1 General remarks

1.1 Derogations from the Royal Decree of 14 January 2013

Chapter 4 Specific contractual and administrative conditions of these Tender Specifications (CSC/Cahier Spécial des Charges) holds the specific administrative and contractual provisions that apply to this public contract by way of derogation from the Royal Decree of 14 January 2013 or as a complement or an elaboration thereof.

These Tender Specifications derogate from Article 26 of the General Implementing Rules – GIR (Royal Decree of 14 January 2013).

1.2 Contracting authority

The contracting authority of this public contract is ‘Enabel’, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels in Belgium (enterprise number 0264.814.354, RPM/RPR Brussels).

On behalf of the Belgian government, Enabel – the Belgian development agency – supports developing countries in their fight against poverty. Besides this public service mission on behalf of the Belgian government Enabel also provides services on behalf of other national and international organisations contributing to sustainable human development¹.

For this public contract Enabel is represented by Christelle Jocquet, Country Director of Enabel in Palestine.

1.3 Institutional framework of Enabel

The general framework of reference in which Enabel operates is:

- The Belgian Law on Development Cooperation of 19 March 2013²;
- The Belgian Law of 21 December 1998 establishing the Belgian Technical Cooperation as a public-law company³;
- The Belgian Law of 23 November 2017 changing the name of the Belgian Technical Cooperation and defining the missions and functioning of Enabel, the Belgian development agency, published in the Belgian Official Gazette on 11 December 2017.

The following initiatives are also guiding Enabel in its operations and are given as main examples:

- In the field of international cooperation: the United Nations Sustainable Development Goals and the Paris Declaration on the harmonisation and alignment of aid;
- In the field of the fight against corruption: the Law of 8 May 2007 approving the United Nations Convention against Corruption, adopted in New York on 31 October 2003⁴, as

¹ For more information see <http://www.enabel.be/showpage.asp?iPageID=34>) and the Law of 21 December 1998 establishing the Belgian Technical Cooperation, changed by the Laws of 13 November 2001 and 30 December 2001.

² Belgian Official Gazette of 30 December 1998, of 17 November 2001, of 6 July 2012, of 15 January 2013 and of 26 March 2013.

³ Belgian Official Gazette of 1 July 1999.

⁴ Belgian Official Gazette of 18 November 2008.

well as the Law of 10 February 1999 on the Suppression of Corruption transposing the Convention on Combating Bribery of Foreign Public Officials in International Business Transactions;

- In the field of Human Rights: the United Nations' Universal Declaration of Human Rights (1948) as well as the 8 basic conventions of the International Labour Organization⁵ on Freedom of Association (C. n°87), on the Right to Organise and Collective Bargaining (C. n°98), on Forced Labour (C. n°29 and 105), on Equal Remuneration and on Discrimination in Respect of Employment (C. n°100 and 111), on Minimum Age for Admission to Employment (C. n°138), on the Prohibition of the Worst Forms of Child Labour (C. n°182);
- In the field of environmental protection: The Climate Change Framework Convention of Paris, 12 December 2015;
- The first Management Contract contracting Enabel and the Belgian federal State (approved by the Royal Decree of 17 December 2017, Belgian Official Gazette of 22 December 2017) that sets out the rules and the special conditions for the execution of public service tasks by Enabel on behalf of the Belgian State.

1.3.1 Rules governing the public contract

The following, among other things, apply to this public contract:

- The Law of 17 June 2016 on public procurement⁶;
- The Law of 17 June 2013 on justifications, notification and legal remedies for public contracts and certain contracts for works, supplies and services⁷;
- The Royal Decree of 18 April 2017 on the award of public contracts in the classic sectors⁸;
- The Royal Decree of 14 January 2013 establishing the General Implementing Rules for public procurement and for concessions for public works⁹;
- Circulars of the Prime Minister with regards to public procurement.
- Law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

All Belgian regulations on public contracts can be consulted on www.publicprocurement.be

1.3.2 Definitions

The following definitions apply to this contract:

- The tenderer: the natural person (m/f) or legal entity that submits a tender;
- The contractor / building contractor: the tenderer to whom the public contract is awarded;
- The contracting authority: Enabel, represented by the Resident Representative of Enabel in Palestine;
- The tender: The commitment of the tenderer to perform the public contract under the conditions that he has submitted;
- Days: In the absence of any indication in this regard in the Tender Specifications and the applicable regulations, all days should be interpreted as calendar days;

⁵ <http://www.ilo.org/ilolex/french/convdisp1.htm>.

⁶ Belgian Official Gazette 14 July 2016.

⁷ Belgian Official Gazette of 21 June 2013.

⁸ Belgian Official Gazette 9 May 2017.

⁹ Belgian Official Gazette 27 June 2017.

- Procurement documents: Contract notice and Tender Specifications including the annexes and the documents they refer to;
- Technical specifications: A specification in a document defining the characteristics of a product or a service, such as the quality levels, the environmental and climate performance levels, the design for all needs, including accessibility for people with disabilities, and the evaluation of conformity, of product performance, of the use of the product, safety or dimensions, as well as requirements applicable to the product as regards the name by which it is sold, terminology, symbols, testing and test methods, packaging, marking or labelling, instructions for use, the production processes and methods at every stage in the life cycle of the supply or service, as well as the evaluation and conformity procedures;
- Variant: An alternative method for the design or the performance that is introduced either at the demand of the contracting authority, or at the initiative of the tenderer;
- Option: A minor and not strictly necessary element for the performance of the contract, which is introduced either at the demand of the contracting authority, or at the initiative of the tenderer;
- Summary bill of quantities: The procurement document, in a public works contract, which splits up the performance in different items and specifies the quantity or the method to determine the price for each of them;
- BDA: Belgian Public Tender bulletin (Bulletin des Adjudications);
- OJEU: Official Journal of the European Union;
- OECD Organisation for Economic Cooperation and Development;
- E-tendering: Through the E-tendering platform tenderers can submit and open electronic tenders/requests to participate;
- General Implementing Rules GIR: Rules laid down in the consolidated version of the Royal Decree of 14 January 2013 establishing the General Implementing Rules for public procurement and for concessions for public works;
- Tender Specifications (Cahier Spécial des Charges/CSC): This document and its annexes and the documents it refers to;
- Corrupt practices: The offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or performance of a contract already concluded with the contracting authority;
- Litigation: Court action.

1.3.3 Confidentiality

The tenderer or contractor and Enabel are bound to secrecy vis-à-vis third parties with regards to any confidential information obtained within the framework of this public contract and will only divulge such information to third parties after receiving the prior written consent of the other party. They will disclose this confidential information only among appointed parties involved in the assignment. They guarantee that said appointed parties will be adequately informed of their obligations in respect of the confidential nature of the information and that they shall comply therewith.

PRIVACY NOTICE OF ENABEL: Enabel takes your privacy serious. We undertake to protect and process your personal data with due care, transparently and in strict compliance with privacy protection legislation. See also:

<https://www.enabel.be/content/privacy-notice-enabel>

1.3.4 Deontological obligations

Any failure to comply with one or more of the deontological clauses may lead to the exclusion of the candidate, tenderer or contractor from other public contracts for Enabel.

For the duration of the contract, the contractor and his staff respect human rights and undertake not to go against political, cultural or religious customs of the beneficiary country. The tenderer or contractor is bound to respect fundamental labour standards, which are internationally agreed upon by the International Labour Organization (ILO), namely the conventions on union freedom and collective bargaining, on the elimination of forced and obligatory labour, on the elimination of employment and professional discrimination and on the abolition of child labour.

In accordance with Enabel's Policy regarding sexual exploitation and abuse, the contractor and his staff have the duty to behave in an irreproachable manner towards the beneficiaries of the projects and towards the local population in general. They must abstain from any acts that could be considered a form of sexual exploitation or abuse and they must abide by the basic principles and guidelines laid down in this policy.

Any attempt of a candidate or a tenderer to obtain confidential information, to proceed to illicit arrangements with competitors or to influence the evaluation committee or the contracting authority during the investigation, clarification, evaluation and comparison of tenders and candidates procedure will lead to the rejection of the application or the tender.

Moreover, in order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to appointees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any desk review or on-the-spot check which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure. Depending on the gravity of the facts observed, the contractor having paid unusual commercial expenditure is liable to have his contract cancelled or to be permanently excluded.

In accordance with Enabel's Policy regarding sexual exploitation and abuse of June 2019 and Enabel's Policy regarding fraud and corruption risk management complaints relating to issues of integrity (fraud, corruption, etc.) must be sent to the Integrity desk through the <https://www.enabelintegrity.be> website.

1.3.5 Applicable law and competent courts

The contract must be performed and interpreted according to Belgian law.

The parties commit to sincerely perform their engagements to ensure the good performance of this contract.

In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution.

If agreement is lacking, the Brussels courts are the only courts competent to resolve the matter.

2 Subject-matter and scope of the public contract

2.1 Type of contract

This contract is a public works contract, having as its subject-matter the realisation, by whatever means, of a work corresponding to the requirements specified by the contracting authority which exercises decisive influence on its nature or design.

2.2 Subject-matter of the public contract

This contract consists in the construction works for “Works in 5 schools in East Jerusalem”, in conformity with the conditions of these Tender Specifications.

2.3 Lots

The contract is divided into 3 lots in East Jerusalem.

Lot 1: Lot 1 A- Al-Hasan Al-Thany,

Lot 1 B: Al-Shabbat Al-Shameleh,

Lot 1 C: Al-Fata Al-Laji’a schools

The lot was divided into sublots A, B, and C all sublots are included in Lot 1, as the three schools requiring work are located on the same street. It was deemed beneficial for the contracting beneficiary to apply for them as one combined lot. Therefore, the sections were grouped together rather than split into separate lots.

All sub-lots will have to be performed in parallel and at the same time.

Enabel has the right to not commence one of the sublots.

Lot 2: Al-Nithamiyeh School.

Lot 3: Al-Beiruni Hall.

The description of each lot is included in section five of these Tender Specifications.

When tendering for several lots, the tenderer *may not* offer **discounts or better conditions** in his tender in case these lots were to be awarded to him.

The tenderer indicates in his tenders for several lots his **order of preference** for the awarding of these lots.

2.4 Items

The contract consists of the following items:

▶ [see Annex 1: Bill of quantities](#)

- These items are pooled and form one single lot. It is not possible to tender for one or several items and the tenderer must submit price quotations for all items of a same lot.

2.5 Duration of the public contract

For each lot, the contract commences upon award notification and expires upon final acceptance. No renewal of the contract is provided for.

2.6 Variants

Each tenderer may submit only one tender. Variants are forbidden.

2.7 Quantities

Quantities will be determined in purchase orders. The presumed quantities mentioned in Annex 1: Bill of quantities are for information purposes only.

The tenderer is required, under penalty of substantial irregularity of his tender, to quote prices for optional items. However, the contracting authority maintains the right to order any of these two options.

3 Procedure

3.1 Award procedure

This contract is awarded in accordance with Art. 41, § 1, 2° of the Law of 17 June 2016 pursuant to a direct negotiated procedure with publication.

3.2 Publication

3.2.1 Official notification

This contract is officially advertised in the Belgian Public Tender bulletin (via e-Procurement).

3.2.2 Further notification

These Tender Specifications are posted on the website of Enabel (www.enabel.be).

The contract notice was also advertised through:

- The Organisation for Economic Cooperation and Development (OECD) website
- Jobs.ps portal in Palestine (<https://www.jobs.ps>).

3.3 Information

The awarding of this contract is coordinated by the Karmel Al Salqan (Contract Support Manager, karmel.alsalqan@enabel.be). Throughout this procedure all contacts between the contracting authority and the (prospective) tenderers about this contract will exclusively pass through this service. (Prospective) tenderers are prohibited to contact the contracting authority in any other way with regards to this contract, unless otherwise stipulated in these Tender Specifications.

Until **15 days before the deadline June 29, 2025**, candidate-tenderers may ask questions about these Tender Specifications and the public contract. Questions will be in writing to the above-mentioned person and they will be answered in the order received. The complete overview of questions asked will be available at the address mentioned above as from **6 days before the deadline (July 8, 2025)**.

Until the notification of the award decision no information will be given about the evolution of the procedure.

The procurement documents can be consulted free of charge at the following internet address: <https://www.enabel.be/content/enabel-tenders>

The tenderer is to submit his tender after reading and taking into account any corrections made to the Tender Specifications that are published on the Enabel website or that are sent to him by e-mail. To do so, when the tenderer has downloaded the Tender Specifications, it is strongly advised that (s)he gives his coordinates to the above-mentioned public official by sending an email expressing their interest.

The tenderer is required to report immediately any gap, error or omission in the procurement documents that precludes him from establishing his price or compare tenders, within ten days at the latest before the deadline for receipt of tenders.

3.3.1 Site Visit

The Contracting Authority also organises for tenderers, **guided visits to the site**:

Date	Time	School Name	GPS location	Address
Tuesday July 1st, 2025	10:00-10:15	Al-Hasan Al-Thany basic boys school	31.7867, 35.2358	Wadi Al-Joz
	10:20-10:50	Al-Fata Al-Laji'a A secondary girls school	31.7868, 35.2353	
	10:50-11:20	Shabbat Al-Shameleh secondary girls school	31.7871, 35.2353	
	11:45-12:15	Al-Nithamiyeh Basic girls school	31.8135, 35.2261	Shufat
Wednesday July 2nd ,2025	10:00-10:30	Al-Beiruni secondary boys	31.8494, 35.2298	Al-Ram

Transportation: interested tenderers need to ensure their transportation to the site by their own means.

Participation is optional but **highly recommended**.

Note: Due to the current emergency situation applicants interested to attend the site visit should communicate and send an email with their contact details to “karmel.alsalqan@enabel.be”, in case of any change, Enabel will contact interested candidates to re-arrange the site visit.

The tenderer is supposed to submit his/her tender after reading and taking into account any corrections made to the contract notice or the tender documents that are published at the above-mentioned website and/or sent to him/her by electronic mail.

3.3.2 Information meeting

Information meeting will be held online, on **July 2nd 2025**, at **15:00PM** (EET = Palestinian time). Interested tenderers are invited to join using the following details:

§1	Microsoft Teams Need help?
§2	Join the meeting now
§3	Meeting ID: 388 988 322 617 5
§4	Passcode: UE6ZD2Cp

Questions raised by tenderers during the information meeting will be written down and answered collectively to all interested bidders and published at the address mentioned at the following address: <https://www.enabel.be/content/enabel-tenders>.

3.4 Tender Preparation, submission and opening

3.4.1 Data to be included in the tender

The tenderer must use the tender forms in annex.

► See. Forms.p.48

The tender and the annexes to the tender form are drawn up in English.

Submitted tender shall include the following:

One original copy of the completed tender document (the present document,):

- This document must be filled electronically, then printed completely (page 1 to 69), signed, and stamped on A4 paper.
- For filling in the pdf forms, we recommend using the free software Adobe Acrobat Reader, which can be downloaded for free here:

► <https://get.adobe.com/uk/reader/>

or an equivalent program.

- Printing in black and white and on both sides of paper is encouraged.
- Do not use sophisticated spiral binding or plastic covers: simply staple it in the upper-left corner or use a binder clip.
- None of the forms shall be filled by hand except for the signature field.
- The tenderer must use the tender forms provided.

1° One original copy of the completed Annex 1: Bill of quantities (see p.43):

- This document must be filled electronically, then printed, signed, and stamped on A4 paper.
- Printing in black and white and on both sides of paper is encouraged.

- Do not use sophisticated spiral binding or plastic covers: simply staple it in the upper-left corner or use a binder clip.
 - None of the sheets shall be filled by hand except for the signature field.
 - The total price offer in Annex 1 must be reported accurately in the Tender Document, in 1Form (2)- Prices.49.
- 2° One original copy of the requested certificates, CVs and other documents requested in 6-Selection file and summarized in Part 9 -Checklist of documents to be joined to the tender, p.68 .These documents shall be printed in A4 paper, signed and stamped. All documents authored by the interested tenderer (CVs, declarations on honour, power of attorney, joint venture agreement, etc.) **must be written in English**. Documents authored by a third party (completion certificates, incorporation certificates, etc.) can be written in English.Arabic. In accordance with Article 73 of the Royal Decree of 18 April 2017, where an economic operator wants to rely on the capacities of other entities (particularly subcontractors or independent subsidiaries) for economic and financial capacity criteria and technical aptitude criteria (see 6-Selection file), it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.
- 3° One electronic copy of the following documents, on USB, a CD or DVD:
- The filled tender document in pdf format (as initially filled, not scanned)
 - The filled Annex 1: Bill of quantities in .xls or compatible spreadsheet format;
 - Annex 2: Set of plans (architectural, electrical, structural and mechanical) as provided, in .pdf and/or .dwg format
 - Annex 3: **Error! Reference source not found.** – as provided.
 - Annex 4: Time schedule – as provided.
- 4° The USB/CD/DVD shall be labelled with the reference number “PSE22001-10074” ,the name of the tenderer and be signed and stamped. Alternatively, the above-mentioned documents may be printed on paper in a suitable format, signed and stamped, but this is not encouraged for environmental and archiving space reasons.
- 5° The printed documents and the CD/DVD must be submitted in a properly sealed and stamped envelope, on which the provided envelope cover page will be glued, after being duly filled and printed.

The tender and all accompanying documents have to be numbered and signed (original hand-written signature) by the tenderer or his/her representative. The same applies to any alteration, deletion or note made to this document. This also applies to erasures and alterations, additions or changes made by means of a correction ribbon or correcting fluid.

The representative must clearly state that (s)he is authorised to commit the tenderer.

If the tenderer is a company/association without legal body status, formed by separate natural or legal persons (temporary group or temporary partnership), the tender must be signed by each of these persons.

By submitting a tender, the tenderer automatically renounces to his own general or specific sales conditions, even if these are mentioned in any of the annexes to his tender.

The tenderer clearly designates in his tender which information is confidential and/or relates to technical or business secrets and may therefore not be divulged by the contracting authority.

3.4.2 Period the tender is valid

The tenderers remain bound by their tender for a period of **90** calendar days from the tender reception deadline date.

3.4.3 Price determination

All prices shall be given in EUR (euros) and rounded off to two figures after the decimal point.

This contract is a price-schedule contract, i.e. a contract in which only the unit prices are lump-sum prices. The price to be paid will be obtained by applying the unit prices mentioned in the inventory to the quantities actually performed.

In accordance with Article 37 of the Royal Decree of 18 April 2017, the contracting authority may for the purpose of verifying the prices carry out an audit of any and all accounting documents and perform on-the-spot checks with a view of verifying the correctness of the indications supplied.

3.4.4 Elements included in the price

The tenderer is to include in his unit and global prices any charges and taxes generally applied to works, with the exception of the value-added tax.

In the unit and global prices for the contract for works any costs, measures and charges applied to the performance of the contract, namely:

- 1° Where applicable, the measures imposed by occupational safety and worker health legislation;
- 2° Where applicable, the cost of working outside of usual working hours for dangerous or noisy works, to minimize the disturbances to the students and school staff when the school will be operating
- 3° All the works and supplies, such as bracing, sheet piling and drainage, necessary to prevent landslips and other damage and to remedy these if necessary;
- 4° The perfect preservation, possible shift and redeployment of cables and pipes which might be encountered during excavation, earthworks and dredging, provided that these achievements are not the legal responsibility of the owners of such cables and pipes;
- 5° Removal, within the confines of the excavations, earthworks and dredging which may be necessary for construction of the structure, of:
 - a. Earth, mud and gravel, stones, rubble, riprap of any kind, masonry remains, turf, plants, bushes, stumps, roots, coppices, debris and waste materials;
 - b. Any rock regardless of size where the procurement documents state that the earthworks, excavation and dredging are to be carried out in land known to be rocky, and in the absence of this statement, any rock and any blocks of masonry or concrete the individual volume of which does not exceed half a cubic metre;

- 6° The transportation and removal of excavated material, either away from the property of the contracting authority, or to locations within the sites for re-use, or to designated dumping sites, in accordance with the requirements of the procurement documents;
- 7° All overheads, incidental expenses and maintenance costs during contractual performance and the warranty period;
- 8° Charges related to water, electricity or fuel during the works implementation. If the contractor is planning to consume water or electricity from the existing facilities networks, (s)he shall find an agreement for the modality of its metering and reimbursement with the body usually paying these bills before the start of the works;
- 9° All costs related to repairing, replacing and/or reinstalling any built or equipment element that was damaged or made dysfunctionnal because of the works;
- 10° Customs and excise duties;
- 11° Acceptance costs (see related articles) and inspection, testing and comissioning costs (e.g. civil defense, electricity distribution companies, etc.).

All the works which, by their nature, depend on or are associated with those described in the procurement documents are also included in the contract price.

3.4.5 The right to submit tenders

Without prejudice to any variants, the tenderer may only submit one tender only per contract.

3.4.6 Tender submission deadline and location

The tender must be received **before Monday July 14th, 2025 at 03:00 PM** (EET = Palestinian time) at one of the following addresses:

► Enabel, Belgian Development Agency, Consulate General of Belgium, 5 Baibars Street, Sheikh Jarrah, Jerusalem

► or

Enabel, Belgian Development Agency, Royal Center, 7th floor, Al-Balou' , Ramallah. It may be submitted either:

- By mail (standard mail or registered mail). In this case, the sealed envelope is put in a second closed envelope addressed to: Enabel, Belgian Development Agency, Consulate General of Belgium, 5 Baibars Street, Sheikh Jarrah, Jerusalem. The delivery record makes proof of compliance with the time-limit for receipt.
- Delivered by hand directly to the Contracting Authority against a signed and dated receipt. In this case, the acknowledgment of receipt makes proof of compliance with the time-limit for receipt.

The service can be reached on working days during office hours: from 9 am to 4 pm.

In the event of an escalation in the political situation that results in restricted movement between cities or the closure of Enabel's offices, a formal communication will be issued to allow the submission of proposals via email. This temporary measure will remain in place until access is restored and hard copies of the original proposals can be submitted.

Interested candidates are requested to send an email to karmel.alsalqan@enabel.be to express their interest. Enabel will publish updates on its official website and will directly contact registered suppliers if there is any change to the submission modality.

3.4.7 Change or withdrawal of a tender that has already been submitted

When a tenderer wants to change or withdraw a tender already submitted this must be done in accordance with the provisions of Article 43 and 85 of the Royal Decree of 18 April 2017.

To change or withdraw a tender already sent or submitted, a written statement is required, which will be correctly signed by the tenderer or his representative. The subject-matter and the scope of the changes must be indicated in detail. Any withdrawal must be unconditional.

The withdrawal may also be communicated by email, provided that it is confirmed by registered letter deposited at the post office or against acknowledgement of receipt at the latest the day before the tender acceptance deadline.

3.4.8 Opening of Tenders

The tenders must be in the possession of the contracting authority **before Monday July 14, 2025 at 03:00 PM**. The tenders shall be opened behind closed doors.

3.5 Selection of Tenderers and evaluation of Tenders

3.5.1 Overview of the procedure

In a first phase, the tenders submitted by the selected tenderers will be evaluated as to formal and material regularity.

The contracting authority reserves the right to have the irregularities in the tenderers' tender regularised.

In a second phase, the formally and materially regular tenders will be evaluated as to content by an evaluation commission. The contracting authority will restrict the number of tenders to be negotiated by applying the award criterion stated in the procurement documents. This evaluation will be conducted on the basis of the award criterion 'price/cost' given in these Tender Specifications and aims to setting a shortlist of tenderers with whom negotiations will be conducted. Maximum **three** tenderers may be included in the shortlist.

Then, the negotiation phase follows. With a view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The minimum requirements and the award criteria are not negotiable. However, the contracting authority may also decide not to negotiate. In this case, the initial tender is the final tender.

When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any BAFOs. Once negotiations are closed, the BAFO will be compared with the exclusion, selection

and 'price/cost' award criteria. The tenderer whose regular BAFO is the best value for money will be appointed the contractor for this contract.

The BAFOs of the tenderers with whom negotiations have been conducted will be evaluated as to their regularity. Irregular BAFOs will be excluded.

Only the regular BAFOs will be considered and assessed against the award criteria.

The contracting authority reserves the right to review the procedure set out above in line with the principle of processing equality and transparency.

3.5.2 Selection of tenderers

3.5.2.1 Exclusion grounds

By submitting this tender, the tenderer certifies that he is not in any of the cases of exclusion listed in the Articles 67 – 70 of the Law of 17 June 2016 and the Articles 61 – 64 of the Royal Decree of 18 April 2017.

The contracting authority will verify the accuracy of this Declaration on honour for the tenderer with the best ranked tender. For that purpose, the contracting authority will ask the tenderer concerned to provide information or documents allowing the contracting authority to verify the tenderer's personal situation by the fastest means and within the term set by the contracting authority. The contracting authority will itself ask for information or documents that it can obtain free of charge by digital means from the instances that manage the information or documents.

The grounds for exclusion apply to :

- 1° all participants who submit a joint request to participate and who intend, in the event of selection, to form a group of economic operators ;
- 2° all participants who, as a group of economic operators, jointly submit a tender; and
- 3° third parties (in particular subcontractors or independent subsidiaries) whose capacity is called upon with regard to the criteria relating to economic and financial capacity and the criteria relating to technical aptitude (see 6-Selection file) within the meaning of paragraph 1 of Article 73 of the R.D. of 18 April 2017.

3.5.2.2 Selection criteria

Moreover, by means of the documents requested, the tenderer must prove that he is sufficiently capable, from an economic and financial as well as from a technical point of view, to successfully perform this public contract.

Only tenders from tenderers who meet the selection criteria are taken into consideration in order to participate in the comparison of tenders on the basis of the award criteria set out below, subject to the regularity of these tenders.

The selection criteria are the following:

- 1° Economic and financial capacity - **average annual turnover**.
- 2° Technical aptitude – **staff**.
- 3° Technical aptitude – **references of experience** with certificates of completion.

In view of the qualitative selection of tenderers and in conformity with Art. 67 to 74 of the Royal Decree of 18 April 2017, for this contract the tenderer must add to his/her tender documents a

selection file with the information requested with regards to his/her financial capacity as well as his/her technical capacity.

A tenderer may, if necessary and for a specific contract, submit the capacities of other entities, whatever the legal nature of the relations existing between himself and these entities. In that case, (s)he must prove to the Contracting Authority that, for the performance of the contract, (s)he shall have the necessary resources by presenting the commitment of these entities to make such resources available to the service provider. Under the same conditions, a group of candidates or of tenderers can submit the capacities of the group's participants or those of other entities.

3.5.3 Award criteria

The contracting authority will choose the regular tender that it finds being most economically advantageous, taking account of the following criteria: award on the basis of the **price** using the following formula:

$$\text{Points tender A} = \frac{\text{amount of lowest tender}}{\text{amount of tender A}} * 100$$

The contract will be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the Declaration on honour of this tenderer and provided the check shows that the Declaration on honour corresponds with reality.

3.5.4 Awarding the public contract

The contract will be awarded to the tenderer who have submitted the most economically advantageous, possibly improved, tender.

Notice though that, in accordance with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the contract.

The contracting authority may either decide not to award the contract, either redo the procedure, if necessary through another award procedure.

3.5.5 Concluding the public contract

In accordance with Art. 88 of the Royal Decree of 18 April 2017, the contract occurs through the notification to the selected tenderer of the approval of his/her tender.

Notification is by scanned letter attached to an email, with the original letter sent by registered mail or handed by hand upon signed receipt within five calendar days.

So, the full contract consists of a contract awarded by Enabel to the chosen tenderer in accordance with:

- 1° These Tender Specifications and its annexes,
- 2° The approved tender and all its annexes,
- 3° The letter of notification of the award decision,
- 4° If any, minutes of the information session and/or clarifications and/or the addendum,
- 5° Any later documents that are accepted and signed by both parties, as appropriate.

4 Specific contractual and administrative conditions

This chapter of these Tender Specifications holds the specific provisions that apply to this public contract by way of derogation from the 'General Implementing Rules for public procurement and for concessions for public works' of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR', or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

These Tender Specifications derogate Articles 25. §2 and 26 of the General Implementing Rules – GIR (Royal Decree of 14 January 2013).

4.1 Definitions (Art. 2)

The following definitions apply to this contract:

Managing official: The official or any other person who manages and controls the performance of the contract;

Performance bond: Financial collateral given by the contractor to ensure he will fulfil his obligations until final and good performance of the contract;

Acceptance: Observation by the contracting authority that the performance by the contractor of all or part of the works, supplies or services is in compliance with good practice and with the terms and conditions of the contract;

Progress payment: Payment of an instalment under the contract after acceptance of performance;

Advance: Payment of part of the contract before acceptance of performance;

Amendment: Agreement established between the contracting parties during contract performance in view of changing documents applicable to the contract.

4.2 Correspondence with the building contractor (Art. 10)

The usage of digital means for the purpose of exchanging during the performance of the contract is allowed and encouraged unless where indicated otherwise in these Tender Specifications.

In the latter cases, notifications of the contracting authority are sent to the domicile or the registered office mentioned in the tender.

Whether electronic means are used or not, communications, exchanges and storage of information take place in a way that ensures the integrity and confidentiality of data.

4.3 Managing official (Art. 11)

The management and control of contract performance are entrusted to **Ms. Lina Harramy, Project Manager, assisted by Ms. Fatima Sarraj, Architecture Expert.**

Once the contract is concluded, the managing official is the main contact point for the building contractor. Any correspondence or any questions with regards to the performance of the contract will be addressed to him, unless explicitly mentioned otherwise in these Tender Specifications (see namely, "Payments" below).

The managing official is fully competent for the follow-up of the satisfactory performance of the contract, including issuing service orders, drawing up reports and states of affairs, approving the services, progress reports and reviews. He or she may order any modifications to the contract with regards to its subject-matter provided that they remain within its scope.

However, the signing of amendments or any other decision or agreement implying derogation from the essential terms and conditions of the contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under point Contracting authority.

4.4 Subcontractors (Art. 12 to 15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not relieve him of liability to the contracting authority. The latter does not recognise any contractual relation with third parties.

The contractor remains, in any case, solely liable to the contracting authority.

The building contractor undertakes to having the contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the contract. Any replacements must be approved by the contracting authority.

4.5 Confidentiality (Art. 18)

The building contractor and his employees are bound by a duty of reserve concerning the information which comes to their knowledge during performance of this contract. This information may not under any circumstances be communicated to third parties without the written consent of the contracting authority. The building contractor may, nevertheless, list this contract as a reference, provided that he indicates its status correctly (e.g. 'in performance') and that the contracting authority has not withdrawn this consent due to poor contract performance.

4.6 Insurance (Art. 24)

The contractor takes out insurance policies covering his liability for occupational accidents and its third party liability for the performance of the contract.

The contractor also takes out any other insurance policy imposed by the procurement documents.

Within thirty days from contract conclusion the contractor provides evidence that he has taken out these insurance policies through a certificate stating the extent of the liability covered required by the procurement documents.

At any time during contract performance, the contractor provides such certificate within fifteen days following the reception of such a request from the contracting authority.

4.7 Performance bond (Art. 25 to 33)

The performance bond is set at 5% of the total amount, excluding VAT, of the contract. The amount thus obtained will be rounded up to the nearest 10 euros.

In accordance with the legal and regulatory provisions, the performance bond may be constituted either of cash or of public funds or may take the form of a joint performance bond.

The performance bond may also take the form of a surety bond issued by a credit institution meeting the requirements of the law on the statute and control of credit institutions, or by an insurance company meeting the requirements of the law on control of insurance companies and approved for branch 15 (bonds).

By way of derogation from Article 26, the performance bond may be posted through an establishment that has its registered office outside Belgium. The contracting authority reserves the right to accept or refuse the posting of the bond through that institution. The contractor shall mention the name and address of this institution in the tender. This derogation is founded on the idea of providing possible local tenderers with an opportunity to submit a tender. This measure is made essential by the specific requirements of the contract.

The contractor must, within 30 calendar days from the day of contract conclusion, furnish proof that he or a third party has posted the bond in one of the ways set out below:

- 6° in the case of cash, by transfer of the amount to the bpost bank account number of the Deposit and Consignment Office, Complete the following form:

► https://finances.belgium.be/sites/default/files/o1_marche_public.pdf

as completely as possible and return it to the e-mail address:

► info.cdcdck@minfin.fed.be

After reception and validation of said form, an agent of Belgium's Deposit and Consignment Office (Caisse des Dépôts et Consignations) will communicate the payment instructions (account number + communication) for posting the bond in cash;

- 7° in the case of public funds, by depositing such funds, for the account of the Deposit and Consignment Office, with the State Cashier at the head office of the National Bank in Brussels or at one of its provincial agencies or with a public institution with an equivalent function
- 8° in the case of a joint surety, by deposit via an institution that lawfully carries out this activity of a deed of joint surety with the Deposit and Consignment Office or with a public institution with an equivalent function
- 9° in the case of a guarantee, by the deed of undertaking of the credit institution or the insurance company.

This proof must be provided as applicable by submission to the contracting authority of:

- 1° deposit receipt of the Deposit and Consignment Office or of a public institution with an equivalent function, or
- 2° a debit notice issued by the credit institution or the insurance company; or
- 3° the deposit certificate issued by the State Cashier or public institution with an equivalent function; or
- 4° the original copy of the deed of joint surety stamped by the Depot and Consignment Office or by a public institution with an equivalent function; or

- 5° ° the original copy of the deed of undertaking issued by the credit institution or the insurance company granting a guaranty.
- 6° A bank cheque.

These documents, signed by the depositor, must state why the performance bond was posted and its precise usage, consisting of a concise indication of the subject-matter of the contract and a reference to the procurement documents, as well as the name, first names and full address of the contractor and, where relevant, that of the third party that made the deposit on the contractor's account, bearing the statement 'lender' or 'mandatary' as appropriate.

The period of 30 calendar days specified above is suspended during the period of closure of the contractor's business for paid annual holidays and the days off in lieu stipulated by regulation or by a collective binding labour agreement.

Proof that the required performance bond has been posted must be sent to the address that will be mentioned in the contract conclusion notification.

Request by the contractor for the acceptance procedure to be carried out:

- 1° For provisional acceptance: This is equal to a request to release the first half of the performance bond
- 2° For final acceptance: This is equal to a request to release the second half of the performance bond, or, in case no provisional acceptance applied, to release the whole of the performance bond.

4.8 Conformity of performance (Art. 34)

The works must comply in all respects with the procurement documents. Even in the absence of technical specifications in the procurement documents, the works, supplies and services must comply in all aspects with good practice.

4.9 Plans, documents, and objects prepared by the contracting authority (Art. 35)

At the request of the contractor, the contractor receives free of charge and where possible in digital form a complete set of plans that has served as the basis for awarding the contract. The contracting authority is liable for the conformity of these copies with the original plans.

The contractor preserves all the documents and correspondence relating to the award and performance of the contract and keeps these available to the contracting authority until final acceptance.

4.10 Detailed plans and work plans prepared by the contractor (Art. 36)

The contractor prepares at his own expense all the detailed plans and work plans it requires for successful performance of the contract.

The procurement documents specify which plans require approval by the contracting authority, which has 30 days to approve or reject the plans starting from the date on which they are submitted to it.

Any corrected documents are resubmitted for approval to the contracting authority, which has 15 days to approve them, provided that the corrections requested are not the result of new demands made by the contracting authority.

4.10.1 Construction planning

How the planning is submitted is to be discussed with the managing official.

The first planning is to be introduced within 7 calendar days following tender award notification and it is to be updated every 15 days during construction.

This draft construction planning provides, in addition to deadlines for the 'on-site' works as such, the timing for the different preliminary achievements such as the establishment of documents prescribed by the technical provisions, implementation plans and detailed plans, calculation notes, selection of equipment and materials, including the approval of related documents, the supplies, workshop or factory work, preliminary tests and conformity tests, etc.

After it has been studied and remarks have been made and following approval of the contracting authority, the planning becomes contractually binding.

4.10.2 Master plan

The building contractor undertakes to deliver a master plan to be approved by the contracting authority and its advisors within 15 calendar days following notification of contract conclusion.

This plan must sufficiently anticipate situations to allow the contracting authority to take decisions or provide answers or supply the documents that are incumbent upon it.

The master plan will be updated at least every month and must be consistent with the construction planning. It will be aligned with the construction planning and will be based on the same document.

The contractor will be sole manager of the planning of all activities required to perform this procurement contract.

In particular he plans:

- 1° Set dates for delivering implementation plans that he needs,
- 2° The placing of orders to his suppliers and subcontractors,
- 3° The presentation in due time of samples and technical forms of products submitted for preliminary technical acceptance,
- 4° Measuring the works and the workshop manufacture period,
- 5° Indication of deadline dates for decisions to be taken by the contracting authority,
- 6° Indication of deadline dates for the conclusion of modifications to orders being elaborated,
- 7° Indication of deadline dates for the achievement of works performed by other enterprises,
- 8° Registration, in due time, of the measurements of the works,
- 9° etc.

4.10.3 Implementing documents

These plans take into account the Tender Specifications and technical provisions, the design drawings of the project developer and general architecture plans, stability plans, and special techniques plans annexed to these Tender Specifications.

All implementation plans and detail plans are to be submitted for approval to the contracting authority along with calculation notes, technical approvals, and technical forms and in particular those related to the works and the equipment listed below (non-exhaustive list):

- 1° Upgrade foundations in view of works planned
- 2° Stability: plans for slabs, posts and beams, stairs, or any prefabricated component
- 3° Sealing
- 4° Finishing of rooms (walls, floor, and ceiling)
- 5° Inside and outside drainage
- 6° List of stones
- 7° Roof covering, roof carpentry
- 8° Façades
- 9° Partition walls
- 10° False ceilings
- 11° Furniture based on tender documents
- 12° Lights layout plan
- 13° Plan of metal joinery (banisters, handrails, gangway, porch)
- 14° List of inside joinery Plan of special techniques

The managing official may refuse technical forms which are partial, incomplete, or too commercial and do not provide the technical information required for assessment and approval.

Samples of ironware, heating, electricity or plumbing fixtures or any similar pieces will be submitted for approval to the managing official and for advice to the project developer's and the approved model will remain on the construction site until the placement of the last piece of its kind.

At the request of the contracting authority, the building contractor will also provide the following documents during the performance period:

- 1° Samples of materials proposed corresponding to the technical forms (see "Samples" in Annex 3 - Technical Specifications)
- 2° Colour shade cards to determine the choice of colours
- 3° Test reports, technical manuals, technical approvals, technical forms, etc. (see 1.8 "Material's testing" in Annex 3 - Technical Specifications)
- 4° Products or equipment used for this contract.

4.10.4 Establishment of "As Built" plans

During performance, the building contractor shall revise and update the plans to the last detail in order to accurately reproduce the works and installations and their specifics as built.

When the works are completed and in view of provisional acceptance of the works, the building contractor is to submit the complete plans and diagrams of the works and installations as built.

When the works are completed and in view of provisional acceptance, the building contractor is to submit the technical files including:

- 1° technical specifications with brands names, types, origin of the equipment installed
- 2° users' manuals, explaining the functioning of all equipment
- 3° maintenance manuals, explaining everything that needs to be done for the maintenance and care of the amenities and equipment (regular control and maintenance, list and codes of spare parts...)
- 4° and test reports, tuning and adjustment reports.

4.11 Changes to the public contract (Art. 37 to 38/19 and 80)

4.11.1 Replacement of the contractor (Art. 38/3)

Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of the supplies and services already delivered, the new contractor's contact details and the documents and certificates which the contracting authority cannot access free of charge.

The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the contract.

4.11.2 Revision of prices (Art. 38/7)

This public contract provides for a price revision. Only one price revision can be applied per year (upon the contract award anniversary date).

To calculate the price revision, the following formula applies:

$$\blacktriangleright P = P_0 \times \left(\frac{s}{S} \times 0.4 + \frac{i}{I} \times 0.4 + 0.2 \right)$$

- Lower-case letters relate to data that are valid on the date the price revision is applied. Capital letters relate to data that are available 10 days before the opening of the tenders.
- P = Price after revision
- P₀ = Price of the tender
- S = salary costs (including social contributions): represents the average hourly wages of skilled workers, skilled workers and laborers, set by the Belgian National Joint Committee for the Construction Industry or local equivalent, increased by the overall percentage of social charges and insurance, as accepted by the Belgian Federal Public Service Economy (category A) or local equivalent, 10 days before the opening of tenders
- s = same average hourly wages as S but on the initial date of the monthly period considered in the progress payment
- I = the index based on annual consumption on the internal market of the main materials and raw materials, established by the Belgian Federal Public Service (SPF) Economy (or local equivalent) for the calendar month preceding the date of opening of the offers
- i = the same index, for the calendar month preceding the period of the progress payment

Each fraction is rounded to the 5th decimal. The products of the multiplication of each of the quotients thus obtained by the value of the corresponding parameter are then also rounded to the 5th decimal.

The price revision may only be applied if the price increase or decrease following the request or if the price revision request amounts to at least 3% of the price quoted in the tender (for the first price revision) or of the last price revised or imposed (as of the second price revision).

4.11.3 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

The contracting authority reserves the right to suspend the performance of the contract for a given period, mainly when it considers that the contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- 1° The suspension lasts in total longer than one twentieth of the performance period and at least ten working days or two calendar weeks, depending on whether the performance period is expressed in working days or calendar days.
- 2° The suspension is not owing to unfavourable weather conditions.
- 3° The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the contract.

As a reminder, in accordance with Article 80 of the Royal Decree of 14 January 2013, the building contractor is required to continue the works without interruption, notwithstanding any disputes which might result from the determination of the new prices.

Any order amending the contract during performance of the contract is issued in writing. However, minor amendments need only be entered in the works logbook.

The orders or entries shall specify the changes to be made to the initial terms of the contract and to the plans.

4.11.4 Setting unit or global prices – Calculation of the price

The unit or global prices of changed works, which the building contractor is bound to carry out, are determined in the following order of priority:

- 1° In accordance with the unit or global prices of the approved tender.
- 2° By default, in accordance with the unit or global prices inferred from the approved tender.

- 3° By default, in accordance with the unit or global prices from another contract of Enabel.
- 4° By default, in accordance with the unit or global prices to be agreed upon on the occasion.

In the latter case, the building contractor shall justify the new unit price by detailing the supplies, person-hours, equipment hours and general costs as well as profits.

4.11.5 Setting unit or global prices – Procedure to follow

The building contractor submits his proposal for the execution of the complementary achievements or his new prices within 10 calendar days from the request of the managing official (unless the latter has specified a shorter deadline) and before executing the works considered. This proposal is submitted on the basis of a standard form that will be provided by the managing official and will come with all necessary annexes and justifications.

This form for agreed prices is established on the basis of a format from Enabel. The building contractor will attach at least the following annexes and documents to it:

- 1° The amending order from the contracting authority and more in general the justification of the modification of the works
- 2° The calculation of new unit or global prices
- 3° The quantities to be implemented for the existing items and for any new items
- 4° If appropriate, the tenders of subcontractors or suppliers consulted
- 5° Any other documents he or she deems pertinent

After executing the achievement and at the latest upon establishment of the final settlement of account, the building contractor shall transfer the invoices that have been sent to him by subcontractors and suppliers to the managing official. He shall certify on these invoices not having received any credit note or compensation from the supplier or subcontractor for the invoice.

When the building contractor defaults on providing an acceptable new price proposal or when the contracting authority deems the proposal made unacceptable, the contracting authority will set the new unit or global price as of right, all rights of the building contractor being preserved.

4.11.6 Unforeseeable circumstances

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this public contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.12 Control and supervision of the public contract

4.12.1 Scope of the control and supervision (Art. 39)

The contracting authority may have the preparation and the performance of the delivery supervised or controlled at any location by all appropriate means.

The contractor is required to provide the representatives of the contracting authority with all the information and facilities needed for carrying out their task.

The fact that such supervision or control has been carried out by the contracting authority does not release the contractor of its liability should delivery eventually be rejected due to defects of any kind.

4.13 Technical acceptance procedures (Art. 41)

Concerning technical acceptance, it is necessary to distinguish between:

- 1° Preliminary technical acceptance within the meaning of Article 42; and
- 2° Ex post technical acceptance within the meaning of Article 43.

The contracting authority may waive all or part of the technical acceptance procedures where the contractor can prove that the products have been controlled by an independent body during their production, in accordance with the specifications of the procurement documents. In this respect, any other certification procedure in force in a Member State of the European Union is regarded as comparable to the Belgian conformity certification procedure and deemed equivalent .

4.13.1 Preliminary technical acceptance (Art. 41 -42)

As a general rule, the products cannot be used unless they have been previously received by the managing official or his delegate.

All the proposed material is subject to approval by the contracting authority. This approval is obtained on the basis of preliminary technical sheets which are drawn up by the contractor and sent to the managing official.

The technical sheets present the supplies, material and equipment overall and give the specifications and selections retained within the framework of the project.

The contracting authority refuses to receive partial, incomplete technical sheets which do not provide the technical information necessary for examination and approval.

As soon as the remarks are in the possession of the contractor, the latter takes them into account and completes the technical sheet in order to have it approved.

Technical acceptance can be carried out at different stages of production.

Products which, at a given stage, do not comply with the checks required, are declared not to be in a state of technical acceptance.

The contractor is responsible for the custody and conservation of these various products, taking into account the risks run by his company, until provisional acceptance of the work.

Except for approved products, the costs related to prior technical acceptance are borne by the contractor.

In any case, these costs include:

- 1° costs related to the services of the receivers; these include travel and subsistence allowances for receivers.
- 2° the costs associated with taking samples, packaging and transporting the samples, regardless of where the inspection takes place,

- 3° the costs linked to the tests (preparations, manufacture of the test pieces, actual cost of the tests (for this purpose, the circulars relating to the fixing of the test prices are applicable)).
- 4° costs related to the replacement of products with defects or damage.

4.13.2 Ex post technical acceptance (Art. 43)

Ex post technical acceptance will obligatorily be carried out for any defects to works or equipment components that would have remained hidden after completion of the works.

4.14 Performance period (Art. 76)

The building contractor is to complete the works within a period, calculated in **calendar** days as of the date set in the written service order to commence the works.

Lot	School Name	Performance period / Calendar days
1	Al-Hasan Al-Thany basic boys school	45
	Al-Fata Al-Laji'a A secondary girls school	75
	Shabbat Al-Shameleh secondary girls school	75
2	Al-Nithamiyeh Basic girls school	75
3	Al-Beiruni secondary boys school	90

This deadline is to be counted as of the day put down in the written service order to commence the works.

All lots have to be implemented in parallel and independently. The tenderer shall start the implementation immediately after the commencement order.

4.15 Provision of land (Art. 77)

The building contractor shall bear all costs pertaining to land that is needed for the installation of his construction sites, storing supplies, preparing and handling materials as well as land needed for storing soil, excavated soil that is known to be unsuitable for reuse as landfill, material from demolition, general waste of any kind and excess earth.

He is liable, vis-à-vis adjoining landowners, for any damage to private property while achieving the works or storing the materials.

The enclosing hoardings may not be used for advertising.

No advertising is allowed on the sites used, except for 'Construction site information'.

4.16 Labour conditions (Art. 78)

All the legal, regulatory and contractual provisions relating to the general conditions of work and health and safety in the workplace will apply to all personnel on the contractor's site.

The building contractor, all persons acting as a subcontractor at any stage and all persons providing personnel, shall be required to pay their respective personnel salaries, bonuses and allowances at the rates established by law, by collective agreements concluded by company agreements.

The building contractor shall keep available to the contracting authority at all times, at a location designated by the latter, a list, updated on a daily basis, of all the personnel it employs on the site.

This list contains at least the following personal information: the name; the first name; actual occupation per day on the construction site; the date of birth; the job title; qualifications.

The contact person appointed by the building contractor for the performance of this contract with the contracting authority will have to master the following languages: English and Arabic.

4.16.1 Gender equality

In accordance with article 3, 3 ° of the law of January 12, 2007 "Gender Mainstreaming", public procurement must take into account the possible differences between women and men (the gender dimension). The successful tenderer must therefore analyse according to the field concerned by the contract, whether there are differences between women and men. In carrying out the contract, he must therefore take account of the differences noted.

Communication must combat sexist stereotypes in terms of message, image and language, and take account of the different situations between women and men in the target audience.

4.17 Organisation of the construction site (Art. 79)

The building contractor shall comply with the local legal and regulatory provisions governing building works, road works, health and safety in the workplace as well as the provisions of collective, national, regional, local and company agreements.

During the performance of the works, the building contractor shall be required to maintain the security of the site for the duration of the works and, in the interests of his own appointees and the representatives of the contracting authority and third parties, to take all necessary measures to ensure their safety.

The building contractor shall, under his sole responsibility and at his own expense, take all necessary measures to ensure the protection, preservation and integrity of existing buildings and works. He shall also take all the precautions required by best building practices and any special circumstances to protect neighbouring properties and to prevent any disturbance to them through his fault. (S)he is to protect and maintain the existing borders of the area (steel angles). In case they are moved or removed, because of the contractor usage of his equipment or any other reason, the contractor is return these angles to their correct position as per the instructions provided by the Managing Official. The contractor is to cover and protect the works from the climatic conditions or misuse or negligence, etc., by providing a proper fence, nets and covers according to the Managing Official's approval. The contractor, at his own expenses, shall repair any damages to the works caused by his negligence.

In particular, during each organisation/club opening hours, the contractor shall ensure:

- 1° a total protection of the worksite from the intrusion of people (temporary doors, corridors and fences),
- 2° no construction materials should be stored at the main entrance of other facilities or in any other location accessible by people,
- 3° the minimizing of noise and other disturbances during the working hours, and deliveries should take place outside of students' entry and exit to the school.

The building contractor shall bear all costs of and implement all necessary measures to signal in daylight, at night as well as in fog, the construction sites and storage sites that are located where vehicles and pedestrians circulate. He is to completely enclose his sites along temporary or permanent sidewalks as well as along temporary or permanent traffic arteries. Such enclosing and hoarding will also ensure the protection of the construction site during the construction period against any outside intrusion.

The building contractor shall supply a purpose-made notification billboard for this construction site with dimensions and following the model offered by the contracting authority prior to starting the works.

This informative panel will be put in place when construction work starts in a place that is to be defined by the contracting authority.

4.18 Means of control (Art. 82)

The building contractor shall notify the contracting authority of the precise location of works in progress on its site, in his workshops and factories and on the premises of his subcontractors and suppliers.

Without prejudice to the technical acceptance operations to be carried out on site, the building contractor shall at all times grant to the managing official and the representatives appointed by the contracting authority free access to the sites of production, for the purposes of monitoring strict application of the contract, in particular concerning the origin and quality of the products.

If the building contractor uses products that have not been accepted or that do not meet the demands of the Tender Specifications, the managing official or his/her representative may forbid the further pursuit of the works concerned, until these refused products are replaced by others that meet the contract's conditions, without this decision generating an extension of the performance period or any entitlement to compensation. The building contractor is notified about the decision by means of a written report.

4.19 Works logbook (Art. 83)

Upon contract conclusion notification, the building contractor makes the necessary Works logbooks available to Enabel.

Once the works have started, the building contractor shall supply 2 copies with all necessary information for establishing the Works logbooks on a daily basis to the contracting authority's representatives. This concerns:

- 1° Weather conditions
- 2° Interruptions to works caused by adverse weather conditions
- 3° Working hours

- 4° The number and capacity of workers employed on the site
- 5° Materials supplied
- 6° Equipment actually used and equipment out of service
- 7° Unforeseen events
- 8° Amending orders of minor impact
- 9° The attachments and quantities performed for each item and in each zone of the construction site. The attachments constituting the true and detailed representation of all works performed, in quantity, dimensions and weights.

Delay in providing the above documents may result in the application of penalties.

When the building contractor does not formulate any remarks in due form and within above-mentioned deadlines, he is deemed to be in agreement with the annotations made in the logbooks or detailed attachments.

When these observations are not deemed justified, the building contractor will be notified accordingly by registered letter.

4.20 Liability of the building contractor (Art. 84)

The building contractor shall be held liable in respect of all works performed by him or his subcontractors until final acceptance of all works. During the warranty period, the building contractor shall carry out on the work, as required, all the works and repairs necessary to restore it to a good state of operation, and maintain it in this state.

Any repairs to shortcomings are performed in compliance with the instructions of the contracting authority.

4.21 Means of action of the contracting authority (Art. 44-51 and 85-88)

The building contractor's default is not solely related to works as such but also to the whole of the building contractor's obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the building contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to appointees of the contracting authority who are concerned directly or indirectly by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

In case of violation, the contracting authority may impose a lump-sum fine to the building contractor for each violation, which can be to up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the appointee and of the advantage that the contractor hoped to obtain by offering the advantage to the appointee. The contracting authority will decide independently about the application and the amount of this fine.

Moreover, in case of suspicion of fraud or of bad workmanship during performance, the building contractor may be required to demolish the whole or part of the works executed and to rebuild them. The costs of demolition and reconstruction will be borne by the building contractor or the contracting authority, according to whether the suspicion is found to be justified or not.

This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the contract and/or the exclusion from procurement by the contracting authority for a determined duration.

4.21.1 Failure of performance (Art. 44)

The contractor is considered to be in failure of performance under the contract:

- 1° when the delivery is not carried out in accordance with the conditions specified in the procurement documents;
- 2° at any time, when the delivery has not progressed in such a way that it can be fully completed on the due dates;
- 3° when he does not observe written orders, which have been given in due form by the contracting authority.

Any failure to comply with the provisions of the public contract, including the non-observance of orders of the contracting authority, is recorded in a report ('process verbal'), a copy of which will be sent immediately to the contractor by registered mail.

The contractor must repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed acknowledgement of the reported facts.

Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 86 -87.

4.21.2 Special Penalties (Art. 45)

Because of the significance of the works, are burdened, without the need for notice and by the breach only, with a daily penalty of EUR 250 for every calendar day of non-performance:

- 1° Non-delivery of administrative and technical documents such as the Construction Planning mentioned in 4.10.1 Construction planning, p.24 or other plans or drawings defined in 4.10, because not having delivered the documents listed by the time set during construction site meetings or by administrative order.
- 2° Absence from construction site meetings or coordination meetings: For every absence a penalty will be imposed to the building contractor who has not attended or has not been validly represented at meetings which he was supposed to attend.
- 3° Delay in executing observations or administrative orders of the contracting authority's via the managing official. Where the lists of observations result from construction site visits, in particular for painting orders, or upon acceptance, have not been fulfilled by the time set by the managing official, the contractor will be penalised per calendar day of delay until performance is effectively carried out.
- 4° Change of one of the key staff members without prior agreement of the contracting authority: A lump sum penalty is applied per day of default, ending when, either the managing official obtains the approval of the contracting authority for the new member's being put in place, or the replaced member is re-established in its duties, or both parties agree about a new person as a replacement that is jointly accepted. When the penalties are applied, these may in no case be recuperated retrospectively, even where agreement is found.

If a shortcoming to one of the stipulations mentioned above is found in accordance with Article 44 §2 of the Royal Decree of 14 January 2013, the contracting authority may allow a period to the building contractor to repair the shortcoming and to inform it about this reparation by registered mail. In this case, the contractor is notified of the deadline along with the failure of performance report mentioned in Art. 44 §2 of the Royal Decree of 14 January 2013.

If no term is indicated in the registered letter the contractor is to repair the shortcomings without any further delay.

4.21.3 Fines for delay (Art. 46 et seq. and 86)

The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance period without the issuing of a report and they are automatically applied for the total number of days of delay.

Fines are calculated following the formula given in Article 86 §1.

Regardless of the application of any fines for delay, the contractor indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the contract.

In case the works being the subject-matter of these Tender Specifications were not completed within the period set in point, 4.14 Performance period (Art. 76), p.30 the following fine will be applied as of right for every working day of delay without the need for notice, simply by the expiry of the period in question:

$$\blacktriangleright R = 0.45 \times \frac{(M \times n^2)}{N^2}$$

Where:

- R = the sum of the fines to be applied for a delay of n working days
- M = the initial value of procurement
- N = the number of working days initially specified for performance of the contract
- n = the number of working days of delay.

However, if the factor M does not exceed EUR 75 000 and, at the same time, N does not exceed 150 working days, the denominator N^2 will be replaced by $150 \times N$.

The different sub-lots (see Performance period (Art. 76), p.30) are to be considered as separate parts, each of which has its own period N and value M, and will be deemed a distinct contract for the application of fines.

If the contract includes several parts or several stages, each of which has its own period N and value M, each of them will be deemed a distinct contract for the application of fines.

If, without setting parts or stages, the Tender Specifications stipulate that partial periods apply, failure to observe these will be penalised by special fines provided for in the Tender Specifications, or, in the absence of such a provision, by fines calculated in accordance with the formula referred to in Art. 86§1 of the Royal Decree of 14 January 2013, in which the factors M and N refer to the total contract. However, the maximum of the fines relating to each partial period of P working days shall be:

$$R_{par} = \frac{M}{20} \times \frac{P}{N}$$

4.21.4 Measures as of right (Art. 47 and 87)

When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiry of the term given in Article 44, §2, when the contractor has explicitly recognised the defects detected.

The measures as of right are:

- 1° Unilateral termination of the contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;
- 2° Performance under regime of all or part of the non-performed public contract;
- 3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures referred to in 1°, 2° and 3° will be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract will be borne by the new contractor.

4.21.5 Other sanctions (Art. 48)

Without prejudice to the sanctions provided in these Tender Specifications, the contractor defaulting on performance may be excluded by the contracting authority from its public contracts for a three-year period. The contractor in question will be given the opportunity to present a defence and the reasoned decision will be notified to him.

4.22 Acceptance, guarantee, and end of the public contract (Art. 64-65 and 91-92)

4.22.1 Entry and exit inventory of fixtures and state of property

Immediately after awarding but before the beginning of the implementation of any works, the Contractor shall carry out an inspection visit and draw a **joint entry inventory** of fixtures and state of property. This inspection by the contractor shall be carried out in the presence of the school principal (or a representative of the Directorate of Education of Jerusalem), and the consultants in charge of the supervision of the works (and/or a representative of the Contracting Authority). In the report of the inventory, the Contractor shall mention any pre-existing defects in the school building and equipment, which are not related to the works. The report shall be dated and signed by the three parties and accompanied by a USB/CD/DVD containing pictures (and/or videos) of all the rooms and spaces related to the works, including spaces where no works are planned to take place but which will be needed for passage of personnel or goods.

Immediately before the Contracting Authority takes possession of the building parts where the works have taken place (which may take place before or after the provisional acceptance of the works – cf. below), an **exit inventory** shall be drawn up by the same parties as the entry inventory. Any damage or defect to the neighbouring spaces and any missing, damaged or dysfunctional piece of equipment shall be considered as not having existed before the works

and as being the responsibility of the contractor, unless it is specifically mentioned in the entry inventory or documented on one of the pictures/videos annexed to it.

4.22.2 Acceptance of the works performed (Art. 64-65 and 91-92)

The managing official will closely follow up the works during performance, with the assistance of the Architecture Expert and of the consultants in charge of the supervision. The works will not be accepted until after fulfilling audit checks, technical acceptance and prescribed tests.

As a general rule, the Contractor must always invite the Contracting Authority to inspect works that are going to be hidden (e.g. wall insulation, concrete reinforcement, etc) before they get so, and must document (by pictures, videos or other means) any such works. Such works will always be presumed as not compliant if they have neither been inspected nor properly documented.

In the absence of the managing official, the National Technical Advisor has authority to approve supplies and inspect works in the name of the Contracting Authority. However, indications from the consultants in charge of supervision must be considered as indicative and may be contradicted at any time by the Contracting Authority.

Any change or deviation from what is indicated in the plans, bills of quantities and technical specifications, even if related to an apparent mistake in these documents, must be approved in writing by the Contracting Authority. In case of contradictory or ambiguous elements in these documents, the Contracting Authority is solely authorised to interpret or clarify these elements and must do so in writing. The consultants in charge of the supervision may in no case give such interpretation or make any changes to the content of these documents without the Contracting Authority's approval.

Within the framework of this contract, is planned:

- 1° a partial provisional acceptance: provided upon submission of each progress payment
- 2° a complete provisional acceptance: provided upon the completion of performance of the works forming the subject-matter of the contract
- 3° a final acceptance: on expiry of a warranty period.

The total or partial taking of possession of the work by the contracting authority does not constitute provisional acceptance.

The contracting authority shall verify and pay the amount due to the contractor within a processing period of thirty days from the date of receipt by the contracting authority of the statement of claim and the detailed statement of work carried out.

When the work is completed on the date set for its completion, and provided that the results of the technical acceptance inspections and prescribed tests are known, a report confirming provisional acceptance or refusing acceptance will be drawn up.

When the work is terminated before or after this date, the building contractor notifies the managing official thereof by e-mail, showing the exact date of dispatch, and requests, on that occasion, to proceed to provisional acceptance. Within 15 days after the date of receipt of the building contractor's request, and provided that the results of the technical acceptance inspections and prescribed tests are known, a report confirming provisional acceptance or refusing acceptance will be drawn up.

The provisional acceptance visit shall not take place until all works are fully terminated. In case the contractor notifies the managing official that works are terminated but it appears during

the technical acceptance inspection that works are not fully implemented, a report refusing the technical acceptance will be drawn up, the contractor's notification is considered as void and the 15 day and 30 day deadlines set in **Error! Reference source not found.** and o do not apply from its date. Once the works are fully implemented, the contractor will have to send a new notification as per o.

Site security, including at night, shall be the building contractor's responsibility until the complete provisional acceptance report is signed, even if the Contracting Authority has already taken possession of the site.

4.22.3 Warranty

The warranty period commences on the date on which provisional acceptance is given and lasts for **one year**.

Within 15 calendar days preceding the date of expiry of the warranty period, a report confirming final acceptance or refusing acceptance will be drawn up.

The building contractor shall be held liable in respect of all works performed by him or his subcontractors until final acceptance of all works.

During the warranty period, the building contractor shall carry out on the work, as required, all the works and repairs necessary to restore it to a good state of operation, and maintain it in this state.

However, after provisional acceptance, the building contractor will not be liable for damage the causes of which are not attributable to him.

The contractor who, during the warranty period, does certain works or partial works, shall restore the adjacent parts (such as paint, wallpaper, parquet floor...) if these have been damaged because of the repairs undertaken.

In buildings or other property that are being occupied the contractor may not hinder or endanger said occupation in any way for the performance of his works. The contractor shall bear all costs for the measures needed for that purpose.

During the warranty period, which amounts to **one year**, the building contractor shall carry out on the work, as required, all the works and repairs necessary to restore it to a good state of operation, and maintain it in this state.

From the time of provisional acceptance and without prejudice to the provisions of paragraph 1 relating to its obligations during the warranty period, the building contractor shall be responsible for the solidity of the work and the proper execution of the works in accordance with Articles 1792 and 2270 of the Civil Code.

Any breach of the contractor's obligations during the warranty period will be reported ('procès-verbal') and lead to measures as of right, in accordance with Article 44 of the GIR.

4.23 Price of the public contract in case of late performance (Art. 94)

The price of the works performed during a period of delay attributable to the building contractor will be calculated in accordance with whichever of the following procedures proves the more advantageous to the contracting authority:

- by assigning to the constituent elements of the prices contractually specified for revision the values applicable during the period of delay in question; or
- by assigning to each of these elements an average value (E) established as follows:

$$E = \frac{e_1 \times t_1 + e_2 \times t_2 + \dots + e_n \times t_n}{t_1 + t_2 + \dots + t_n}$$

where:

- e1, e2, ... en, represent the successive values of the element in question during the contractual period, which may be extended insofar as the delay is not attributable to the building contractor
- t1, t2, ... tn, represent the corresponding periods for applying these values, expressed in months of 30 days, each fraction of a month being ignored and the periods of suspension of performance of the contract not being taken into consideration.

The value of E is calculated to the second decimal place.

4.24 Invoicing and payment of the works (Art. 66 et seq and 95)

The contracting authority shall verify and pay the amount due to the contractor within a processing period of thirty days from the date of receipt by the contracting authority of the statement of claim and the detailed statement of work carried out. However, payment can only be made on condition that the contracting authority is in possession of the duly established invoice .

The invoice shows the full details of the works that justify the payment. The invoice is signed and dated and includes the statement ‘Certified true and sincere for the amount of EUR (amount in words)’, as well as the reference “**PSE22001-10074**”, indicating the name of the managing official: **Ms Lina Haramy**. The invoice that does not include this reference cannot be paid.

The invoice address is: Enabel, Belgian Consulate General, Baibars Street 5, Jerusalem.

Payment will be made on the basis of the monthly progress reports that are established by the building contractor and the permanent supervisor and approved by the managing official after inspection and partial provisional acceptance.

For each item, the progress report includes:

- Total quantities to be achieved in accordance with departure measurements
- The quantities already achieved and registered in the progress report of the preceding month
- The quantities achieved during the month
- Total quantities achieved by the end of the month
- The unit prices of the order
- The total prices of the quantities achieved during the month for each of the items
- The total price of the invoice of the month.

Payment will be by bank transfer only.

Payments will be made exclusively on the bank account specified by the tenderer in 1Form (1) Identification of the tenderer.

By way of derogation from the foregoing, and in accordance with Articles 12/1 to 5 of the Law of 17 June 2016, inserted by the Law of 22 December 2023 amending the regulations relating

to public contracts with a view to promoting access by SMEs to the said contracts, the contracting authority shall pay an advance when the successful tenderer proves to be an SME within the meaning of Article 163, § 3, subparagraph 2, of the Law of 17 June 2016.

The amount of the advance payment is calculated by applying the following percentages to a reference value determined in accordance with Article 12/5 of the Law of 17 June 2016:

1° if the successful tenderer is a micro-enterprise, i.e. an enterprise that employs fewer than ten people and whose annual turnover or annual balance sheet total does not exceed two million euros, the percentage to be taken into account is twenty per cent;

2° if the successful tenderer is a small business, i.e. a business that employs fewer than fifty people and whose annual turnover or annual balance sheet total does not exceed ten million euros, the percentage to be taken into account is ten per cent;

3° where the successful tenderer is a medium-sized company, i.e. a company employing fewer than two hundred and fifty people and whose annual turnover does not exceed fifty million euros or whose annual balance sheet total does not exceed forty-three million euros, the percentage to be taken into account is five per cent.

According to Article 12/5 of the Law of 17 June 2016, the reference value relevant for calculating the advance is equal to the original amount of the contract, including all taxes.

The first half of the advance shall be set off against the sums due to the contractor when the value of the services performed reaches thirty per cent of the original order amount and the second half of the advance shall be set off against the sums due to the contractor when the value of the services performed reaches sixty per cent of the original order amount. The aforementioned amounts shall be understood as amounts inclusive of value-added tax.

4.25 Litigation (Art. 73)

The competent courts of Brussels have exclusive jurisdiction over any dispute arising from the performance of this public contract. French or Dutch are the languages of proceedings.

The contracting authority will in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of this contract. The contractor indemnifies the contracting authority against any claims for compensation by third parties in this respect.

In case of 'litigation', i.e. court action, correspondence must (also) be sent to the following address:

5 Terms of reference

5.1 Background information

The Kingdom of Belgium has been involved in the sector of school construction in the occupied Palestinian territory (oPt) since 2003. In 2022, a new 5-year agreement was signed that included an intervention on quality education and learning. The budget of this intervention is 17.5 million EUR.

This tender and activity will pour into result one of the projects: Result 1 - Increased access to general education in more conducive learning environments

The core approach to help improve access to general education is through school infrastructure to be constructed, rehabilitated and/or extended in those regions with the most urgent infrastructure needs (East Jerusalem, Area C and Gaza). School infrastructure will minimally comprise classrooms with furniture and equipment, water and sanitation facilities, STEAM labs⁸ to promote the teaching of STE(A)M, digital infrastructure to enhance digital skills and enable the use of EdTech (educational technologies), and playgrounds or spaces for recreation, sports, and community activities.

The rehabilitation of the 5 schools is essential to improve the teaching and learning for _ students in a more conducive learning environment. Al-Beiruni school hall is being used by the community and the directorate of education for their training, events, etc. The schools are located in Wadi Al-Joz and Shufat and Al-Ram neighborhoods.

5.2 Schools' location, description and scope of work

The scope of the works for each one of the schools is defined below. The scope detailed in the Plans and BoQs.

5.2.1 Lot 1A: Al-Shameleh secondary girls school

The school is located in Wadi Al-Joz neighbourhood, on Al-Madares street. The school consists of a four floor building. The school's playground is located on the roof. The main objective of the intervention will be to rehabilitate the school's playground on the roof to solve the drainage problem and upgrading the electrical network.

5.2.2 Lot 1B: Al-Hasan Al-Thany basic boys school

The school is located in Wadi Al-Joz neighbourhood, on Al-Madares street. The school consists of two buildings, services containers, and two playgrounds. It was rehabilitated in 2020

excluding the toilets container. The main objective of the intervention is to replace the external toilets container with a new one.

5.2.3 Lot 1C: Al-Fata Al-Laji'a A secondary girls school

The school is located in Wadi Al-Joz neighbourhood, on Al-Madares street. The school consists of 3 main buildings. All of them are heritage buildings. The main objective of the intervention is to replace an existing canopy, upgrading the electrical network in two buildings, and solving the humidity problem in two buildings.

Lot2: Al-Nithamiyeh basic girls school

The school is located in the old city of Shufat neighbourhood, on Ahmad Shawki street no. 30. The school consists of two floor building, external toilet units and a playground. These facilities were partially rehabilitated in 2019. The main objective of the intervention is to improve the ventilation in the classrooms of the ground floor, relocate the science lab, create a new toilet for teachers, and solve the problem of humidity from the corridor behind the building. The works also include some maintenance for the flooring and the fence of the external playground.

5.2.4 Lot 3: Al-Beiruni Hall

The school is located in Al-Ram neighborhood, in the outskirts of Jerusalem. The school consists of multiple buildings. One of the buildings is currently being used as an office for JDoE. The school has a big hall that is being used by the school and the directorate of education for their trainings, events, etc. The hall has two entrances, one from inside the school building and another that is external. The main objective of the intervention will be to rehabilitate the school's hall that needs maintenance of its systems, replacing its floor and ceiling, maintenance of its stage, and the rehabilitation of the toilets.

Location of each school:

Lot	Sub-lots	School name	GPS location	Address
1	1A	Al-Hasan Al-Thany basic boys school	31.7867, 35.2358	Wadi Al-Joz
	1B	Al-Fata Al-Laji'a A secondary girls school	31.7868, 35.2353	
	1C	Shabbat Al-Shameleh secondary girls school	31.7871, 35.2353	
2	-	Al-Nithamiyeh Basic girls school	31.8135, 35.2261	Shufat
3	-	Al-Beiruni secondary boys school	31.8494, 35.2298	Al-Ram

5.3 Constraints

Due to the current emergency situation, most permits have been suspended. The tenderer must have staff with access to Jerusalem for Lots 1&2. The site visits are also tentative depending on the situation. Tenderers who expressed their interest will be informed.

5.4 Annexes

5.4.1 Annex 1: Bill of quantities

5.4.2 Annex 2: Set of plans (architectural, electrical, structural and mechanical)

5.4.3 Annex 3: Technical specifications

5.4.4 Annex 4: Time schedule

All annexes can be downloaded at the following address:

► <https://www.enabel.be/public-procurement/>

and selecting the country “Palestine”.

6 Selection file

A tenderer may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which he has with these entities. In that case, the following rules apply:

- 1° Where an economic operator wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.
- 2° The contracting authority shall verify whether the entities on whose capacity the economic operator intends to rely fulfil the relevant selection criteria and whether there are grounds for exclusion.
- 3° Where an economic operator relies on the capacities of other entities with regard to criteria relating to economic and financial standing, the contracting authority may require that the economic operator and those entities be jointly liable for the execution of the contract, provided the possibility of requiring joint liability has not been excluded as per procurement documents.

6.1 Economic and financial capacity

6.1.1 Selection criterion 1: Annual turnover

In one of the past three financial years the tenderer must have achieved a **minimum** total turnover of:

Lot 1:

Minimum annual turnover – (€)
460,000.00

Lot 2

Minimum annual turnover – (€)
160,000.00

Lot 3:

Minimum annual turnover – (€)
125,000.00

Tenderer shall include in his tender a statement on the total turnovers achieved during the past three financial years, unless total turnover is mentioned in the approved Financial Statements that can be consulted via the digital portal (i.e. Financial Statements deposited with the National Bank of Belgium, in a full or shortened accounting scheme in which the option of turnover achieved has been filled out).

In the case of a response to several lots, the criteria are accumulated (summation of all minimum annual turnovers required for all lots the tenderer participating in).

6.2 Technical Aptitude

6.2.1 Selection Criterion 2: Disposal of sufficient staff

The tenderer shall dispose of staff that can perform the contract properly and meet the following requirements:

No.	Position/ Min. Requirements	Total work projects (years)	Minimum quantity required for being awarded:		
			Any one lot	Any two lots	All lot
1	Project Manager (B.Sc in Civil/Arch Engineering)	10	1 (part-time)	1 (full-time)	1 (full-time)
2	Site Engineer (B.Sc in Civil Engineering)	7	1 (full-time)	2 (full-time)	3 (full-time)
3	Electrical Eng (B.Sc in Electrical Engineering)	7	1 (part-time)	1 (full-time)	1 (full-time)
4	Mechanical Eng (B.Sc in Mechanical Engineering)	7	1 (part-time)	1 (part-time)	1 (full-time)

The tenderer shall include in his tender an overview of staff that will be used for the performance of the contract, using the table on next page. The tenderer shall list the staff members' degrees (education) as well as their professional experience (number of years of post-graduate work experience in the construction sector), and their access to Jerusalem. Each staff proposed, including the foreman, shall be supported with a complete and **up-to-date CV (2025)** showing experience until present. The Contracting Authority reserves its right to request, during the works implementation, proofs of legal employment from relevant authorities of the different staff proposed in the tender.

6.2.2 Selection Criterion 3: List the references/similar experience

In order to be selected for this contract, the tenderer must have relevant similar reference(s) carried out to the highest standard and to the client's full satisfaction, for the following minimum requirements: amounts in Euro (€):

Lot 1 : Al-Hasan Al-Thany, Al-Shabbat Al-Shameleh, and Al-Fata Al-Laji's schools

Date	Minimum Number of contracts	Each with a minimum amount of (€) incl. VAT:	Minimum combined value of contracts (€) incl. VAT:	Similarity check
Within last five years (from 2020)	At least three contracts	230,000.00	700,000.00	Rehabilitation of public buildings, schools and kindergartens.

Lot 2 : Al-Nithamiyah school

Date	Minimum Number of contracts	Each with a minimum amount of (€) incl. VAT:	Minimum combined value of contracts (€) incl. VAT:	Similarity check
Within last five years (from 2020)	At least three contracts	75,000.00	250,000.00	Rehabilitation of public buildings, schools and kindergartens.

Lot 3 : Al-Beiruni Hall

Date	Minimum Number of contracts	Each with a minimum amount of (€) incl. VAT:	Minimum combined value of contracts (€) incl. VAT:	Similarity check
Within last five years (from 2020)	At least three contracts	60,000.00	200,000.00	Rehabilitation of public buildings, schools and kindergartens..

The tenderer includes in his tender a list with the main works that have been executed including the amount and date as well as the public or private recipients. The works are backed by completion certificates drawn up or approved by the competent authority or, where the consignee was a private purchaser by certification of the private purchaser, or by default, by a simple statement of the building contractor.

Works shall be successfully and substantially completed and that are similar to the proposed works.

Contracts which have been entirely (100%) subcontracted by the tenderer to another entity will not be considered as experience and shall not be listed.

For contracts implemented in consortium with other entities, only the amount of works really implemented by the tenderer shall be mentioned and considered as experience.

7 Forms

Form (1) Identification of the tenderer

Name of the company and legal form									
Nationality of the tenderer and of staff (if different)									
Domicile / registered office complete address	Street name								
	House number								
	Zip code or neighbourhood								
	City or village								
	Country or territory								
Telephone number (with country code)									
National Social Security Office registration number or equivalent									
Enterprise number									
Represented by the undersigned	Full Name								
	Function								
Contact person	Full Name								
	Title / function								
	Phone								
	E-mail								
If different: Project manager	Full Name								
	Phone								
	E-mail								
Bank account for payments	IBAN								
	BIC/SWIFT								
	Financial institution								
	Account holder name								

First name:		Place:	
Last name:		Date:	
Duly authorised to sign this tender on behalf of:		Signature and stamp:	

Form (2) Prices

By submitting this tender, the tenderer commits to performing this public contract in conformity with the provisions of the Tender Specifications and all of their annexes and explicitly declares accepting all conditions listed in the Tender Specifications and their annexes and renounces any derogatory provisions such as his own general sales conditions.

Before filling this form, the tenderer shall fill his unit prices in Annex 1: Bill of quantities (see p.43). The unit prices and the global prices for each item in the inventory are established relative to the value of these items in relation to the total value of the tender. All general and financial costs as well as the profits are distributed between the various items in proportion to their weight. The tenderer commits to performing the public contract in accordance with the provisions of the Tender Specifications for the following prices, given in euros:

Lot 1: Al-Shameleh, Al-Hasan Al-Thany, and Al-Fata Al-Laji'a A Schools

	Price offer (without V.A.T)	
Lot 1A: Al-Shameleh school	€	
Lot 1B: Al-Hasan Al-Thany school	€	
Lot 1C: Al-Fata Al-Laji'a A school	€	
Total for Lot 1	€	

Lot 2: Al-Nithamiyah School

Price offer (without V.A.T)	
€	

Lot 3: Al-Beiruni Hall

Price offer (without V.A.T)	
€	

Should this tender be approved, the performance bond will be constituted under the conditions and deadlines stipulated in the Tender Specifications (see 4.7 Performance bond (Art. 25 to 33)).

The confidential information and/or the information relating to technical, or business secrets is indicated clearly in the tender.

In order to correctly compare the tenders, the duly signed documents mentioned under point 3.4 Tender Preparation, submission and opening, must be attached to the tender.

Certified true and sincere,

First name:		Place:	
Last name:		Date:	
Duly authorised to sign this tender on behalf of:		Signature and stamp:	

Management of VAT will depend on where the tenderers are registered.
For tenderers registered with the Palestinian Authority, contracts will be exempted from VAT. Enabel will be in charge of obtaining a VAT exemption from the Palestinian Ministry of Finance for the entire contract immediately after awarding. The contractor will be issuing invoices with zero-VAT.
For tenderers registered in Israel, Enabel will not be able to obtain a VAT exemption nor refund. VAT will therefore be paid by Enabel on each invoice on top of the prices mentioned in the financial offer.
In both cases, the tenderer shall fill their prices without VAT as part of their financial offer in the tender.
Please note that financial offers will be evaluated according to the cost actually incurred to the contracting authority. Therefore, for the evaluation of the award criterion, prices from tenderers registered in Palestine will be taken without VAT and be compared with prices with VAT for the tenderers registered in Israel.
Reminder: joint venture agreements may be set up for this tender, including for the purpose of providing more competitive offers.

Form (3) Awarding Preferences

The tenderer who wishes to submit a tender for several lots but be awarded a lesser amount of lots specifies here below the number of lots they wishes to be awarded and their order of preference in case they wins more lots than can be awarded according to their capacity.

The tenderer wishes to be awarded number of lots

and his order of preference is:

Most preferable		Least preferable

Certified true and sincere,

First name:		Place:	
Last name:		Date:	
Duly authorised to sign this tender on behalf of:		Signature and stamp:	

Form (4) Declaration on honour – Exclusion grounds

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer declare that the tenderer is not in any of the following cases of exclusion:

1. The tenderer nor any of its directors was found guilty following an indefeasible judgement for one of the following offences:
 - 1° involvement in a criminal organisation
 - 2° corruption
 - 3° fraud
 - 4° terrorist offence, offence linked to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
 - 5° money laundering or financing of terrorism
 - 6° child labour and other trafficking in human beings
 - 7° employment of foreign citizens under illegal status
 - 8° establishment or creation of a shell company.

The exclusions on the basis of this criterion apply for a 5-year term from the date of judgement.

2. The tenderer which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the tenderer can

demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges;

3. when the tenderer is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganisation, or has admitted bankruptcy, or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;
4. The tenderer or one of its directors has committed **serious professional misconduct which calls into question their integrity.**

The following are considered serious professional misconduct, among others:

- 1° A breach of Enabel's Policy regarding sexual exploitation and abuse – June 2019
- 2° A breach of Enabel's Policy regarding fraud and corruption risk management – June 2019;
- 3° A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace
- 4° The tenderer was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed this information;
- 5° Where Enabel has sufficient plausible evidence to conclude that the tenderer has committed acts, entered into agreements or entered into arrangements to distort competition.

The presence of this tenderer on one of Enabel's exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

5. When a conflict of interest within the meaning of Article 6 of the Law cannot be remedied by other, less intrusive measures;
6. When significant or persistent failures by the tenderer were detected during the execution of an essential obligation incumbent on him in the framework of a previous public contract, a previous contract placed with a contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction;. Failures to respect applicable obligations regarding environmental, social and labour rights under European Union law, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.
The presence of the tenderer on the exclusion list of Enabel because of such a failure serves as evidence.
7. Restrictive measures have been taken vis-à-vis the contractor with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.
8. The tenderer or one of its directors are on the lists of persons, groups or entities subject to United Nations, European Union or Belgian financial sanctions:

For the United Nations, the lists can be consulted at the following address:

<https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-internationales-nations-unies>

For the European Union, the lists can be consulted at the following address:

<https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-europ%C3%A9ennes-ue>

<https://eeas.europa.eu/headquarters/headquarters-homepage/8442/consolidated-list->

For Belgium:

https://finances.belgium.be/fr/sur_le_spf/structure_et_services/administrations_generales/tr%C3%A9sorier/contr%C3%B4le-des-instruments-1-2

9. If Enabel executes a project for another funder or donor, other grounds for exclusion may be added.

The tenderer formally declares being able, when asked and without delay, to provide the relevant certificates and other kinds of supporting documents, except if:

- 1° Enabel can directly obtain the supporting documents concerned by consulting a national database in a Member State that is accessible for free, provided the tenderer has given the required information (website address, responsible authority for providing the information, specific reference of the documents) so Enabel can obtain these, with concomitant permission to access them;
- 2° Enabel already has said documents.

The tenderer formally agrees with Enabel accessing the supporting documents substantiating the information provided in this document.

Form (5) Integrity Statement of the tenderer

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- 1° Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- 2° The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- 3° I have / we have read and understood the articles about deontology of this public contract (see 1.7.) as well as Enabel's Policy regarding sexual exploitation and abuse and Enabel's Policy regarding fraud and corruption risk management and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I / we declare, moreover, agreeing with the following provisions:

- 1° In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.
- 2° Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- 3° Any failure to comply with one or more of the deontological clauses will lead to the exclusion of the contractor from this and other public contracts for Enabel.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.

Form (6) Annual turnover

The tenderer must complete the following table of financial data based on his annual accounts.

Financial data	Year [EUR] 2022	Year [EUR] 2023	Year [EUR] 2024
Annual turnover, excluding this public contract ^[1]			
Current Assets ^[2]			
Current Liabilities ^[3]			
Average annual exchange rates	1 ILS 0.283 EUR 1 USD = 0.943 EUR	1 ILS = 0.251 EUR 1 USD = 0.926 EUR	1 ILS 0.251 EUR 1 USD = 0.917 EUR

First name:		Place:	
Last name:		Date:	
Duly authorised to sign this tender on behalf of:		Signature and stamp:	

^[1] Last accounting year for which the entity's accounts have been closed.

^[2] The gross inflow of economic benefits (cash, receivables, other assets) arising from the ordinary operating activities of the enterprise (such as sales of goods, sales of services, interest, royalties, and dividends) during the year.

A balance sheet account that represents the value of all assets that are reasonably expected to be converted into cash within one year in the normal course of business. Current assets include cash, accounts receivable, inventory, marketable securities, prepaid expenses and other liquid assets that can be readily converted to cash.

^[3] A company's debts or obligations that are due within one year. Current liabilities appear on the company's balance sheet and include short term debt, accounts payable, accrued liabilities and other debts.

Form (7) Staff disposed

8 Attachments

8.1 Power of attorney

The tenderer shall include in his tender the power of attorney empowering the person signing the tender on behalf of the company, joint venture or consortium.

In case of a **consortium** or a **temporary association**, the joint tender must specify the role of each member of the tendering party. A group leader must be designated and the power of attorney must be completed accordingly.

- Please insert after this page the power of attorney empowering the person signing the tender on behalf of the company, joint venture or consortium, signed by the person(s) mentioned in the incorporation certificate (only needed if the person signing the tender is different).

8.2 Incorporation certificate

The tenderer shall include in his tender the incorporation certificate¹⁰ from the competent authority (for local tenderers: Israeli or Palestinian Registration Certificate).

► Please insert after this page

¹⁰ In case of a consortium or a temporary association, the certificate must be submitted for all members of the tendering party.

8.3 Certification of clearance with regards to the payments of social security contributions

The tenderer must provide a certification¹⁰ from the competent authority stating that (s)he is in order with its obligations with regards to the payments of social security contributions that apply by law in the country of establishment. This requirement does not apply to tenderers registered in the Palestinian territory.

► Please insert after this page

8.4 Certification of clearance with regards to the payments of applicable taxes

The tenderer must provide a **recent certification**¹⁰ (up to 1 year) from the competent authority stating that the tenderer is **in order with the payment of applicable taxes** that apply by law in the country of establishment. For firms registered in Israel or the Palestinian territory, a valid deduction at source certificate must be provided.

► Please insert after this page

8.5 Approved/Audited financial statements

The tenderer must also provide his approved financial statements for the last three financial years or a document listing all assets and liabilities of the enterprise. In case the enterprise has not yet published its Financial Statements, an interim balance certified true by an accountant or by a registered auditor or by the person or body with this function in the country concerned will do.

► Please insert after this page Approved/Audited financial statements for the last three financial year.

8.6 CVs of all mentioned personnel

The service provider must provide in his/her offer the **updated CVs of the key experts proposed** for implementing this services contract. The CV's (qualifications and experience of key experts) have to fulfil the profiles as requested. Each CV should be no longer than 5 pages.

- Please insert after this page CVs of all mentioned personnel
Please respect the order of the personnel as listed in the form

8.7 Previous Certificates of completion

For each of the projects listed, the tenderer must provide in his/her offer the certificates of completion (statement or certificate without major reservation) and / or any supporting documents (contracts, invoices...) approved by the entity which awarded the contract, proving the **amount**, the **date of completion**, and the **name of public or private bodies** for which the works are performed.

► Please insert after this page

9 Checklist of documents to be joined to the tender

Please refer to Section 3.4 - Tender Preparation, submission and opening for complete instructions on how to fill the forms of the present tender document.

The following documents need to be provided as part of the tender:

No.	Forms to be completed and joined	Filled?
1	<u>Form (1) - Identification of the tenderer</u>	
2	<u>Form (2) - Prices</u>
