# 1 General provisions

## 1.1 Derogations from the General Implementing Rules

Chapter ‘*Specific contractual and administrative conditions*’ of these Tender Specifications (CSC/Cahier Spécial des Charges) holds the specific administrative and contractual provisions that apply to this public procurement contract as a derogation of the Royal Decree of 14.01.2013 or as a complement or an elaboration thereof.

These Tender Specifications derogate from Article(s) 25§2 and 26 of the General Implementing Rules – GIR (Royal Decree of 14.01.2013).

## 1.2 Contracting authority

The contracting authority of this public procurement contract is Enabel, the Belgian development agency, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels in Belgium (enterprise number 0264.814.354, RPM/RPR Brussels). Enabel has the exclusive competence for the execution, in Belgium and abroad, of public service tasks of direct bilateral cooperation with the partner countries. Moreover, it may also perform other development cooperation tasks at the request of public interest organisations, and it can develop its own activities to contribute towards realisation of its objectives.

For this procurement contract, Enabel is represented by Ms. Heidi De Pauw, Country Director of Enabel in Palestine.

## 1.3 Institutional setting of Enabel

The general framework of reference in which Enabel operates is:

- The Belgian Law on Development Cooperation of 19 March 2013<sup>1</sup>;
- The Belgian Law of 21 December 1998 establishing the Belgian Technical Cooperation as a public-law company<sup>2</sup>;
- The Belgian Law of 23 November 2017 changing the name of the Belgian Technical Cooperation and defining the missions and functioning of Enabel, the Belgian development agency, published in the Belgian Official Gazette on 11 December 2017.

The following initiatives are also guiding Enabel in its operations: We mention as main examples:

- In the field of international cooperation: the United Nations Sustainable Development Goals and the Paris Declaration on the harmonisation and alignment of aid;
- In the field of the fight against corruption: the Law of 8 May 2007 approving the United Nations Convention against Corruption, adopted in New York on 31 October 2003<sup>3</sup>, as well as the Law of 10 February 1999 on the Suppression of Corruption transposing the Convention on Combating Bribery of Foreign Public Officials in International Business Transactions;

<sup>1</sup> Belgian Official Gazette of 30 December 1998, of 17 November 2001, of 6 July 2012, of 15 January 2013 and of 26 March 2013.

<sup>2</sup> Belgian Official Gazette of 1 July 1999.

<sup>3</sup> Belgian Official Gazette of 18 November 2008.

- In the field of Human Rights: the United Nations' Universal Declaration of Human Rights (1948) as well as the 8 basic conventions of the International Labour Organisation<sup>4</sup> on Freedom of Association (C. n°87), on the Right to Organise and Collective Bargaining (C. n°98), on Forced Labour (C. n°29 and 105), on Equal Remuneration and on Discrimination in Respect of Employment (C. n°100 and 111), on Minimum Age for Admission to Employment (C. n°138), on the Prohibition of the Worst Forms of Child Labour (C. n°182);
- In the field of environmental protection: The Climate Change Framework Convention in Paris, 12 December 2015;
- The first Management Contract concluded between Enabel and the Belgian federal State (approved by the Royal Decree of 17.12.2017, Belgian Official Gazette 22.12.2017) that sets out the rules and the special conditions for the execution of public service tasks by Enabel on behalf of the Belgian State.
- Enabel's Code of Conduct of January 2019, Enabel's Policy regarding sexual exploitation and abuse of June 2019 and Enabel's Policy regarding fraud and corruption risk management of June 2019;

## 1.4 Rules governing the procurement contract

Litigation: Court action.

Subcontractor in the meaning of public procurement regulations: The economic operator proposed by a tenderer or contractor to perform part of the contract. The subcontractor is understood as the economic operator with the capacity which the applicant or tenderer relies upon or to whom he entrusts all or part of his engagements.

Controller in the meaning of the GDPR: the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data.

Sub-contractor or processor in the meaning of the GDPR: a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

Recipient in the meaning of the GDPR: a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not.

Personal data: any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

## **1.6 Processing of personal data by the contracting authority and confidentiality**

### **1.6.1 Processing of personal data by the contracting authority**

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

### **1.6.2 Confidentiality**

The tenderer or contractor and Enabel are bound to secrecy vis-à-vis third parties with regards to any confidential information obtained within the framework of this public contract and will only divulge such information to third parties after receiving the prior written consent of the other party. They will disclose this confidential information only among appointed parties involved in the assignment. They guarantee that said appointed parties will be adequately informed of their obligations in respect of the confidential nature of the information and that they shall comply therewith.

PRIVACY NOTICE OF ENABEL: Enabel takes your privacy serious. We undertake to protect and process your personal data with due care, transparently and in strict compliance with privacy protection legislation.

See also: <https://www.enabel.be/content/privacy-notice-enabel>

## **1.7 Deontological obligations**

1.7.1. Any failure to comply with one or more of the deontological clauses may lead to the exclusion of the candidate, tenderer or contractor from other public procurement contracts for Enabel.

1.7.2. For the duration of the procurement contract, the contractor and his staff respect human rights and undertake not to go against political, cultural or religious customs of the beneficiary country. The tenderer or contractor is bound to respect fundamental labour standards, which are internationally agreed upon by the International Labour Organisation (ILO), namely the conventions on union freedom and collective bargaining, on the elimination of forced and obligatory labour, on the elimination of employment and professional discrimination and on the abolition of child labour.

1.7.3. In accordance with Enabel's Policy regarding sexual exploitation and abuse, the contractor and his staff have the duty to behave in an irreproachable manner towards the beneficiaries of the projects and towards the local population in general. They must abstain from any acts that could be considered a form of sexual exploitation or abuse and they must abide by the basic principles and guidelines laid down in this policy.

1.7.4. Any attempt of a candidate or a tenderer to obtain confidential information, to proceed to illicit arrangements with competitors or to influence the evaluation committee or the contracting authority during the investigation, clarification, evaluation and comparison of tenders and candidates procedure will lead to the rejection of the application or the tender.

1.7.5. Moreover, in order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the procurement contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to agents of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the procurement contract, regardless of their hierarchical rank.

1.7.6. The contractor of the procurement contract commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure. Depending on the gravity of the facts observed, the contractor having paid unusual commercial expenditure is liable to have its contract cancelled or to be permanently excluded from receiving funds.

1.7.7. In accordance with Enabel's Policy regarding sexual exploitation and abuse of June 2019 and Enabel's Policy regarding fraud and corruption risk management complaints relating to issues of integrity (fraud, corruption, etc.) must be sent to the Integrity desk through the <https://www.enabelintegrity.be> website.

## **1.8 Applicable law and competent courts**

The procurement contract must be performed and interpreted according to Belgian law.

The parties commit to sincerely perform their engagements to ensure the good performance of this procurement contract.

In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution.

If agreement is lacking, the Brussels courts are the only courts competent to resolve the matter.

Meeting ID: 377 843 452 272 5

Passcode: Bj7iW7dk

Until the notification of the award decision no information will be given about the evolution of the procedure.

The procurement documents can be consulted free of charge at the following internet address:

- [www.enabel.be](http://www.enabel.be)

The tenderer is supposed to submit his tender after reading and taking into account any corrections made to the Tender Specifications that are published on the Enabel website or that are sent to him by e-mail. To do so, when the tenderer has downloaded the Tender Specifications, it is strongly

advised that he gives his coordinates to the public procurement administrator mentioned above and requests information on any modifications or additional information.

The tenderer is required to report immediately any gap, error or omission in the procurement documents that precludes him from establishing his price or compare tenders, within ten days at the latest before the deadline for receipt of tenders.

### **3.4 Tender**

#### **3.4.1 Data to be included in the tender**

The tenderer must use the tender form in annexe. In case he does not use this form, he is fully responsible for the perfect concordance between the documents he has used and the form.

The tender and the annexes to the tender form are drawn up in **English**.

By submitting a tender, the tenderer automatically renounces to his own general or specific sales conditions, even if these are mentioned in any of the annexes to his tender.

The tenderer clearly designates in his tender which information is confidential and/or relates to technical or business secrets and may therefore not be divulged by the contracting authority.

#### **3.4.2 Period the tender is valid**

The tenderers are bound by their tender for a period of <90> calendar days from the reception deadline date.

The validity of the tender will be negotiated, if the deadline stated above is overrun.

#### **3.4.3 Determination of prices**

All prices given in the tender form must obligatorily be quoted in EUROS.

This procurement contract is a price-schedule contract, i.e. a contract in which only the unit prices are lump-sum prices. The price to be paid will be obtained by applying the unit prices mentioned in the inventory to the quantities actually performed.

In accordance with Article 37 of the Royal Decree of 18 April 2017, the contracting authority may for the purpose of verifying the prices carry out an audit of any and all accounting documents and an on-site audit to check the correctness of the indications supplied.

##### **3.4.3.1 Elements included in the price**

The following are in particular included in the prices:

The administrative management and secretariat;

Travel, transportation and insurance;

Documentation pertaining to the services;

The delivery of documents or of pieces related to the performance;

The packaging;

Training required for operation;

Where applicable, the measures imposed by occupational safety and worker health legislation;

Customs and excise duties for equipment and products used;

### 3.4.4 How to submit tenders?

Without prejudice to any variants, the tenderer may only submit one tender only per procurement contract.

The tenderer submits his tender as follows:

- One original copy of the completed tender will be submitted on paper. Moreover, the tenderer shall attach the copies requested by the tender guidelines to the tender (see Part 6). These copies may be submitted in one or more PDF files on a USB stick.

It is submitted in a properly sealed envelope bearing the following information:

**Community-Based Awareness and Engagement Program for Sustainable Solid Waste Management in Tubas and Bethlehem- PSE22004-10068**

It may be submitted:

- a) By mail (standard mail or registered mail)

In this case, the sealed envelope is put in a second closed envelope addressed to:

**Enabel**  
**Royal Center Building, 7<sup>th</sup> floor**  
**Mecca street, Al Balou'**  
**Ramallah/AlBireh**  
**T/F: (+972) 2 242 1137/8**

- b) Delivered by hand with acknowledgement of receipt.

The service can be reached on working days during office hours: from 9 am 4 pm.

Any request for participation or tender must arrive before the final submission date and time. Requests for participation or tenders that arrive late will not be accepted<sup>11</sup>.

The tender must be received before **Monday September 4<sup>th</sup>, 2025, 3:00 PM** at the following address:

▶ Enabel - Belgian Development Agency, Royal  
Center, 7th Floor, Al Balou', Mecca Street,  
Ramallah - Al Bireh

### 3.4.5 Change or withdrawal of a tender that has already been submitted

When a tenderer wants to change or withdraw a tender already sent or submitted this must be done in accordance with the provisions of Articles 43 and 85 of the Royal Decree of 18 April 2017.

To change or withdraw a tender already sent or submitted, a written statement is required, which will be correctly signed by the tenderer or his representative. The subject-matter and the scope of the changes must be indicated in detail. Any withdrawal must be unconditional.

The withdrawal may also be communicated by fax or electronic means, provided that it is confirmed by registered letter deposited at the post office or against acknowledgement of receipt at the latest the day before the tender acceptance deadline.

When the tender is submitted via e-tendering, the tender is modified or withdrawn in accordance with Article 43, §2 of the Royal Decree of 18 April 2017.

Thus, a tender that is modified or withdrawn after the signing of the submission report means that a new submission report, signed in accordance with paragraph 1, must be sent.

The subject-matter and the scope of the changes must be indicated in detail.

The withdrawal must be pure and simple.

When the submission report drawn up following the modifications or withdrawal set out in clause 1 does not bear the signature referred to in paragraph 1, the modification or withdrawal is automatically deemed null and void. This nullity applies only to the modifications or withdrawal, not to the tender itself.

### **3.4.6 Selection of tenderers**

#### **3.4.6.1 Exclusion grounds**

The mandatory and optional exclusion grounds are given in attachment to these Tender Specifications.

By submitting this tender, the tenderer certifies that he is not in any of the cases of exclusion listed in the Articles 67 to 70 of the Law of 17 June 2016 and the Articles 61 to 64 of the Royal Decree of 18 April 2017.

The contracting authority will verify the exactitude of this Declaration on honour for the tenderer with the best tender.

For that purpose, the contracting authority will ask the tenderer concerned to provide information or documents allowing the contracting authority to verify the tenderer's personal situation by the fastest means and within the term set by the contracting authority.

The contracting authority will itself ask for information or documents that it can obtain free of charge by digital means from the instances that manage the information or documents.

#### **3.4.6.2 Selection criteria**

Moreover, by means of the documents requested in the 'Selection file', the tenderer must prove that he is sufficiently capable, from an economic and financial as well as from a technical point of view, to successfully perform this public procurement contract.

#### **3.4.6.3 Overview of the procedure**

In a first phase, the tenders submitted by the selected tenderers will be evaluated as to formal and material regularity. Irregular tenders will be rejected.

The contracting authority reserves the right to have the irregularities in the tenderers' tender regularised during the negotiations.

In a second phase, the formally and materially regular tenders will be evaluated as to content by an evaluation commission. The contracting authority will restrict the number of tenders to be negotiated by applying the award criteria stated in the procurement documents. This evaluation will be conducted on the basis of the award criteria given in these Tender Specifications and aims to setting a shortlist of tenderers with whom negotiations will be conducted. Maximum 5 tenderers may be included in the shortlist.

Then, the negotiation phase follows. In view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The minimum requirements and the award criteria are not negotiable. However, the contracting authority may also decide not to negotiate. In this case, the initial tender is the final tender.

When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any BAFOs. Once negotiations have closed, the BAFO will be compared with the exclusion, selection and award criteria. The tenderer whose BAFO shows the best value for money (obtaining the best score based on the award criteria given below) will be designated the contractor for this procurement contract.

#### **3.4.6.4 Award criteria**

The contracting authority will choose the regular BAFO that it finds to be most advantageous, taking account of the following criteria:

- Award on the basis of best value for money, which is evaluated in the light of the price or cost and criteria related to quality and environmental and/or social factors:

#### **Technical value: 60%**

- The understanding of the assignment by the contracting beneficiary and the alignment of the proposal submitted with the ToR- (15%)
- The Qualification of the team and the range and depth of their experiences with similar assignments- (20%)
- Proposed approach, methodology, and work/implementation plan. Special attention will be given to innovative methodologies that can propose additions/changes to those indicated in the ToR- (25%)
- Price 40%

With regards to the “price” criterion, the following formula will be used:

$$\text{Points tender A} = \frac{\text{amount of lowest tender}}{\text{amount of tender A}} * 40$$

**The contracting beneficiary should score minimum of 40% in the technical evaluation to be eligible for financial evaluation; otherwise, the financial offers will not be opened.**

#### **3.4.6.5 Final score**

The scores for the award criteria will be added up. The procurement contract will be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the Declaration on honour of this tenderer and provided the control shows that the Declaration on honour corresponds with reality.

#### **3.4.6.6 Awarding the procurement contract**

The procurement contract will be awarded to the tenderer who has submitted the most economically advantageous tender.

Notice though that in accordance with Art. 85 of the Law of 17 June 2016, there is no obligation for the contracting authority to award the procurement contract.

The contracting authority may either decide not to award the procurement contract; either redo the procedure, if necessary, through another award procedure.

The contracting authority maintains the right to award only a certain lot or certain lots.

#### **3.4.7 Concluding the procurement contract**

In accordance with Art. 88 of the Royal Decree of 18 April 2017, the procurement contract occurs through the notification to the selected tenderer of the approval of his tender.

Notification is via digital platforms, e-mail or fax and, on the same day, by registered post.

So, the full contract agreement consists of a procurement contract awarded by Enabel to the chosen tenderer in accordance with:

- These Tender Specifications and its annexes;
- The approved BAFO of the contractor and all of its annexes;
- The registered letter of notification of the award decision;
- Any later documents that are accepted and signed by both parties, as appropriate.

In an objective of transparency, Enabel undertakes to publish each year a list of recipients of its contracts. By introducing his tender, the successful tenderer declares that he agrees with the publication of the title of the contract, the nature and object of the contract, its name and location, and the amount of the contract.

## 4 Special contractual provisions

This chapter of these Tender Specifications holds the specific provisions that apply to this public procurement contract as a derogation of the 'General Implementing Rules for public procurement contracts and for public works concessions' of the Royal Decree of 14 January 2013, hereinafter referred to as 'GIR', or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the GIR articles. Unless indicated, the relevant provisions of the General Implementing Rules (GIR) apply in full.

These Tender Specifications derogate from Article(s) 25-33 and of the GIR.

### 4.1 Managing official (Art. 11)

The managing official is Ms Sireen Abu Jamous, e-mail: [Sireen.abujamous@enabel.be](mailto:Sireen.abujamous@enabel.be).

Once the procurement contract is concluded, the managing official is the main contact point for the service provider. Any correspondence or any questions with regards to the performance of the procurement contract will be addressed to him/her, unless explicitly mentioned otherwise in these Tender Specifications.

The managing official is responsible for the follow-up of the performance of the contract.

The managing official is fully competent for the follow-up of the satisfactory performance of the procurement contract, including issuing service orders, drawing up reports and states of affairs, approving the services, progress reports and reviews. (S)he may order any modifications to the procurement contract with regards to its subject-matter provided that they remain within its scope.

However, the signing of amendments or any other decision or agreement implying derogation from the essential terms and conditions of the procurement contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under The contracting authority.

Under no circumstances is the managing official allowed to modify the terms and conditions (e.g. performance deadline) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the Tender Specifications and that has not been notified by the contracting authority, will be considered null and void.

### 4.2 Subcontractors (Art. 12 to 15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not relieve him of liability to the contracting authority. The latter does not recognise any contractual relation with third parties.

The contractor remains, in any case, solely liable to the contracting authority.

The service provider commits to having the procurement contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the procurement contract. Any replacements must be approved by the contracting authority.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

## 4.3 Confidentiality (art. 18)

The knowledge and information gathered by the tenderer under the framework of this public contract is strictly confidential.

Under no circumstances can the information collected, regardless of its origin and nature, be transferred to third parties in any form.

The tenderer is therefore bound by the duty of discretion.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in any case be inferior to those taken by the tenderer for the protection of his own confidential information);
- Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);
- Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;
- Return, at the first request of the contracting authority, the above elements;
- In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

## 4.4 Protection of personal data

### 4.4.1 Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

### 4.4.2 PROCESSING OF PERSONAL DATA BY A SUBCONTRACTOR

#### OPTION 1: PROCESSING OF PERSONAL DATA BY A SUBCONTRACTOR

During contract performance, the contractor may process personal data of the contracting authority exclusively in the name and on behalf of the contracting authority, for the sole purpose of performing the services in accordance with the provisions of the Tender Specifications or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

The personal data that will be processed are confidential. The contractor will therefore limit access to data to the strictly necessary personnel for the performance, management and monitoring of the public contract.

For the performance of the public contract, the contracting authority will determine the purposes and means of processing personal data. In this case, the contracting authority will be responsible for the processing and the contractor will be its processor, within the meaning of Article 28 of the GDPR.

Processing carried out on behalf of a controller must be governed by a contract or other legal act that is binding on the processor with regard to the personal data controller and that sets out that the subcontractor acts only on the instruction of the person in charge of the processing and that the confidentiality and security obligations regarding the processing of personal data are also the responsibility of the subcontractor (Article 28 §3 of the GDPR).

To this end, the tenderer must fill out, sign and submit to the contracting authority the subcontracting agreement given in Annex [X] . Filling out and signing this annex is therefore a condition of regularity of the tender.

#### **4.5 Intellectual property (Art. 19 to 23)**

The contracting authority does not acquire the intellectual property rights created, developed or used during performance of the procurement contract.

Without prejudice to clause 1 and unless otherwise stipulated in the procurement documents, when the subject-matter of the procurement contract consists of the creation, manufacture or the development of designs or of logos, the contracting authority acquires the intellectual property thereof, as well as the right to trademark them, to have them registered and to have them protected.

For domain names created under the procurement contract, the contracting authority also acquires the right to register and protect them, unless otherwise stipulated in the procurement documents.

When the contracting authority does not acquire the intellectual property rights, it obtains a patent licence of the results protected by intellectual property law for the exploitation modes that are mentioned in the procurement documents.

The contracting authority lists the exploitation modes for which it intends to obtain a licence in the procurement documents.

## 4.6 Performance bond (Art. 25 to 33)

The performance bond is set at 5% of the total value, excluding VAT, of procurement. The value thus obtained is rounded up to the nearest 10 euros.

In accordance with the legal and regulatory provisions, the performance bond may be constituted either of cash or of public funds or may take the form of a joint performance bond.

The performance bond may also take the form of a surety bond issued by a credit institution meeting the requirements of the law on the statute and control of credit institutions, or by an insurance company meeting the requirements of the law on control of insurance companies and approved for branch 15 (bonds).

By way of derogation from Article 26 of the GIR the performance bond may be posted through an establishment that has its registered office in one of the countries of destination of the services. The contracting authority reserves the right to accept or refuse the posting of the bond through that institution. The tenderer mentions the name and address of this institution in the tender.

This derogation is founded on the idea of providing possible local tenderers with an opportunity to submit a tender. This measure is made essential by the specific requirements of the contract.

The contractor must, within 30 calendar days from the day of contract conclusion, furnish proof that he or a third party has posted the bond in one of the ways set out below:

1° in the case of cash, by transfer of the amount to the bpost bank account number of the Deposit and Consignment Office. Fill out the following form as completely as possible: [https://finances.belgium.be/sites/default/files/01\\_marche\\_public.pdf](https://finances.belgium.be/sites/default/files/01_marche_public.pdf) (PDF, 1.34 Mo), and return it to the e-mail address: [info.cdcdck@minfin.fed.be](mailto:info.cdcdck@minfin.fed.be)

2° in the case of public funds, by depositing such funds, for the account of the Deposit and Consignment Office, with the State Cashier at the head office of the National Bank in Brussels or at one of its provincial agencies or with a public institution with an equivalent function

3° in the case of a joint surety, by deposit via an institution that lawfully carries out this activity of a deed of joint surety with the Deposit and Consignment Office or with a public institution with an equivalent function

4° in the case of a guaranty, by the deed of undertaking of the credit institution or the insurance company.

Proof is provided, as appropriate, by submission to the contracting authority of:

1° the deposit receipt of the Deposit and Consignment Office or of a public institution with an equivalent function; or

2° a debit notice issued by the credit institution or the insurance company; or

3° the deposit certificate issued by the State Cashier or public institution with an equivalent function; or

4° the original copy of the deed of joint surety stamped by the Depot and Consignment Office or by a public institution with an equivalent function; or

5° the original copy of the deed of undertaking issued by the credit institution or the insurance company granting a guaranty.

6 an open Bank Cheque.

These documents, signed by the depositor, must state why the performance bond was posted and its precise usage, consisting of a concise indication of the subject-matter of the contract and a reference to the procurement documents, as well as the name, first names and full address of the contractor and, where relevant, that of the third party that made the deposit on the contractor's account, bearing the statement 'lender' or 'mandatary', as appropriate.

The period of 30 calendar days specified above is suspended during the period of closure of the contractor's business for paid annual holidays and the days off in lieu stipulated by regulation or by a collective binding labour agreement.

Proof that the required performance bond has been posted must be sent to the address that will be mentioned in the contract conclusion notification.

**Request by the contractor for the acceptance procedure to be carried out:**

- 1° For provisional acceptance: This is equal to a request to release the first half of the performance bond;
- 2° For final acceptance: This is equal to a request to release the second half of the performance bond, or, in case no provisional acceptance applied, to release the whole of the performance bond.

## **4.7 Conformity of performance (Art. 34)**

The works, supplies and services must comply in all respects with the procurement documents. Even in the absence of technical specifications in the procurement documents, the works, supplies and services must comply in all aspects with good practice.

## **4.8 Changes to the procurement contract (Art. 37 to 38/19)**

### **4.8.1 Replacement of the contractor (Art. 38/3)**

Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial procurement contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of supplies and services already performed, the new contractor's contact details and the documents and certificates which the contracting authority cannot access free of charge.

The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the procurement contract.

### **4.8.2 Adjusting the prices (Art. 38/7)**

For this procurement contract, price reviews are not permitted.

### **4.8.3 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)**

The contracting authority reserves the right to suspend the performance of the procurement contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance time and at least ten working days or two calendar weeks, depending on whether the performance time is expressed in working days or calendar days;
- The suspension is not due to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the procurement contract.

#### **4.8.4 Unforeseen circumstances**

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this procurement contract, Enabel will do everything reasonable to agree a maximum compensation figure.

### **4.9 Preliminary technical acceptance (Art. 42)**

The contracting authority reserves the right to demand an activity report at any time of the assignment to the service provider (meetings held, persons met, institutions visited, summary of results, problems encountered and unresolved issues, deviations from the planning and deviations from the ToR...).

### **4.10 Performance modalities (Art. 146 et seq.)**

#### **4.10.1 Deadlines and terms (Art. 147)**

The services must be performed within **5 months** as from the day after the date on which the service provider received the contract conclusion notification letter. The closure of the service provider's business for annual holidays is not included in this calculation.

The order form is addressed to the service provider either by registered letter, or by fax, or by any other means through which the date of dispatch can be determined unambiguously.

Any further correspondence pertaining to the order form (and to the performance of the services) follows the same rules as those for the dispatch of the order form when a party wants to establish proof of its intervention.

In the event the acknowledgement of receipt of the order form is received after the period of two working days, upon written demand and justification of the service provider, the performance period may be extended pro rata of the delay of the acknowledgement of receipt of the order form. When the service

that placed the order, upon examination of the written demand of the service provider, estimates that the demand is founded or partially founded, it will inform the service provider in writing of which extension of the period is accepted.

When the order form is clearly incorrect or incomplete and implementation of the order becomes impossible, the service provider immediately notifies the service that placed the order about this in writing in order to find a solution to allow for normal implementation of the order. If necessary, the service provider will ask for an extended performance period under the same conditions as those foreseen in case of late reception of the order form.

In any event, complaints about the order form are not admissible any more if they are not submitted within 15 calendar (\*) days from the day following the date on which the service provider has received the order form.

The services must be performed within a period that is to be expressed in calendar days, which the tenderer shall mention in his tender. This period starts as from the day following the date on which the service provider received the contract conclusion notification letter. Since the performance period is an award criterion, not including it in the tender will bring about the substantial irregularity of the tender. All days are indistinguishably included in the period.

The order form is addressed to the service provider either by registered letter, or by fax, or by any other means through which the date of dispatch can be determined unambiguously.

Any further correspondence pertaining to the order form (and to the performance of the services) follows the same rules as those for the dispatch of the order form when a party wants to establish proof of its intervention.

In the event the acknowledgement of receipt of the order form is received after the period of two working days, upon written demand and justification of the service provider, the delivery period may be extended pro rata of the delay of the acknowledgement of receipt of the order form. When the service that placed the order, upon examination of the written demand of the service provider, estimates that the demand is founded or partially founded, it will inform the service provider in writing of which extension of the period is accepted.

When the order form is clearly incorrect or incomplete and implementation of the order becomes impossible, the service provider immediately notifies the service that placed the order about this in writing in order to find a solution to allow for normal implementation of the order. If necessary, the service provider shall ask for an extended performance period under the same conditions as those foreseen in case of late reception of the order form.

In any event, complaints about the order form are not admissible any more if they are not submitted within 15 calendar (\*) days from the day following the date on which the service provider has received the order form.

#### **4.10.2 Place where the services must be performed and formalities (Art. 149)**

The services will be performed at the following address:

Tubas and Bethlahem governorates in addition to one activity that might be conducted in Ramallah as explained in the activities.

#### **4.11 Inspection of the services (Art. 150)**

If during contract performance irregularities are found, the contractor will be notified about this

immediately by fax or e-mail, which will be confirmed consequently by registered letter. The contractor is bound to perform the non-complying services again.

The service provider advises the managing official by registered post or e-mail showing the exact date of dispatch, at which date the services can be controlled.

#### **4.12 Liability of the service provider (Art. 152-153)**

The service provider takes the full responsibility for mistakes and deficiencies in the services provided.

Moreover, the service provider indemnifies the contracting authority against damages for which it is liable towards third parties due to late performance of the services or due to failure of the service provider.

#### **4.13 Zero tolerance Sexual exploitation and abuse**

In application of Enabel's Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

#### **4.14 Means of action of the contracting authority (Art. 44-51 and 154-155)**

The service provider's default is not solely related to services as such but also to the whole of the service provider's obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the procurement contract, it is strictly forbidden to the service provider to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the procurement contract, regardless of their hierarchical rank.

In case of violation, the contracting authority may impose a lump-sum fine to the service provider for each violation, which can be up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the contractor hoped to obtain by offering the advantage to the employee. The contracting authority will decide independently about the application and the amount of this fine.

This clause is without prejudice to the possible application of other measures as of right provided in the GIR, namely the unilateral termination of the procurement contract and/or the exclusion of procurement contracts of the contracting authority for a determined duration.

##### **4.14.1 Failure of performance (Art. 44)**

§1 The contractor is considered to be in failure of performance under the procurement contract:

1° when the delivery is not carried out in accordance with the conditions specified in the procurement documents;

2° at any time, when the delivery has not progressed in such a way that it can be fully completed on the due dates;

3° when he does not observe written orders, which are given in due form by the contracting authority.

§2 Any failure to comply with the provisions of the procurement contract, including the non-observance of orders of the contracting authority, is recorded in a report ('process verbal'), a copy of which will be sent immediately to the contractor by registered mail.

The contractor must repair the defects without any delay. He may assert his right of defence by registered letter addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed as acknowledgement of the reported facts.

Any defects detected that can be attributed to the contractor render him liable to one or more of the measures provided for in Articles 45 to 49, 154 and 155.

#### **4.14.2 Fines for delay (Art. 46 and 154)**

The fines for delay differ from the penalties referred to in Article 45. They are due, without the need for notice, by the mere lapse of the performance term without the issuing of a report and they are automatically applied for the total number of days of delay.

Without prejudice to the application of fines for delay, the contractor continues to guarantee the contracting authority against any damages for which it may be liable to third parties due to late performance of the procurement contract.

#### **4.14.3 Measures as of right (Art. 47 and 155)**

§1 When, upon expiry of the term given in Article 44, §2, the contractor has not taken action or has presented means deemed unjustified by the contracting authority, the contracting authority may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiry of the term given in Article 44, §2, when the contractor has explicitly recognised the defects found.

§2 The measures as of right are:

1° Unilateral termination of the procurement contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;

2° Performance under regime of all or part of the non-performed procurement contract;

3° Conclusion of one or more replacement procurement contracts with one or more third parties for all or part of the procurement contract remaining to be performed.

The measures referred to in 1°, 2° and 3° will be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement procurement contract will be borne by the new contractor.

### **4.15 End of the procurement contract**

#### **4.15.1 Acceptance of the services performed (Art. 64-65 and 156)**

The managing official will closely follow up the services during performance.

The services will not be accepted until after fulfilling audit verifications, technical acceptance and

prescribed tests.

According to the situation, provisional acceptance is provided upon the completion of service delivery of the procurement contract and, on expiry of a warranty period, final acceptance is provided marking full completion of the procurement contract.

The contracting authority disposes of a verification term of thirty days starting on the final or partial end date of the services, set in conformity with the modalities in the procurement documents, to carry out the acceptance formalities and to notify the result to the service provider. This term commences provided that the contracting authority possesses, at the same time, the list of services delivered or the invoice. Upon expiry of the thirty-day term following the date stipulated for completion of the entirety of the services, depending on the case, an acceptance report or a refusal of acceptance report will be drawn up.

Where the services are completed before or after this date, it is the responsibility of the service provider to notify the managing official by registered letter, and at the same time to ask for the acceptance procedure to be carried out. Within thirty days after the date of receipt of the service provider's request, an acceptance or a refusal of acceptance report will be drawn up, depending on the case.

The acceptance specified above is final.

#### **4.15.2 Acceptance costs**

Travel costs and costs for the stay of the managing official will be borne by the service provider.

When drawing up his tender, the tenderer shall take into account the following acceptance costs:

#### **4.15.3 Invoicing and payment of services (Art. 66 to 72 – 160)**

The contractor sends (one copy only of) the invoices and the contract acceptance report (original copy) to the following address:

Ms. Sireen Abu Jamous sireen.abujamous@enabel.be

Enabel (Belgian Development Agency)

Royal Center Building, 7th Floor, Al Balou', Mecca Street, Ramallah - Al Bireh

The head of invoice shall mention:

- **Enabel/ SO4 project**
- **The reference of the tender documents: PSE22004-10068**

Only services that have been performed correctly may be invoiced.

The contracting authority disposes of a verification term of thirty days starting on the end date for the services, set in conformity with the modalities in the procurement documents, to carry out the technical acceptance and provisional acceptance formalities and to notify the result to the service provider.

The amount owed to the service provider must be paid within thirty days with effect from the expiry of the verification term or with effect from the day after the last day of the verification term, if this is less than thirty days. And provided that the contracting authority possesses, at the same time, the duly established invoice and any other documents that may be required.

When the procurement documents do not provide for any separate debt claim, the invoice will constitute the debt claim.

The invoice must be in EUROS.

In order for Enabel to obtain the VAT exemption and customs clearance documents as quickly as possible, the original invoice and all ad hoc documents will be transmitted as soon as possible before provisional acceptance.

No advance may be asked by the contractor and the payment will be made after provisional/final acceptance of each service delivery of a same order.

Payments will be made as follows:

- Payments will be disbursed in three tranches:
- 15% Upon submission of the inception report, detailed work plans, and documentation of meetings and outputs with stakeholders (e.g., JSCs Bethlehem and Tubas, MoLG, etc.).
- 30% upon completion and approval of Deliverable 1.
- 55% upon completion and approval of Deliverable 2, along with the final report.

#### **4.16 Litigation (Art. 73)**

The competent courts of Brussels have exclusive jurisdiction over any dispute arising from the performance of this procurement contract. French or Dutch are the languages of proceedings.

The contracting authority will in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of this procurement contract. The contractor indemnifies the contracting authority against any claims for compensation by third parties in this respect.

In case of 'litigation', i.e. court action, correspondence must (also) be sent to the following address:

Enabel, public-law company

Legal unit of the Logistics and Acquisitions service (L&A)

### 5.1 Project background

The Palestine Cooperation Strategy 2022-2026 was validated on 30th June 2021. Its focus is to empower youth in an environmentally sustainable Palestine. Two general objectives have been defined:

1. Young people in Palestine develop into active and critical citizen, ready for local and global challenges, through improved education, training, guidance, and access to employment.
2. The Palestinian population makes use of the opportunities of a sustainable environment.

The second pillar of the portfolio is dedicated to climate action, based on support to the development of an emerging green and circular economy and the implementation of the National Determined Contributions (NDC), with the view to contribute to a sustainable and inclusive Palestinian society and reduce environmental hazards and dependency on non-renewable natural resources. Specific thematic priorities are as follows:

- The development and the strengthening of value chains and opportunities for socio-economic entrepreneurship and job creation in an emerging green economy, which could potentially be applied to various sectors, such as energy, water, agriculture, waste, recycling, construction, transport and industry.
- The development of sustainable cities, public services and territories.
- A focus on specific niches such as waste management; reducing, recycling and reuse; renewable energy; and energy efficiency.

## **5.2 Assignment**

### **5.3 Background of the assignment:**

Enabel, in collaboration with the Joint Services Councils in Tubas and Bethlehem, are working to promote and strength sustainable waste management systems that align with green and circular economy principles.

Recognizing the important role of councils' missions in advancing these objectives, this assignment aims to strengthen sustainable waste management practices through inclusive community engagement.

This assignment focuses on enhancing public awareness, promoting sustainable behaviours, and supporting local waste reduction efforts through community-based programs. It seeks to mobilize a wide range of stakeholders (including youth, schools, households, and municipal authorities) through participatory campaigns grounded in the principles of Reduce, Reuse, and Recycle (3Rs). The assignment also aims to institutionalize these practices through training, visibility tools, and strategic communication, contributing to more effective and inclusive waste management at the local level.

### **5.4 Objectives of Assignment**

The main objective is to raise awareness, foster behaviour change, and promote community participation in sustainable solid waste management practices through inclusive, locally driven campaigns and initiatives led by the Joint Services Councils in Tubas and Bethlehem

### **5.5 Expected Results:**

This assignment is designed to deliver visible and community-driven outcomes that promote sustainable waste management practices and support inclusive environmental awareness across Tubas and Bethlehem. The expected results include:

- 1- Increased public understanding of the 3Rs (Reduce, Reuse, Recycle) and improved waste-related behaviours at the household, school, and municipal levels.
- 2- Enhanced capacities of JSCs and LGUs to design, lead, and institutionalize awareness campaigns and outreach programs on sustainable solid waste management.
- 3- Empowered youth groups acting as local environmental ambassadors, actively engaged in community outreach and peer education.

- 4- Improved access to waste sorting infrastructure and communication tools (bins, labels, digital content, and printed materials) that facilitate behavior change and reinforce local initiatives.
- 5- Strengthened community participation through public events, school campaigns, and partnerships with local actors to support sustainable, long-term change.

## 5.6 Scope of Work

The contracting beneficiary is expected to carry out the following tasks:

### Deliverable 1. Awareness Raising

#### A. Awareness Campaigns and Materials

- The contracting beneficiary is expected to develop localized and engaging educational materials tailored specifically for schools. Each Joint Services Council (JSC) should receive materials of community-cantered awareness materials, which include items such eco-friendly puzzles, colouring books and colouring kits on waste separation.

#### B. Workshops and Giveaways:

A total of 7 interactive workshops shall be conducted in each governorate, covering two schools, one university, two municipalities, and two village councils- resulting in 14 interactive workshops in total across Tubas and Bethlehem.

- The workshops' objective should promote awareness of sustainable solid waste practices, introduce the 3Rs principles, and encourage active participation from diverse community segments. The methodology must be participatory, inclusive, and adapted to the local context, ensuring accessibility for various age groups and educational backgrounds.
- Distribute reusable giveaways (water bottles, bags, etc.) in each workshop tailored to the targeted group. All the technical details of these materials should be specified in the technical proposal. All materials must be eco-friendly.

Tubas and Bethlehem				
Target Group	Number of Institutions	Item	Quantity	Description
School Students	4 schools	Bundled Package (Bag + Puzzle + Coloring Book + Water Bottle)	400	100 units per school
University Students	2 universities	Bundled Package (Water Bottle +Solar Power Bank)	80	40 units per university
LGUs and JSC Staff	2 JSCs + 2 municipalities+ 2 village councils	Water Bottle	50	Shared across all staff

LGUs and JSC Staff	2 JSCs + 4 municipalities+ 2 village councils	Solar Power Bank	30	Shared across all staff
--------------------	---	------------------	----	-------------------------

#### D. Waste Sorting Infrastructure

- Procure and distribute 74 color-coded waste sorting units (each unit consisting of three bins: Plastic, Cardboard, Others) per location (Tubas and Bethlehem), in full coordination with the Joint Services Councils (JSCs). This aims to promote source-level waste separation and increase community awareness of the 3Rs principles.
- Each JSC will receive a full set of bins, color-coded by waste type (e.g., organic, recyclable, residual) and accompanied by user-friendly visual guides to facilitate correct sorting in the institutions.
- The contracting beneficiary is required to include pricing for two standard bin capacities:
  - 120 liters for schools
  - 240 liters for universities, village councils, and municipalities
- Technical specifications must include details on material quality, durability, UV resistance, and wheel/base design. Final specifications must be approved by Enabel and the JSCs for Solid Waste Management.
- Bins will be distributed during the workshops.
- A detailed design of each bin, including signage and guidance on usage, should be printed and mounted above each distributed unit. Prior approval from Enabel and the JSCs should be granted.

Tubas and Bethlehem					
Target Group	Number of Institutions	Bin Size	Units (3-bin sets)	Total Individual Bins	Notes
Schools	4 schools	120 Liter	48	144	12 sets per school; distributed equally in Tubas and Bethlehem
Universities	2 universities (1 North, 1 South)	240 Liter	10	30	5 sets per university; one in North and one in South
Municipalities & Village Councils	8 institutions (4 North, 4 South)	240 Liter	16	48	2 sets per institution; equally divided between North and South

### **E. Promotional Video**

- One 3-minute promotional video per JSC covering all implemented activities

## **Deliverable 2. Capacity Building and Stakeholder Mobilization**

Develop and implement a comprehensive capacity-building program for all 15 Joint Services Councils (JSCs) across the governorates, in alignment with the Ministry of Local Government (MoLG) strategy on sustainable and integrated waste management.

- Prepare technical training materials tailored to the Palestinian context, based on the 3Rs Manual that was developed by MoLG.
- Conduct 2 training sessions for the 15 JSCs, targeting their technical staff, and relevant stakeholders. The sessions will cover key topics including:
  - Cover the 3Rs principles
  - Waste minimization and source separation
  - Efficient collection, sorting, and recycling methods
  - Roles and mandates under MoLG regulatory frameworks
- Trainings will be held in two locations — one in the North and one in the South to ensure accessibility and minimize logistical challenges for all participants across the 15 JSCs. Another option is to consider making it centrally in one location in the middle of the West Bank. - to be discussed and agreed upon with Enabel and MoLG.
- The service provider will be responsible for covering all workshop-related costs, including lunch, hall rental, hospitality, trainer contracting, and related logistics. Full coordination must be maintained with the MoLG and the JSCs department.
- A final report must be submitted covering all training sessions and summarizing key recommendations and lessons learned
- Contracting beneficiary must provide a detailed breakdown of costs for the above components.

## **5.7 Approach:**

The assignment will follow a participatory, inclusive, and context-specific approach that ensures community ownership and sustainability of results. The selected firm is expected to:

- Conduct preliminary consultations with the JSCs, LGUs, universities, schools, and relevant stakeholders to understand local priorities, challenges, and entry points.
- Co-design activities with local actors, integrating cultural relevance and local knowledge into all awareness materials and campaign strategies.
- Prioritize youth and women engagement in the activities.
- Apply behaviour change communication (BCC) methods using a blend of digital media, print tools, community events, and school-based initiatives.
- Align all campaign content with MoLG regulations and the national 3Rs Manual, ensuring standardization and scalability.
- Monitor progress and adapt interventions based on community feedback, field observations, and collaboration with JSCs.

## 5.8 Reporting:

The contracting beneficiary will work under the guidance of Enabel and in close coordination with the Joint Services Councils in Tubas and Bethlehem. Reporting shall be submitted with each deliverable and is mandatory for each payment request, including relevant documentation such as attendance sheets, visual evidence, and short reflections on progress and lessons learned.

## 5.9 Timing:

- The assignment must be finalized within 5 months from the date of contract signing.
- Following the kick-off meeting with stakeholders, the service provider must prepare and submit an inception report including the detailed action plan, the methodology, and obtain approvals from Enabel and the JSCs on the proposed promotional materials and bin specifications before proceeding to implementation.

## 5.10 Profile of the contracting beneficiary:

- Multidisciplinary team with backgrounds in public administration, waste management, finance, and law.
- Proven track record in developing training materials and conducting capacity-building programs and implementing awareness campaigns
- Expertise in solid waste management systems, the 3Rs (Reduce, Reuse, Recycle), for sustainable urban waste strategies.
- Familiarity with the Palestinian context in waste management, local regulations, and challenges related to municipal solid waste.
- Demonstrated experience in designing and delivering interactive training workshops, technical sessions, and on-the-job coaching for municipal staff or relevant stakeholders.
- Experience in conducting needs assessments, waste audits, and feasibility studies related to municipal waste management.
- Strong analytical and writing skills, with the ability to produce comprehensive reports, policy briefs, and strategic recommendations.
- Experience in designing and applying MEAL frameworks for training and project implementation.
- Ability to develop pre- and post-training assessments to measure knowledge improvement and project impact.

## 5.11 TECHNICAL AND FINANCIAL OFFER

### Technical Proposal

The contracting beneficiary is requested to submit a comprehensive **technical proposal in English**, which should include the following components:

- **Approach and Methodology:**  
A complete description of the proposed approach and detailed methodology to be used for the assignment, including an initial working plan outlining the contracting beneficiary's understanding of the context and key steps to achieve the objectives.
- **Relevant Experience:**  
A list of previous assignments or projects in the same or related field, highlighting the contracting beneficiary's relevant experience and expertise. Reference to similar work, particularly in solid waste management, circular economy, or community mobilization, is encouraged.
- **Team Composition:**  
Curriculum Vitae (CVs) of all team members who will be involved in the assignment, indicating their roles, qualifications, and relevant experience.
- **Detailed Implementation Plan:**  
A step-by-step plan outlining the main activities, expected outputs, responsible persons, and a timeline for execution. This should clearly demonstrate how the contracting beneficiary intends to deliver the assignment effectively and on time.
- **Procurement and Distribution Plan:**  
An Excel sheet listing all equipment and promotional materials to be procured under the assignment. The sheet should specify:
  - a. Item descriptions, quantities, and specifications
  - b. The cost of each item
  - c. Planned distribution methods
  - d. Associated events or activities where these materials will be used or distributed

## 6.4 List of the main similar services

The tenderer must attach to the tender the list of principal similar projects (min. 3) carried out during the 3 last years. This list demonstrates the technical capacity of the tenderer to perform this public contract.

For each of the projects listed, the tenderer must attach to the tender certificates of good performance (lacking major comments) and/or any supporting documents (contracts, invoices, etc.) approved by the entity that awarded the public contract / the client.

<b>Description of the principal similar services</b> <i>“List the projects you have delivered in the last three years that fall under environmental scopes, such as climate change, renewable energy, waste management, biodiversity, sustainable agriculture, or related fields.”</i>	<b>Total value and currency</b>	<b>Dates of performance (3 years-2022-2024)</b>	<b>Client name</b>

## 6.5 Declaration on honour – exclusion criteria

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare that the tenderer does not find himself in one of the following situations :

- 1) The tenderer or one of its ‘directors[1]’ was found guilty following a conviction by final judgement for one of the following offences:
  - 1° involvement in a criminal organisation
  - 2° corruption
  - 3° fraud

4° terrorist offences, offences linked related to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence

5° money laundering or terrorist financing

6° child labour and other trafficking in human beings

7° employment of foreign citizens under illegal status

8° creating a shell company.

- 2) The counterparty which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the counterparty can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.
- 3) The counterparty who is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganisation or has admitted bankruptcy or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;
- 4) When Enabel can demonstrate by any appropriate means that the counterparty or any of its directors has committed serious professional misconduct which calls into question his integrity.

Are also considered such serious professional misconduct:

- a. A breach of Enabel's Policy regarding sexual exploitation and abuse – June 2019
- b. A breach of Enabel's Policy regarding fraud and corruption risk management – June 2019
- c. A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace
- d. The counterparty was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed this information
- e. Where Enabel has sufficient plausible evidence to conclude that the counterparty has committed acts, entered into agreements or entered into arrangements to distort competition

The presence of this counterparty on one of Enabel's exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

- 5) When a conflict of interest cannot be remedied by other, less intrusive measures;
- 6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

- 7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

The counterparty or one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:

- 8) << If Enabel executes a project for another funder or donor, other grounds for exclusion may be added.

The tenderer formally declares being able, when asked and without delay, to provide the relevant certificates and other kinds of supporting documents, except if:

- a. Enabel can directly obtain the supporting documents concerned by consulting a national database in a Member State that is accessible for free, provided the tenderer has given the required information (website address, responsible authority for providing the information, specific reference of the documents) so Enabel can obtain these, with concomitant permission to access them;
- b. Enabel already has said documents.

The tenderer formally agrees with Enabel accessing the supporting documents substantiating the information provided in this document.

## 6.6 Integrity statement for the tenderers

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- I have / we have read and understood the articles about deontology and anti-corruption included in the Tender Documents (see 1.7.), as well as *Enabel's Policy regarding sexual exploitation and abuse* of June 2019 and *Enabel's Policy regarding fraud and corruption risk management* of June 2019 and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.
- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
