ANNEX VIII: Procurement principles (for a private contracting beneficiary)

If the implementation of an Action requires procurement by the Contracting Beneficiary, the contract must be awarded to the tender offering best value for money (i.e. the tender offering the best price-quality ratio) or, as appropriate, to the tender offering the lowest price. In doing so, the Contracting Beneficiary shall avoid any conflict of interests and respect the following basic principles:

- Where the Contracting Beneficiary does not launch an open tender procedure it shall justify the choice of tenderers that are invited to submit an offer.
- The Contracting Beneficiary shall evaluate the offers received against objective criteria which enable measuring the quality of the offers and which take into account the price (the offer with the lowest price shall be awarded the highest score for the price criterion).
- The Contracting Beneficiary shall keep sufficient and appropriate documentation with regard to the procedures applied and which justify the decision on the pre-selection of tenderers (where an open tender procedure is not used) and the award decision.

The Contracting Beneficiary may decide to apply the procedures provided for in the Belgian Public Procurement Legislation. If these procedures are correctly followed the principles above will be deemed complied with.

Enabel will carry out <ex ante/ex post> checks (see article 12) on the Contracting Beneficiary's compliance with the principles above. Failure to comply with these principles or rules would render the related expenditure ineligible for funding.

The provisions of this Annex apply *mutatis mutandis* to contracts to be concluded by the co-applicants, partners of the Contracting Beneficiary.
