of tenderers

#### 3.5.3.1 Exclusion grounds

The mandatory and optional exclusion grounds are given in attachment to these Tender Specifications.

By submitting this tender, the tenderer certifies that he is not in any of the cases of exclusion listed in the Articles 67 to 70 of the Law of 17 June 2016 and the Articles 61 to 64 of the Royal Decree of 18 April 2017.

The contracting authority will verify the accuracy of this Declaration on honour for the tenderer with the best tender.
For that purpose, the contracting authority will ask the tenderer concerned to provide information or documents allowing the contracting authority to verify the tenderer’s personal situation by the fastest means and within the term set by the contracting authority.

The contracting authority will itself ask for information or documents that it can obtain free of charge by digital means from the instances that manage the information or documents.

3.5.3.2 Selection criteria

The tenderer must prove that he is sufficiently capable, from a technical point of view, to successfully perform this public procurement contract based on his/her expertise on similar services.

**Technical aptitude: See Art. 68 of the Royal Decree of 18.04.2017**

The tenderer includes in his tender a list with the main services that have been delivered over the past three years including the amount and date as well as the public or private recipients. The **minimum total value** of services delivered **during the 3 years** must exceed or equal EUR 60,000 VAT included.

3.5.3.3 Overview of the procedure

In a first phase, the tenders submitted by the selected tenderers will be evaluated as to formal and material regularity. Irregular tenders will be rejected.

The contracting authority reserves the right to have the irregularities in the tenderers’ tender regularised during the negotiations.

In a second phase, the formally and materially regular tenders will be evaluated as to content by an evaluation commission. The contracting authority will restrict the number of tenders to be negotiated by applying the award criteria stated in the procurement documents. This evaluation will be conducted on the basis of the award criteria given in these Tender Specifications and aims to setting a shortlist of tenderers with whom negotiations will be conducted. Maximum 3 tenderers may be included in the shortlist.

Then, the negotiation phase follows. In view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The minimum requirements and the award criteria are not negotiable. However, the contracting authority may also decide not to negotiate. In this case, the initial tender is the final tender.

When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any BAFOs. Once negotiations have closed, the BAFO will be compared with the exclusion, selection and award criteria. The tenderer whose BAFO shows the best value for money (obtaining the best score based on the award criteria given below) will be designated the contractor for this procurement contract.

Tender Specifications BEL22001-10047
3.5.3.4 Award criteria

The contracting authority will choose the regular BAFO that it finds to be most advantageous, taking account of the following criteria:

- Prices (20%)
- Methodology received prior to the tender attribution, based on these elements (3-8 pages maximum) (45%):
  - the relevant questions for this analysis and the explanations concerning why these key questions are crucial for evaluating the existing power dynamics in Uganda (Out of 10)
  - the relevance of actors to be considered for this analysis (Out of 10)
  - the relevant national strategic plan or laws related to governance in Uganda (Out of 10)
  - the literature review of reports on the governance situation in the country (rule of law, citizen & political participation) (Out of 10)
  - the question of gender needs to be addressed as a cross-cutting issue (Out of 5)
- The CV of the expert or the team of two experts serves as a basis for verifying its requirements (35%)
  - Relevant missions in political economic analysis in Uganda (Out of 15)
  - Relevant experiences in European programs on governance in Uganda (Out of 15)
  - Complementary profile between the experts in case of a team of experts (Out of 5)

3.5.3.5 Final score

The scores for the award criteria will be added up. The procurement contract will be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the Declaration on honour of this tenderer and provided the control shows that the Declaration on honour corresponds with reality.

3.5.3.6 Awarding the procurement contract

The public contract will be awarded to the tenderer with the highest final score. Notice though that in accordance with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the procurement contract.

The contracting authority may either decide not to award the procurement contract; either redo the procedure, if necessary through another award procedure.

3.5.4 Concluding the procurement contract

In accordance with Art. 88 of the Royal Decree of 18 April 2017, the procurement contract occurs through the notification to the selected tenderer of the approval of his tender.

Notification is via digital platforms, e-mail or fax and, on the same day, by registered post.
So, the full contract agreement consists of a procurement contract awarded by Enabel to the chosen tenderer in accordance with:

- These Tender Specifications and its annexes;
- The approved BAFO of the contractor and all of its annexes;
- The registered letter of notification of the award decision;
- Any later documents that are accepted and signed by both parties, as appropriate.

In an objective of transparency, Enabel undertakes to publish each year a list of recipients of its contracts. By introducing his tender, the successful tenderer declares that he agrees with the publication of the title of the contract, the nature and object of the contract, its name and location, and the amount of the contract.
4 Special contractual provisions

This chapter of these Tender Specifications holds the specific provisions that apply to this public procurement contract as a derogation of the 'General Implementing Rules for public procurement contracts and for public works concessions' of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR', or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

These tender documents derogate from Art. 25-33 of the General Implementing Rules (see point 4.7 “Performance guarantee”).

4.1 Managing official (Art. 11)

The managing official is Ms Mia Sichelkow Intervention Manager of Team Europe Democracy mia.sichelkow@enabel.be

Once the procurement contract is concluded, the managing official is the main contact point for the service provider. Any correspondence or any questions with regards to the performance of the procurement contract will be addressed to him/her, unless explicitly mentioned otherwise in these Tender Specifications.

The managing official is responsible for the follow-up of the performance of the contract.

The managing official is fully competent for the follow-up of the satisfactory performance of the procurement contract, including issuing service orders, drawing up reports and states of affairs, approving the services, progress reports and reviews. (S)he may order any modifications to the procurement contract with regards to its subject-matter provided that they remain within its scope.

However, the signing of amendments or any other decision or agreement implying derogation from the essential terms and conditions of the procurement contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under the contracting authority.

Under no circumstances is the managing official allowed to modify the terms and conditions (e.g. performance deadline) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the Tender Specifications and that has not been notified by the contracting authority, will be considered null and void.

4.2 Subcontractors (Art. 12 to 15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not relieve him of liability to the contracting authority. The latter does not recognise any contractual relation with third parties.

The contractor remains, in any case, solely liable to the contracting authority.

The service provider commits to having the procurement contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the procurement contract. Any replacements must be approved by the contracting authority.
When the contractor uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

4.3 Confidentiality (art. 18)

The knowledge and information gathered by the tenderer under the framework of this public contract is strictly confidential.

Under no circumstances can the information collected, regardless of its origin and nature, be transferred to third parties in any form.

The tenderer is therefore bound by the duty of discretion.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he/she undertakes to:

• Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);

• Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);

• Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;

• Return, at the first request of the contracting authority, the above elements;

• In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

4.4 Protection of personal data

4.4.1 Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the
Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

### 4.4.2 PROCESSING OF PERSONAL DATA BY A SUBCONTRACTOR

During contract performance, the contractor may process personal data of the contracting authority exclusively in the name and on behalf of the contracting authority, for the sole purpose of performing the services in accordance with the provisions of the Tender Specifications or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

The personal data that will be processed are confidential. The contractor will therefore limit access to data to the strictly necessary personnel for the performance, management and monitoring of the public contract.

For the performance of the public contract, the contracting authority will determine the purposes and means of processing personal data. In this case, the contracting authority will be responsible for the processing and the contractor will be its processor, within the meaning of Article 28 of the GDPR.

Processing carried out on behalf of a controller must be governed by a contract or other legal act that is binding on the processor with regard to the personal data controller and that sets out that the subcontractor acts only on the instruction of the person in charge of the processing and that the confidentiality and security obligations regarding the processing of personal data are also the responsibility of the subcontractor (Article 28 §3 of the GDPR).

To this end, the tenderer must fill out, sign and submit to the contracting authority the subcontracting agreement given in Annex [X]. Filling out and signing this annex is therefore a condition of regularity of the tender.

### 4.5 Intellectual property (Art. 19 to 23)

The contracting authority acquires the intellectual property rights created, developed or used during performance of the contract.

### 4.6 Performance bond (Art. 25 to 33)

For this procurement contract no performance bond is required.
4.7 Conformity of performance (Art. 34)

The services must comply in all respects with the procurement documents. Even in the absence of technical specifications in the procurement documents, the services must comply in all aspects with good practice.

4.8 Changes to the procurement contract (Art. 37 to 38/19)

4.8.1 Replacement of the contractor (Art. 38/3)

Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial procurement contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of supplies and services already performed, the new contractor’s contact details and the documents and certificates which the contracting authority cannot access free of charge.

The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the procurement contract.

4.8.2 Replacement of the experts

The contractor may propose to replace the expert provided the following conditions and modalities are respected.

He submits to the managing official the expert’s CV and the agreement of the expert to work for his account. The expert proposed must have similar competences and comply with the specifications set out in 2.3.

The contracting authority maintains the right to accept or refuse the new expert proposed even if she or he fulfils the above condition.

4.8.3 Revision of prices (Art. 38/7)

The prices are adjusted annually on the anniversary date of public contract conclusion based on the health index.

The price revision is calculated by means of the following formula:

\[
\text{Price revision} = (\text{revision coefficient} \ (k) - 1) \times \text{revisable part}
\]

\[
k = 1 \times \frac{\text{IS}}{\text{IS}} \times \frac{\text{GI}}{\text{GI}}
\]

\[
\text{IS} = \text{health index} ('\text{Indice Santé}') \text{ on the day the tenders are opened.}
\]

\[
\text{is} = \text{same index, on date of invoicing.}
\]
As from the second year, the contractor may submit a new price quote at the beginning of the year. The revised prices will only apply when they have been approved by the contracting authority.

4.8.4 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

The contracting authority reserves the right to suspend the performance of the procurement contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance time and at least ten working days or two calendar weeks, depending on whether the performance time is expressed in working days or calendar days;
- The suspension is not due to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the procurement contract.

4.8.5 Unforeseen circumstances

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this procurement contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.9 Preliminary technical acceptance (Art. 42)

The contracting authority reserves the right to demand an activity report at any time of the assignment to the service provider (meetings held, persons met, institutions visited, summary of results, problems encountered and unresolved issues, deviations from the planning and deviations from the ToR...).
4.10 Performance modalities (Art. 146 et seq.)

4.10.1 Deadlines and terms (Art. 147)

The services must be performed according to the planning as from the day after the date on which the service provider received the contract conclusion notification letter for the contract (fixed block) or one of the conditional blocks.

The execution of one of the conditional blocks is subject to a decision by the contracting authority that depends on the European Delegation and the Member States. That decision will include a planning that might change depending on the exchange with the European Delegation.

4.10.2 Place where the services must be performed and formalities (Art. 149)

The services will be performed in Kampala and/or place of the location of the consultants through physical and online meetings.

4.11 Inspection of the services (Art. 150)

If during contract performance irregularities are found, the contractor will be notified about this immediately by e-mail.

The service provider advises the managing official by registered post or e-mail showing the exact date of dispatch, at which date the services can be controlled.

4.12 Liability of the service provider (Art. 152-153)

The service provider takes the full responsibility for mistakes and deficiencies in the services provided.

Moreover, the service provider indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the services or due to failure of the service provider.

4.13 Zero tolerance Sexual exploitation and abuse

In application of Enabel’s Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

4.14 Means of action of the contracting authority (Art. 44-51 and 154-155)

The service provider’s default is not solely related to services as such but also to the whole of the service provider’s obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the procurement contract, it is strictly forbidden to the service provider to
offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the procurement contract, regardless of their hierarchical rank.

In case of violation, the contracting authority may impose a lump-sum fine to the service provider for each violation, which can be to up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the contractor hoped to obtain by offering the advantage to the employee. The contracting authority will decide independently about the application and the amount of this fine.

This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the procurement contract and/or the exclusion of procurement contracts of the contracting authority for a determined duration.

4.14.1 Failure of performance (Art. 44)

§1 The contractor is considered to be in failure of performance under the procurement contract:

1° when the delivery is not carried out in accordance with the conditions specified in the procurement documents;

2° at any time, when the delivery has not progressed in such a way that it can be fully completed on the due dates;

3° when he does not observe written orders, which are given in due form by the contracting authority.

§2 Any failure to comply with the provisions of the procurement contract, including the non-observance of orders of the contracting authority, is recorded in a report (‘process verbal’), a copy of which will be sent immediately to the contractor by registered mail.

The contractor must repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed as acknowledgement of the reported facts.

Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 154 and 155.

4.14.2 Fines for delay (Art. 46 and 154)

The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance term without the issuing of a report and they are automatically applied for the total number of days of delay.

Without prejudice to the application of fines for delay, the contractor continues to guarantee the contracting authority against any damages for which it may be liable to third parties due to late performance of the procurement contract.

4.14.3 Measures as of right (Art. 47 and 155)

§1 When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.
However, the contracting authority may apply measures as of right without waiting for the expiry of the term given in Article 44, §2, when the contractor has explicitly recognised the defects found.

§2 The measures as of right are:

1° Unilateral termination of the procurement contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;

2° Performance under regie of all or part of the non-performed procurement contract;

3° Conclusion of one or more replacement procurement contracts with one or more third parties for all or part of the procurement contract remaining to be performed.

The measures referred to in 1°, 2° and 3° will be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement procurement contract will be borne by the new contractor.

4.15 End of the procurement contract

4.15.1 Acceptance of the services performed (Art. 64-65 and 156)

The managing official will closely follow up the services during performance.

Provisional acceptance is provided upon the completion of service delivery of each block and final acceptance is provided marking full completion of the procurement contract.

The contracting authority disposes of a verification term of thirty days starting on the final or partial end date of the services, set in conformity with the modalities in the procurement documents, to carry out the acceptance formalities and to notify the result to the service provider. This term commences provided that the contracting authority possesses, at the same time, the list of services delivered or the invoice. Upon expiry of the thirty-day term following the date stipulated for completion of the entirety of the services, depending on the case, an acceptance report or a refusal of acceptance report will be drawn up.

Where the services are completed before or after this date, it is the responsibility of the service provider to notify the managing official by registered letter, and at the same time to ask for the acceptance procedure to be carried out. Within thirty days after the date of receipt of the service provider’s request, an acceptance or a refusal of acceptance report will be drawn up, depending on the case.

The acceptance specified above is final.

4.15.2 Acceptance costs

Travel costs and costs for the stay of the managing official will be borne by the service provider.

4.15.3 Invoicing and payment of services (Art. 66 to 72 – 160)

At the end of each block, the contractor must send the invoices (in a single copy) and the provisional acceptance report for the public contract (original copy) to the following address

Enabel – Belgian development agency
Rue Haute 147
1000 Brussels
In accordance with Directive 2014/55/EU and the Royal Decree of 9 March 2022 on public procurement specifying the obligation for companies to use electronic invoicing, the contractor must use an electronic invoicing system.

If the contractor is registered with the Enterprise Crossroads Bank (Banque Carrefour des Entreprises) in Belgium, he can use the Belgian Mercurius portal to receive electronic invoices in accordance with the standards and rules in force.

Non-Belgian contractors can use one of the certified access points on the international network Peppol. To access the list of service providers offering the use of these access points: https://peppol.org/members/peppol-certified-service-providers/.

Only service delivery that has been performed correctly may be invoiced.

The contracting authority disposes of a verification term of thirty days starting on the end date of service delivery, established in conformity with the modalities in the procurement documents, to carry out the technical acceptance and provisional acceptance formalities and to notify the result to the service provider.

The amount owed to the service provider must be paid within thirty days with effect from the expiry of the verification term or with effect from the day after the last day of the verification term, if this is less than thirty days. And provided that the contracting authority possesses, at the same time, the duly established invoice.

When the procurement documents do not provide for any separate debt claim, the invoice will constitute the debt claim.

The invoice must be in euros.

4.16 Litigation (Art. 73)

The competent courts of Brussels have exclusive jurisdiction over any dispute arising from the performance of this procurement contract. French or Dutch are the languages of proceedings.

The contracting authority will in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of this procurement contract. The contractor indemnifies the contracting authority against any claims for compensation by third parties in this respect.

In case of ‘litigation’, i.e. court action, correspondence must (also) be sent to the following address:

Belgium
5 Terms of Reference

The Team Europe Democracy (TED) is a global thematic Team Europe Initiative (TEI) launched in December 2021 to promote democracy and human rights worldwide. Fourteen Member States (MS) are involved in TED: Belgium, Croatia, Czech Republic, Denmark, Finland, France, Germany, Ireland, Luxembourg, Netherlands, Poland, Slovakia, Spain, and Sweden. The Specific Objective of TED is to create a coordinated strategic European response in support of democracy. Its operationalisation is facilitated by a Secretariat represented by staff members of GIZ and Enabel, which have signed a Multi-Partner Contribution Agreement (MPCA) with the EU for this purpose. The project started in July 2022. TED aims to work in three areas which are (1) rule of law and accountability, (2) civic and political participation and (3) media/digitalization. These areas appear through different work stream of the project, such as the one that are in Output 3: EUD’s support in short term expertise in partner countries to coordinate, facilitate and write strategic documents for Team Europe and, by the work that will be made by the network.

Building on lessons learned from the EU-funded “Justice and Accountability Reform” programme and the Democratic Governance Facility in Uganda, TED has supported the EUD in Uganda in drafting the Action Document for a new programme on “Advancing Governance and Accountability”.

In March 2023, as part of the formulation process, TED’s team met with different actors: European and like-minded development partners, NGOs working on human rights and accountability, media actors and state institutions working on core governance issues, such as the Uganda Human Rights Commission (UHRC), the Parliament of Uganda including relevant committees (Human Rights Committee, Public Accounts Committee (PAC), Committee on Local Government Accounts), District Councils, the Office of the Auditor General (OAG), the Public Procurement and Disposal of Assets Authority (PPDA), the Inspectorate of Government (IG), the Office of the Director of Public Prosecution (ODPP), the Anti-Corruption Division of the High Court (regional outreach), and the Directorate of Ethics and Integrity.

These meetings were used to suggest priority themes within the focus on governance and accountability that should be addressed in the EU Action Document, notably:

- Strengthening capacity of accountability and governance institutions to deliver on their respective mandates
- Empowering citizen and community engagement in good governance mechanisms

The TED team outlined specific actions aimed at achieving these objectives and summarized the key lessons learned from previous programs. A risk analysis was also conducted to further guide the activities of the proposed action.

For this new mission, and considering the changing political context, TED would like to assist the European Delegation and the Member States in **enhancing the resilience of the European support for democracy**. To achieve this, the TED team proposes to **conduct an annual assessment of the political context and stakeholders for 3 years (2024-2027)**.

This contextual study will be based on a set of key questions to be defined by the consultants in close collaboration with the EUD. The study will seek to understand how political, economic, security, and societal factors can impact European support for democracy. It will also look into how the main actors, including government structures, local authorities, the

---

private sector, informal solidarity groups and civil society are involved in driving governance changes and what are the power dynamics in place. This research will build upon the Member States’s expertise and the stakeholders’ analysis developed during the formulation of the Action Document.

Uganda’s context

Although Uganda has effectively been led by a one-party state for 37 years after the coup in 1986, its Constitution remains rooted in the principles of a multiparty democracy and the rule of law. The upcoming presidential election in 2026 will be a significant milestone to gauge the extent to which these principles are indeed respected.

There are increasingly pressing concerns related to human rights and democratic governance in Uganda in recent years. One persistent issue contributing to the deteriorating state of democratic governance is corruption. Corruption is considered as the abuse of entrusted power for private gain. It is a frequent topic of discussion in the media and has various negative impacts on human rights. One well-known example of corruption is bribery by public officials linked to the making of an official decision. Such misappropriation of funds has the potential of undermining essential sectors such as healthcare or education. According to the recent report of the Inspectorate of Government, the estimated annual cost of corruption in Uganda is a staggering 9.1 trillion UGX (equivalent to over 2 billion EUR)\(^\text{12}\). Furthermore, Uganda’s ranking on the Corruption Perception Index was 142/180\(^\text{13}\) in Transparency International Index in 2022, placing it amongst the worst-performing countries in the East Africa region. The Mo Ibrahim Governance Index published in 2021 confirmed also issues relating to governance. Uganda is below the African average in governance, at 47.5% (Uganda is 31 out of 54).

This index also observed a deterioration of security, rule of law, inclusion and, participation between 2012 and 2021, with a decrease of 6 to 7%. The 1995 Constitution of the Republic of Uganda provides the core elements of civic space rights. In addition to those rights being enshrined in the Constitution, the 2021 national report on the Universal Periodic Review has highlighted positive changes since 2016 towards enacting various laws and policies. Such changes are reflected through the integration of international human rights standards at the domestic level or the increasing presence of institutions supporting civic space and human rights with examples such as the Uganda Human Rights Commission, the Equal Opportunities Commission or the Parliamentary Committees on Human Rights\(^\text{14}\). Based on the recommendations of the Universal Periodic Review, these institutions could be improved, and with them the Ugandan civic space. This is especially relevant for minorities and vulnerable groups such as refugees, persons with disabilities, women. The 2021 civic space index of the National Coalition of Human Rights Defenders showed others challenges for civic space, such as repressive clauses in laws such as in the NGO Act (2016) and Anti-Money Laundering Act. This led, among other things to the violation of the rights of freedom of association. The report highlighted also concern on the criminalisation of the practise of journalism\(^\text{15}\). More recently, environmental defenders have been facing this repressive approach from the government in their action against The East African Crude Oil Pipeline

\(^{15}\) The national coalition of human right defenders in Uganda, “Civic space index 2021”. Access link: Uganda-Civic-Space-Index-2021-NCHRDU.pdf
(EACOP). Indeed, the government used the 2016 NGO law and the argument of security reasons to imprison some activists, as highlighted by Human Rights Watch reports.\textsuperscript{16}

Despite these concerns, Uganda advocates in its national strategy, the National Development Plan III (2020/21 – 2024/25), for the promotion of good governance, the fight against corruption, and the upholding of human rights. Uganda has several institutions and actors in place that advocate for transparency, such as the Office of the Auditor General (OAG), the Inspectorate of Government (IG) and the Public Procurement and Disposal of Public Assets Authority (PPDA) and human rights institutions such as the ones mentioned earlier.

Continuous deliberations and dialogues between Uganda and the European Union (EU) have taken place to tackle these challenges. This political dialogue is not always a source of change because of the very different positions and approaches of the two parties.

6 Description of the mission

6.1 Steps and activities per tranche

The objective of this mission is \textit{to conduct an annual assessment of the political context and stakeholders to enhance the resilience of the European support for democracy in Uganda and considering different political scenarios possible in Uganda.}

June 2024

| The field mission will be organised if the meetings can’t be done remotely. |

Phase 3:
September-October 2024

| - Draft report of the mission with the recommendations considering different scenarios possible |
| - Exchange with EUD and MS on the findings |
| - Finalization of the report |
| 10 days |

Conditional block 1

Phase 4:
September-October 2025

| - Update of the analysis and field mission if needed |
| 20 days |

Conditional block 2

Phase 5:
September-October 2026

| - Update of the analysis and field mission if needed |
| 20 days |

6.2 Delivrables

The documents mentioned below will be considered as deliverables:

- The desk report (15 pages document)
- The set of questions for the annual assessment
- The annual analysis of the key questions (30 pages maximum)
- The analysis will include the context, the answer to the key questions and concrete recommendations for EU actors considering different scenarios possible in Uganda.

7.2 Tender Forms – prices

By submitting this tender the tenderer commits to performing this public contract in conformity with the provisions of the Tender Specifications BEL22001-10047 and explicitly declares accepting all conditions listed in the Tender Specifications and renounces any derogatory provisions such as his own general sales conditions.

The unit prices and the global prices for each item in the inventory are established relative to the value of these items in relation to the total value of the tender. All general and financial costs as well as the profits are distributed between the various items in proportion to their weight. The value added tax is a special item of the inventory to be added to the tender’s value. The tenderer commits to performing the public contract in accordance with the provisions of the Tender Specifications BEL22001-10047 for the following prices, given in euros and exclusive of VAT:

7.3 Declaration on honour – exclusion criteria

Hereby, I/we, acting as legal representative(s) of above-mentioned tenderer, declare that the tenderer does not find himself in one of the following situations:

1) The tenderer or one of its ‘directors[1]’ was found guilty following a conviction by final judgement for one of the following offences:
   a. involvement in a criminal organisation
   b. corruption
   c. fraud
   d. terrorist offences, offences linked related to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
   e. money laundering or terrorist financing
   f. child labour and other trafficking in human beings
   g. employment of foreign citizens under illegal status
   h. creating a shell company.

2) The counterparty which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the counterparty can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.

3) The counterparty who is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganisation or has admitted bankruptcy or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;

4) When Enabel can demonstrate by any appropriate means that the counterparty or any of its directors has committed serious professional misconduct which calls into question his integrity.

Are also considered such serious professional misconduct:

a. A breach of Enabel’s Policy regarding sexual exploitation and abuse – June 2019

b. A breach of Enabel’s Policy regarding fraud and corruption risk management – June 2019

c. A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace

d. The counterparty was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed this information
e. Where Enabel has sufficient plausible evidence to conclude that the counterparty has committed acts, entered into agreements or entered into arrangements to distort competition

The presence of this counterparty on one of Enabel's exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

5) When a conflict of interest cannot be remedied by other, less intrusive measures;
6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

The counterparty or one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:

For the United Nations, the lists can be consulted at the following address:

https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-internationales-nations-unies

For the European Union, the lists can be consulted at the following address:

https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-europ%C3%A9ennes-ue

https://eeas.europa.eu/headquarters/headquarters-homepage/8442/consolidated-list-sanctions_en

For Belgium:

https://finances.belgium.be/fr/sur_le_spf/structure_et_services/administrations_generales/tr%C3%A9sorerie/contr%C3%B4le-des-instruments-1-2

8) << If Enabel executes a project for another funder or donor, other grounds for exclusion may be added.
7.4 Integrity statement for the tenderers

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.

- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).

- I have / we have read and understood the articles about deontology and anti-corruption included in the Tender Documents (see 1.7.), as well as Enabel’s Policy regarding sexual exploitation and abuse of June 2019 and Enabel’s Policy regarding fraud and corruption risk management of June 2019 and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.

- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.

- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.

- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.

Signature preceded by ‘read and approved’, in writing, and indication of name and function of the person signing:

............................................

Place, date

Tender Specifications BEL22001-10047
7.5 Overview of the documents to be submitted – to be completed exhaustively

- Power of attorney

The Bidder shall include in his tender the power of attorney empowering the person signing the bid on behalf of the company, joint venture or consortium.

In case of a consortium or a temporary association, the joint bid must specify the role of each member of the consortium. A group leader must be designated, and the power of attorney must be completed accordingly.

- The statutes or any other document required to establish the power of attorney of the signer(s)

- Identification forms

- Tender form

- Declaration on honour

- Integrity statement for the tenderers

- List of similar assignments that have been performed by the Service Provider over the past three years (Technical aptitude)

- CV of the expert(s) who will be in charge of the performance of the contract

- Methodology of 3 to 8 pages maximum (award criteria)

- Any other document that has been required below
7.6 Annexes

7.6.1 GDPR clauses (in case of contractor who will process personal data)

This annex is to be used if the tenderer is a sub-contractor in the sense of GDPR regulations, a natural or legal entity that processes personal data on behalf of Enabel.

Personal data: any information relating to an identified or identifiable natural person (‘data subject’); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

AGREEMENT on the Processing of personal data (GDPR)

BETWEEN:

The contracting authority: Enabel, the Belgian development agency, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels, Belgium (enterprise number 0264.814.354, RPM/RPR Brussels).

Represented by: [..........................................................]

Hereinafter referred to as ‘the contracting authority’ or ‘personal data controller’.

AND:

The contractor: [..........................................................], with its registered office at

Tender Specifications BEL22001-10047
The contracting authority and the contractor are referred to separately as a ‘Party’ and are jointly referred to as the ‘Parties’.

Preamble

By decision of the [........................], the contractor was awarded a public contract in accordance with Tender Specifications no. [.....................].

The needs of this public contract involve the processing of personal data within the meaning of the Belgian law on the protection of natural persons with regard to the processing of personal data and of European Regulation 2016/679 (GDPR).

The purpose of this amendment is to comply with the requirements of Article 28 of the GDPR.

The public contract conditions are not otherwise derogated, particularly in terms of the time frame and value of the public contract awarded.

Article 1: Definitions

1.1. Terms such as ‘process’/‘processing, ‘personal data,’ ‘personal data controller’, ‘processor’ and ‘personal data breach’ must be interpreted in light of data protection legislation. ‘Data protection legislation’ refers to any regulation of the European Union and/or its Member States, including, without being limited to laws, directives and regulations for the protection of personal data, in particular European Regulation 2016/679 on the protection of natural persons with regard to the processing of personal data and the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

Article 2: Subject-matter of the Agreement
2.1. During performance of the public contract, the contracting authority entrusts the contractor with the processing of personal data. The contractor undertakes to process personal data in the name of and on behalf of the contracting authority.

2.2. The contractor performs the public contract in accordance with the provisions of this Agreement.

2.3. Both Parties explicitly undertake to comply with the provisions of applicable data protection laws and to do nothing or fail to cause the other Party to violate relevant and applicable data protection laws.

2.4. The elements included in the processing are further included and clarified in Annex 1 of this Agreement. The following are particularly included in said Annex:

   a) Personal data processing activities;
   b) The categories of personal data processed;
   c) The categories of stakeholders to which the personal data of the contracting authority’s relate;
   d) The purpose of the processing.

2.5. Only the personal data mentioned in Annex 1 of this Agreement may and must be processed by the contractor. In addition, personal data will only be processed in light of the purposes set out by the Parties in Annex 1 of this Agreement.

2.6. Both Parties undertake to take appropriate measures to ensure that personal data are not misused or acquired by an unauthorized third party.

2.7. In the event of a conflict between the provisions of this Agreement and those of the Tender Specifications, the provisions of this Agreement will prevail.

Article 3: Instructions of the contracting authority

3.1. The contractor undertakes to process personal data only on the documented instructions of the contracting authority and in accordance with agreed processing activities as defined in Annex 1 of this Agreement. The contractor will not process the personal data subject to this Agreement in a manner inconsistent with the instructions and provisions of this Agreement.

3.2. The contractor undertakes to process personal data in accordance with the documented instructions of the personal data controller, including for transfers of personal data to third countries or to international organisations, unless it is required under EU or Member State law. In this case, the processor informs the...
personal data controller of this legal obligation prior to processing unless the relevant law prohibits such information for important public interest reasons.

3.3. The contracting authority may unilaterally make limited changes to the instructions. The contracting authority undertakes to consult with the contractor before making significant changes to the instructions. Changes affecting the content of this Agreement must be agreed by the Parties.

3.4. The contractor undertakes to immediately notify the contracting authority if it considers that the instructions received (in whole or in part) constitute a violation of the Regulations or other provisions of EU law or Member State data protection law.

Article 4: Assistance to the contracting authority

4.1. **Legal conformity** The contractor assists the contracting authority in accordance with its obligations under the Regulation, taking into account the nature of the processing and the information available to the contractor.

4.2. **Personal data breach** In the case of a personal data breach in relation to processing under this Agreement, the contractor must without undue delay after having become aware of it notify the personal data breach to the contracting authority.

At the very least, this notification should include the following information:

(a) Nature of the personal data breach;
(b) The categories of personal data;
(c) The categories and approximate number of data subjects concerned;
(d) The categories and approximate number of personal data records concerned;
(e) The likely consequences of the personal data breach;
(f) The measures taken or proposed to be taken by the contractor to address the personal data breach, including, where appropriate, measures to mitigate its possible adverse effects.

The contractor is required to remedy the negative consequences of a data breach as quickly as possible or to minimise other potential consequences. The contractor will immediately implement all remedies requested by the contracting authority or the relevant authorities to remedy any data breach or other non-compliance and/or mitigate the risks associated with these events. The contractor will have to cooperate at all times with the contracting authority and observe its instructions in order to enable it to carry out an appropriate investigation into the data breach, formulate a correct response and then take appropriate action.
4.3. **Data protection impact assessment** Where applicable and where requested by the contracting authority, the contractor assists the contracting authority in carrying out the data protection impact assessment in accordance with Article 35 of the Regulation.

**Article 5: Obligations of the contractor/processor**

5.1. The contractor will deal with all reasonable requests from the contracting authority for the processing of personal data related to this Agreement, immediately or within a reasonable period of time (based on the legal obligations set out in the Regulation) and in an appropriate manner.

5.2. The contractor guarantees that there is no obligation arising from any applicable legislation that makes it impossible to comply with the obligations of this Agreement.

5.3. The contractor maintains complete documentation, in accordance with the law or regulations applicable to the processing of personal data carried out for the contracting authority. In particular, the contractor must keep a record of all categories of processing activities carried out on behalf of the contracting authority in accordance with Article 30 of the GDPR.

5.4. The contractor undertakes not to process personal data for any purpose other than the performance of the public contract and the fulfilment of the responsibilities of this Agreement in accordance with the documented instructions of the contracting authority; if the contractor, for whatever reason, cannot comply with this requirement, he will notify the contracting authority without delay.

5.5. The contractor will immediately inform the contracting authority, if he believes that an instruction by the contracting authority violates applicable data protection legislation.

5.6. The contractor will ensure that personal data are disclosed only to those who need it to perform the public contract in accordance with the principle of proportionality and the principle of "need to know" (i.e. data are provided only to persons who need personal data to perform the public contract as determined in the relevant Tender Specifications and this Agreement).

5.7. The contractor undertakes not to disclose personal data to persons other than contracting authority personnel who require personal data to comply with the obligations of this Agreement and ensures that identified staff have accepted appropriate legal and contractual confidentiality obligations.
5.8. If the contractor is in breach of this public contract and the GDPR by determining the purposes and means of processing, he should be considered a personal data controller in the context of such processing.

**Article 6: Obligations of the contracting authority/controller**

6.1. The contracting authority will provide all necessary assistance and cooperate in good faith with the contractor to ensure that any processing of personal data is in accordance with the requirements of the Regulation, including the principles relating to the processing of personal data.

6.2. The contracting authority will agree with the contractor on the appropriate channels of communication to ensure that instructions, guidance and other communications regarding personal data that are processed by the contractor on behalf of the contracting authority are well received between the Parties. The contracting authority notifies the contractor of the identity of the single point of contact of the awarding authority that the contractor is required to contact under this Agreement. Unwritten instructions (e.g. oral instructions by telephone or in person) must always be confirmed in writing.

The point of contact of the contracting authority is: [dpo@enabel.be](mailto:dpo@enabel.be)

6.3. The contracting authority guarantees that it will not issue any instructions, guidance or requests to the contractor who does not comply with the provisions of the Regulation.

6.4. The contracting authority provides the necessary assistance to the contractor and/or his or her subsequent subcontractors to comply with a request, order, investigation or subpoena addressed to the contractor or his subsequent subcontractor(s) by a competent government or judicial authority.

6.5. The contracting authority guarantees that it will not instruct, guide or ask the contractor to compel the contractor and/or his subsequent subcontractor(s) to violate any obligation imposed by the applicable mandatory national legislation to which the contractor and/or his subcontractor(s) are subject.

6.6. The contracting authority ensures that it will cooperate in good faith with the contractor in order to mitigate the negative effects of a security incident affecting
the personal data processed by the contractor and/or his subsequent contractor(s) on behalf of the contracting authority.

**Article 7: Use of subsequent subcontractors/processors**

7.1. In accordance with the Tender Specifications, the contractor may use the capacity of a third party to tender for the public contract, which constitutes further subcontracting within the meaning of Article 28 of the GDPR.  

7.2. The contractor may engage another subcontractor (hereinafter, the ‘subsequent subcontractor”) for carrying out specific processing activities. In this case, he informs the contracting authority in advance and in writing of any change considered with regards to adding or replacing other subcontractors. This information must clearly indicate the processing activities that are subcontracted, the identity and contact details of the subcontractor and the dates of the subcontracting contract. The contracting authority disposes of a minimum period of [...] from the date of reception of said information to voice any objections. Such subsequent subcontracting may only be carried out if the contracting authority has not voiced any objection during said period.  

7.3. The contractor will use only subsequent subcontractors who provide sufficient guarantees to implement appropriate technical and organisational measures in such a manner that the processing will meet the requirements of this public contract, of Belgian legislation and of the GDPR and assures the rights of the data subject concerned.  

7.4. When the contractor uses another subcontractor to carry out specific processing activities in the name of the contracting authority, obligations in any respect identical to those provided for in this Agreement will have to be imposed on this subsequent subcontractor; the latter in particular must provide the same sufficient guarantees to implement appropriate technical and organisational measures in such a manner that the processing will meet the requirements of the Regulation.  

Agreements with the subsequent subcontractor are written down. Upon request, the contractor will be required to provide the contracting authority with a copy of this contract or these contracts.  

7.5. Where the subsequent subcontractor fails to fulfil his data protection obligations, the contractor shall remain fully liable to the contracting authority for the performance of the subsequent subcontractor’s obligations.  

7.6. The contractor must pass on the specific objectives and instructions issued by the contracting authority in a precise and timely manner to the subsequent

---

17 To be adapted in accordance with Tender Specifications.
subcontractor(s) when and where these objectives and instructions relate to the part of the processing in which the subsequent subcontractor(s) is or are involved.

Article 8: Rights of the data subject concerned

8.1. Where possible, taking into account the nature of the processing and through appropriate technical and organisational measures, the contractor undertakes to assist the contracting authority in fulfilling its obligation to respond to requests of exercise of data subject rights in accordance with Chapter III of the Regulation.

8.2. With respect to any request from the data subjects concerned in connection with their rights regarding the processing of personal data concerning them by the contracting authority and/or his subsequent subcontractor(s), the following conditions apply:

- The contractor will immediately inform the contracting authority of any request made by a data subject concerned relating to personal data that the contractor and/or his subsequent subcontractor(s) are processing on behalf of the contracting authority;

- The contractor will comply promptly and require his subsequent subcontractor(s) to promptly comply with any request from the contracting authority to comply with a request by the data subject concerned to exercise one of their rights;

- The contractor will ensure that he and his subsequent subcontractor(s) have the technical and organisational capabilities to block access to personal data and to physically destroy the data without the possibility of recovery if and when such a request is made by the contracting authority. Without prejudice to the above, the contractor retains the opportunity to consider whether the request of the contracting authority does not constitute a violation of the Regulation.

8.3. The contractor must, at the request of the contracting authority, provide all necessary assistance and provide all necessary information for the contracting authority to defend its interests in any proceeding - judicial, arbitral or otherwise - brought against the contracting authority or its staff for any violation of the fundamental rights to privacy and the protection of the personal data of the data subjects concerned.

Article 9: Security measures

9.1. Throughout the duration of this Agreement, the contractor must have appropriate technical and organisational measures in place to ensure that the processing meets the requirements of the Regulation and ensures the protection of the rights of the data subject concerned.
9.2. The contractor undertakes to implement appropriate technical and organisational measures to ensure a level of security appropriate to the risk, in accordance with Article 32 of the Regulation.

9.3. In assessing the appropriate level of security account shall be taken in particular of the risks that are presented by processing, in particular from accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data transmitted, stored or otherwise processed.

9.4. The parties recognise that security requirements are continually evolving and that effective security requires frequent assessment and regular improvement of outdated security measures. The contractor will therefore have to continually assess and strengthen, complete or improve the measures implemented with a view to the continued compliance of his obligations.

9.5. The contractor provides the contracting authority with a complete and clear description, in a transparent and understandable manner, of how he handles its personal data (Annex 3).

9.6. In the event that the contractor changes the security measures applied, the contractor undertakes to notify so immediately to the contracting authority.

9.7. The contracting authority reserves the right to suspend and/or terminate the public contract, where the contractor can no longer provide appropriate technical and organisational measures regarding processing risks.

Article 10: Audit

10.1. The contractor acknowledges that the contracting authority is under the supervision of one Supervisory Authority or several Supervisory Authorities. The contractor acknowledges that the contracting authority and any Supervisory Authority concerned will have the right to conduct an audit at any time, and at least during the contracting authority’s regular office hours, during the term of this Agreement in order to assess whether the contractor complies with the Regulation and the provisions of this Agreement. The contractor provides the necessary cooperation.

10.2. This auditing right may not be used more than once in a calendar year, unless the contracting authority and/or the Supervisory Authority has reasonable grounds to assume that the contractor is acting in conflict with this Agreement and/or the provisions of the Regulation. The restriction of the right of control does not apply to the Supervisory Authority.
10.3. At the written request of the contracting authority, the contractor will provide the contracting authority or the relevant Supervisory Authority with access to the relevant parts of the contractor’s administration and to all places and information of interest to the contractor (as well as, applicable to those of its agents, subsidiaries and subsequent subcontractors) to determine whether the contractor complies with the Regulation and provisions of this Agreement. At the request of the contractor, the parties concerned agree to a confidentiality agreement.

10.4. The contracting authority must take all appropriate measures to minimise any obstruction caused by the audit on the day-to-day functioning of the contractor or the services performed by the contractor.

10.5. If there is agreement between the contractor and the contracting authority on a significant breach in compliance with the Regulation and/or the Agreement, as reported in the audit, the contractor will remedy this breach as soon as possible. Parties may agree to put in place a plan, including a timetable for implementing the plan, to address the gaps revealed by the audit.

10.6. The contracting authority will cover the costs of any audit carried out within the meaning of this article. Without prejudice to the above, the contractor will bear the costs of his employees. However, where the audit has revealed that the contractor is clearly not in compliance with the Regulation and/or provisions of this Agreement, the contractor bears the costs of said audit. The costs of re-compliance with the Regulation and/or the provisions of this Agreement are borne by the contractor.

Article 11: Transfers to third parties

11.1. The transmission of personal data to third parties in any way is in principle prohibited, unless required by law or if the contractor has obtained explicit authorisation from the contracting authority to do so.

11.2. In the event that a legal obligation applies to the transfer of personal data, which is the subject of this Agreement, to third parties, the contractor shall inform the contracting authority before the transfer.

Article 12: Transfer outside the EEA

12.1. The contractor will process personal data from the contracting authority only in a location in the EEA.

12.2. The contractor shall not process or transfer the personal data of the contracting authority, or process them himself or through third parties, outside the European Union, unless after express and explicit prior authorisation from the contracting authority.
The contractor will have to ensure that no access to the personal data of the contracting authority by a third party in any way leads to the transfer of these data outside the European Union.

**Article 13: Behaviour towards national government and judicial authorities**

13.1. The contractor will immediately notify the contracting authority of any request, injunction, investigation or subpoena of a competent national government or judicial authority addressed to the contractor or its subsequent subcontractor(s) that involves the disclosure of personal data processed by the contractor or a subsequent subcontractor for and on behalf of the contracting authority or any data and/or information relating to that processing.

**Article 14: Intellectual property rights**

14.1. All intellectual property rights relating to personal data and databases containing such personal data are reserved for the contracting authority, unless otherwise agreed between the Parties.

**Article 15: Confidentiality**

15.1. The contractor undertakes to guarantee the confidentiality and processing of personal data.

15.2. The contractor ensures that employees or subsequent subcontractors authorised to process personal data have committed to conducting the processing confidentially and are also bound by a contractual obligation of confidentiality.

**Article 16: Liability**

16.1. Without prejudice to the public contract, the contractor is only liable for the damage caused by the processing if he has not complied with the obligations of the Regulation specifically for subcontractors or if he acted outside or contrary to the legal instructions of the contracting authority.

16.2. The contractor is liable for the payment of administrative fines resulting from a violation of the Regulation.

16.3. The contractor will be exempt from liability only if he can prove that he is not responsible for the event that caused a violation of the Regulation.

16.4. If it appears that the contracting authority and the contractor are responsible for the damage caused by the processing of personal data, both Parties will be liable and will pay damages, in accordance with their individual share of liability for the damage caused by the processing.

**Article 17: End of contract**
17.1. This Agreement applies as long as the contractor processes personal data in the name and on behalf of the contracting authority under this public contract. If the public contract ends, this Agreement will also end.

17.2. In the event of a serious breach of this Agreement or the applicable provisions of the Regulation, the contracting authority may order the contractor to terminate the processing of personal data with immediate effect.

17.3. In the event of termination of the Agreement, or if the personal data are no longer relevant to the provision of services, the contractor will, by decision of the contracting authority, remove all personal data or return them to the contracting authority and delete personal data and other copies. The contractor will provide proof in writing, unless applicable legislation requires the storage of personal data. Personal data will be returned to the contracting authority free of charge, unless otherwise agreed upon.

Article 18: Mediation and competence

18.1. The contractor agrees that if the data subject concerned alleges claims for damages under this Agreement, the contractor will accept the decision of the data subject concerned:

- To refer the dispute to mediation with an independent person
- To refer the dispute to the courts of the place of establishment of the contracting authority

18.2. The Parties agree that the choice made by the data subject concerned will not infringe on the substantial or procedural rights of the data subject concerned to seek redress in accordance with other provisions of applicable national or international law.

19.1. Any dispute between the Parties over the terms of this Agreement must be brought before the appropriate courts, as determined in the main agreement.

Thus, agreed on the [.................................] and established in two copies of which each Party acknowledges having received a signed copy.

FOR THE CONTRACTING AUTHORITY FOR THE CONTRACTOR
Annex 1: Description of personal data processing activities by the contractor

1. **Processing activities carried out by the subcontractor**

Subject matter of processing:

Nature of processing: *For instance, organisation, consultation, storage and collection, etc.*

Duration of the processing:

Purpose of the processing:

2. **The categories of personal data that the subcontractor will process on behalf of the controller (where applicable (* indicate as appropriate)).**

- Personal identification data (e.g. name, address and telephone, etc.)
- Electronic identification data (e.g. e-mail address, ID Facebook, ID Twitter, user names, passwords or other connection data, etc.)
- Electronic location data (e.g. IP addresses, mobile phone, GPS, connection points, etc.)
- Biometric identification data (e.g. fingerprints, iris scan, etc.)
- Copies of identity documents
- Financial identification data (e.g. account numbers (bank), credit card numbers, salary and payment information, etc.)
- Personal characteristics (e.g. gender, age, date of birth, marital status, nationality, etc.)
- Physical data (e.g. height, weight, etc.)
- Habits of life
- Psychological data (e.g. personality, character, etc.)
- Family composition
- Leisure and interests
- Memberships
- Consumption habits
- Education and training
- Career and occupation (e.g. function, title, etc.)
- Images/photos
- Sound recordings
- National Social Security Register Number/Identification Number
- Details of the contract (e.g. contractual relationship, order history, order numbers, invoicing and payment, etc.)
- Other categories of data, <Describe>

3. **The special categories of personal data that the subcontractor will process on behalf of the controller (where applicable) (indicate as appropriate)**

- Special categories of personal data (Art. 9 GDPR)
  - Data revealing racial or ethnic origin
  - Data concerning sexual orientation
  - Political opinions
  - Trade union membership
  - Religious or philosophical beliefs

- Data concerning health (Art. 9 DGPR)
  - Physical health
4. **The categories of data subjects concerned (indicate as appropriate)**

- (Potential)/(former) clients
  - If yes, <describe>
- Applicants and (former) employees, interns, etc.
  - If yes, <describe>
  - (Potential)/(former) suppliers
    - If yes, <describe>
  - (Potential)/(former) (business) partners
    - If yes, <describe>
- Other category
  - If yes, <describe>

5. **Extent of processing (number of records/number of data subject concerned)**

<Describe>

6. **Period of use and period for which the (various categories of) personal data are stored:**
7. Processing place

<Describe>

If processing is outside the EEA, please specify the appropriate guarantees that are put in place

<Describe>

8. Use of subsequent subcontractors/processors:

<Describe>

9. Contact details of the responsible contact person at the controller’s

Annexe 2: Security of processing

The controller should use only processors providing sufficient guarantees, in particular in terms of expert knowledge, reliability and resources, to implement technical and organisational measures which will meet the requirements of this Regulation (in particular Article 32 of the GDPR), including for the security of processing.

In order to ensure a level of security adapted to the risk, given the state of knowledge and the nature, scope, context and purposes of the processing, as well as the risks, of varying degree of probability and severity, of processing for the rights and freedoms of natural persons, the contractor implements appropriate technical and organisational measures.

These security measures comprise the following, among others:

- [Describe]

---

20 To be filled out by contractor
21 Consideration 81 of the GDPR
