

ADDENDUM

Contract title: Public contract for the supply of livestock, feeds, medicines and equipment for poultry, piggyery, aquaculture and apiary farming for schools in Rwenzori and Busoga regions.

Reference: UGA22008-10183

The Negotiated Procedure without Prior Publication document is corrected or modified as follows:

Modification 1; Point n° 1.1 “Requirements for the goods”

Read:

The contractor shall supply the following items;

Lot 1: Supply and delivery of poultry, feeds, equipment and medicines.

S/N	Description of the items	UoM	Quantity
1.	Layer chicks: 1 day old, vaccinated against Marek's disease. Should be healthy, active, and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management for each school. NB: Should be sourced from certified hatcheries with a proven track record of disease-free, high-yielding poultry stock.	Chick	3000
2.	Broiler chicks: 1 day old, vaccinated against Gumboro and Newcastle. Should be healthy, active, and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management for each school. NB: Should be sourced from certified hatcheries with a proven track record of disease-free, high-yielding poultry stock.	Chick	500
3	5 day old broiler chicks vaccinated against Gumboro and New Castle. Should be healthy , active and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management	Chick	300
4	Chick mash: For 1-month chicks, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bags of 50Kg	140

5	Grower mash: For 1-month chicks, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bags of 50Kg	210
6	Layer mash: For 1-month chicks, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50kg	210
7	Layer concentrate 30%: Mix 1:2 with maize bran, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	280
8	Broiler starter: For 1-2 weeks broilers, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	24
9	Broiler grower: For 3-4 weeks broilers, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	34
10	Broiler finisher: For 5-6/7 weeks broilers, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	34
11	Broiler Feed Supplements (10 Kgs)- expiry date of at least 3 months after manufacture date	Bag of 1 kg	10
12	Disinfectant: Oxidizing disinfectants (potassium peroxymonosulfate) for surfaces, equipment, boot dips: 1% (10 g/L). Effective even with some organic load; still pre-clean, jerrycan of 5L	Jerrycan of 5L	35
13	Gumboro vaccines for chickens: Bottle of 1000 doses 4 vials	Bottle of 1000 doses	14
14	Newcastle vaccines for chickens: Bottle for 1000 doses 4 Vials	Bottle for 1000 doses	14
15	Multivitamins for poultry: Injectable, Bottle of 500ml	Bottle of 500ml	21
16	Dewormers: Ivermectin, 5L	Jerrycan of 5L	21
17	Lime (Calcium Hydroxide / Calcium Oxide): Block of 5 Kg	Block of 5Kg	35
18	Coffee husks for litter: Bedding material to absorb moisture and reduce ammonia during brooding, bag of 100Kg.	Bag of 100Kg	840
19	Drinkers: Small size, 1.5L, plastic, suitable for young chicks.	Pieces	48
20	Drinkers: Medium size, 4L, plastic, suitable for growing chicks.	Pieces	64
21	Plastic chicken drinkers: Large size; 12L, plastic suitable for mature broilers	Pieces	6
22	Drinkers: Large size, 12L, plastic, bell/nipple drinkers	Pieces	84
23	Feeders: Small size, 1.5 Kg, wooden, linear feeders.	Pieces	47

24	Feeders: Large size, 6 Kg, plastic, circular. For older chicks.	Pieces	89
25	<p>Brooding papers: Disposable paper placed under chicks to prevent slipping and encourage feed intake.</p> <p>DACB GQF Brooder Drop Pan Paper Board</p> <ul style="list-style-type: none"> Weight: Approximately 85 grams per board. Dimensions: 12 inches × 12 inches (fits standard 14" × 14" GQF trays). <p>Material: Heavy-duty 200 gsm paperboard with a food-safe coating.</p>	Pieces	504
26	Overalls for farm workers: Small (S) size, cotton, poly-cotton blend.	Piece	14
27	Overalls for farm workers: Medium (M) size, cotton, poly-cotton blend.	Piece	14
28	Overalls for farm workers: Large (L) size, cotton, poly-cotton blend.	Piece	60
28	Overalls for farm workers: Extra-large (XL) size, cotton, poly-cotton blend.	Piece	14
20	Overalls for farm workers: Extra-extra-large (XXL) size, cotton, poly-cotton blend.	Piece	14
31	Overalls for farm workers: Extra-extra-extra-large (XXXL) size, cotton, poly-cotton blend.	Piece	14
32	<p>Solar system for lighting: For chicks brooding.</p> <ul style="list-style-type: none"> LED load example: 20 W × 12 hours/day × 7 days = 1.68 kWh/week Solar panel sizing: <ul style="list-style-type: none"> For 20 W LED × 12 h/day: ~ 50–60 W solar panel per small brooder (consider 4–5 h peak sunlight/day). Larger brooder with 60 W load: ~ 150–200 W solar panel. Battery: 12 V, 40–60 Ah for small brooders; larger brooders may need 12 V, 100 Ah. <p>Controller: 10–20 A charge controller recommended for safety and battery protection.</p>	Sets	8
33	<p>Charcoal stoves:</p> <p>Height: 40 cm (from base to top)</p>	Pieces	14

	Diameter (top opening): 35 cm; Fire chamber depth: 25 cm (holds enough charcoal for 6–8 hours burn) Wall thickness: 5 mm (metal), or 6 cm (clay/insulated)		
34	Charcoal: Bag of 50Kg.	Bags	42
35	Pots: Charcoal clay pots used to provide heat in the brooder house. For a large brooder (300–500 chicks): <ul style="list-style-type: none"> Height: 45–50 cm Diameter: 30–35 cm Charcoal capacity: 3–5 kg	Pieces	31
36	De-beakers: For trimming chicks beaks. WJ511-3 Manual Poultry De-beaker. has ergonomic handles, self-sharpening stainless-steel blades, adjustable depth, no electricity required.	Pieces	14
37	Water tank: 5000L, plastic.	Pieces	7
38	Digital Thermometers: Small handheld or probe types, often with LCD display; size: typically, 15 cm long, display ~5 cm screen - for monitoring brooder temperature.	Pieces	13
39	Small syringes: 3ml → used for poultry and small animals, especially vaccines.	Pack of 30	35
40	Medium syringes: 10ml → used for goats, pigs, calves, routine drugs.	Pack of 30	35
41	Large syringes: 50ml → used for cattle, horses, or when giving larger volumes of medication.	Pack of 30	35
42	Brooder unit for chicken containment: For 500 chicks <ul style="list-style-type: none"> Dimensions: 4.5 m × 4.5 m (20 m²) Capacity: ~500 chicks. Use 2–3 heat sources (charcoal stoves or infrared lamps).	Units	7
43	Tarpaulin (big size)	Pieces	4
Basic Training in poultry management			

Lot 2: Supply and delivery of pigs, feeds, equipment and medicines.

S/N	Description of the items	UoM	Quantity
1.	Multivitamins for pigs: Injectable, Bottle of 500ml	Bottle of 500ml	10
2.	Piglets: Female (Gilts), Large-white, 3-months old, healthy, vaccinated.	Piglet	10

3.	Piglets: Male (Boars), Large-white, 3-months old, healthy, vaccinated.	Piglet	40
4.	Piglets: 3 Months old female (10-12 Tits)- Cambrough breed well tagged and vaccinated	Piglet	40
5.	Pigs: 5Months old Male pigs (1 Cambrough breed from a different lineage) well tagged and vaccinated	Pig	8
6.	Maize Brand: Sacks of maize brand	Bag of 100Kg	40
7.	Broken Maize: Sacks of broken maize (smallest size)	Bag of 100kg	16
8.	Sack of pig concentrate (50kgs each); expiry date of at least 3 months after manufacture date	Bag of 50kg	15
9.	Sunflower (flour/powder)	120Kg	120
10	Starter feeds for piglets: For weaners (1 st month), commercial grade with manufacturer labelling, nutritional analysis, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	60
11	Grower feeds for piglets: For weaners (2-4 months), commercial grade with manufacturer labelling, nutritional analysis, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	80
12	Sow and boar feeds: For mature pigs, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	10
13	Salt/mineral lick: Medium block, at least 20Kg for groups of pigs in grower/finisher pens, veterinary grade, packaged, labelled and intact.	Block of 20kg	12
14	Vaccines for pigs: TSOL18 (Cysvax™) – Porcine cysticercosis, 20ml, expiry date of at least 24 months after manufacture date.	Bottle of 20ml	12
15	Feeding troughs for pigs (Weaners) of 5-20 Kg, capacity of 10-15L, dimension of ~60–80 cm long × 20–25 cm wide × 15 cm deep.	Pieces	16
16	Feeding troughs for pigs (Growers) of 20-60 Kg, capacity of 20-30L, dimension of ~100–120 cm long × 25–30 cm wide × 20 cm deep.	Piece	20
17	Feeding troughs for pigs (finishers), capacity of 50-80L, dimension of ~150 cm long × 35–40 cm wide × 25–30 cm deep.	Pieces	24
18.	Feeding troughs for pigs (Sows and Boars) of 60-100+ Kg, capacity of 40-60L, Circular or long rectangular, 30–40 cm deep.	Pieces	12

19.	Nipple drinkers: Plastic, 50L jerrycans/drums → for small pens or weaners.	Pieces	16
20.	Nipple drinkers: Plastic, 100L plastic barrels → for growers/a few sow pens.	Pieces	20
21.	Nipple drinkers: Plastic, 200L drums → common for groups of 10-20 pigs.	Pieces	24
22.	Nipple drinkers: Plastic, 1000L tanks (polyethylene) → for larger farms with pipeline nipple system.	Pieces	2
23.	Water tank: 5000L, plastic	Piece	4
24.	Footbaths & lime troughs: For large farms; 60L galvanized troughs, depth ≥ 10 cm to cover boots.	Pieces	2
Basic training in piggery management			

Lot 3: Supply and delivery of fish, feeds, and equipment.

S/N	Description of the items	UoM	Quantity
1.	Fingerlings: 2–3 week-old, Nile tilapia, disease free, sourced from certified hatchery. Should be accompanied by a certificate.	Piece	2000
2.	Starter & grower fish feeds: For 3 months fingerlings, high-protein floating feeds, suitable for tilapia fingerlings and juveniles, bag of 50Kg, expiry of at least 6 months from manufacture date.	Bag of 50 kg	60
3.	Water quality test kits for PH, ammonia, temperature: Digital Multi-parameter test kit to monitor pond water conditions.	Piece	2
4.	Nets to cover the pond: Medium ponds (10 m × 5 m); Net size: 11 m × 6 m Material: Nylon	Pieces	4
5.	Nets to cover the pond: Large ponds: (20 m × 10 m), Net size: 22 m × 12 m; Material: Nylon	Piece	4
6.	Buckets: 20L, plastic. For fish farming.	Piece	2
7.	Feeding trays: Small trays (for fry / fingerlings): Diameter: 25 cm, Depth: 7 cm	Piece	2
8.	Feeding trays: Medium trays (for fingerlings / juvenile fish): Diameter: 40 cm, Depth: 10 cm	Piece	2

9.	Feeding trays: Large trays (for adult fish / ponds $\geq 10 \text{ m} \times 5 \text{ m}$): Diameter: 60 cm, Depth: 15 cm	Piece	2
10.	Siphon hoses: Small ponds/fry tanks, Diameter 1.5cm, Length 5m.	Piece	2
11.	Siphon hoses: Medium ponds, Diameter 3cm, Length 10m.	Piece	2
12.	Siphon hoses: Large ponds, Diameter 5cm, Length 20m.	Piece	2
13.	<p>Fishing nets: Medium mesh seine net for periodic sampling and final harvest of mature tilapia.</p> <p>Dimensions</p> <ul style="list-style-type: none"> Length: 10–20 meters Height: 1.5–2 meters <p>Ensures full vertical coverage of the water column.</p>	Piece	4
14.	<p>Refrigerator: 500L, deep freezer,</p> <p>Voltage (power supply)</p> <p>220-240 V</p> <p>Size (external dimensions)</p> <p>Approx. $174.9 \times 79.6 \times 9.2 \text{ mm}$</p> <p>Weight 80Kg, Colour options: White/Silver</p> <p>Warranty of 1 year.</p>	Piece	1
15.	<p>Net covering the pond: Nylon material, UV-stabilized netting to prevent bird predation, reduces entry of leaves & debris in the pond.</p> <p>Large pond ($>1,000 \text{ m}^2$): net should have sectional nets connected together..</p> <p>Height / Support: Net should be supported 0.5–1 m above water surface using poles or ropes.</p>	Pieces	4

Lot 4: Supply and delivery of bees and equipment.

S/N	Description of the items	UoM	Quantity
1.	<p>Modern Langstroth beehives (complete): Standard 10-frame Langstroth hives made of treated timber, fitted with brood chamber, super chamber, inner cover, lid, and frames with wax foundation. Designed for honey production and colony management.</p> <p>Dimensions:</p>	Unit	110

	<ul style="list-style-type: none"> • Brood chamber: 42.5 × 21.3 × 24.1 cm (17" × 8.5" × 9.5") • Super chamber: 42.5 × 21.3 × 17.8 cm (17" × 8.5" × 7") • Frames: 48.3 × 23.5 cm (19" × 9.25") • Inner cover: 51 × 26 × 2.5 cm (20" × 10.25" × 1") • Outer lid: 53 × 28 × 5 cm (21" × 11" × 2") 		
2.	<p>Catcher box bee hives: Small wooden hives or trap boxes used for baiting and attracting wild swarms for colony multiplication. Durable and weather resistant.</p> <p>Dimensions:</p> <ul style="list-style-type: none"> • Box body: 30 × 30 × 30 cm (12" × 12" × 12") • Entrance slit: 2–3 cm height × full width • Lid: 32 × 32 × 5 cm (12.5" × 12.5" × 2") 	Pieces	20
3.	<p>Colonies: Healthy, productive bee colonies with a queen, workers, and brood. Sourced from local beekeepers or certified apiaries. Disease-free and adapted to local environment.</p> <p>1 Queen, Workers, Brood, Honey/Pollen stores, Minimum 3–5 frames with brood and bees (for Langstroth colonies).</p>	Colony	20
4.	<p>Beehive stands (Treated wood): Elevated platforms to keep hives off the ground, prevent flooding, and deter termites. Must support hive weight and allow for air circulation.</p> <p>Dimensions:</p> <p>Height: 30–40 cm, Width: 45–50 cm, Depth: 25–30 cm, Leg thickness: 5 × 5 cm, Top platform: 42.5 × 21.3 cm (same as hive base)</p>	Piece	20
5.	<p>Bee suits (protective gear): Full body suits made of breathable, sting-proof material. Includes veil, zippers, and elastic cuffs.</p> <p>Size for youths/children:</p> <ul style="list-style-type: none"> • Chest: 70–90 cm • Height: 120–150 cm • Sleeve: 45–55 cm • Leg length: 60–75 cm <p>With adjustable straps or elastic in the waist for better fit.</p>	Set	5

6.	<p>Bee suits (protective gear): Full body suits made of breathable, sting-proof material. Includes veil, zippers, and elastic cuffs.</p> <p>Sizes for adults:</p> <ul style="list-style-type: none"> • Chest: 90–120 cm • Height: 150–190 cm • Sleeve: 55–65 cm • Leg length: 75–100 cm <p>With adjustable straps or elastic in the waist for better fit.</p>	Set	24
7.	Hand gloves (heavy-duty): Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Small size: Hand circumference of 18-20 cm, Arm length of 20-22 cm.	Pairs	5
8.	Hand gloves (heavy-duty): Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Medium size: Hand circumference of 21-23 cm, Arm length of 22-25 cm.	Pairs	9
9.	Hand gloves (heavy-duty): Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Large size: Hand circumference of 24-26 cm, Arm length of 25-28 cm.	Pairs	5
10.	Hand gloves (heavy-duty): Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Extra-large size: Hand circumference of 27-29 cm, Arm length of 28-30 cm.	Pairs	10
11.	<p>Hand gloves (heavy-duty): Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections.</p> <p>Small size: Hand circumference of 18-20 cm, Arm length of 20-22 cm</p>	Pairs	5
12.	<p>Bee smokers: Stainless steel smokers with heat guards and bellows. Used to calm bees during hive inspections. Fuel chamber must accommodate natural fuels like dry leaves or wood shavings.</p> <p>Fuel chamber; Diameter: 10–12 cm, Height: 20–25 cm</p> <p>Bellows length: 15–20 cm</p> <p>Overall height: 25–30 cm</p> <p>Weight: 0.8–1.5 kg</p>	Piece	2

13	Bee Smokers (local type)- Overall height: 25-30cm, Weight: 0.8 – 1.5 kg	Piece	15
14	Hive tools (flat prying end, curved or L-shaped end, scraper edge, pointed tip, handle): Multipurpose flat metal tools for prying hive parts, scraping propolis, and lifting frames. Rust-resistant and sturdy. Size: Length: 25-30 cm, Width: 2.5-3 cm, Thickness: 3-5mm, Weight: 100-150g	Set	5
15.	Bee brush and queen cage set: Soft-bristled brush for gently removing bees from frames. Queen cage used for introducing or transporting queen bees safely. Dimensions: <ul style="list-style-type: none"> • Bee brush: Handle of 12-15 cm and brush of 5-7 cm wide. • Queen cage: 7 X 2 X 2 cm 	Set	2
16.	Honey extractor (manual, 4-frame): Hand-cranked, stainless-steel extractor with 4-frame capacity. Operates without electricity and is food-grade certified. Dimensions: <ul style="list-style-type: none"> • Height of 60 – 70 cm. • Diameter of 35 – 40 cm (main drum). • Basket size: Fits 4 frames (standard 42.5 X 21.3 cm). • Crank length: 25 – 30 cm, ergonomic for hand operation. • Weight: 12 – 15 Kg (empty). • Overall footprint: 40 X 40 cm. Warranty of 1 year.	Unit	10
17.	Buckets & storage containers (Food-Grade): Airtight, BPA-free plastic or stainless-steel buckets with lids. Used for collecting, settling, and storing honey. Capacity: 20–25L each.	Piece	34
18.	Beeswax (starter for baiting hives): Clean, natural beeswax used to attract swarms by coating hive frames or interiors. Must be free of additives or contaminants.	Kg	23
19.	Packaging Containers (500ml jars with covers)	Unit	950
20.	Gumboots (pairs); (size; 9 (9 pairs, 10 - 9 pairs)	Pairs	18
21.	Stainless tank (100kgs capacity)	Unit	2
22.	Bee Knives (for comb cutting)	Pieces	20

Basic training in Apiary management

Lot 5: Supply and delivery of dairy cows, equipment and medicines.

S/N	Description of the items	UoM	Quantity
1.	Dairy Cattle: In-calf Friesian-cross heifers (15–18 months, vaccinated, dewormed, body weight: 150-200 kg). Suited for zero-grazing and capable of 10–15L/day at peak.	In calf heifer	4
2.	Vaccines for cows: Foot and Mouth Disease (FMD) vaccine; 200ml	Bottle of 200ml	10
3.	Vaccines for cows: Lumpy Skin Disease (LSD) vaccine; 200ml	Bottle of 200ml	10
4.	Vaccines for cows: Brucellosis vaccine; 200ml	Bottle of 200ml	20
5.	Dewormers: Ivermectin, 5L	Jerry can of 5L	20
6.	Dewormers: Albendazole suspension, 5L	Jerry can of 5L	4
7.	Mineral supplements: Type: Mineral blocks (licks); Dosage/M Measurement: 50–100g per 100kg body weight per day (free-choice, ad libitum)	Blocks of 5Kg	5
8.	Multi-vitamins: injectable, bottle of 500ml	Bottle of 500ml	10
9.	Milking cans with covers, 20L, Aluminium material	Pieces	10
10.	Stainless steel buckets, 20L	Pieces	10
11.	Hygiene towels used during milking: standard size 40X40 cm, cotton fabric.	Pieces	10
12.	Udder wipes used during milking: Standard size 25X30 cm, cotton fabric.	Pieces	10
13.	Filter cloths used during milking: 30X30 cm, food grade cotton or nylon fabric, reusable.	Pieces	10
14.	Detergent for cleaning: Bactergent, 5L container	Jerry can of 5L	2

Lot 6: Supply and delivery of goats and medicines.

S/N	Description of the items	UoM	Quantity
1.	Female Mubende breed (8 Months old)- 25kg, long back, well tagged and vaccinated against PPR, suitable for free range - grazing	Goat	50
2.	Male Boer goat breed: (9 Months)-30kgs well tagged, dewormed, body weight: 30-35kgs and vaccinated against PPR, suitable for free range -grazing	Goat	6
3.	Dewormers: Albendazole suspension, 5L	Jerry can of 5L	6

4.	Mineral supplements: Type: Mineral blocks (licks)	Blocks of 5Kg	5
5.	Multi-vitamins: injectable, bottle of 500ml	Bottle of 500ml	10
Basic training in goat management			

Place of delivery

The items shall be delivered to the institutions in Rwenzori and Busoga regions according to as indicated below:

No.	School/ institution	Location	Distance in KM from Kampala
1	Bukuuku Community Secondary School	Fort Portal	309
2	Kagote Seed Secondary School	Fort Portal	297
3	Kaboyo Senior Secondary School	Fort Portal	309
4	Maliba Secondary School	Kasese	367
5	Uganda Martyrs College Kyondo	Kasese	388
6	Busede Seed Secondary School	Jinja	152
7	St. Stephen Secomdary School Budondo	Jinja	86.4
8	Buyengo Secondary School	Jinja	109
9	Bulopa Secondary School	Kamuli	133
10	St. John Bosco Kamuli	Kamuli	118
11.	North Division offices	Fort-portal	15km
12.	Rwimi sub-county offices	Bunyangabu district	15km
13.	Kamwenge Town Council offices	Kamwenge	1km
14.	Nkoma sub-county offices	Kamwenge	30km
15.	Kabende sub-county offices	Kabarole	30km
16.	Nombe sub-county offices	Ntoroko	28km
17.	Ngamba sub-county offices	Bundibugyo	25km
18.	Bugoye sub-county offices	Kasese	20km
19.	Kitoba sub-county offices	Hoima	10km
20.	Kyabigambire sub-county offices	Hoima	18km
21.	Nyamarunda sub-county offices	Kibaale	40km
22.	Kyakazihire sub-county offices	Kibaale	57km
23.	Kiryanga sub-county offices	Kagadi	42km

Delivery schedule

Lot 1: Supply and delivery of poultry, feeds, equipment and medicines.

No.	Items description	Bukuuku SS	Kibuye SS	Kaboyo SSS	Busede Seed SS	St. Stephen SS Budondo	Buyengo SS	Bulopa SS	St. John Bosco Kamuli	Ngamba S/C, Bundibugyo District	Total
1	Layer chicks: 1 day old, vaccinated against Marek's disease. Should be healthy, active, and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management for each school. Modification 2; Point n° 6.3.3 FINANCIAL PROPOSAL

Lot 1: Supply and delivery of livestock, feeds and medicines.

Tender Forms – prices

By submitting this tender the tenderer commits to performing this public contract in conformity with the provisions of the Tender Specifications/ – and explicitly declares accepting all conditions listed in the Tender Specifications and renounces any derogatory provisions such as his own general sales conditions.

The unit prices and the global prices for each item in the inventory are established relative to the value of these items in relation to the total value of the tender. All general and financial costs as well as the profits are distributed between the various items in proportion to their weight.

The value added tax is dealt with on a separate line in the summary bill of quantities or the inventory, to be added to the tender's value.

The tenderer commits to performing the public contract in accordance with the provisions of the Tender Specifications for the following prices, given in euros and exclusive of VAT:

Should this tender be approved, the performance bond will be constituted under the conditions and deadlines stipulated in the Tender Specifications.

The confidential information and/or the information relating to technical or business secrets is indicated clearly in the tender.

In order to correctly compare the tenders, the duly signed information or documents mentioned under Preparation of Tenders.

S/N	Description of the items	UoM	Qty	Unit price in Euros excl. VAT	Amount price in Euros excl. VAT
1.	Layer chicks: 1 day old, vaccinated against Marek's disease. Should be healthy, active, and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management for each school. NB: Should be sourced from certified hatcheries with a proven track record of disease-free, high-yielding poultry stock.	Chick	3000		
2.	Broiler chicks: 1 day old, vaccinated against Gumboro and Newcastle. Should be healthy, active, and uniform in size, free from physical deformities or signs of illness	Chick	500		

	and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management for each school. NB: Should be sourced from certified hatcheries with a proven track record of disease-free, high-yielding poultry stock.				
	5 day old broiler chicks vaccinated against Gumboro and New Castle. Should be healthy , active and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and brief care sheet with guidelines on early brooding management	Chick	300		
3.	Chick mash: For 1-month chicks, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bags of 50Kg	140		
4.	Grower mash: For 1-month chicks, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bags of 50Kg	210		
5.	Layer mash: For 1-month chicks, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50kg	210		
6.	Layer concentrate 30%: Mix 1:2 with maize bran, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	280		
7.	Broiler starter: For 1-2 weeks broilers, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	-24		

8.	Broiler grower: For 3-4 weeks broilers, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	34		
9.	Broiler finisher: For 5-6/7 weeks broilers, bag of 50Kg, expiry date of at least 3 months after manufacture date.	Bag of 50Kg	34		
10	Broiler Feed Supplements (10 Kgs)- expiry date of at least 3 months after manufacture date	Bag of 1 kg	10		
11.	Disinfectant: Oxidizing disinfectants (potassium peroxymonosulfate) for surfaces, equipment, boot dips: 1% (10 g/L). Effective even with some organic load; still pre-clean, jerrycan of 5L	Jerrycan of 5L	35
