

Annex 4: Preliminary List of Potential MoL/Government Systems for Integration

The contractor needs to integrate with existing systems (Internal System in MOL) for the purpose of identifying how the VTMS solution will be integrated with existing systems. The following systems are currently used by MOL or Under Development and VTMS should be integrated with.

- **Computerized systems**

The following systems are currently automated or are under-development:

#	System Name	Inetegrated Reason	Automation staus	Technology	Owner
1.	Labor Market Information System (LMIS)	To ensure if the student registered and has a profile in LMIS depends on Identity No.	100% In use	SQL Server	MOL
2.	HR Portal	Authentication Single Sign on for Mol employees	100% In use	Oracle	MOL
3.	Job Matching Platform	To ensure if the student registered and has a profile in Job Matching Platform based on Identity No. for use same user and credential	Under-development	-	MOL

- **Current Interfaces with external computerized systems, to be used and add new as required**

Currently MOL is capable to connect /connected with the following external parties.

#	Service name	Service provider	Technology
1.	Civil record	Ministry of Interior	Web service
2.	Payment Through ESADAD	Palestine Monetary Authority	Web service
3.	Build 5 APIs For Hukumati Palestine System	Ministry of Labor	Web service
