SECTION (C) - SUBMISSION OF TENDERS

9. SUBMISSION OF TENDERS

- 9.1. Without prejudice to any variants, the tenderer may only submit one tender per contract.
- 9.2. *Considering article 14, § 2, °1 of the Law of 17 June 2016 on public procurement, it would not be appropriate to impose the obligation to use electronic means of communication referred to in article 14, § 7, of the Law of 17 June 2016 on public procurement.*

The nature of this public contract is such that national or regional economic operators do not have equal access to the requirements linked to the use of the Belgian federal "e-Procurement" platform. The technical characteristics can therefore be discriminatory and can restrict the access of economic operators to the procurement procedure, in particular, in terms of speed and quality of the internet connection, as well as the quality of the electricity transport network.

In addition, the particular forms provided by this platform from the point of view of electronic signature are not yet compatible with the ICT generally used.

9.3. The tenderer submits their tender as follows:

One original copy of the completed tender shall be submitted only by e-mail

The tenderer shall attach copies of the documents requested in these tender specifications. These copies may be submitted as one or more PDF files.

The submission is to be made on mail with subject, bearing the following information:

Tender: **UGA21003-10301 - Public procurement contract for supply and delivery of training materials, equipments and tools in Albertine and Rwenzori regions**
To the attention of: **Contracts Service Center, Contracts Service Center.**

9.4. **The tender must be submitted before 28th May 2026, at 11:00 AM (East African Time)**, in one of the following ways:

(a) only by e-mail; uga_csc_tenders@enabel.be and only as attachments and not via a link to a platform. The files shall be clearly named and structured and submitted in a compressed zip folder. The tenderer is solely responsible for the accessibility and legibility of files. The tenderer shall not submit at the last minute. Untimely submission, incomplete submission or indirect submission of documents that are inaccessible or illegible may lead to the rejection of the tender. The tenderer shall submit the administrative, technical and financial proposals as separate email attachments. The subject of the e-mail shall clearly mention the procurement reference number and the contract title, as stated on the cover page of the tender specifications, as well as the name of tenderer.

10. TENDER SIGNATURE

10.1. **The tender and all accompanying documents must be signed by the tenderer or his/her representative.** The same applies to any alteration, deletion or note made to this document. The representative must clearly state that he/she is authorised to commit the tenderer.

10.2. Signatures are placed by the person(s) empowered or mandated to commit the tenderer. This obligation applies to each participant when the tender is submitted by a group of economic operators (consortium). These participants are jointly liable.

10.3. When the submission report is signed by a mandatary, he or she must clearly indicate whom he or she represents. The mandatary attaches the original electronic deed or private document that transfers these powers to him or her or a scanned copy of that proxy.

11. DEADLINE FOR SUBMISSION AND OPENING OF TENDERS

11.1. Tenders must be in the possession of the contracting authority before **22 May 2026 at 11:00 AM (East African Time)**.

11.2. The tender opening session will take place behind closed doors at the address given under clause 9 for the submission of tenders.

SECTION (D) - SELECTION, AWARDING & CONCLUSION

12. EXCLUSION GROUNDS

12.1. The obligatory and facultative grounds for exclusion are provided in the declaration on honour attached to these tender specifications (see clause 4 of chapter 8 Forms).

- 12.2. By submitting the declaration enclosed in the annex to these tender specifications, the tenderer certifies that they are not in any of the exclusion cases listed in Articles 67 to 70 of the Law of 17 June 2016 on public procurement, nor Articles 61 to 64 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors.
- 12.3. The grounds for exclusion apply to all participants submitting a joint bid as a consortium of economic operators and third parties (in particular subcontractors or independent subsidiaries) whose capacity is invoked with regard to the criteria of economic and financial capacity or technical and professional aptitude (see clause 13 and 6 Selection file), in accordance with Article 73 § 1 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors.
- 12.4. The contracting authority will verify the accuracy of this declaration on honour for the tenderer with the highest ranked tender. To this end, the contracting authority will request the tenderer concerned to provide the necessary information or documents to verify their personal situation. The tenderer must submit this information by the fastest means and within the deadline set by the contracting authority.
- 12.5. The tenderer may attach these documents directly to his tender. If the tenderer fails to deliver the requested document(s) on time, the contracting authority reserves the right to exclude the tenderer.
- 12.6. Tenderers are strongly advised not to wait for the request of the contracting authority and to request the documents they have not attached to their tender as soon as possible from the competent authorities of the country where they are based. After all, in some cases, it may take a long time to obtain particular documents.
- 12.7. The contracting authority will directly obtain any information or documents that can be accessed free of charge by digital means from the instances that manage the information or documents. This is the case for Belgian tenderers (via the Telemarc platform), with the exception of the extract from the criminal record, which must be requested by the tenderer himself.
- 12.8. **Conflicts of Interest – Revolving Doors (Article 51 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors)**
Without prejudice to Articles 6 and 69, paragraph 1, 5° of the Law of 17 June 2016 on public procurement, a conflict of interest also includes any “revolving doors” situation. This occurs when a natural person who previously worked for a contracting authority — whether as internal staff, in a hierarchical position, as a civil servant, public officer, or in any other capacity linked to the contracting authority — subsequently intervenes under a public contract awarded by that same contracting authority. A conflict of interest arises when there is a connection between the activities previously performed by the individual for the contracting authority and the activities carried out under the awarded contract.

13. QUALITATIVE SELECTION

- 13.1. By means of the documents requested in the 'Selection file' (6 Selection file), the tenderer must demonstrate sufficient capacity to successfully perform this public contract.
- 13.2. Only tenders from tenderers who meet the selection criteria will be taken into consideration to participate in the comparison of tenders based on the award criteria outlined in clause 16 subject to the regularity of these tenders.
- 13.3. To meet the criteria of economic and financial capacity and the criteria on technical and professional aptitude, the tenderer may rely on the capacity of:
- (a) all participants submitting a joint bid as a consortium of economic operators;
 - (b) other entities (in particular subcontractors or independent subsidiaries) regardless of the legal nature of the relationship with these entities, in accordance with Article 73 § 1 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors.
- 13.4. For all such participants or entities, the contracting authority must verify that there are no grounds for exclusion.

13.5. In accordance with Article 73 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, where an economic operator wants to rely on the capacities of other entities (particularly subcontractors or independent subsidiaries) for replying to criteria of economic and financial capacity or technical and professional aptitude, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.

14. Selection criteria

Moreover, by means of the documents requested in the Annexes - Administrative Proposal, the tenderer must prove that he is sufficiently capable, from an economic and financial as well as from a technical point of view, to successfully perform this public procurement contract.

| | |
|------------------|---|
| 1 | Sufficient Economic and Financial Capacity |
| 1.1 | Sufficient turn-over |
| Minimum Standard | Minimum average annual turnover of 14,000 Euros during the past three financial years. |
| 2 | Sufficient Technical and Professional Capacity |
| 2.1 | Sufficient experience |
| Minimum Standard | Minimum of 1 assignment within the scope of the contract, which was totally and successfully completed in the last 3 years. |

A tenderer may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which he has with these entities. In that case, the following rules apply:

- Where an economic operator wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.
- The contracting authority shall verify whether the entities on whose capacity the economic operator intends to rely fulfil the relevant selection criteria and whether there are grounds for exclusion.
- Where an economic operator relies on the capacities of other entities with regard to criteria relating to economic and financial standing, the contracting authority may require that the economic operator and those entities be jointly liable for the execution of the contract.
- The contracting authority may require certain essential tasks to be carried out directly by the tenderer himself or, if the tender is submitted by a group of economic operators, by a member of the said group.

Under the same conditions, a group of candidates or tenderers may submit the capacities of the group's participants or of other entities.

Regularity of tenders

The tenders submitted by the selected tenderers will be evaluated as to formal and material regularity. Irregular tenders will be rejected.

The contracting authority reserves the right to have the irregularities in the tenderers' tender regularised during the negotiations.

1. Qualitative and financial evaluation of tenders

Negotiation

The formally and materially regular tenders will be evaluated as to content by an evaluation committee. The contracting authority will restrict the number of tenders to be negotiated by applying the award criteria stated in the procurement documents. This evaluation will be conducted on the basis of the award criteria given in these Tender Specifications and aims to setting a shortlist of tenderers with whom negotiations will be conducted.

Then, the negotiation phase follows. In view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The minimum requirements and the award criteria are not negotiable. However, the contracting authority may also decide not to negotiate. In this case, the initial tender is the final tender.

When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any BAFOs. Once negotiations have closed, the BAFO will be compared with the exclusion, selection and award criteria. The tenderer whose BAFO shows the best value for money (obtaining the best score based on the award criteria given below) will be designated the contractor for this procurement contract.

15. OVERVIEW OF THE PROCEDURE

- 15.1. In a first phase, the tenders submitted by the selected tenderers will be evaluated as to their formal and material regularity.
- 15.2. The contracting authority reserves the right to have the irregularities in a tender regularised.
- 15.3. In a second phase, the formally and materially regular tenders will be evaluated as to their content by an evaluation commission. The contracting authority will restrict the number of tenders to be negotiated by applying the award criteria stated in these tender specifications (clause 16). This evaluation will be conducted on the basis of the award criteria and aims to set a shortlist of tenderers with whom negotiations will be conducted.

- 15.4. Then, the negotiation phase follows. In view of improving the contents of the tenders, the contracting authority may negotiate with tenderers the initial tenders and all subsequent tenders that they have submitted, except final tenders. The award criteria are not negotiable. However, the contracting authority may also decide not to negotiate. In this case, the initial tender is the final tender.
- 15.5. When the contracting authority intends to conclude the negotiations, it will so advise the remaining tenderers and will set a common deadline for the submission of any BAFO's (*Best and Final Offer*). Once negotiations have closed, the BAFO's will be evaluated as to its regularity and compared on the basis of the award criteria. The tenderer whose BAFO shows the best value for money (obtaining the best score based on the award criteria given under clause 16) will be designated the succesful supplier for this public contract, after having been verified for absence of exclusion grounds and respect for the criteria of qualitative selection.

16. AWARD CRITERIA

The contracting authority will select the regular tender that it considers to be the most economically advantageous, based on the following criteria:

| Award Criterion | Criterion Evaluation or Formula |
|--------------------|---------------------------------|
| Price | 100 |
| Performance period | 0 |

17. AWARDING THE PUBLIC CONTRACT

- 17.1. This public contract will be awarded to the tenderer who has submitted the most economically advantageous tender.
- 17.2. In accordance with Article 85 of the Law of 17 June 2016 on public procurement, the contracting authority is under no obligation to award the contract. The contracting authority may choose either not to award the public contract or to restart the procedure, if necessary, through another award procedure.

18. CONCLUDING THE CONTRACT

- 18.1. In accordance with Article 95, °2 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, the contract is formed upon notification to the succesful tenderer of the approval of their tender.
- 18.2. Notification is made via digital platforms or email, and, on the same day, by registered post.
- 18.3. The full public contract consists of the following documents:
- (a) These tender specifications and their annexes;
 - (b) The approved BAFO and all of its annexes;
 - (c) The registered letter notifying the award decision;
 - (d) Any later documents accepted and signed by both parties, as appropriate.
- 18.4. In the interest of transparency, Enabel commits to publishing an annual list of recipients of its contracts. By submitting their tender, the successful tenderer agrees to the publication of the contract title, nature and object of the contract, their name and location, and the contract amount.

4 SPECIAL CONTRACTUAL PROVISIONS

1. This chapter of these tender specifications holds the specific administrative and contractual provisions that apply to this public contract by way of derogation from the 'General Implementing Rules for public procurement' of the Royal Decree of 14 January 2013 (Royal Decree of 14 January 2013 establishing the general rules for the execution of public contracts), hereinafter referred to as "GIR", or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the "GIR" articles. Unless indicated, the relevant provisions of the "GIR" apply in full.
2. These tender specifications do not derogate from the "GIR".

SECTION (A) - GENERAL

3. USE OF ELECTRONIC MEANS (ART. 10)

The use of electronic means for exchanges during the performance of the contract is permitted unless stated otherwise in these tender specifications. In such cases, notifications from the contracting authority will be sent to the address or registered office mentioned in the tender.

4. MANAGING OFFICIAL (ART. 11)

- 4.1. The managing official for this public contract is **Lucie Carlier, Intervention Manager**, email: lucie.carlier@enabel.be. The managing official is responsible for overseeing the performance of the contract.
- 4.2. Once this public contract is concluded, the managing official serves as the primary point of contact for the supplier. All correspondence or questions regarding the performance of the contract should be directed to him/her, unless otherwise explicitly stated in these tender specifications.
- 4.3. The managing official has full authority to monitor the satisfactory performance of the contract, which includes issuing service orders, preparing reports and statements, approving supplies, progress reports, and reviews. They may order changes to the contract with regards to its subject-matter or performance, provided that such changes remain within its original scope.
- 4.4. However, the signing of amendments or any other decision or agreement implying derogation from the initial terms and conditions of the contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under clause 1 of chapter 1 General Remarks.
- 4.5. Under no circumstances is the managing official allowed to modify the terms and conditions (e.g. performance deadline) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in these tender specifications and that has not been notified by the contracting authority, will be considered null and void.

5. CONFIDENTIALITY (ART. 18)

- 5.1. The knowledge and information obtained by the supplier within the framework of this public contract is strictly confidential. Under no circumstances may the collected information, regardless of its origin or nature, be disclosed or transferred to third parties in any form. The supplier is, therefore, bound by a duty of confidentiality.
- 5.2. In accordance with Article 18 of the "GIR", the supplier undertakes to handle all information, facts, documents, and data — regardless of their nature or format — strictly confidentially. This

obligation applies to any information communicated to the supplier or accessed by the supplier, directly or indirectly, in connection with this public contract. Confidential information includes, but is not limited to, the very existence of this public contract.

5.3. The supplier further undertakes to:

- (a) Respect and ensure strict confidentiality of this information and take all necessary measures to safeguard its secrecy (such measures must not be less stringent than those the supplier applies to their own confidential information);
- (b) Consult, use, or exploit the information mentioned above solely to the extent strictly necessary for the preparation and, if applicable, execution of this public contract, while complying with data protection laws, particularly those governing the processing of personal data;
- (c) Not reproduce, disclose, distribute, transmit, or otherwise make the information available to third parties, in whole or in part, and in any form, without the prior written consent of the contracting authority;
- (d) Return the information to the contracting authority upon their first request;
- (e) Refrain from disclosing, directly or indirectly, the content of this public contract to third parties for advertising or any other purpose.

5.4. The supplier shall include in its contracts with subcontractors the confidentiality obligations it is required to comply with for the performance of the contract.

6. PROTECTION OF PERSONAL DATA

6.1. Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the call for the tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

6.2. Processing of personal data by the supplier

Where during contract performance, the supplier processes personal data of the contracting authority or in execution of a legal obligation, the following provisions apply :

For any processing of personal data carried out in connection with this public contract, the supplier is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

Given the public contract, it is to be considered that the contracting authority and the supplier will each be responsible, individually, for the processing.

7. INTELLECTUAL PROPERTY (ART. 19 TO 23)

- 7.1. The contracting authority **does not acquire** the intellectual property rights created, developed, or used during performance of the public contract.
- 7.2. Unless otherwise specified in the procurement documents and without prejudice to clause 7.1, when this public contract involves the creation, manufacture, or development of designs, logos,

or similar works, the contracting authority acquires the intellectual property rights to these works. This includes the right to trademark, register, and protect them.

- 7.3. For any domain names created under this public contract, the contracting authority similarly acquires the right to register and protect them unless stated otherwise in the procurement documents.
- 7.4. As the contracting authority does not acquire the intellectual property rights, it shall obtain a patent license for the results protected by intellectual property law. This license must cover the modes of exploitation specified in the procurement documents.

SECTION (B) - FINANCIAL GUARANTEES

8. PERFORMANCE BOND (ART. 25 TO 33)

No performance bond is required for this public contract.

SECTION (C) - THE PUBLIC CONTRACT DOCUMENTS

9. CONFORMITY OF PERFORMANCE (ART. 34)

The supplies must comply in all respects with the procurement documents. In the absence of specific technical specifications in the procurement documents, the performance of the contract must meet the highest standards of good practice in the relevant field.

SECTION (D) - CHANGES TO THE PUBLIC CONTRACT

10. REPLACEMENT OF THE SUPPLIER (ART. 38/3, °1)

10.1. Scope

The clause may be applied in case the supplier is unable to continue the performance of the contract due to termination of the contract (art. 61, 62 or 62/1, °2 of the "GIR") or after taking an ex officio measure (art. 47 of the "GIR").

10.2. Nature of the amendment

In derogation of art. 47, § 2, °3 of the "GIR", the contracting authority may, in all the above cases, immediately award a new contract to the subcontractor(s) of the supplier already involved in the performance of the contract or to the second-ranked tenderer, for all or part of the contract still to be performed, and this without initiating a new award procedure. This agreement will take the form of an amendment to the original contract to be concluded between the contracting authority and the new supplier.

10.3. Conditions under which this revision clause may be used

Provided that they meet the selection criteria and the exclusion grounds set out in this document, and if they can meet the initial conditions of the contract, the contracting authority may conclude a contract for account with the supplier 's subcontractor(s) already involved in the performance of the contract. To this end, the contracting authority shall contact the subcontractor(s) or his (their) representative(s), asking whether he (they) can meet the original terms of the contract. If the subcontractor(s) cannot meet the original conditions, a contract for account may be concluded under amended conditions. Before concluding such an amended contract, the

contracting authority shall check whether the new conditions are still more advantageous than those of the tenderer ranked second during the evaluation of the tenders under the original award procedure. If this is not the case, the contracting authority will conclude a contract for account as referred to in the paragraph below.

If the contracting authority is unable or unwilling to avail itself of the option mentioned in the preceding paragraph, a contract for account may be concluded with the tenderer who was ranked second during the evaluation of the tenders under the original award procedure, provided that he meets the selection criteria and the exclusion grounds set out in this document. To this end, the contracting authority contacts the second-ranked tenderer or his representative to ask whether he agrees to maintain his bid. If that bidder agrees without reservation, the contracting authority proceeds to award and conclude the contract for account. If the tenderer in question does not agree to maintain the terms of his initial tender or if his modified tender does not remain the most economically advantageous on the basis of the evaluation of the tenders under the original award procedure (after exclusion of the initial supplier), the contracting authority shall address itself:

- (a) either successively, according to the ranking, to the other regular tenderers. In this case too, the contracting authority contacts the tenderer concerned or his representative to ask whether he agrees to maintain his tender. If that tenderer agrees without reservation, the contracting authority proceeds to award and conclude the contract for account ;
- (b) or simultaneously to all the other regular tenderers, asking them to revise their tender, on the basis of the initial terms of the contract, in order to award and conclude the contract on the basis of the tender that has become the most economically advantageous.

In any case, the contracting authority shall ensure that verification of the absence of grounds for exclusion and compliance with the selection criteria has taken place in an impartial and transparent manner, either in the context of the initial award procedure or at the time of the conclusion of the contract for account, so that no contract is awarded to a tenderer (or subcontractor) who should have been excluded or who does not meet the selection criteria. The minimum requirements of qualitative selection may, where appropriate, be adjusted in proportion to the remaining part of the contract if the contract for account is concluded only for part of the contract still to be performed.

The contract for account will be concluded by means of an amendment to the original contract, which will be signed by the contracting authority and the new supplier. If the contract has already been partially performed, this amendment will accurately mention all parts of the contract that still need to be performed. The amendment shall also mention all the changed conditions compared to the original tender of the initial supplier, and compared to the original tender of the new supplier. If necessary, the amendment shall state the method of application of the original conditions to the remaining part of the contract. All other conditions stated in the contract documents (the tender specifications and the original tender of the initial or new supplier), shall continue to apply unchanged.

If a contract for account is concluded, a copy of the amendment concerning the contract to be concluded shall be sent to the initial supplier by electronic transmission, in deviation from art. 47, § 3 (3) of the "GIR". If, following the application of an ex officio measure (art. 47 of the "GIR"), the price of the new contract for account concluded is higher than that of the initial contract, the initial supplier shall bear the additional costs.

11. REVISION OF PRICES (ART. 38/7)

Price revisions are not allowed under this contract.

12. INDEMNITIES FOR SUSPENSIONS ORDERED BY THE CONTRACTING AUTHORITY DURING CONTRACT PERFORMANCE (ART. 38/12)

- 12.1. The contracting authority reserves the right to suspend the performance of the contract for a given period, mainly because it considers that the procurement contract cannot be performed without inconvenience at that time.
- 12.2. The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance may be agreed.
- 12.3. When activities are suspended, based on this clause 12.3, the supplier is required to take all necessary precautions, at his expense, to protect the supplies already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.
- 12.4. The supplier has a right to damages for suspensions ordered by the contracting authority when:
 - (a) The suspension lasts in total longer than one twentieth of the performance period and at least ten working days or fifteen calendar days, depending on whether the performance period is expressed in working days or calendar days;
 - (b) The suspension is not due to unfavorable weather conditions or other circumstances beyond the contracting authority's control which, in the contracting authority's discretion, constitute an obstacle to the continued performance of the contract at that time;
 - (c) The suspension occurs during the contract's performance period.

13. UNFORESEEABLE CIRCUMSTANCES

- 13.1. As a general rule, the supplier is not entitled to request modifications to the contractual terms for circumstances unknown to the contracting authority.
- 13.2. A decision by the Belgian state to suspend cooperation with a partner country, or a decision of a government of a partner country to suspend cooperation with the Belgian state, constitutes an unforeseeable circumstance under this clause 13. In the event that the Belgian state or the partner country terminates or ceases activities, which implies therefore the financing of this public contract, Enabel will make reasonable efforts to negotiate a fair maximum compensation amount.

14. TAXATION HAVING AN EFFECT ON THE VALUE OF THE PUBLIC CONTRACT (ART. 38/8)

- 14.1. For this public contract, a price revision resulting from a change in taxation is possible if the case occurs in Belgium or in the country of performance concerned by this public contract and has an incidence on the value of the public contract.
- 14.2. Such price revision is only possible if both the following conditions apply:
 - (a) The change entered into force after the tenth day preceding the deadline for submission of tenders, and
 - (b) Either directly, or indirectly by means of an index, such taxation is not included in the revision formula provided for in procurement documents in application of Article 38/7 of the "GIR".
- 14.3. In the event of an increase in charges, the supplier must prove that it has actually borne the additional charges it has claimed and that they are related to the performance of the contract.

In case of a reduction, there is no revision if the supplier proves that he paid the charges at the old rate.

15. TERMS OF INTRODUCTION (ART. 38/14 TO 38/17)

- 15.1. The contracting authority or the supplier who wishes to rely on one of the review clauses, as referred to in Articles 38/9 to 38/12 of the “GIR”, must give written notice of the facts or circumstances invoked on which it relies within 30 days, either after they occurred or after the date on which the contracting authority or the supplier should normally have known about them.
- 15.2. The supplier may only invoke the application of one of these review clauses if it succinctly discloses the influence of the facts or circumstances invoked on the course and cost of the contract to the contracting authority within the period mentioned under clause 15.1, regardless of whether the contracting authority is aware of the facts or circumstances.

SECTION (E) - CONTROL AND MONITORING OF THE PUBLIC CONTRACT

SECTION (F) - PERFORMANCE MODALITIES

16. ORDER FORMS (ART. 115)

17. DEADLINES AND TERMS (ART. 116)

- 17.1. The supplier must deliver the goods within a period expressed in **calendar days**, which the tenderer must propose and indicate in their tender. All days are indistinguishably included in the period.
- 17.2. Performance shall start from **the day after the date on which the service provider received the contract conclusion notification letter**.
- 17.3. Since the performance period is an award criterion, failure to include it in the tender will render it **substantially irregular**.

18. PLACE OF PERFORMANCE (ART. 118)

The supplies must be delivered at the following address:
The supplies shall be delivered during working days and hours (Monday – Friday from 8.30 AM-5.00PM) to the locations mentioned below;

- **Hoima,**
- **Kagadi,**
- **Kibaale,**
- **Kyegegwa,**
- **Kabarole,**
- **Ntoroko,**
- **Bunyangabu,**
- **Kasese**
- **Kamwenge.**

19. TRANSFER OF OWNERSHIP (ART. 132)

The contracting authority automatically becomes the owner of the supplies as soon as they have been accepted for payment pursuant to Article 127 of the "GIR".

SECTION (G) - MEANS OF ACTION

20. FAILURE OF PERFORMANCE (ART. 44)

20.1. The supplier shall be considered in breach of this public contract under the following circumstances:

- (a) When contract performance is not carried out in accordance with the conditions specified in the procurement documents;
- (b) When, at any time, contract performance has not progressed in such a way that it can be fully completed on the due dates;
- (c) When the supplier fails to comply with written orders issued in due form by the contracting authority.

Any failure to comply with the provisions of the public contract, including the non-compliance with orders from the contracting authority, will be documented in a report ('process verbal'). A copy of this report will be sent immediately to the supplier either by registered post or e-mail (with proof of the exact dispatch date).

20.2. The supplier must address the defects without delay. He may assert his right of defence, either by registered post or e-mail (with proof of the exact dispatch date), addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed as acknowledgement of the reported facts.

20.3. Any defects that can be attributed to the supplier may result in the application of one or more measures as provided in Articles 45 to 49, 123 and 124 of the "GIR".

21. FINES FOR DELAY (ART. 46 AND 123)

21.1. Fines for delay differ from penalties referred to in Article 45 of the "GIR". They are due, without the need for notice, by the mere lapse of the performance period without the issuing of a report and they are automatically applied for the total number of days of delay.

21.2. Fines for delay are calculated, according to Article 123 of the "GIR", at a rate of **0.1%** per day of delay, with a **maximum of 7.5%**, of the value of the supplies that were delivered with the same delay.

21.3. If the execution deadline is an award criterion, the penalty rate may increase to a **maximum of 10%**, depending on the weight assigned to this criterion in the tender specifications.

21.4. Without prejudice to the application of these fines, the supplier shall indemnify the contracting authority where appropriate against any damages owed to third parties on account of its delay in performing the contract.

22. MEASURES AS OF RIGHT (ART. 47 AND 124)

22.1. When, upon the expiration of the deadline specified in Article 44, § 2 of the "GIR", to present justifications, the supplier has remained inactive or has submitted justifications deemed insufficient by the contracting authority, the latter may invoke the measures as of right outlined

in clause 22.2 However, the contracting authority may apply these measures before the expiration of the aforementioned term when the supplier has explicitly acknowledged the identified shortcomings.

22.2. The measures as of right are:

- (a) Unilateral termination of the contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;
- (b) Completion of all or part of the unfulfilled contract by the contracting authority itself;
- (c) Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures outlined in points (a), (b), and (c) will be executed at the expense, risk, and peril of the defaulting supplier. However, any fines or penalties imposed during the performance of a replacement contract will be borne by the new supplier.

SECTION (H) - END OF THE PUBLIC CONTRACT

23. ACCEPTANCE OF THE PRODUCTS DELIVERED (ART. 64, 120 AND 128-131)

- 23.1. The contracting authority checks the deliveries at the place of delivery. The supplies will not be accepted until after having satisfied the inspections, technical acceptance operations and prescribed tests. Any damage shall be recorded. The result of this inspection and the exact date of arrival of the deliveries shall be recorded in a report or, where applicable, on the delivery note or invoice referred to in Article 118, § 2 of the "GIR".
- 23.2. Upon expiry of the thirty-day period starting from delivery, as appropriate, a report of provisional acceptance or refusal of acceptance will be drawn up.
- 23.3. In this contract, provisional acceptance is carried out as follows: Full acceptance is carried out at the place of delivery without prior partial acceptance at the place of manufacture. Provisional Acceptance is completed in full at the place of delivery. The contracting authority has thirty (30) days to inspect and test the supplies and notify the supplier of its acceptance or rejection. This period begins the day after the supplies arrive at the place of delivery, provided that the contracting authority has received the delivery note or invoice. The thirty-day period provided for in Article 127 of the "GIR" (clause 26) is included herein.

24. GUARANTEE PERIOD (ART. 65 AND 134)

The warranty period commences on the date on which provisional acceptance is given. It lasts for **1 year**.

25. FINAL ACCEPTANCE (ART. 135)

- 25.1. Final Acceptance occurs upon expiry of the warranty period. It is implicit when the delivery has not led to any claims during said period.
- 25.2. If delivery has led to complaints during the warranty period, a report of final acceptance or refusal of acceptance will be issued within 15 days prior to the expiry of said period.

26. INVOICING AND PAYMENT (ART. 66-72 AND 127)

- 26.1. The contracting authority shall verify and pay the amount due to the supplier within a processing period of thirty days from delivery, provided that the contracting authority is in possession of the duly established invoice.
- 26.2. Only deliveries that have been performed correctly may be invoiced. The invoice must be issued in **euro**.
- 26.3. If delivery takes place in several instalments, the processing period shall commence on the date of delivery for each partial delivery.
- 26.4. The supplier sends (one copy only of) the invoices and the contract acceptance report (original copy) to the following address: **jacqueline.akello@enabel.be**.
- 26.5. In order for Enabel to obtain the VAT exemption and customs clearance documents as quickly as possible, the original invoice and all ad hoc documents will be transmitted as soon as possible before provisional acceptance.

27. ADVANCE PAYMENTS

- 27.1. Notwithstanding clause 26.2 and in accordance with Articles 12/1 to 5 of the Law of 17 June 2016 on public procurement, inserted by the Law of 22 December 2023 amending the regulations on public procurement in order to promote SMEs' access to these contracts, an advance of 15 per cent of the reference value may be granted to the supplier.
- 27.2. The advance is calculated on the basis of the reference value of the public contract, i.e.:
 - (a) If the duration of the public contract is equal to or less than 12 months, the reference value is equal to the initial value of the public contract, all taxes included;
 - (b) If the duration of the public contract is greater than 12 months, the reference value is an amount equal to 12 times the initial value of the public contract, including taxes, divided by the duration of the contract expressed in months;
 - (c) In the case of an open-ended public contract, the reference value is the value per month of the public contract multiplied by 12.

For the calculation of the initial value of the contract, neither conditional blocks nor renewals shall be taken into account.
- 27.3. No advance is granted before:
 - (a) Notification of the conclusion of the public contract;
 - (b) A written dated demand submitted to the contracting authority;
 - (c) A financial guarantee for the full amount of the advance is provided. The guarantee will only be released when the amount of the advance has been fully covered by the performance of the public contract and has been the subject of invoices approved by the contracting authority. This financial guarantee must enable the contracting authority to obtain reimbursement of the advance it has paid in the event of total or partial non-performance of the public contract.
- 27.4. Payment of the advance may be suspended if it is found that the supplier does not comply with his contractual obligations or if they contravene the provisions of Article 7 of the Law of 17 June 2016 on public procurement.
- 27.5. The advance granted is charged to the amounts owed to the supplier, as follows: The first half of the advance payment shall be offset against the sums due to the supplier when the value of the supplies performed reaches 30 per cent of the original order amount and the second half of the advance shall be offset against the sums due to the supplier when the value of the supplies performed reaches 60 per cent of the original order amount.
