

## CLARIFICATIONS

**Contract title:** Framework agreement for supply of internet services and installation of LAN infrastructure for schools.

**Reference:** UGA22008-10150

N°	Issue / question raised	Response
1.	What are the expected speeds for both the uplink and downlink ports?	This is not a major requirement, propose your best possible device, with the best possible up/down link speeds, just make sure it is compatible with the access points mentioned in our document.
2.	Are SFP/SFP+ modules required for the uplink connections?	No, please pay attention to the access points mentioned in the document. They can terminate via standard RJ45 Ethernet ports.
3.	What license type is preferred; perpetual or subscription? If perpetual, should it be Essentials or Advantage? If subscription, should it be Essentials, Advantage?	No license is mentioned in the tender document. However, section 5.4, "Preparation and submission of tenders" under the heading, "Elements included in the price", description is provided for probable costs. If it is a cost you'll incur in the execution of the contract, please include it in your price.
