1. GENERAL REMARKS

1. THE CONTRACTING AUTHORITY

The contracting authority of this public contract is Enabel, public-law company with social purposes, with its registered office at Rue Haute 147, 1000 Brussels in Belgium (enterprise number 0264.814.354, RPM/RPR Brussels), called ' Enabel ' pursuant to the entry into force of Law of 23 November 2017 changing the name of the Belgian Technical Cooperation and defining the missions and functioning of Enabel, the Belgian agency for development cooperation.

Enabel has the exclusive competence for the execution, in Belgium and abroad, of public service tasks of direct bilateral cooperation with partner countries. Moreover, it may also perform other development cooperation tasks at the request of public interest organisations, and it can develop its own activities to contribute towards realisation of its objectives.

For this public contract Enabel, in Uganda, is represented by the Country Director, Mr. Nicolas Oebel.

Attention: even if Enabel as contracting authority is based in Belgium, Enabel has different “permanent establishments” in partner countries, who are 'customer' in the sense of tax legislation.¹ As a result, services of this contract are deemed to be in Uganda and applicable tax legislation is legislation of Uganda. For more information on this tax regime, you can contact Contract Service Centre (clause 3 of chapter 3 Award Procedure).

2. RULES GOVERNING THE PUBLIC CONTRACT

The following, among others, apply to this public contract:

- a) The Law of 17 June 2016 on public procurement;
- b) The Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors;
- c) The Royal Decree of 14 January 2013 establishing the general rules for the execution of public contracts;
- d) The Law of 17 June 2013 on motivation, information, and remedies in public procurement, certain works, supply, and service contracts, and concessions;
- e) Circulars of the Prime Minister with regards to public procurement;
- f) Enabel's policy regarding sexual exploitation and abuse – June 2019;
- g) Enabel's policy regarding fraud and corruption risk management – June 2019.

All Belgian regulations on public contracts can be consulted on <https://bosa.belgium.be/en/themes/public-procurement>;

Enabel's Code of Conduct and the policies mentioned above can be consulted on Enabel's website via <https://www.enabel.be/who-we-are/integrity/>.

3. APPLICABLE LAW AND COMPETENT COURTS

Belgian legislation applies for this public contract and no other. In the event of a conflict regarding the interpretation, application or performance of these tender specifications, the parties will first try all conciliation possibilities. Except for an emergency, the parties avoid litigation in court without preliminary notification.

In case of court action, correspondence must (also) be sent to the following address:

Enabel S.A.

Global Procurement Services

To the attention of Ms Laura Jacobs

Rue Haute 147

1000 Brussels

Belgium

Any litigation regarding this public contract is the exclusive competence of the Brussels legal district courts and tribunals. French or Dutch are the languages of proceedings.

2. SUBJECT-MATTER AND SCOPE OF THE PUBLIC CONTRACT

1. TYPE OF CONTRACT

This public contract is a supplies contract in a form of **supply and delivery of equipment and animals for Income Generating Activities for secondary schools, VTIs and youth Entrepreneurs in Uganda.**

2. LOTS

This public contract comprises **10 lots**, each of which is indivisible.

The tenderer may submit a tender for all lots. A tender for part of a lot shall be inadmissible.

The lots are:

Lot	Lot description
Lot 1	Supply and delivery of tailoring equipment, materials, and inputs
Lot 2	Supply and delivery of bakery and catering equipment, materials, and inputs
Lot 3	Supply and delivery of dairy equipment, materials, and inputs
Lot 4	Supply and delivery of poultry equipment, materials and inputs.
Lot 5	Supply and delivery of goat-rearing equipment, materials and inputs
Lot 6	Supply and delivery of piggery equipment, materials and inputs.
Lot 7	Supply and delivery of cocoa tree nursery equipment, materials and Horticulture inputs
Lot 8	Supply and delivery of apiary equipment, materials, and inputs
Lot 9	Supply and delivery of Maize sheller and Coffee Huller
Lot 10	Supply and delivery of aquaculture equipment, materials, and inputs

3. ITEMS

Each lot of this public contract consists of the items listed under section 5. Technical Specifications.

These items are grouped together to form one single lot. It is not possible to tender for one or several items and the tenderer must submit price quotations for all items of a same lot.

4. DURATION OF THE PUBLIC CONTRACT

For each of the lots, the public contract starts **upon award notification** and shall last for **4 calendar years** in accordance to Article 57 of the Law of 17 June 2016.

Without prejudice to measure as of right, the contracting authority can terminate the public contract at the end of each year after notification sent by registered letter 30 calendar days before the anniversary date of the contract.

Moreover, the contracting authority has the right to terminate the contract in application of a measure taken as of right or when the contractor is in one of the situations mentioned in Article 62 of the Royal Decree of 14 January 2013.

The termination of the contract under the conditions mentioned above does not entitle the contractor to any indemnity.

For each order, the delivery period shall be **30 calendar days** starting from the day after the date on which the service provider receives the purchase order notification (LPO).

5. VARIANTS

Each tenderer may submit only one tender per lot. Variants are **NOT** allowed.

6. QUANTITIES

Quantities will be determined in order forms.

The price to be paid will be obtained by applying the unit prices given in the inventory to the quantities actually performed.

The presumed quantities indicated under section 5. Technical Specifications are given per lot for information purposes only. The contracting authority does not commit in any way as to quantities that will actually be ordered under this public contract.

7. MAXIMUM CONTRACT VALUE

The maximum amount to be ordered under this framework contract per lot; is 1,700,000 euros

Lot 1: 100,000 euros

Lot 2: 300,000 euros

Lot 3: 100,000 euros

Lot 4: 200,000 euros

Lot 5: 200,000 euros

Lot 6: 200,000 euros

Lot 7: 200,000 euros

Lot 8: 100,000 euros

Lot 9: 200,000 euros

Lot 10: 100,000 euros

3. AWARD PROCEDURE

SECTION (A) - GENERAL PROCEDURE INSTRUCTIONS

1. AWARD PROCEDURE

This public contract will be awarded through an Open Procedure pursuant to Article 36 of the Law of 17 June 2016 on public procurement.

2. PUBLICATION

This contract is advertised in the following official platforms:

- The Belgian Public Tender bulletin (<https://www.publicprocurement.be/bda>)
- The Official Journal of the European Union
- Website of Enabel (<https://www.enabel.be/public-procurement/>)
- Website of the OECD (Organisation for Economic Co-operation and Development);
- Local newspapers

3. FURTHER INFORMATION

Public procurement administrator

The awarding of this public contract is coordinated by: Contracts Service Centre, which is reachable via email uga_csc_contracts@enabel.be

All communication between the contracting authority and (prospective) tenderers regarding this public contract must go through this contact. Any other form of contact with the contracting authority about this public contract is prohibited unless otherwise stated in these tender specifications.

Requesting clarifications

Prospective tenderers have until the tenth day, inclusive, before the deadline for submission of tenders to submit any questions regarding these tender specifications and the contract. All inquiries must be sent in writing to the procedure coordinator mentioned under clause 3 (uga_csc_contracts@enabel.be) and will be answered in the order received.

In accordance with Article 81 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, the tenderer is required to report immediately any gap, error or omission in the procurement documents that precludes the establishment of his price or the comparison of tenders, within ten days at the latest before the deadline for submission of tenders.

Until the notification of the award decision no information will be given about the evolution of the procedure.

Publication of clarifications and/or amendments to the tender specifications

The complete overview of questions and answers, as well as any amendments to these tender specifications, will be available at the seventh day before the deadline for submission of tenders, at the latest.

These updates will be published on the same platforms as mentioned under clause 2.

The tenderer is to submit his tender after reading and taking into account any corrections made to these tender specifications that are published or that are sent to him by e-mail. To do so, when the tenderer has downloaded the tender specifications, it is strongly advised that he gives his coordinates to the public procurement administrator mentioned under clause 0 and requests information on any modifications or additional information.

SECTION (B) - INSTRUCTIONS FOR PREPARATION OF TENDERS

4. VALIDITY PERIOD OF TENDERS

The tenderers remain bound by their tender for a period of **150 calendar days** from the tender reception deadline date.

5. DATA TO BE INCLUDED IN THE TENDER

Tenderers are advised to consult the general principles set out under Heading 1 of the Law of 17 June 2016 on public procurement, which are applicable to this award procedure.

The tender and all annexes to the tender form must be drawn up in: **English**

By submitting a tender, the tenderer automatically waives any of their own general or specific sales conditions, even if these are mentioned in any annexes to their tender.

The tenderer must clearly indicate within their tender any information that is confidential and/or relates to technical or business secrets, which may not be divulged by the contracting authority.

Administrative Proposal

The tenderer must use the tender forms provided in the annex. Should the tenderer fail to use these forms, they shall bear full responsibility for ensuring that the documents submitted are in perfect concordance with the forms.

The Administrative proposal shall respect the following structure:

- Identification forms
- Certificate of registration/incorporation (as applicable)
- Articles of association (as applicable)

- Trading Licence
- Power of Attorney (The statutes and any other document required to establish the power of attorney of the signer(s)).
- **The European Single Procurement Document (ESPD)** is a self-declaration by economic operators providing preliminary evidence replacing the certificates issued by public authorities or third parties. As provided in Article 73 of the Law of 17 June 2016 on public procurement, it is a formal statement by the economic operator that it is not in one of the situations in which economic operators shall or may be excluded; that it meets the relevant selection criteria.
In accordance with Article 76, § 1, °2 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, **failure to comply with the obligation to submit a European Single Procurement Document (ESPD) constitutes a substantial irregularity causing the tender to be null and void.**
- Financial Identification Form (along with an account confirmation letter from the bank. This account shall not change throughout the contract duration and implementation)
- Integrity form
- Declaration on honour - Exclusion grounds
- List of subcontractors (if applicable)

Where the tender is submitted by a group of economic operators (Joint venture or consortium), it must include a copy of the following documents for each of the participants in the group:

- Identification forms
- Certificate of registration/incorporation (as applicable)
- Articles of association
- Trading Licence
- **The European Single Procurement Document (ESPD)**
- Financial Identification Form signed by all participants
- Integrity form
- Declaration on honour - Exclusion grounds
- Power of Attorney (The statutes and any other document required to establish the power of attorney of the signer(s)).
- The association agreement signed by each participant, clearly showing who represents the association.

Participants in a group of economic operators must designate one member of the group who will represent the group vis-à-vis the contracting authority. This is indicated in part II.B of the European Single Procurement Document (ESPD).

In accordance with Article 73 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, where an economic operator wants to rely on the capacities of other entities (particularly subcontractors or independent subsidiaries) for replying to criteria of economic and financial capacity or technical and professional aptitude (see clause 14 and 6. Selection file), it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.

Where a tenderer relies on the capacity of other entities in the meaning of this clause 0, the tenderer, as appropriate, answers the question given in part II, C, of the European Single Procurement Document (ESPD) referred to in Article 38 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors. He also mentions for which part of the public contract he will rely on such capacity and which other entities he proposes. **The tender also comprises a separate European Single Procurement Document (ESPD) for the entities in the meaning of this clause.**

The successful tenderer(s) shall be required to provide the following documents before award;

- Valid Tax Clearance Certificate (e.g. URA, as applicable).
- Valid Social Security Contribution Certificate (e.g. NSSF as applicable).
- Valid extract from the criminal record in the name of the tenderer (legal person) or his representative (natural person) if there is no criminal record for legal persons (ex. Certificate of good conduct from Interpol).

Technical Proposal

The technical proposal may be presented in a table listing of items under each lot. The tenderer shall comply to the technical specifications stated in section 5 Terms of Reference.

Financial Proposal

The tenderer shall use the tender forms included in the corresponding section of the Annex.

6. TENDER CURRENCY

All prices given in the tender form must obligatorily be quoted in **euro**.

7. DETERMINATION OF PRICES

For each of the lots, the public contract is a price-schedule contract, meaning that only the unit prices are fixed. The price to be paid will be obtained by applying the unit prices mentioned in the inventory to the quantities actually performed.

In accordance with Article 37 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, the contracting authority may for the purpose of verifying the prices carry out an audit of any and all accounting documents and perform on-the-spot checks with a view of verifying the correctness of the indications supplied.

8. ELEMENTS INCLUDED IN THE PRICE

The tenderer is to include in his unit prices any charges and taxes generally inherent to the performance of the contract, with the exception of the value-added tax. The applicable VAT is quoted separately, if applicable.

The following are specifically included in the prices:

- a) Packaging (except if it remains the property of the tenderer), loading, trans-shipment, intermediate unloading, transportation, insurance, and customs clearance;
- b) Unloading, unpacking, and deployment at the place of delivery, provided that the procurement documents specify the exact place of delivery and the means of access;
- c) Documentation pertaining to the delivery of supplies and any documentation required by the contracting authority;
- d) Assembly and commissioning;
- e) Training required for operation;
- f) Where applicable, the measures imposed by occupational safety and health legislation;
- g) Customs and excise duties.

All prices are based on **Incoterms® 2020: DDP**.

SECTION (C) - SUBMISSION OF TENDERS

9. SUBMISSION OF TENDERS

Without prejudice to any variants, the tenderer may only submit one tender per lot.

The tenderer submits their tender as follows:

The tenderer shall submit separately (in separate envelopes), the administrative, technical and financial proposals. The sealed envelopes containing the different proposals shall then be put together and sealed in one big envelope to be submitted to the contracting authority. The tenderer shall also submit a scan copy of

the administrative, technical and financial proposals as a separate PDF files on a USB stick inserted into the tender envelope.

One original copy of the completed tender shall be submitted on paper. Electronic copies shall be submitted as one or more PDF files on a USB stick.

The submission is to be made in a properly sealed envelope, bearing the following information:

Tender: **UGA22008-10209 - Framework contract for the supply and delivery of Income Generating Activities for secondary schools**

To the attention of: **Contracts Service Centre.**

The tender must be submitted before **28th August 2026, at 10:00 am Kampala time** in one of the following ways:

- a) By mail (standard or registered mail):

In this case, the sealed envelope should be placed in a second closed envelope addressed to:

Enabel Uganda

Contract Service Center

Lower Kololo Terrace, Plot 1B

P.O Box 40131 Kampala – Uganda

- b) Delivered by hand with an acknowledgment of receipt: The tender may be delivered in person on working days during office hours, from 9:00 am to 12:00 pm and from 1:00 pm to 5:00 pm - see the address provided under this clause 0 (a).

The contracting authority draws the attention of the tenderer to the fact that submitting a tender by email does not satisfy the requirements of this clause 9. A tender submitted by email will be discarded.

10. TENDER SIGNATURE

The tender and all accompanying documents shall be numbered and signed by the tenderer or his/her representative in the Powers of attorney. The same applies to any alteration, deletion or note made to this document. The representative must clearly state that he/she is authorised to commit the tenderer.

Signatures are placed by the person(s) empowered or mandated to commit the tenderer. This obligation applies to each participant when the tender is submitted by a group of economic operators (consortium). These participants are jointly liable.

When the submission report is signed by a mandatary, he or she must clearly indicate whom he or she represents. The mandatary attaches the original electronic deed or private document that transfers these powers to him or her or a scanned copy of that proxy.

11. OPENING OF TENDERS

The tender opening shall be a public opening at 10:30 am Kampala time at the address below;

Enabel Uganda

Lower Kololo Terrace, Plot 1B

PO Box 40131 Kampala – Uganda

SECTION (D) - SELECTION, AWARDING & CONCLUSION

12. EUROPEAN SINGLE PROCUREMENT DOCUMENT (ESPD)

By submitting their tender together with the European Single Procurement Document (ESPD), the tenderer officially declares on his honour that:

- a) They are not in any of the mandatory or facultative exclusion cases, which must or may lead to their exclusion;
- b) They meet the selection criteria established by the contracting authority for this contract.

The European Single Procurement Document (ESPD) is a self-declaration by economic operators providing preliminary evidence replacing the certificates issued by public authorities or third parties. As provided in Article 73 of the Law of 17 June 2016 on public procurement, it is a formal statement by the economic operator that it is not in one of the situations in which economic operators shall or may be excluded; that it meets the relevant selection criteria.

The tenderer generates the European Single Procurement Document (ESPD) via <https://uea.publicprocurement.be/> and then attaches it to his tender.

More information, and a service manual (in French), including guidelines for enterprises, is available through: https://bosa.belgium.be/sites/default/files/documents/DUME_man_espd_entreprise_fr_200.pdf

Where the tender is submitted by a group of economic operators, it must **include a European Single Procurement Document (ESPD) for each of the participants in the group**. Participants in a group of economic operators must designate one member of the group who will represent the group vis-à-vis the contracting authority. This is indicated in part II.B of the European Single Procurement Document (ESPD).

Where a candidate or tenderer relies on the capacity of other entities (in particular subcontractors or independent subsidiaries) whose capacity is invoked with regard to the criteria of economic and financial capacity or technical and professional aptitude (see clause 14 and 6. Selection file), in accordance with Article 73 § 1 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, the candidate or tenderer, as appropriate, answers the question in part II, C, of the European Single Procurement Document (ESPD) referred to in Article 38 of the Royal Decree of 18 April 2017 on the award of public

contracts in the classical sectors. He also mentions for which part of the public contract he will rely on such capacity and which other entities he proposes. The tender also **comprises a separate European Single Procurement Document (ESPD) for the entities in the meaning of this clause 0.**

In accordance with § 2 of Article 38 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, regarding **part IV of the European Single Procurement Document (ESPD) on the selection criteria**, the contracting authority has decided to limit the information to be filled out to one single question, namely whether the economic operator fulfils the required selection criteria, in accordance with the section **“Global indication for all selection criteria”**. So, only this section must be completed.

13. EXCLUSION GROUNDS

The mandatory and facultative grounds for exclusion are provided in the European Single Procurement Document (ESPD).

The grounds for exclusion apply to all participants submitting a joint bid as a consortium of economic operators and third parties (in particular subcontractors or independent subsidiaries) whose capacity is invoked with regard to the criteria of economic and financial capacity or technical and professional aptitude (see clause 14 and 6. Selection file), in accordance with Article 73 § 1 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors.

The contracting authority may, at any time during the procedure, request the tenderer to provide all or part of the supporting documents, if necessary, to ensure the smooth progress of the procedure. To this end, the contracting authority will request the tenderer concerned to provide the necessary information or documents to verify their personal situation. The tenderer must submit this information by the fastest means and within the deadline set by the contracting authority. However, the tenderer is not required to submit any supporting documents or evidence if the contracting authority can directly access the necessary certificates or information through a free national database in a Member State.

The tenderer may attach these documents directly to his tender. If the tenderer fails to deliver the requested document(s) on time, the contracting authority reserves the right to exclude the tenderer.

Tenderers are strongly advised not to wait for the request of the contracting authority and to request the documents they have not attached to their tender as soon as possible from the competent authorities of the country where they are based. After all, in some cases, it may take a long time to obtain particular documents.

The contracting authority will directly obtain any information or documents that can be accessed free of charge by digital means from the instances that manage the information or documents. This is the case for Belgian tenderers (via the Telemarc platform), with the exception of the extract from the criminal record, which must be requested by the tenderer himself.

With the exception of the exclusion grounds relating to tax and social security, a tenderer in one of the mandatory or optional exclusion situations may demonstrate, on their own initiative, that they have paid or

undertaken to pay compensation for any damage caused by the criminal offence or fault. They must also demonstrate that they have fully clarified the facts and circumstances by cooperating with the authorities responsible for the investigation, and have taken specific technical, organisational, and personnel measures to prevent any further criminal offence or fault.

Conflicts of Interest – Revolving Doors (Article 51 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors)

Without prejudice to Articles 6 and 69, paragraph 1, 5° of the Law of 17 June 2016 on public procurement, a conflict of interest also includes any “revolving doors” situation. This occurs when a natural person who previously worked for a contracting authority — whether as internal staff, in a hierarchical position, as a civil servant, public officer, or in any other capacity linked to the contracting authority — subsequently intervenes under a public contract awarded by that same contracting authority. A conflict of interest arises when there is a connection between the activities previously performed by the individual for the contracting authority and the activities carried out under the awarded contract.

14. QUALITATIVE SELECTION

By means of the documents requested in the 'Selection file' (6. Selection file), the tenderer must demonstrate sufficient capacity to successfully perform this public contract.

Only tenders from tenderers who meet the selection criteria will be taken into consideration to participate in the comparison of tenders based on the award criteria outlined in clause 16 subject to the regularity of these tenders.

1	Sufficient Economic and Financial Capacity
1.1	Sufficient turn-over
Minimum Standard	For each of the lots, a Minimum average annual turnover of 50,000 Euros during the past three financial years (If a contractor submits for more than one lot, the amount above shall be summed up for the lots tendered.)
2	Sufficient Technical and Professional Capacity
2.1	Sufficient experience
Minimum Standard	Minimum of 1 assignment within the scope of the contract per lot, which were totally and successfully completed in the last 3 years.

To meet the criteria of economic and financial capacity and the criteria on technical and professional aptitude, the tenderer may rely on the capacity of:

- all participants submitting a joint bid as a consortium of economic operators;

- other entities (in particular subcontractors or independent subsidiaries) regardless of the legal nature of the relationship with these entities, in accordance with Article 73 § 1 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors.

For all such participants or entities, the contracting authority must verify that there are no grounds for exclusion. The tender must also include a separate European Single Procurement Document (ESPD) for each of these participants or entities.

In accordance with Article 73 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, where an economic operator wants to rely on the capacities of other entities (particularly subcontractors or independent subsidiaries) for replying to criteria of economic and financial capacity or technical and professional aptitude, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.

15. MODALITIES RELATING TO TENDER EXAMINATION AND REGULARITY OF TENDERS

Before starting the evaluation and comparison of tenders, the contracting authority examines their regularity.

The tenders must be drawn up in such a way that the contracting authority can make a selection without starting negotiations with the tenderer. For this reason, and in order to be able to assess the tenders fairly, it is essential that the tenders be completely in conformity with the provisions of these tender specifications, both formally and materially.

The substantially irregular tenders are excluded.

A substantial irregularity is such as to give a discriminatory advantage to the tenderer, to distort competition, to prevent the evaluation of the tenderer's tender or its comparison with the other tenders, or to render non-existent, incomplete or uncertain the commitment of the tenderer to perform the contract under the conditions laid down.

The following irregularities are deemed substantial:

- a) failure to comply with environmental, social or labour law, provided that such non-compliance is punishable by law
- b) failure to comply with the requirements of Articles 38, 42, 43, § 1, 44, 48, § 2, clause 1, 54, § 2, 55, 83 and 92 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors and of Article 14 of the Law of 17 June 2016 on public procurement, insofar as they contain obligations vis-à-vis the tenderers
- c) failure to comply with the minimum requirements and the requirements that are indicated as substantial in the procurement documents
- d) tenders that do not bear an original handwritten signature on the tender form

The contracting authority will also declare void any tender that is affected by several non-substantial irregularities which, by reason of their accumulation or combination, are capable of having the same effect

as described above (in accordance with Article 76 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors).

16. AWARD CRITERIA

The contracting authority will select the regular tender that it considers to be the most economically advantageous, based on the following criteria:

- Price: 100 %;

With regards to the 'price' criterion, the following formula will be used

$$\text{Points tender A} = \frac{\text{amount of lowest tender}}{\text{amount of tender A}} * 100$$

The scores for the award criteria will be added up. This public contract will be awarded to the tenderer that submitted the tender with the highest final score, after the contracting authority has verified the accuracy of the European Single Procurement Document (ESPD) of this tenderer and provided the control shows that the European Single Procurement Document (ESPD) corresponds with reality.

17. AWARDING THE PUBLIC CONTRACT

Each lot of this public contract shall be awarded to **maximum of two (2) tenderers** who have submitted the least expensive tender for the lot in question.

For each of the lots, the framework agreement shall be awarded to a maximum of two suppliers **in a cascade** ranked from 1st to 2nd supplier. If the first ranked framework contractor is unable to supply and deliver the requested supplies under a given order form, the second-best ranked framework contractor shall be requested to supply and delivery the supplies.

In accordance with Article 85 of the Law of 17 June 2016 on public procurement, the contracting authority is under no obligation to award the contract. The contracting authority may choose either not to award the public contract or to restart the procedure, if necessary, through another award procedure.

The contracting authority also reserves the right to award only certain lots and may decide that the remaining lot(s) will be subject to one or more new contracts, if necessary, through a different award procedure in accordance with Article 58, § 1, third paragraph of the Law of 17 June 2016 on public procurement.

18. CONCLUDING THE CONTRACT

In accordance with Article 88 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors, the contract is formed upon notification to the successful tenderers of the approval of their tender.

Notification is made via digital platforms or email.

The full contract consists of the following documents:

- a) These tender specifications and their annexes;
- b) The approved tender and all its annexes;
- c) The registered letter notifying the award decision;
- d) Any later documents accepted and signed by both parties, as appropriate.

In the interest of transparency, Enabel commits to publishing an annual list of recipients of its contracts. By submitting their tender, the successful tenderer agrees to the publication of the contract title, nature and object of the contract, their name and location, and the contract amount.

4. SPECIAL CONTRACTUAL PROVISIONS

This chapter of these tender specifications holds the specific administrative and contractual provisions that apply to this public contract by way of derogation from the 'General Implementing Rules for public procurement' of the Royal Decree of 14 January 2013 (Royal Decree of 14 January 2013 establishing the general rules for the execution of public contracts), hereinafter referred to as "GIR", or as a complement or an elaboration thereof. The numbering of the articles below (between brackets) follows the numbering of the "GIR" articles. Unless indicated, the relevant provisions of the "GIR" apply in full.

These tender specifications do not derogate from the "GIR".

SECTION (A) - GENERAL

1. USE OF ELECTRONIC MEANS (ART. 10)

The use of electronic means for exchanges during the performance of the contract is permitted unless stated otherwise in these tender specifications. In such cases, notifications from the contracting authority will be sent to the address or registered office mentioned in the tender.

2. MANAGING OFFICIAL (ART. 11)

The managing official for this public contract is Robert Kisoma Institutional Development Expert, email: robert.kisoma@enabel.be The managing official is responsible for overseeing the performance of the contract.

Once this public contract is concluded, the managing official serves as the primary point of contact for the supplier. All correspondence or questions regarding the performance of the contract should be directed to him/her, unless otherwise explicitly stated in these tender specifications.

- The managing official has full authority to monitor the satisfactory performance of the contract, which includes issuing service orders, preparing reports and statements, approving supplies, progress reports, and reviews. They may order changes to the contract with regards to its subject-matter or performance, provided that such changes remain within its original scope.
- However, the signing of amendments or any other decision or agreement implying derogation from the initial terms and conditions of the contract are not part of the competence of the managing official. For such decisions the contracting authority is represented as stipulated under clause 1 of chapter 1 General Remarks.
- Under no circumstances is the managing official allowed to modify the terms and conditions (e.g. performance deadline) of the contract, even if the financial impact is nil or negative. Any

commitment, change or agreement that deviates from the conditions in these tender specifications and that has not been notified by the contracting authority, will be considered null and void.

3. CONFIDENTIALITY (ART. 18)

Suppliers who, during the performance of the contract, receive information or documents or data of any kind that are classified as confidential and relate, in particular, to the subject matter of the contract, the resources required for its performance and the operation of the contracting authority's services, shall take the necessary measures to prevent such information, documents or data from being disclosed to third parties who have no right to know them.

Suppliers who, in the performance of the contract, have knowledge of a drawing or model, know-how, method or invention belonging to the contracting authority or jointly to the contracting authority and the supplier, shall refrain from any communication concerning the drawing or model, know-how, method or invention to third parties, unless those elements are the subject of the contract.

4. PROTECTION OF PERSONAL DATA

Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the call for the tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

Processing of personal data by the supplier

Where during contract performance, the supplier processes personal data of the contracting authority or in execution of a legal obligation, the following provisions apply:

For any processing of personal data carried out in connection with this public contract, the supplier is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

Given the public contract, it is to be considered that the contracting authority and the supplier will each be responsible, individually, for the processing.

5. INTELLECTUAL PROPERTY (ART. 19 TO 23)

The contracting authority **does not acquire** the intellectual property rights created, developed, or used during performance of the public contract.

Unless otherwise specified in the procurement documents and without prejudice to clause 0, when this public contract involves the creation, manufacture, or development of designs, logos, or similar works, the contracting authority acquires the intellectual property rights to these works. This includes the right to trademark, register, and protect them.

For any domain names created under this public contract, the contracting authority similarly acquires the right to register and protect them unless stated otherwise in the procurement documents.

As the contracting authority does not acquire the intellectual property rights, it shall obtain a patent license for the results protected by intellectual property law. This license must cover the modes of exploitation specified in the procurement documents.

SECTION (B) - FINANCIAL GUARANTEES

6. PERFORMANCE BOND (ART. 25 TO 33)

Scope and amount (Art. 25)

For orders that exceed 50,000 euros, the performance bond is a requirement for this public contract and is set at 5% of the total value of each lot, excluding VAT. The resulting value will be rounded up to the nearest 10 euros.

Nature of the performance bond (Art. 26)

In accordance with the applicable legal and regulatory provisions, the performance bond may be provided in the form of cash, public funds, or a joint performance bond. It may also be issued as a surety bond by a credit institution meeting the requirements of the law governing credit institutions or by an insurance company approved for branch 15 (bonds) under the law governing insurance companies.

By way of derogation from Article 26 of the “GIR”, the performance bond may be posted through an institution with its registered office in one of the countries of destination of the supplies. The contracting authority reserves the right to accept or refuse the posting of the bond through such an institution. The tenderer shall provide the name and address of this institution in the tender.

This derogation is intended to provide local tenderers with the opportunity to submit a tender, taking into account the specific requirements of the contract.

Deadline for submitting the performance bond (Art. 27)

The successful tenderer is required to provide proof of the posting of the performance bond within 30 calendar days from the conclusion of the procurement contract.

The period specified above is suspended during the period of closure of the supplier 's business for paid annual holidays and the days off in lieu stipulated by regulation or by a collective binding labour agreement.

Posting of the performance bond (Art. 27)

The performance bond must be posted by the successful tenderer in one of the following ways:

- a) Cash deposit: Deposit the amount in the account of the Deposit and Consignment Office (Dutch or French procedure to enter a deposit in e-DEPO) or of a public institution performing a similar function similar;
- b) Public Funds: Deposit with the State cashier at the National Bank's headquarters in Brussels or one of its provincial branches, on behalf of the Deposit and Consignment Office or a similar public institution;
- c) Joint surety: By the deposit, via an institution that lawfully carries out this activity, of a deed of joint surety with the Deposit and Consignment Office or with a similar public institution;
- d) Guarantee: Provide the deed of undertaking of the credit institution.

Proof of deposit (Art. 27)

Proof of posting the performance bond must be provided as applicable by submission to the contracting authority of:

- a) A deposit receipt from the Deposit and Consignment Office or a similar public institution;
- b) A debit notice from the credit institution or insurance company;
- c) A deposit certificate issued by the State Cashier or a similar public institution;
- d) The original copy of the deed of joint surety stamped by the Depot and Consignment Office or by a similar public institution;
- e) The original copy of the deed of undertaking issued by the credit institution or the insurance company granting a guaranty.

These documents, signed by the depositor, must state why the performance bond was posted and its precise usage, consisting of a concise indication of the subject-matter of the procurement contract and a reference to the procurement documents, as well as the name, first name and full address of the supplier and, where relevant, that of the third party that made the deposit on the supplier 's account, bearing the statement 'lender' or 'mandatory', as appropriate.

Proof that the required performance bond has been posted must be sent to the address that will be mentioned in the contract conclusion notification.

Release of bond

If the contracting authority confirms acceptance of the supplies, the bond shall be released, even if the supplier has made no such request.

The whole of the bond will be released at once after provisional acceptance of the entire order.

SECTION (C) - THE PUBLIC CONTRACT DOCUMENTS

7. CONFORMITY OF PERFORMANCE (ART. 34)

The supplies must comply in all respects with the procurement documents. In the absence of specific technical specifications in the procurement documents, the performance of the contract must meet the highest standards of good practice in the relevant field.

SECTION (D) - CHANGES TO THE PUBLIC CONTRACT

8. REPLACEMENT OF THE SUPPLIER (ART. 38/3, °1)

Scope

The clause may be applied in case the supplier is unable to continue the performance of the contract due to termination of the contract (art. 61, 62 or 62/1, °2 of the “GIR”) or after taking an ex officio measure (art. 47 of the “GIR”).

Nature of the amendment

In derogation of art. 47, § 2, °3 of the “GIR”, the contracting authority may, in all the above cases, immediately award a new contract to the subcontractor(s) of the supplier already involved in the performance of the contract or to the second-ranked tenderer, for all or part of the contract still to be performed, and this without initiating a new award procedure. This agreement will take the form of an amendment to the original contract to be concluded between the contracting authority and the new supplier.

Conditions under which this revision clause may be used

Provided that they meet the selection criteria and the exclusion grounds set out in this document, and if they can meet the initial conditions of the contract, the contracting authority may conclude a contract for account with the supplier 's subcontractor(s) already involved in the performance of the contract. To this end, the contracting authority shall contact the subcontractor(s) or his (their) representative(s), asking whether he (they) can meet the original terms of the contract.

If the subcontractor(s) cannot meet the original conditions, a contract for account may be concluded under amended conditions. Before concluding such an amended contract, the contracting authority shall check

whether the new conditions are still more advantageous than those of the tenderer ranked second during the evaluation of the tenders under the original award procedure. If this is not the case, the contracting authority will conclude a contract for account as referred to in the paragraph below.

If the contracting authority is unable or unwilling to avail itself of the option mentioned in the preceding paragraph, a contract for account may be concluded with the tenderer who was ranked second during the evaluation of the tenders under the original award procedure, provided that he meets the selection criteria and the exclusion grounds set out in this document.

To this end, the contracting authority contacts the second-ranked tenderer or his representative to ask whether he agrees to maintain his bid. If that bidder agrees without reservation, the contracting authority proceeds to award and conclude the contract for account.

If the tenderer in question does not agree to maintain the terms of his initial tender or if his modified tender does not remain the most economically advantageous on the basis of the evaluation of the tenders under the original award procedure (after exclusion of the initial supplier), the contracting authority shall address itself:

- a) either successively, according to the ranking, to the other regular tenderers. In this case too, the contracting authority contacts the tenderer concerned or his representative to ask whether he agrees to maintain his tender. If that tenderer agrees without reservation, the contracting authority proceeds to award and conclude the contract for account;
- b) or simultaneously to all the other regular tenderers, asking them to revise their tender, on the basis of the initial terms of the contract, in order to award and conclude the contract on the basis of the tender that has become the most economically advantageous.

In any case, the contracting authority shall ensure that verification of the absence of grounds for exclusion and compliance with the selection criteria has taken place in an impartial and transparent manner, either in the context of the initial award procedure or at the time of the conclusion of the contract for account, so that no contract is awarded to a tenderer (or subcontractor) who should have been excluded or who does not meet the selection criteria.

The minimum requirements of qualitative selection may, where appropriate, be adjusted in proportion to the remaining part of the contract if the contract for account is concluded only for part of the contract still to be performed.

The contract for account will be concluded by means of an amendment to the original contract, which will be signed by the contracting authority and the new supplier. If the contract has already been partially performed, this amendment will accurately mention all parts of the contract that still need to be performed. The amendment shall also mention all the changed conditions compared to the original tender of the initial supplier and compared to the original tender of the new supplier. If necessary, the amendment shall state the method of application of the original conditions to the remaining part of the contract. All other conditions

stated in the contract documents (the tender specifications and the original tender of the initial or new supplier), shall continue to apply unchanged.

If a contract for account is concluded, a copy of the amendment concerning the contract to be concluded shall be sent to the initial supplier by electronic transmission, in deviation from art. 47, § 3 (3) of the “GIR”. If, following the application of an ex officio measure (art. 47 of the “GIR”), the price of the new contract for account concluded is higher than that of the initial contract, the initial supplier shall bear the additional costs.

9. REVISION OF PRICES (ART. 38/7)

Price revisions shall be allowed under this contract.

The contract price upon finalization and approval shall be fixed for a period of one year. At the beginning of the second and every following year of the framework contract, each price may be revised upwards or downwards at the request of one of the parties.

To calculate the price revision, the following formula applies:

$$P_r = P_o \left(\frac{I_r}{I_o} \right)$$

Where:

Pr = Price after revision

Po = Price quoted in the tender

Io = Index for the month in which the framework Contract (FWC) enters into force;

Ir = Index for the month in which the request to revise prices is received

This revision shall be determined by the trend in the harmonized consumer price index published by the Uganda Bureau of Statistics (UBOS) Database for the applicable index appropriate for the industry.

The price revision may only be applied if the price increase or decrease following the request or if the price revision request amounts to at least 3% of the price quoted in the tender (for the first price revision) or of the last price revised or imposed (as of the second price revision). The total revision under this clause shall be subject to a ceiling of plus or minus 10% of the price quoted in the tender.

10. INDEMNITIES FOR SUSPENSIONS ORDERED BY THE CONTRACTING AUTHORITY DURING CONTRACT PERFORMANCE (ART. 38/12)

The contracting authority reserves the right to suspend the performance of the contract for a given period, mainly because it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance may be agreed.

When activities are suspended, based on this clause 0, the supplier is required to take all necessary precautions, at his expense, to protect the supplies already performed and the materials from potential damage caused by unfavorable weather conditions, theft or other malicious acts.

The supplier has a right to damages for suspensions ordered by the contracting authority when:

- a) The suspension lasts in total longer than one twentieth of the performance period and at least ten working days or fifteen calendar days, depending on whether the performance period is expressed in working days or calendar days;
- b) The suspension is not due to unfavorable weather conditions or other circumstances beyond the contracting authority's control which, in the contracting authority's discretion, constitute an obstacle to the continued performance of the contract at that time;
- c) The suspension occurs during the contract's performance period.

11. UNFORESEEABLE CIRCUMSTANCES

As a general rule, the supplier is not entitled to request modifications to the contractual terms for circumstances unknown to the contracting authority.

A decision by the Belgian state to suspend cooperation with a partner country, or a decision of a government of a partner country to suspend cooperation with the Belgian state, constitutes an unforeseeable circumstance under this clause 11. In the event that the Belgian state or the partner country terminates or ceases activities, which implies therefore the financing of this public contract, Enabel will make reasonable efforts to negotiate a fair maximum compensation amount.

12. TAXATION HAVING AN EFFECT ON THE VALUE OF THE PUBLIC CONTRACT (ART. 38/8)

For this public contract, a price revision resulting from a change in taxation is possible if the case occurs in Belgium or in the country of performance concerned by this public contract and has an incidence on the value of the public contract.

Such price revision is only possible if both the following conditions apply:

- a) The change entered into force after the tenth day preceding the deadline for submission of tenders, and
- b) Either directly, or indirectly by means of an index, such taxation is not included in the revision formula provided for in procurement documents in application of Article 38/7 of the "GIR".

In the event of an increase in charges, the supplier must prove that it has actually borne the additional charges it has claimed and that they are related to the performance of the contract.

In case of a reduction, there is no revision if the supplier proves that he paid the charges at the old rate.

13. TERMS OF INTRODUCTION (ART. 38/14 TO 38/17)

The contracting authority or the supplier who wishes to rely on one of the review clauses, as referred to in Articles 38/9 to 38/12 of the “GIR”, must give written notice of the facts or circumstances invoked on which it relies within 30 days, either after they occurred or after the date on which the contracting authority or the supplier should normally have known about them.

The supplier may only invoke the application of one of these review clauses if it succinctly discloses the influence of the facts or circumstances invoked on the course and cost of the contract to the contracting authority within the period mentioned under clause 0, regardless of whether the contracting authority is aware of the facts or circumstances.

SECTION (E) - CONTROL AND MONITORING OF THE PUBLIC CONTRACT

SECTION (F) - PERFORMANCE MODALITIES

14. ORDER FORMS (ART. 115)

15. DEADLINES AND TERMS (ART. 116)

The supplier must deliver each order within **30 calendar days**, starting **from the day after the date on which the service provider receives the purchase order notification (LPO)**.

16. PLACE OF PERFORMANCE (ART. 118)

The supplies must be delivered to the **addresses specified under section 5 Terms of Reference**.

17. TRANSFER OF OWNERSHIP (ART. 132)

The contracting authority automatically becomes the owner of the supplies as soon as they have been accepted for payment pursuant to Article 127 of the “GIR”.

SECTION (G) - MEANS OF ACTION

18. FAILURE OF PERFORMANCE (ART. 44)

The supplier shall be considered in breach of this public contract under the following circumstances:

- a) When contract performance is not carried out in accordance with the conditions specified in the procurement documents;

b) When, at any time, contract performance has not progressed in such a way that it can be fully completed on the due dates;

c) When the supplier fails to comply with written orders issued in due form by the contracting authority.

Any failure to comply with the provisions of the public contract, including the non-compliance with orders from the contracting authority, will be documented in a report ('process verbal'). A copy of this report will be sent immediately to the supplier either by registered post or e-mail (with proof of the exact dispatch date). The supplier must address the defects without delay. He may assert his right of defence, either by registered post or e-mail (with proof of the exact dispatch date), addressed to the contracting authority within fifteen days from the date of dispatch of the report (process verbal). Silence on his part after this period shall be deemed as acknowledgement of the reported facts.

Any defects that can be attributed to the supplier may result in the application of one or more measures as provided in Articles 45 to 49, 123 and 124 of the "GIR".

19. FINES FOR DELAY (ART. 46 AND 123)

Fines for delay differ from penalties referred to in Article 45 of the "GIR". They are due, without the need for notice, by the mere lapse of the performance period without the issuing of a report and they are automatically applied for the total number of days of delay.

Fines for delay are calculated, according to Article 123 of the "GIR", at a rate of **0.1%** per day of delay, **with a maximum of 7.5%**, of the value of the supplies that were delivered with the same delay.

If the execution deadline is an award criterion, the penalty rate may increase to **a maximum of 10%**, depending on the weight assigned to this criterion in the tender specifications.

Without prejudice to the application of these fines, the supplier shall indemnify the contracting authority where appropriate against any damages owed to third parties on account of its delay in performing the contract.

20. MEASURES AS OF RIGHT (ART. 47 AND 124)

When, upon the expiration of the deadline specified in Article 44, § 2 of the "GIR", to present justifications, the supplier has remained inactive or has submitted justifications deemed insufficient by the contracting authority, the latter may invoke the measures as of right outlined in clause 0. However, the contracting authority may apply these measures before the expiration of the aforementioned term when the supplier has explicitly acknowledged the identified shortcomings.

The measures as of right are:

a) Unilateral termination of the contract. In this case the entire performance bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum

damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part;

- b) Completion of all or part of the unfulfilled contract by the contracting authority itself;
- c) Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures outlined in points (a), (b), and (c) will be executed at the expense, risk, and peril of the defaulting supplier. However, any fines or penalties imposed during the performance of a replacement contract will be borne by the new supplier.

SECTION (H) - END OF THE PUBLIC CONTRACT

21. ACCEPTANCE OF THE PRODUCTS DELIVERED (ART. 64, 120 AND 128-131)

The contracting authority checks the deliveries at the place of delivery. The supplies will not be accepted until after having satisfied the inspections, technical acceptance operations and prescribed tests. Any damage shall be recorded. The result of this inspection and the exact date of arrival of the deliveries shall be recorded in a report or, where applicable, on the delivery note or invoice referred to in Article 118, § 2 of the "GIR".

Upon expiry of the thirty-day period starting from delivery, as appropriate, a report of provisional acceptance or refusal of acceptance will be drawn up.

In this contract, provisional acceptance is carried out as follows: Full acceptance is carried out at the place of delivery without prior partial acceptance at the place of manufacture. Provisional Acceptance is completed in full at the place of delivery. The contracting authority has thirty (30) days to inspect and test the supplies and notify the supplier of its acceptance or rejection. This period begins the day after the supplies arrive at the place of delivery, provided that the contracting authority has received the delivery note or invoice. The thirty-day period provided for in Article 127 of the "GIR" (clause 24) is included herein.

22. WARRANTY AND VALIDITY PERIOD (ART. 65 AND 134)

The Warranty and validity periods shall be as indicated in the technical specifications under section 5.

23. FINAL ACCEPTANCE (ART. 135)

Final Acceptance occurs upon expiry of the warranty period. It is implicit when the delivery has not led to any claims during said period.

If delivery has led to complaints during the warranty period, a report of final acceptance or refusal of acceptance will be issued within 15 days prior to the expiry of said period.

24. INVOICING AND PAYMENT (ART. 66-72 AND 127)

The contracting authority shall verify and pay the amount due to the supplier within a processing **period of thirty days from delivery**, provided that the contracting authority is in possession of the duly established invoice.

Only deliveries that have been performed correctly may be invoiced.

The invoice must be issued in **euros**.

If delivery takes place in several instalments, the processing period shall commence on the date of delivery for each partial delivery.

The supplier sends (one copy only of) the invoices and the contract acceptance report (original copy) to the financial controller of the project mentioned in the order form:

Payment corresponding to **100 %** of the order form shall be made after final acceptance of each delivery of the same order unless an advance payment has been granted.

25. ADVANCE PAYMENTS

Notwithstanding clause 24.2 and in accordance with Articles 12/1 to 5 of the Law of 17 June 2016 on public procurement, inserted by the Law of 22 December 2023 amending the regulations on public procurement in order to promote SMEs' access to these contracts, an advance may be granted to the supplier.

The amount of the advance is calculated by applying the following percentages to the reference value of the public contract:

- a) 20% if the winning tenderer is a micro-enterprise, i.e. a company that employs fewer than ten people and whose annual turnover or annual balance sheet total does not exceed two million euros;
- b) 10% if the winning tenderer is a small enterprise, i.e. a company that employs fewer than fifty people and whose annual turnover or annual balance sheet total does not exceed ten million euros;
- c) 5% where the winning tenderer is a medium-sized enterprise, i.e. a company that employs fewer than two hundred and fifty people and with an annual turnover not exceeding fifty million euros or an annual balance sheet total not exceeding forty-three million euros.

The advance is calculated on the basis of the reference value of the public contract, i.e.:

- a) If the duration of the public contract is equal to or less than 12 months, the reference value is equal to the initial value of the public contract, all taxes included;
- b) If the duration of the public contract is greater than 12 months, the reference value is an amount equal to 12 times the initial value of the public contract, including taxes, divided by the duration of the contract expressed in months;
- c) In the case of an open-ended public contract, the reference value is the value per month of the public contract multiplied by 12.

For the calculation of the initial value of the contract, neither conditional blocks nor renewals shall be taken into account.

No advance is granted before:

- a) Notification of the conclusion of the public contract;
- b) A written dated demand submitted to the contracting authority;
- c) A financial guarantee for the full amount of the advance is provided. The guarantee will only be released when the amount of the advance has been fully covered by the performance of the public contract and has been the subject of invoices approved by the contracting authority. This financial guarantee must enable the contracting authority to obtain reimbursement of the advance it has paid in the event of total or partial non-performance of the public contract.

Payment of the advance may be suspended if it is found that the supplier does not comply with his contractual obligations or if they contravene the provisions of Article 7 of the Law of 17 June 2016 on public procurement.

The advance granted is charged to the amounts owed to the supplier, as follows: The first half of the advance payment shall be offset against the sums due to the supplier when the value of the supplies performed reaches 30 per cent of the original order amount and the second half of the advance shall be offset against the sums due to the supplier when the value of the supplies performed reaches 60 per cent of the original order amount.

5. TECHNICAL SPECIFICATIONS

1. REQUIREMENTS FOR THE GOODS

Technical requirements and estimated quantities

The supplies must be new and guaranteed of origin. They must be free of any flaw or defect that could harm their appearance and proper functioning. They shall conform to the technical specifications here under;

Lot 1: Supply and delivery of tailoring equipment, materials and inputs

No.	Item	Item description	Warranty/ validity period	Unit of Measure	Estimated Quantity
1.	Domestic straight stitch sewing machine	Manual sewing machine: they can be surmounted with mortar to use electricity during operation. Mortars are purchased separately	1 year	Piece	20
2.	Overlock / serger machine	Industrial 3- or 4-thread overlock machine, high-speed ($\geq 5,000$ stitches/min), differential feed, adjustable cutting width, suitable for finishing school uniforms, sportswear and knit fabrics. Complete stand, motor and accessories included.	1 year	Piece	10
3.	Overlock / serger machine	Domestic 3- or 4-thread overlock/serger machine, moderate-speed ($\sim 1,300$ – $1,500$ stitches/min), differential feed, adjustable cutting width, suitable for finishing school uniforms, sportswear, and knit fabrics. Compact and portable, electric foot-pedal operated, with all necessary accessories included.	1 year	Piece	10
4.	Knitting sweater machine	Electronic flat knitting sweater machine, gauge suitable for medium-weight sweaters (approx. 7–9 gauge), programmable stitch patterns, suitable for commercial production of school sweaters and training. Includes control unit and accessories.	1 year	Piece	7

5.	Knitting sweater machine	Manual knitting sweater machines; standard gauge (4.5mm) for fine knits and bulky/chunky gauge (9mm) for thick, winter-style garments. They can be moved from one room to another; easy to carry by hand and learn.	1 year	set	15
6.	Industrial steam generator iron	Commercial steam generator iron with boiler (minimum 3.5–5 litres), stainless steel tank, continuous steam output, safety pressure valve, suitable for professional garment finishing.	1 year	Piece	7
7.	Wooden cutting table (large)	Heavy-duty wooden cutting table, minimum size 3.0 m × 1.2 m × 0.9 m height, reinforced frame, smooth laminated cutting surface, suitable for bulk fabric spreading and pattern cutting.	1 year	Piece	10
8.	Dress forms / mannequins	Adjustable professional dress forms for female, adjustable bust/chest, waist and hip sizes 36, with stand and height adjustment, suitable for fitting, pattern development and teaching.	1 year	Piece	5
9.	Dress forms / mannequins	Adjustable professional dress forms for male adjustable bust/chest size 34, waist, with stand and height adjustment, suitable for fitting, pattern development and teaching	1 year	Piece	5
10.	Sewing workstations	Complete sewing workstation set comprising industrial sewing table, motorized stand, adjustable chair, power sockets and foot pedal area, ergonomically suitable for student training and commercial work	1 year	set	8
11.	Sewing workstation chairs	Adjustable chairs/wooden chairs -Mahogany/Stools with metallic stands with a width of 1 meter and length of 2 meters	1 year	set	20
12.	Thread cones	Industrial grade polyester sewing threads, mixed colours, compatible with industrial and overlock machines, minimum 3,000–3500m per cone.	N/A	piece	50
13.	Industrial shears	Heavy-duty fabric cutting shears (10–12 inches), stainless steel blades suitable for daily workshop use.	1 year	Piece	16
14.	Tailor scissors	smaller finishing scissors of length 12 IN/30.48 CM, width 3.74 IN/9.5 CM., suitable for daily workshop use.	N/A	Piece	16
15.	Fabric cutting machines	Industrial fabric cutting machine with cutting width of 180 - 225 cm and length of 120 cm	1 year	Piece	1
16.	Pressing / ironing boards (Fabric Ironing table)	professional ironing boards, reinforced wooden or steel frame, heat resistant padding, adjustable height measuring Width of 326mm Height: 525mm Depth: 130mm Ironing board size: 300mm wide x 950mm long. Turns 180 degrees when open.	1 year	Piece	2

17.	Assorted notions & consumables kit	Starter production kit including industrial needles, bobbins, zippers (various sizes), buttons, interfacing, chalk, tracing paper, marking pens, seam rippers, measuring tapes, elastic, bias tape and pins.	N/A	Piece	8
18.	Pattern drafting	(rolls), for sewing and traings measuring 70 inches to 80 inches	N/A	Piece	300
19.	French curves	French curves for drafting patterns and curved lines for hips, Necklines and waist of 60-80 cm	N/A	piece	10
20.	Grading rulers	Plastic, flexible and transparent grading rulers measuring 50-60 CM	1 year	Piece	10
21.	Tape measures	a flexible, soft ribbon tape measure typically made of reinforced fiberglass or vinyl with units measuring up to 150 cm long	N/A	piece	10
22.	Instructor guides for tailoring and garment construction	Instructor guides and curriculum manuals for tailoring and garment construction provide structured methodologies for drafting patterns, fabric cutting, sewing operations, and tailoring finishing	N/A	pieces	50
23.	Storage shelving / cupboards	Lockable metal storage shelves/cabinets, minimum 5-tier, for fabrics, threads, tools and accessories, rust-resistant, heavy-duty (minimum 100 kg per shelf).	1 year	Piece	7
24.	Safety equipment & fire extinguisher	fire extinguisher for smothering fire flames measuring 5kg	1 year	Piece	3
25.	Protective gloves	lightweight, grip-enhancing flexible hand gloves used while sewing with a diameter of 6 -10 cm	6 months	Piece	10
26.	Electricity/ fire Labels	15cm width x 20 cm length - Fire Extinguisher Sign High Visibility	N/A	piece	20
27.	Maintenance tools & spare parts kit	Workshop maintenance kit including machine belts, motor carbon brushes, spare bobbin cases, needle packs, oil cans, screwdrivers, pliers, spanners, lubricants, replacement foot pedals and power cords.	1 year	Full kit	1

Lot 2: Supply and delivery of bakery and catering equipment, materials and inputs

No.	Item	Item description	Warranty/ Validity period	Unit of Measure	Estimated Quantity
1.	Electric Deck Oven –	Stainless steel, 240V, double deck, 50–350°C, 12–16 trays capacity	1 year	Piece	2
2.	Cake mixer	Planetary mixer, 20L bowl, 230V, stainless bowl and attachments	1 year	Piece	2
3.	Bread dough mixer	Spiral electric mixer, 50kg dough capacity, single phase	1 year	Piece	2
4.	Fermentation proofer	16-tray electric proofer, humidity and temperature control	1 year	Piece	2
5.	Dough sheeter	500 mm belt width, adjustable thickness, electric	1 year	Piece	2
6.	Stainless working tables	Food-grade stainless steel table, 1.5 m × 0.8 m, heavy duty frame	1 year	Piece	4
7.	Bread slicer	Electric bread slicer, stainless body of 11 mm by 13mm	1 year	Piece	2
8.	Baking trays	Aluminium trays, 60 cm × 40 cm	1 year	Piece	20
9.	Muffin trays	Non-stick aluminium, 12 cavities	1 year	Piece	20
10.	Bread tins (450g)	Aluminium, quarter loaf size	1 year	Piece	40
11.	Bread tins/pan of 500grams	Aluminium, half loaf size Rectangular Pans – 2 inch (5 cm) tall 11×7 inches (28 x 18 cm)	1 year	Piece	40
12.	Bread tins of 1kg	Aluminium, large loaf size with Interior Dimensions (Length × Width × Depth): 9 × 5 × 2.5 to 3 inches (23 × 13 × 6.5 to 7.5 cm)	1 year	Piece	40
13.	Digital weighing scale	30 kg capacity, rechargeable	1 year	Piece	2
14.	Rotary cooling racks	Stainless steel, 15-tray slots with tray size of 400mm by 600mm	1 year	piece	4
15.	Frying pans & utensils	Industrial aluminium pans, stainless ladles and spoons (46cm with 200ml capacity)	1 year	Set	2
16.	Rolling pins	Rolling pins (with handles) measuring 10–12 inches for the roller, with an overall length of 18–24 inches	1 year	Set	2
17.	knives	Knives with blade of 200 mm long, 45 mm high	1 year	piece	10
18.	measuring cups	Measuring cups with capacity of 250ml to 500ml	1 year	Dozen	5

19	Instant dry yeast (bread)	Instant dry yeast (Commercial grade) packed in 500grams	At least 10 months to expiry date at the time of delivery	Kg	50
20	Sugar (bread line)	Food-grade bulk sugar in packets of 10 kg	At least 10 months to expiry date at the time of delivery	kg	150
21.	Salt	Food-grade cartons with 24 pieces each measuring 250grams	At least 10 months to expiry date at the time of delivery	Carton	2
22.	Margarine / butter	Baking grade packed in tins measuring 1kg each	At least 10 months to expiry date at the time of delivery	Kg	50
23.	Bread improver	Commercial bakery improver sealed packets /pouches of 1kg each	At least 10 months to expiry date at the time of delivery	Kg	50
24.	Bread flour	High-protein flour packed in poly-woven or laminated bags measuring 10 kg	At least 10 months to expiry date at the time of delivery	kg	150
25.	Bread flour	High-protein flour packed in poly-woven or laminated bags measuring 50 kg	At least 10 months to expiry date at the time of delivery	kg	150
26.	Cake flour	Low-protein baking flour packed in Cake Flour Bag measuring 25 kg	At least 10 months to expiry date at the time of delivery	kg	150
27.	Baking powder	Commercial grade Sackets measuring 500 grams each	At least 10 months to expiry date at the time of delivery	Dozen	50
28.	Sugar (cake line)	Food-grade bulk sugar in bags of 10 kg each	At least 10 months to expiry date at the time of delivery	Bag	50
29.	Instant dry yeast (cake line)	Commercial grade packed in Sackets of 1kg each	At least 10 months to expiry date at the time of delivery	Kg	50
30.	Milk powder	Full cream baking grade measuring 2.5kg per tin	At least 10 months to expiry date at the time of delivery	Tin	10

31.	Cooking oil	Packed in Jerricans measuring 20-litres each	At least 10 months to expiry date at the time of delivery	Piece	40
32.	Vinegar	Food-grade Vinegar packed in bottles measuring 700ml with a composition of 4% to 8% acidity level	At least 10 months to expiry date at the time of delivery	Bottle	20
33.	Cocoa powder	Baking grade in Sackets measuring 500grams	At least 10 months to expiry date at the time of delivery	Kg	30
34.	Sealing machine	• Table-top impulse heat sealer suitable for bakery and food packaging • Sealing length: minimum 300 mm (12 inches) • Maximum sealing width: 2–3 mm • Adjustable temperature / sealing time control knob • Suitable for sealing polyethylene (PE), polypropylene (PP), laminated and food-grade plastic bags • Power supply: 220–240 V, 50 Hz • Power rating: 300–500 W • Heating element and Teflon strip replaceable • Manual or foot-pedal operation (table-top type acceptable) • Strong metal body with heat-resistant handle • Suitable for continuous daily school production use	1 year	Piece	2
35.	Transportation boxes	• Heavy-duty reusable food-grade plastic crates / boxes • Material: high-density polyethylene (HDPE) or equivalent food-safe plastic • Capacity: minimum 50–60 litres/ltr per box Stackable and nestable design for easy storage and transport • ventilated or closed type (closed preferred for bakery products to reduce contamination) • Smooth internal surfaces for easy cleaning	1 year	Piece	10

		- Resistant to moisture, cracking and impact during motorcycle transport - Fitted handgrips on both sides - Suitable for transporting bread, buns and packaged snacks			
36.	Head gears	- Food-grade hair nets / head covers for bakery staff - Material: breathable, lightweight non-woven or nylon mesh - Fully covers hair and ears - Elasticated edge for firm fit - Washable and reusable (minimum 20 wash cycles) - One-size-fits-all design - Colour: preferably white or light colour for hygiene monitoring - Compliant with basic food-handling hygiene requirements	N/A	Piece	10
37.	Aprons	- Heavy-duty kitchen/bakery aprons - Material: poly-cotton blend (minimum 65% polyester / 35% cotton) or equivalent - Fabric weight: minimum 180–220 gsm - Full-length coverage (minimum 85 cm long) - Adjustable neck strap and strong waist ties - Colour fast and washable at high temperatures (60–90°C) - Resistant to flour dust, light oil and moisture - Reinforced stitching at stress points - Suitable for daily institutional bakery operations	1 Year	Piece	10
38.	Electric Oven	Capacity: 76-80 Liter with Catalytic Cleaning. 230-240V. Porous catalytic panels coat the inside of the oven. These panels draw in splatters and spills while you bake or roast.	1 year	Piece	1
39.	Dough Mixer	10kg multi-functional mixer for butter, egg cream, cake, flour mixing, and so on. With 3 speeds for choosing (slow, middle, fast). Bowl materials SS#301, body materials Cast-	1 year	Piece	1

		iron. Safety Guard locked the mixing bowl. Belt transmission, smooth rotation, low noise, and strong rotating force. Material: Stainless Steel Power; 0.75KW. Volt; 220V,50Hz. Single (1) phase. Variable speeds			
40	Silver steel Cake stand	Heavy-duty Turntable: Crafted from durable ALUMINUM ALLOY renowned for its strength. Smooth rotation, rotates a full 360° in either clockwise or anticlockwise direction, 12-inch non-slip surface and rubber feet,	1 year	Piece	1
41.	Baking tins	preferably with different shapes in 4, 6, 8, 10, 12 inches. Include 2 cupcake/muffins makers that are non-stick coating tin	1 year	Piece	15
42.	Stainless-steel serving dishes	Set of stainless-steel serving dishes with covers and handles (Big, medium, small) Big size is 45-liter capacity Medium size is 24-liter capacity Small size is 15-liter capacity Condition: Brand New	1 year	Set	2
43.	Hard melamine cups	Dozens of hard melamine cups (contains 12 pieces) Material: Food grade melamine Condition: Brand new	1 year	Dozen	2
44	Hard melamine plates	Dozens of hard melamine plates (contain 12 pieces) Material: Food grade melamine Condition: Brand new	1 year	Dozen	2
45.	Aluminium cooking saucepans	Aluminium cooking saucepans (big size (140litre capacity, with cover and handles), Condition: Brand New Material: Aluminium	1 year	Piece	2

Lot 3: Supply and delivery of dairy equipment, materials and inputs

No.	Item	Item Description	Warranty/ Validity period	Unit of Measure	Estimated Quantity
1.	Dairy cows (improved breeds, in-calf)	Crossbred Holstein- minimum 75% exotic blood; age 24–30 months; confirmed in-calf (3–6 months); body condition score ≥ 2.75 ; vaccinated, dewormed, tick-treated; average milk potential 15–25 litres/day; milk fat 3.5–4.5%; supplied with veterinary health certificate	N/A	Head	4
2.	Portable vacuum milking machine (electric, bucket type)	Single-cluster portable milker; electric motor (0.75–1.1 kW); 25 L stainless steel bucket; pulsator (60:40 ratio); vacuum pump ≥ 180 L/min; food-grade hoses; spare liners and gaskets included	1 year	Set	1
3.	Milk cooling tank	200 L direct-expansion bulk electric milk cooler; stainless inner tank; digital temperature controller; rapid cooling to $\leq 4^{\circ}\text{C}$ within 2 hours; single phase/3-phase compatible; agitator and drain valve included	1 year	Piece	1
4.	Stainless steel milk cans (40 L)	40 L capacity; food-grade AISI 304 stainless steel; seamless interior; tight-fitting lid; carrying handles	1 year ¹	Piece	10
5.	Small milk jugs (10L)	10L stainless steel jugs; food-grade; measuring scale marked; easy-pour spout	1 year	Piece	20
6.	Feed mixer / hammer mill (small)	Small hammer mill combined mixer; 5–7 HP electric; capacity 200–400 kg/hour; suitable for maize, bran and concentrate mixing; discharge chute and safety guards	1 year	piece	1
7	Feed mixer / hammer mill (small)	Small hammer mill combined mixer; 5–7 HP diesel motor; capacity 200–400 kg/hour; suitable for maize, bran and concentrate mixing; discharge chute and safety guards	1 year	Piece	1
8.	Fodder chopper	Electric fodder chopper; capacity ≥ 300 kg/hour; suitable for Napier grass and forage legumes; hardened steel blades; safety cover	1 year	piece	1

9	Fodder chopper	Manual fodder chopper; capacity ≥300 kg/hour; suitable for Napier grass and forage legumes; hardened steel blades; safety cover	1 year	Piece	1
10.	Feeding troughs	Long metal troughs; minimum 2–2.5 m length; raised design to minimise wastage; suitable for group feeding	1 year	Piece	4
11	Water storage tank (5,000L)	UV-stabilised food-grade plastic tank; 5,000 litres; outlet fittings; elevated steel or masonry stand	1 year	Piece	1
12.	Lactometer	Glass lactometer for measuring milk density and purity measuring 15 to 22 cm (6 to 8.5 inches) long with a stem diameter of about 0.5 to 1.5 cm.	1 year	piece	4
13	Digital thermometer	digital Armpit (Axillary) Thermometers for monitoring animal health	1 year	Piece	4
14.	Foot and Mouth Disease vaccine	Foot and Mouth Disease vaccine; cold-chain compliant; manufacturer's batch number	At least 6 months to expiry date at the time of delivery	Dose	60
15.	LSD vaccine	Lumpy Skin Disease vaccine; live/attenuated; cold-chain compliant appropriate for storage under temperatures ranging +2° C and +8° C	At least 6 months to expiry date at the time of delivery	Dose	30
16.	CBPP vaccine	Contagious Bovine Pleuropneumonia vaccine; cold-chain compliant in doses per vial with diluent vial containing 25 ml, 50 ml	At least 6 months to expiry date at the time of delivery	Dose	30
17.	Brucellosis vaccine	Brucella vaccine for heifers and cows; cold-chain compliant for Vaccinating heifers between 4 and 10 months of age each doze containing 5ml	At least 6 months to expiry date at the time of delivery	Dose	30
18.	Blackleg / clostridial vaccine	Multivalent clostridial vaccine packed in 2 mL to 5 mL per dose (blackleg and related diseases)	At least 6 months to expiry date at the time of delivery	Dose	30
19.	BVD / respiratory complex vaccine	Combined vaccine covering BVD and respiratory pathogens which Protects against IBR, BVD Types 1 and 2, PI3	At least 6 months to expiry date at the time of delivery	Dose	30
20	Albendazole 10% (1L)	Broad-spectrum oral dewormer for gastrointestinal and lung worms for 10 months heifers and bulls packed in bottles measuring 1Litre each	At least 6 months to expiry date at the time of delivery	Bottle	2
21.	Ivermectin injectable (50 ml)	Injectable endectocide for internal and external parasites packed in bottles of 50ML	At least 6 months to expiry date at the time of delivery	Litres	4

22.	Levamisole tablets	Oral deworming tablets for light to moderate infections sealed in Sackets containing 6 tablets	At least 6 months to expiry date at the time of delivery	Sacket	2
23.	Amitraz pour-on / spray	External parasite control for ticks and mites packed in tins containing 12.5% Amitraz	At least 6 months to expiry date at the time of delivery	tins	2
24.	Cypermethrin dip / spray	Tick and fly control chemical with 10% to 20% as an Emulsifiable Concentrate	At least 6 months to expiry date at the time of delivery	Litre	2
25.	Drenching gun	Drenching gun for administer liquid medications with capacity of 200 mL to 300 mL per gun and p	N/A	Set	1
26.	Spray nozzles	Spray nozzles with an efficiency rate of 80% to 95% on surface coverage	N/A	Piece	4
27.	Knapsack sprayer (15–20 L)	Heavy-duty knapsack sprayer for acaricides and disinfectants	1 year	Unit	1
28.	Injectable anti biotics	a) Broad-spectrum injectable antibiotic combination for	At least 6 months to expiry date at the time of delivery	Bottle	3
		b) Injectable antibiotic combination for bacterial infections (100 ml)	At least 6 months to expiry date at the time of delivery	Bottle	3
29.	Vitamin and mineral supplement	Injectable or oral multivitamin–mineral preparation for lactating cows	At least 6 months to expiry date at the time of delivery	Pack	3
30.	Disinfectants (iodine / Virkon or equivalent)	5L farm-grade disinfectant for milking area and equipment (5L)	At least 6 months to expiry date at the time of delivery	Jerrycan	3
31.	Insulated vaccine carrier	Insulated vaccine carrier with ice packs and withholding capacity of between 2.5and 3.5 Liters of medical supplies,	1 year	Piece	1
32.	Mineral supplements & salt licks	Mineral blocks and salt licks for dairy cattle measuring between 2.5 to 3 kg per block	At least 6 months to expiry date at the time of delivery	Piece	20
33.	Medium-duty safety gumboots	PVC/rubber; slip-resistant sole; mid-calf or knee-length; sizes 42 and 44	1 year	Pair	2

34.	Heavy-duty safety gumboots	Industrial-grade gumboots; reinforced sole and toe; waterproof; chemical-resistant	1 year	Pair	4
35.	Overalls – medium size (M)	Cotton or poly-cotton; long-sleeve; washable; farm work standard	1 year	Piece	4
36.	Overalls – large size (L)	Cotton or poly-cotton; long-sleeve; farm work standard	1 year	Piece	4
37.	Overalls – extra-large size (XL)	Cotton or poly-cotton; long-sleeve; farm work standard	1 year	Piece	4
38.	Milking parlour fittings	Cow stand/crush; raised platform; basic stainless-steel rails and fittings; milk line supports	1 year	Set	1
39.	Parlour cleaning kit	Small pressure washer; water hoses; floor brushes; detergents and foaming equipment	N/A	Set	1
40.	Re-usable gloves	Rubber or nitrile; chemical-resistant; medium–heavy duty	N/A	Pair	3
41.	Milk-can trolley / mobile cart	Stainless steel or powder-coated steel trolley; suitable for 40 L cans; lockable wheels	1 year	Piece	4
42.	Chilling accessories & spares	Cold packs; spare sensors; thermistors; basic compressor service parts	N/A	piece	5

Lot 4: Supply and delivery of poultry equipment, materials and inputs.

Layers input

No.	Item	Item Description	Warranty/ Validity Period	Unit of Measure	Estimated Quantity
1.	Layer chicks	Day-old commercial layer strain (sexed; vaccinated at hatchery (Marek's, ND); healthy and uniform; minimum 38–40 g; supplied with vaccination card and hatchery certificate	N/A	Bird	5000
2.	Mature Layer Chicken	1 month old fully vaccinated from New Castle, Gomboro disease with no deformity	N/A	Bird	450
3.	Coffee husks	Clean, dry, mould-free; free from sharp objects and chemicals; moisture <15%; packed in 90–100 kg PP bags	N/A	Bag	100

4.	Small drinkers	Plastic manual drinkers; 1.5–3 L; for 1–14-day chicks; food-grade, easy-clean	1 year	Piece	500
5.	Chick feeders	Plastic/galvanised circular feeders; 3–5 kg capacity; anti-spill lip; for 1–4 weeks	1 year	Piece	18
6.	Wooden trough – chick	Approx. 30–40 cm × 8–10 cm × 8–12 cm	1 year	Piece	8
7.	Wooden trough – grower	Approx. 60–80 cm × 12–15 cm × 10–15 cm	1 year	Piece	10
8.	Wooden trough – layer	Approx. 100–120 cm × 18–22 cm × 15–18 cm	1 year	Piece	50
9.	Brooding papers	Heavy-duty kraft/corrugated; non-slip; approx. 1 m × 1 m; for first 5–7 days	N/A	Sheet	12
10.	Rake	Steel head; 12–14 teeth; ≥1.2 m handle	1 year	Piece	2
11.	Spade	Heavy-duty steel blade; reinforced handle	1 year	Piece	2
12.	Gumboots – medium duty	PVC/rubber; slip-resistant; mid-calf/knee length; sizes 42 & 44	1 year	Pair	2
13.	Gumboots – heavy duty	Industrial grade; reinforced sole; waterproof	1 year	Pair	2
14.	Spray pump	Knapsack sprayer 15–20 L; adjustable lance; bio-security use	1 year	Piece	1
15.	Overalls – M	Cotton / poly-cotton	1 year	Piece	2
16.	Overalls – L	Cotton / poly-cotton	1 year	Piece	2
17.	Overalls – XL	Cotton / poly-cotton	1 year	Piece	2
18.	Wheelbarrow	Heavy-duty tray; 80–100 L; pneumatic tyre	1 year	Piece	1
19.	Solar lighting system	Panels sized 50–60 W (small brooders) or 150–200 W (large); battery 12 V 40–60 Ah (small) / 100 Ah (large); 10–20 A controller; LED lights and wiring	1 year	System	1
20.	Panga	Hardened steel; 18–22" blade	1 year	Piece	2
21.	Jerrycan (20 L)	Food-grade; screw cap	1 year	Piece	5
22.	Gloves	Re-usable rubber/nitrile; chemical-resistant	N/A	Pair	2
23.	Hoe	Heavy-duty steel head; hardwood handle	1 year	Piece	2
24.	Charcoal	Hardwood; dry; low ash; 50 kg bags	N/A	Bag	5
25.	Brooder charcoal pots	Height 45–50 cm; Ø 30–35 cm; 3–5 kg charcoal capacity; stable base	N/A	Piece	2
26.	Medium drinkers	Plastic; 6–8 L; for growers (4–18 weeks)	1 year	Piece	12
27.	Grower feeders	Plastic glower feeding troughs of 8–10 kg; anti-spill	1 year	Piece	18

28.	De-beakers	Manual Electric de-beakers used for beak trimming for birds with adjustable temperature and a safety stand	1 year	Piece	2
29.	Disinfectant (general)	Broad-spectrum; for houses, equipment, footbaths 5L	N/A	Bottle	4
30.	Large drinkers	Plastic; 10–12 L; for layers	1 year	Piece	50
31.	Chick mash (0–8 weeks)	CP 18–20%; ME 2,800–2,900 kcal/kg; 50 kg Bags	N/A	Bag	35
32.	Grower mash (9–18 weeks)	CP 15–16%; ME 2,700–2,800 kcal/kg; 50 kg Bags	N/A	Bag	190
33.	Layer mash (19–72 weeks)	CP 16–18%; Ca 3.5–4.0%; 50 kg bags	N/A	Bag	1,110
34.	Layers mash	For 1 month's old chick in 50 Kg bag	N/A	Bag	6
35.	Layer concentrate 20%	To be mixed in a ratio of 1:2 with maize brand. 50kg	N/A	Bag	150
36.	Water tank 5,000 L	UV-resistant plastic; outlet & lid	1 year	Piece	1
37.	Vaccine – Newcastle (Day 7)-1000vial	Applied through drinking water and eye-drop containing 500 to 1,000-dose vials	At least 6 months to expiry date at the time of delivery	Dose	1
38.	Vaccine – Gumboro	(Day 14) - 1000vial. Applied in Drinking water for birds	At least 6 months to expiry date at the time of delivery	Dose	1
39.	Vaccine – Gumboro	(Day 21)- 1000vial. Applied through drinking water and eye-drop	At least 6 months to expiry date at the time of delivery	Dose	1
40.	Vaccine – Newcastle booster	(Day 21–28)- 1000vial. Applied through drinking water and eye-drop	At least 6 months to expiry date at the time of delivery	Dose	1
41.	Oral solutions	10% Oral solution; respiratory/systemic infections (total 600 ml)	At least 6 months to expiry date at the time of delivery	Bottle	1
42.	Coccidiosis Vaccine	Coccidiosis control Vaccine used to trigger natural, lifelong immunity against <i>Eimeria</i> parasites in poultry packed in bottles containing liquid suspension vials or bottles ranging from 6 mL to 100 mL	At least 6 months to expiry date at the time of delivery	bottle	10

43.	Bacteria dewormer	Bacteria Dewormer used to treat internal parasites packed in bottles measuring 100ml each	At least 6 months to expiry date at the time of delivery	bottle	5
44.	Piperazine salt	Piperazine salt used for the treatment of ascarids in poultry in tablet form each tablet containing 500grams	At least 6 months to expiry date at the time of delivery	Pieces	20
45.	Multivitamin	Liquid powder used for maintaining bird immunity, boosting egg production, and reducing mortality during stressful periods containing Vitamin B Complex Supplement for Poultry	At least 6 months to expiry date at the time of delivery	Bottle	3
46.	Electrolytes + Vit C	Powder combines 100 mg of vitamin C with electrolytes (calcium, magnesium, potassium, sodium, chloride, zinc, and chromium).	At least 6 months to expiry date at the time of delivery	Pieces	10
47.	Disinfectant for poultry	Disinfectant used general cleaning and sanitation containing iodine compounds for equipment, and chlorine-based solutions (like bleach) for floors and surfaces.	At least 6 months to expiry date at the time of delivery	Litre	5
48.	Egg trays	Plastic or cardboard, reusable/stackable 30 pieces egg trays	N/A	Pieces	25
49.	Maize brand	bags of 100kgs each_ Maize brand	N/A	Bags	8
50.	Broken Maize	Bags of 100kgs_ to feed two months chicks and above	N/A	Bags	12

KUROIILER INPUTS

No.	Item	Item Description	Warranty /Validity period	Unit of Measure	Estimated Quantity
1.	Kuroiler chicks	Day-old, sex-mixed Kuroiler chicks; hatchery vaccinated (Marek's & ND), good navel closure, uniform weight ≥38 g, lively and free from deformities	N/A	Bird	5000
2.	Coffee husks	Clean, dry, mould-free, moisture <15%, free from sharp/chemical contamination, packed in 90–100 kg PP bags	N/A	Bag	40
3.	Small drinkers	Manual plastic drinkers, 1.5–3 L, food-grade plastic, suitable for 1–14 days, easy-wash design	1 year	Piece	28

4.	Chick feeders	Plastic/galvanised circular feeders, 3–5 kg capacity, anti-spill lip, suitable for 1–4 weeks	1 year	Piece	36
5.	Wooden trough – chick	30–40 cm × 8–10 cm × 8–12 cm, smooth-finished timber, raised edge to reduce wastage	1 year	Piece	32
6.	Wooden trough – grower	60–80 cm × 12–15 cm × 10–15 cm, heavy-duty timber, reinforced joints	1 year	Piece	40
7.	Wooden trough – layer	100–120 cm × 18–22 cm × 15–18 cm, heavy-duty timber, suitable for adult birds	1 year	Piece	48
8.	Brooding papers	Heavy-duty kraft/corrugated sheets, non-slip surface, approx. 1 m × 1 m coverage, for first 5–7 days	N/A	Sheet	24
9.	Rake	Steel head, 12–14 teeth, wooden/fibreglass handle ≥1.2 m	1 year	Piece	4
10.	Spade	Heavy-duty steel blade, square/round mouth, reinforced handle	1 year	Piece	4
11.	Gumboots (medium duty)	PVC/rubber waterproof, slip-resistant sole, mid-calf/knee-length; sizes 42 & 44	1 year	Pair	4
12.	Gumboots (heavy-duty)	Industrial/farm grade, reinforced sole, high abrasion resistance	1 year	Pair	4
13.	Spray pump	Knapsack sprayer 15–20 L, adjustable lance, suitable for disinfectants	1 year	Piece	2
14.	Overalls – M	Cotton/poly-cotton, washable, long-sleeve farm coverall	1 year	Piece	4
15.	Overalls – L	Cotton/poly-cotton, washable, long-sleeve farm coverall	1 year	Piece	4
16.	Overalls – XL	Cotton/poly-cotton, washable, long-sleeve farm coverall	1 year	Piece	4
17.	Wheelbarrow	Heavy-duty steel tray, 80–100 L, pneumatic tyre	1 year	Piece	2
18.	Solar lighting system	Complete system (panel, battery, controller, wiring & LED lamps). Panel 50–60 W for small brooders; battery 12 V 40–60 Ah; controller 10–20 A; scalable to 150–200 W & 100 Ah for larger brooder sections	1 year	system	2
19.	Panga	Hardened steel blade 18–22", reinforced handle	1 year	Piece	4
20.	Jerrycan	Food-grade plastic, 20 L, screw cap	1 year	Piece	10
21.	Gloves	Reusable rubber/nitrile, chemical-resistant used while cleaning with a diameter of 8 to 10 cm	N/A	Pair	6
22.	Hoe	Heavy-duty steel head, hardwood handle	1 year	Piece	4

23.	Charcoal	Dry hardwood charcoal, low ash, packed in 50 kg bags	N/A	Bag	8
24.	Clay charcoal pots	Brooder heating pots, height 45–50 cm, diameter 30–35 cm, stable base, 3–5 kg charcoal capacity	N/A	Piece	4
25.	Medium drinkers	6–8 L, plastic, suitable for growers (4–18 weeks), easy-wash	1 year	Piece	24
26.	Grower feeders	Plastic/galvanised, 8–10 kg, anti-spill design	1 year	Piece	36
27.	De-beaker	Manual Electric de-beakers used for beak trimming for birds with adjustable temperature and a safety stand	1 year	Piece	2
28.	General disinfectant	Broad-spectrum poultry disinfectant (bacteria, viruses, fungi), with dilution & safety data	At least 6 months to expiry date at the time of delivery	Litre	6
29.	Large drinkers	10–12 L, suitable for adult birds, stable base	1 year	Piece	24
30.	Starter mash	20–22% CP; ME 2,800–2,900 kcal/kg; fresh (<21 days); 50 kg labelled bags	N/A	kg	70
31.	Grower mash	16–18% CP; ME 2,700–2,850 kcal/kg; aflatoxin-safe; labelled 50 kg bags	N/A	kg	120
32.	Finisher/layer feed	Dual-purpose; 16–18% CP; finisher Ca $\leq$ 1.2%; layer Ca 3.5–4.0%	N/A	kg	150
33.	Layer concentrate 30%	30% CP; fortified; mix ratio 1:2 with maize bran/maize; clear mixing instructions of 50 kg	N/A	kg	50
34.	Water tank	Roto moulded UV-stabilised food-grade tank, lockable lid, 1" outlet	1 year	piece	2
35.	ND vaccine (Day 7)	Live ND vaccine, 500/1000-dose vial, water/eye-drop route	At least 6 months to expiry date at the time of delivery	Dose	2,000
36.	Gumboro (Day 14)	Live IBD vaccine, 500/1000-dose vial	At least 6 months to expiry date at the time of delivery	Dose	2,000
37.	Gumboro (Day 21)	Live IBD vaccine, booster	At least 6 months to expiry date at the time of delivery	Dose	2,000
38.	ND booster (Day 21–28)	Live ND booster vaccine	At least 6 months to expiry date at the time of delivery	Dose	2,000

39.	Coop washing disinfectant	Detergent–disinfectant or rotation products (QAC/iodine/phenolic)	At least 6 months to expiry date at the time of delivery	Litre	8
40.	Dewormer – round worm control	Levamisole Hydrochloride Water-soluble, roundworm control, administered in drinking water 30% w/w powder or 75 mg/ml solution,	At least 6 months to expiry date at the time of delivery	Kg	8
41.	Dewormer – Piperazine	Piperazine Citrate, Water-soluble, roundworm control, White crystalline powder, 25 g per 20 litres of clean drinking water (approximately 100 birds)	At least 6 months to expiry date at the time of delivery	Kg	8
42.	Multivitamins & minerals	Any of these vaccines can be procured. E.g. Aminovit®, Avavite®, Vitapower®, Introvit A+ WS®, and Vitaflash Amino Acid®. Liquid or powder administered through drinking water, for stress and immunity support	At least 6 months to expiry date at the time of delivery	Bottle	12
43.	Electrolyte + Vitamin C	Similar products are widely available in Uganda under brands such as Amilyte®, Vetilyte C+®, Novalyte-C®, and Electrolyte-C®. Water-soluble powder, administered through drinking water.	At least 6 months to expiry date at the time of delivery	Kg	4
44.	Enrofloxacin 10%	Oral solution, respiratory & systemic infections measuring 1,200ml	At least 6 months to expiry date at the time of delivery	Bottle	1
45.	Bacteria solution to treat inflammation	Water-soluble powder used to treat Inflammatory Bowel Disease (IBD), Ulcerative Colitis, and infectious diarrhoea packed in insulated boxes of 500grams each.	At least 6 months to expiry date at the time of delivery	Kg	4
46.	Anticoccidial mix	Anticoccidial powder for treating prevent and treat coccidiosis packed in Sackets of 1 kg each.	At least 6 months to expiry date at the time of delivery	Kg	8
47.	Syringes & needles	1 ml & 2 ml syringes, 22G needles used for vaccination	N/A	Set	10
48.	Egg trays	30-egg plastic trays, stackable and reusable	N/A	Tray	100

Broilers Input

No.	Item	Item description	Warranty/ Validity period	Unit of measure	Estimated Quantity
1.	Broiler chicks	5-day-old broiler chicks vaccinated against Gumboro and New Castle. Should be healthy, active and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and a brief care sheet with guidelines on early brooding management	N/A	Bird	500
2.	Broiler starter feeds	For 1-2 weeks broilers in a bag of 50 kgs, expiry date of at least 3 months after manufacture date	N/A	Bag	7
3.	Broiler grower feeds	For 3-4 weeks broilers in a bag of 50 kgs, expiry date of at least 3 months after manufacture date	N/A	Bag	7
4.	Broiler finisher	For 5- 6 weeks broiler in a bag of 50 kgs, expiry date of at least 3 months after manufacture date	N/A	Bag	7
5.	Plastic chicken drinker	Small size, 1.5L, plastic suitable for young chicks	1 year	Piece	9
6.	Plastic chicken drinker	Medium size; 4L suitable for growing chicks	1 year	Piece	9
7.	Plastic chicken drinker	Large size; 12L, plastic suitable for mature broilers	1 year	Piece	9
8.	Chicken Feeder	Small size, 1.5kg, wooden, linear feeders	1 year	Piece	9
9.	Chicken Feeder	Large size, 6 kgs plastic, circular for older chicks	1 year	Piece	9

Lot 5: Supply and delivery of goat-rearing equipment, materials and inputs

No.	Item	Item description	Warranty/ Validity period	Unit of measure	Estimated Quantity
1.a	Goats – Female (breeding does)	Healthy hybrid goat breeding does, aged 6–12 months, with a minimum live weight of 18–25 kg, body condition score $\geq 2.5/5$, bright eyes, and a smooth coat. Animals should be free from lameness, hernia, mastitis, nasal discharge, or diarrhoea, and	N/A	Head	57

		sourced from known and reputable farms. Must be vaccinated and dewormed prior to delivery, with accompanying basic health records. Only pure hybrid goats or their well-adapted crosses should be considered.			
1.b	Goats – Female	Female Mubende breed goat aged 8 months old with a minimum of 25 kgs, long back, well tagged and vaccinated against PPR	N/A	Head	72
2.a	Goats – Male (breeding bucks)	Sound breeding hybrid goat bucks, aged 8–18 months, with a minimum live weight of 25–35 kg, well-developed and symmetrical testicles, strong legs and hooves, good body conformation, and an active, alert demeanour. Bucks must be unrelated to the supplied females and certified free from visible reproductive defects. All animals should be vaccinated and dewormed prior to supply, with basic health records provided.	N/A	Head	3
2.b	Goats – Male	Male Boer goat breed aged 9 months with a minimum of 30 kgs well tagged and vaccinated against PPR	N/A	Head	8
3.	Feeding troughs	Raised wooden, plastic or concrete troughs with smooth inner surface and rounded edges; anti-spill lip; mounted 30–45 cm above ground. Allow minimum linear feeding space of 35–40 cm per adult goat. For 60 goats, total feeding space ≈ 21–24 m (equivalent to 8 troughs of 3 m each).	1 year	Piece	8
4.	Water storage (5000 L tank)	Rotational-moulded, UV-stabilised, food-grade plastic (5000L) tank with tight-fitting lid, screened inlet, 1-inch outlet fitting and tap/valve; mounted on a raised stand for gravity flow to drinkers; suitable for daily cleaning and periodic disinfection.	1 year	Piece	1
5.	Gumboots Medium-Duty Safety Gumboots Size 8/42 Size 10/44	- Designed for heavier farm and workshop use with better durability and comfort. - PVC or rubber waterproof boots - Mid-calf or knee-length - Slip-resistant sole - Suitable for farm and wash-down areas	1 year	Pair	2

6.	Overalls for farm workers	Medium (M) size, cotton, poly-cotton blend.	1 year	Piece	10
7.	Overalls for farm workers	Large (L) size, cotton, poly-cotton blend.	1 year	Piece	10
8.	Overalls for farm workers	Extra- large (XL) size, cotton, poly-cotton blend.	1 year	piece	10
9.	Petit ruminants Vaccine	Peste des Petits Ruminants (PPR) Vaccine: a highly contagious viral disease-causing fever, oral lesions, diarrhoea and high mortality in goats and sheep. • Vaccine type: Live attenuated PPR vaccine (I-2 strain). • Form/packing: Injectable vaccine, typically supplied in 100-dose vials with diluent. • Dose/route: 1 ml subcutaneous (S/C) per goat. • Schedule: Initial vaccination at ~3 months or above; annual booster recommended.	At least 6 months to expiry date at the time of delivery	Dose	100
10.	Vaccine to protect mycoplasma capricolum lung infection	Contagious Caprine Pleuropneumonia (CCPP) Vaccine: Protects against Mycoplasma capricolum lung infection causing severe pneumonia, respiratory distress and high mortality. • Vaccine type: Injectable inactivated or oil-adjuvanted vaccine. • Form/packing: Often supplied in 100-dose vials. • Dose/route: 2 ml S/C per goat. • Schedule: Annual vaccination, often at dry season onset (local guidance). • Quantity per school: 1 × 100-dose vial.	At least 6 months to expiry date at the time of delivery	Dose	100
11.	Vaccine: Goat Pox Vaccine	Goat Pox Vaccine: Protects against goat pox (a poxvirus infection) causing skin lesions, fever and decreased productivity. • Vaccine type: Live attenuated poxvirus vaccine. • Form/packing: Usually supplied in 100-dose vials. • Dose/route: 1–2 ml S/C per goat. • Schedule: Annual vaccination in endemic areas or pre-risk seasons.	At least 6 months to expiry date at the time of delivery	Dose	100

		Quantity per school: 1 × 100-dose vial.			
12.	Vaccine: Foot-and-Mouth Disease (FMD) Vaccine	Foot-and-Mouth Disease (FMD) Vaccine Prevents FMD, a transboundary viral disease that affects goats, cattle, sheep and pigs; important due to periodic outbreaks in Uganda and regional vaccination campaigns. - Vaccine type: Inactivated polyvalent FMD vaccine (targeting multiple serotypes). - Form/packing: Multi-dose vials sized for livestock programs. - Dose/route: S/C injection, volume per label. - Schedule: Generally bi-annual (twice per year) in endemic risk areas. - Quantity per school: 1 × multi-dose vial (enough for entire goat herd).	At least 6 months to expiry date at the time of delivery	Dose	100
13.	Vaccine against enterotoxaemia and tetanus	Protects against enterotoxaemia and tetanus caused by <i>Clostridium perfringens</i> types C & D; critical for kids and adults. - Vaccine type: Clostridial toxoid vaccine (C & D), often marketed as CDT or multivalent clostridial. - Form/packing: 100 ml vial (multi-dose) with diluent. - Dose/route: 1–2 ml S/C, as per label. - Schedule: Primary dose with booster 2–4 weeks later; then annual boosters recommended. - Quantity per school: 1 × 100 ml vial (multi-dose).	At least 6 months to expiry date at the time of delivery	Dose	100
14.a	Dewormers for endo and ectoparasite control Injectable (1%)	Broad-spectrum endo- and ectoparasite control; effective against internal worms (roundworms, lungworms) and external parasites (lice, mange). Supplied with sterile single-use syringes or bulk vial with clear dosing instructions (0.2 mg/kg body weight).	At least 6 months to expiry date at the time of delivery	Dose	1
14.b	Dewormers	Albendazole suspension in jerrycans of 5 L	At least 6 months to expiry date at the time of delivery	Jerrycan	8

15.	Oral Suspension dewormer	Broad-spectrum dewormer for GI nematodes and tapeworms; safe for goats >6 weeks; well labelled with dosage rate (10 mg/kg).	At least 6 months to expiry date at the time of delivery	Dose	1
16.	Antibiotics & Antimicrobials (Prescription-only): Oxytetracycline LA (Long Acting)	Broad-spectrum antibiotic for bacterial infections affecting respiratory, reproductive or systemic disease; supplied as 100 ml vial; labelled dosage and withdrawal period required.	At least 6 months to expiry date at the time of delivery	Dose	1
17.	Antibiotics & Antimicrobials (Prescription-only): Procaine Penicillin + Streptomycin (P/S Combo)	Broad-spectrum injectable for common bacterial conditions; supplied in multi-dose vial of 100 ml; labelled with appropriate doses and withdrawal times.	At least 6 months to expiry date at the time of delivery	Dose	1
18.	Anti-Inflammatory & Analgesics: Meloxicam Injectable	NSAID with long-acting pain and inflammation control measuring 50ml; clearly labelled; safe dosage with withdrawal instructions.	At least 6 months to expiry date at the time of delivery	Dose	1
19.	Vitamins & Electrolytes (Water-Soluble): Vitamin A, D ₃ , E + Electrolyte Powder	Water-soluble mix with vitamins A, D ₃ , E, C and electrolytes (Na, K, Cl) of 500 grams to support immunity, recovery from heat stress and vaccination reactions; dissolves fully in drinking water.	At least 6 months to expiry date at the time of delivery	Bottle	2
20.	Vitamins & Electrolytes (Water-Soluble): B-Complex Vitamin + C Powder	Supports energy metabolism, appetite and stress recovery; water-soluble of 250 grams, easy dilution instructions included.	At least 6 months to expiry date at the time of delivery	Bottle	1
21.	Mineral and Trace Element Supplements: Mineral Salt + Trace Elements (Loose)	Loose powder containing Ca, P, Na, Mg, Zn, Cu, Se, Iodine; supports bone formation, fertility, immunity and growth; clearly labelled with feeding instructions.	At least 6 months to expiry date at the time of delivery	Kgs	5

22.	Mineral and Trace Element Supplements: Mineral Blocks / Licks	Compressed blocks ideal for free-access mineral supplementation; weather-resistant and safe; labelled for goats.	At least 6 months to expiry date at the time of delivery	Blocks	2
23.	Topical / External Parasite Control: Amitraz Dip / Spray	External parasite (ticks, mites) control; must be diluted and used as per label; avoid overdose; protective gear required.	At least 6 months to expiry date at the time of delivery	Litres	1
24.	Tropical / External Parasite Control: Permethrine Pour-On / Spray	Broad-spectrum external parasite control of 500 ml; labelled safe dosage instructions; repeat per manufacturer guidance.	At least 6 months to expiry date at the time of delivery	Litres	1

Lot 6: Supply and delivery of Piggery equipment, materials and inputs.

No.	Item	Item description	Warranty/ Validity period	Unit of measure	Estimated Quantity
1.a	Female piglets (gilts)	Healthy weaned gilts, approximately 3 months old, minimum live weight 18–25 kg, body condition score $\geq 3/5$, free from lameness, hernia, skin disease and respiratory signs. From known local or improved crossbreed (Large White $\times$ Landrace or local crosses). Vaccinated and dewormed prior to delivery.	N/A	Head	19
1.b	Female piglets (gilts)	Six-month old female gilt (10 - 12 Tits) - cambrough breed, well tagged, vaccinated and with no deformity	N/A	Head	36
2.a	Male piglet (boar)	Healthy young breeding boar, 3–4 months old, minimum weight 20–30 kg, strong legs and feet, well-developed testes, active and alert. Unrelated to supplied gilts. From a recognised breeding source.	N/A	Head	1
2.b	Male piglet	Seven-month-old male pig (1 cambrough breed from a different lineage), well tagged, vaccinated and with no deformity	N/A	Head	9

3.	Feeding troughs	Heavy-duty plastic or reinforced concrete feeders; smooth inner surfaces to prevent injuries; raised 20–30 cm from floor to minimise wastage; minimum 1.2–1.5 m linear feeding space per trough.	1 year	Piece	2
4.	Water tank	5,000-litre UV-stabilised, food-grade plastic tank with tight-fitting cover, screened inlet, 1-inch outlet tap, raised stand for gravity supply.	1 year	Piece	1
5.	Starter feed (weaners)	Commercial pig starter feed for 8–12-week pigs; crude protein 18–20%, ME $\geq$ 3,100 kcal/kg, balanced amino acids (lysine $\geq$ 1.1%), vitamin–mineral premix, mould-free, clearly labelled with manufacturer, batch number and expiry date.	N/A	Bag	10
6.	Grower feed	Commercial grower ration for 3–5-month pigs; crude protein 16–18%, ME $\geq$ 3,100 kcal/kg, balanced Cap ratio (1.2–1.5:1) measuring 50kg, clearly labelled and within shelf life.	N/A	Bag	20
7.	Sow & boar feed	Breeder ration for mature gilts and boar; crude protein 14–16%, of 50 kg fortified with vitamins A, D, E, selenium and trace minerals; suitable for flushing and maintenance.	N/A	kg	30
8.	Salt / mineral lick	Veterinary-grade mineral blocks or loose mineral mix containing Ca, P, Na, Zn, Cu, Se and iodine; weather-resistant packaging and clear feeding instructions.	At least 6 months to expiry date at the time of delivery	kg	2
9.	Dewormers endo /ectoparasite - 1% Injectable	Broad-spectrum endo/ectoparasite control of 50ml; effective against roundworms, lungworms, mange mites, lice; intended for injectable use only. Must include clear dosing instructions: 0.2 mg/kg body weight.	At least 6 months to expiry date at the time of delivery	Liters	2
10.	Dewormers for gastrointestinal nematode- Oral Suspension	Broad-spectrum dewormer for gastrointestinal nematodes and tapeworms of 100ml; labelled dosage and withdrawal periods included.	At least 6 months to expiry date at the time of delivery	Bottle	2
11.	Broad-spectrum Dewormers in Soluble Powder	Water-soluble broad-spectrum dewormer of 500 grams; use with correct dosage guide and clean drinking water.	At least 6 months to expiry date at the time of delivery	Packet	2

12.	Antibiotics & Antimicrobials	Broad-spectrum antibiotic of 100ml for bacterial infections (respiratory, systemic); supplied as multi-dose injectable; labelled with dosing instructions and withdrawal time.	At least 6 months to expiry date at the time of delivery	Liters	2
13.	Antibiotics & Antimicrobials for systemic bacterial diseases	Bactericidal injectable combo 100ml; used for systemic bacterial diseases; must be supervised by a vet with correct dose/withdrawal guidance.	At least 6 months to expiry date at the time of delivery	Liters	2
14.	Anti-Inflammatory & Pain Relief Medicines	NSAID for inflammation 100ml, fever and pain relief; labelled instructions for use in pigs; vet-prescription required.	At least 6 months to expiry date at the time of delivery	Liters	2
15.	Anti-Inflammatory & Pain Relief Medicines	NSAID for pain and inflammation 50ml; long acting and safe when administered correctly; withdrawal periods must be observed.	At least 6 months to expiry date at the time of delivery	Liters	2
16.	Vitamins & Electrolytes (Water-Soluble / Feed Additive): Multivitamin + Electrolyte Powder	Water-soluble powder containing vitamins A, D3, E, C, B-complex + electrolytes (Na/K/Cl) of 500grams to support immune response, hydration and post-stress recovery (e.g., heat, vaccination). Complete dosing instructions included.	At least 6 months to expiry date at the time of delivery	Kgs	10
17.	Vitamins & Electrolytes (Water-Soluble / Feed Additive): B-Complex with C Powder	Water-soluble B-complex vitamins plus vitamin C Of 250 g for improved appetite, metabolism and stress resilience.	At least 6 months to expiry date at the time of delivery	Kgs	2
18.	Mineral & Trace Element Supplements: Mineral Salt + Trace Elements (Loose)	Loose powder mineral premix with Ca, P, Na, Mg, Zn, Cu, Se, I, essential for skeletal growth, fertility and immunity of 5 kg; clearly labelled instructions.	At least 6 months to expiry date at the time of delivery	Kgs	2
19.	Mineral & Trace Element Supplements: Mineral Lick Blocks	Compressed blocks containing essential macro and micro minerals; weather-resistant and labelled for pigs; free access to animals.	At least 6 months to expiry date at the time of delivery	Blocks	10

20.	Topical / External Parasite Control: Amitraz Dip / Spray Concentrate	Controls ticks, mites and lice; supplied as concentrate; must be diluted per instructions; use safety gear on operators. 1 × 1 L concentrate	At least 6 months to expiry date at the time of delivery	Liters	10
21.	Tropical / External Parasite Control: Permethrine Pour-On / Spray	External parasite control spray 1 × 500 ml bottle; labelled for safe use on pigs; repeat applications per label.	At least 6 months to expiry date at the time of delivery	Bottle	5
22.	Disinfectant	Broad-spectrum disinfectant (QAC, iodine or phenolic based) effective against bacteria and viruses; suitable for floors, pens, equipment and boots; supplied with dilution guide.	At least 6 months to expiry date at the time of delivery	Litres	2
23.	Gumboots Medium-Duty Safety Gumboots Size 8/42 Size 10/44	- Designed for heavier farm and workshop use with better durability and comfort. - PVC or rubber waterproof boots - Mid-calf or knee-length - Slip-resistant sole - Suitable for farm and wash-down areas	1 year	Pair	2
24.	Overalls for farm workers	Medium (M) size, cotton, poly-cotton blend.	1 year	Piece	2
25.	Overalls for farm workers	Large (L) size, cotton, poly-cotton blend.	1 year	Piece	2
26.	Overalls for farm workers	Extra- large (XL) size, cotton, poly-cotton blend.	1 year	Piece	2
27.	Maize brand	Sacks of maize brand in 100kg per sack	N/A	Bag	50

Lot 7: Supply and delivery of cocoa tree nursery equipment, materials and horticulture inputs

No.	Item	Item description	Warranty/ Validity period	Unit of Measure	Estimated Quantity
1.	Poly bags	Nursery bags for raising cocoa seedlings. Approx. 10 cm × 25 cm	N/A	Piece	30,000

2.	Cocoa seeds/seedlings	Certified hybrid cocoa seeds or seedlings. 3–6 months for polybag nursery seedlings. Seedlings should have a straight, strong stem, 4–6 true green leaves and be free of lesions or pest damage.	N/A	Seedling	10,000
3.	Shade nets and poles	Installation of a large nursery shade structure using net roll size of 3 meters width by 50 meters Length to be supported with wooden poles of 8 to 10 feet height above-ground and a pole diameter of 3 to 5 inches.	1 year	Shade	5
4.	Labour	Land preparation, filling poly bags, sowing, and nursery setup	N/A	Person-days	14
5.	Soil and manure	Fertile topsoil and organic manure. 100Kgs	N/A	Bag	200
7.	Pest and disease control pesticides	Nursery pesticides and disease management. 1L	At least 6 months to expiry date at the time of delivery	Litre	50
8.	Wire mess for fencing, security, of potting shade	Wire mess for security and protection from animals measuring 4.0 mm to 5.0 mm wire thickness with a height of 2.0 m to 2.4 m above the ground	1 year	Roll	1
9.	Cabbage seeds	Cabbage seeds 10g	N/A	Sacket	1
10.	Carrot seeds	Carrot seeds (50g Tins)	N/A	Tin	1
11.	Egg plants seeds	Egg plants seeds 50g tin	N/A	Tin	1
12.	Liquid Fertilizer	Liquid Fertilizer: Liter Bottle of 1L	At least 6 months to expiry date at the time of delivery	Bottle	4
13.	Pesticide	Pesticide Liters of organic pesticides of 1L	At least 6 months to expiry date at the time of delivery	Bottle	4
14.	Knapsack sprayer	20 Liter capacity. Plastic heavy-duty knapsack sprayer features a dual-piston pump, providing the benefit of achieving high pressure if required with the piston pump. Portable, worn on the back to dispense liquids such as chemicals, with a manual pump lever to build pressure Tank capacity: 20 Liters	1 year	Piece	2

		Usage: Agricultural Fumigation Tank property: Plastic Net weight (empty): 3.5kgs			
15.	Watering Can	Plastic Watering Can of 10 Liter capacity, 0.4kg net weight fitted with its nozzle	1 year	Piece	2

Lot 8: Supply and delivery of apiary equipment, materials, and inputs

No.	Item	Item description	Warranty/ validity period	Unit of measure	Estimated Quantity
1.	Modern Langstroth beehives (complete)	Standard 10-frame Langstroth hives made of treated timber, fitted with brood chamber, super chamber, inner cover, lid, and frames with wax foundation. Designed for honey production and colony management. Dimensions: - Brood chamber: 42.5 × 21.3 × 24.1 cm (17" × 8.5" × 9.5") - Super chamber: 42.5 × 21.3 × 17.8 cm (17" × 8.5" × 7") - Frames: 48.3 × 23.5 cm (19" × 9.25") - Inner cover: 51 × 26 × 2.5 cm (20" × 10.25" × 1") - Outer lid: 53 × 28 × 5 cm (21" × 11" × 2")	1 year	Piece	20
2.	Catcher box bee hives	Small wooden hives or trap boxes used for baiting and attracting wild swarms for colony multiplication. Durable and weather resistant. Dimensions: - Box body: 30 × 30 × 30 cm (12" × 12" × 12") - Entrance slit: 2–3 cm height × full width - Lid: 32 × 32 × 5 cm (12.5" × 12.5" × 2")	1 year	Piece	20

3.	Colonies	Healthy, productive bee colonies with a queen, workers, and brood. Sourced from local beekeepers or certified apiaries. Disease-free and adapted to local environment. 1 Queen, Workers, Brood, Honey/Pollen stores, Minimum 3–5 frames with brood and bees (for Langstroth colonies).	N/A	Piece	20
4.	Beehive stands (Treated wood)	Elevated platforms to keep hives off the ground, prevent flooding, and deter termites. Must support hive weight and allow for air circulation. Dimensions: Height: 30–40 cm, Width: 45–50 cm, Depth: 25–30 cm, Leg thickness: 5 × 5 cm, Top platform: 42.5 × 21.3 cm (same as hive base)	1 year	pieces	20
5.	Bee suits (protective gear)	Full body suits made of breathable, sting-proof material. Includes veil, zippers, and elastic cuffs. Size for youths/children: • Chest: 70–90 cm • Height: 120–150 cm • Sleeve: 45–55 cm • Leg length: 60–75 cm With adjustable straps or elastic in the waist for better fit.	1 year	piece	5
6.	Bee suits (protective gear)	Full body suits made of breathable, sting-proof material. Includes veil, zippers, and elastic cuffs. Sizes for adults: • Chest: 90–120 cm • Height: 150–190 cm • Sleeve: 55–65 cm • Leg length: 75–100 cm	1 year	Piece	5

		With adjustable straps or elastic in the waist for better fit.			
7.	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Small size: Hand circumference of 18-20 cm, Arm length of 20-22 cm.	N/A	Pairs	5
8.	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Medium size: Hand circumference of 21-23 cm, Arm length of 22-25 cm.	N/A	Pairs	5
9.	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Large size: Hand circumference of 24-26 cm, Arm length of 25-28 cm.	N/A	Pairs	5
10.a	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Extra-large size: Hand circumference of 27-29 cm, Arm length of 28-30 cm.	N/A	Pairs	10
10.b	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Small size: Hand circumference of 18-20 cm, Arm length of 20-22 cm	N/A	Pairs	5
11.	Bee smokers	Stainless steel smokers with heat guards and bellows. Used to calm bees during hive inspections. Fuel chamber must accommodate natural fuels like dry leaves or wood shavings. Fuel chamber; Diameter: 10–12 cm, Height: 20–25 cm Bellows length: 15–20 cm Overall height: 25–30 cm Weight: 0.8–1.5 kg	1 year	Piece	2
12.	Hive tools (flat prying end, curved or L-shaped end,	Multipurpose flat metal tools for prying hive parts, scraping propolis, and lifting frames. Rust-resistant and sturdy. Size: Length: 25-30 cm, Width: 2.5-3 cm, Thickness: 3-5mm, Weight: 100-150g	1 year	Set	5

	scraper edge, pointed tip, handle)				
13.	Bee brush and queen cage set	Soft-bristled brush for gently removing bees from frames. Queen cage used for introducing or transporting queen bees safely. Dimensions: • Bee brush: Handle of 12-15 cm and brush of 5-7 cm wide. • Queen cage: 7 X 2 X 2 cm	1 year	Set	2
14.	Honey extractor (manual, 4-frame)	Hand-cranked, stainless-steel extractor with 4-frame capacity. Operates without electricity and is food-grade certified. Dimensions: • Height of 60 – 70 cm. • Diameter of 35 – 40 cm (main drum). • Basket size: Fits 4 frames (standard 42.5 X 21.3 cm). • Crank length: 25 – 30 cm, ergonomic for hand operation. • Weight: 12 – 15 Kg (empty). • Overall footprint: 40 X 40 cm. Warranty of 1 year.	1 year	Pieces	2
15.	Buckets & storage containers (Food-Grade)	Airtight, BPA-free plastic or stainless-steel buckets with lids. Used for collecting, settling, and storing honey. Capacity: 20–25L each.	1 year	Piece	5
16.	Beeswax (starter for baiting hives)	Clean, natural beeswax used to attract swarms by coating hive frames or interiors. Must be free of additives or contaminants.	At least 6 months to expiry date at the time of delivery	Kg	5
17.	Honey harvesting knives	Material: Food grade stainless steel blade, sharp and durable	1 year	Piece	4

18.	Packaging Containers (500ml containers)	Material: food grade plastic safe for honey Secure lid for safety and freshness 500g capacity to meet market expectations for honey	N/A	Piece	150
19.	Gumboots	Size: minimum 6 Material: Durable waterproof rubber High cut design to protect feet and legs Light weight and comfortable for farm use Color: white	1 year	Pair	4

Lot 9: Supply and delivery of Maize sheller and coffee huller

No.	Item	Item description	Warranty period	Unit of measure	Estimated Quantity
1.	Maize Sheller	Maize Sheller With Motorcycle Wheels with Engine, highly efficient agricultural machine used to rapidly separate corn kernels from the cob Condition: Brand New, Power source: Diesel Voltage: 220V, Power: 7KW. Powered by a 6.5HP to 16HP internal combustion engine, it is portable, independent of electrical grids, and capable of processing 1.5 to 4 tons of maize per hour.	1 year	Piece	5
2.	Coffee Huller	Coffee Huller with a motor, 5.5 horsepower: Removes dry coffee pulp from coffee beans Power source: diesel powered Production:300-500kgs/hr, Power:5 KW Condition: Brand New	1 year	Piece	5

Lot 10 Supply and delivery of aquaculture equipment, materials, and inputs

No.	Item	Technical specifications	Warranty/ validity period	Unit of measure	Estimated Quantity
1	Fish seeds and Fingerlings transportation and stocking services	African Catfish (<i>Clarias gariepinus</i>); Healthy and active; Size: 1-2 g; Produced by a registered hatchery; Accompanied by stocking/hatchery certificate. Transport in oxygenated bags or aerated tanks; Acclimatization support at stocking; Minimum survival guarantee upon delivery.	N/A	Fingerlings	100
2	Fish seeds and Fingerlings transportation and stocking services	Nile Tilapia (<i>Oreochromis niloticus</i>); Healthy and active; Monosex (male preferred); Minimum size: 0.5 - 1 g; Produced by a registered hatchery; Accompanied by stocking/hatchery certificate. Transport in oxygenated bags or aerated tanks; Acclimatization support at stocking; Minimum survival guarantee upon delivery.	N/A	Fingerlings	100
3	Fish feeds	Tilapia starter feed; powder form feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	N/A	10kg bag	50
4	Fish feeds	Tilapia grower feed; Floating commercial formulated feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	N/A	25kg bag	50
5	Fish feeds	Tilapia finisher feed; Floating commercial formulated feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	N/A	25kg bag	50
6	Fish feeds	Catfish starter feed; powder form formulated feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	N/A	10kg bag	50

7	Fish feeds	Catfish grower feed; Floating or slow-sinking commercial feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	N/A	25kg bag	50
8	Fish feeds	Catfish finisher feed; Floating or sinking commercial feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	N/A	25kg bag	50
9	Fish handling net	Scoop net with corrosion-resistant metal or durable PVC frame; soft knotless nylon mesh to minimize injury to fish; handle length minimum 1.2 m; net opening minimum 30 cm diameter; suitable for harvesting and transferring fingerlings and table-size fish.	1 year	Piece	10
10	Fish harvesting net	Seine nets durable nylon seine net suitable for pond harvesting; mesh size appropriate for harvesting fingerlings and grow-out fish; reinforced float line and lead line; UV-resistant and rot-resistant material.	1 year	Piece	10
11	Water quality test kit	Portable aquaculture water quality testing kit capable of measuring minimum parameters: pH and temperature, with DO test capability (meter or chemical test kit); supplied with reagents, accessories, user manual and carrying case; suitable for field use in freshwater aquaculture ponds. Waterproof digital or alcohol-based thermometer suitable for aquaculture pond water monitoring.	1 year	Kit	10
12	Agricultural lime	Finely ground agricultural limestone (calcium carbonate) suitable for aquaculture pond conditioning and water quality improvement; moisture-free; supplied in sealed bags; minimum purity 80% CaCO ₃ equivalent.	At least 6 months to expiry date at the time of delivery	25 kg bag	10
13	Fish grading basket	Durable plastic or fiberglass grading basket/tray designed for tilapia and catfish fingerling grading; fitted with appropriately sized grading slots/openings for size separation; corrosion-resistant, easy to clean, and suitable for field use.	1 year	Piece	10

14	Digital weighing scale	Portable digital weighing scale with minimum capacity 50 kg and accuracy ± 0.1 kg; battery operated; suitable for weighing fish and feed.	1 year	Piece	10
15	Gumboots – medium duty	PVC/rubber; slip-resistant; mid-calf/knee length; different sizes.	1 year	Pair	20
16	Overalls – different sizes	Cotton or poly-cotton; long-sleeved; washable; farm work standard	1 year	Piece	20
17	Fish biosecurity kit	Basic fish health management kit including aquaculture-approved disinfectants for cleaning nets, containers and Equipment; supplied with instructions for safe use.	1 year	Kit	10

Requirements for the ancillary services

Place of delivery

The equipment, materials, and inputs shall be delivered to selected secondary schools and institutions VTIs, SMEs and youth entrepreneurs located within the Busoga region, Rwenzori/Albertine region and West Nile region in the districts below:

No.	Location	Distance in Km from Kampala
1.	Fort Portal City	350
2.	Kabarole district	395
3.	Jinja City	85
4.	Jinja district	150
5.	Kamuli district	200
6.	Kasese district	495
7.	Kyegegwa district	250
8.	Kamwenge	371
9.	Bundibugyo	405

11.	Ntoroko	401
12.	Hoima	222
13.	Kagadi	301
14.	Kibaale	303
15.	Bunyangabu	340
16.	Adjumani	446
17.	Kitgum	437
18.	Lamwo	474
19.	Yumbe	501
20.	Madi Okollo	388

Note: The detailed location for each school and institution shall be indicated in the order form at the time of call off order.

User training

The contractor shall conduct comprehensive, hands-on training for end users (teachers, students, and designated staff) at each beneficiary institution on the proper use, handling, and management of all delivered equipment, materials, and inputs across the four value chains

6. SELECTION FILE

ECONOMIC AND FINANCIAL CAPACITY

2. MINIMUM TURNOVER

Financial Statement

The tenderer must complete the following table of financial data based on his/her annual accounts.

Financial data	Year 3 in € or NC	Year 2 in € or NC	Year 1 in € or NC	Average in € or NC
Annual turnover, excluding this contract				

The tenderer must submit his/her approved financial statements (audited books) for the last three financial years, or an appropriate supporting document, such as a document listing all assets and liabilities of the enterprise. In case the enterprise has not yet published its Financial Statements, an interim balance certified true by an accountant or by a registered auditor or by the person or body with this function in the country concerned will do.

TECHNICAL AND PROFESSIONAL APTITUDE

List of main similar assignments (1 previous similar assignment per lot)

Lot	Description of the similar assignment totally performed	Location	Amount involved	Completed date in the last 3 years (only totally performed assignments)	Name of the public or private bodies
Lot 1					
Lot 2					
Lot 3					
Lot 4					
Lot 5					
Lot 6					
Lot 7					
Lot 8					
Lot 9					
Lot 10					

Certificates of completion

For each of the assignment listed, the tenderer annexes to this form the certificates of completion/acceptance (statement or certificate without major reservation) and / or any supporting documents (contracts, invoices...) approved by the entity which awarded the contract.

3. SUBCONTRACTING

The tenderer must provide a description of the part of the contract that the supplier may wish to subcontract.

7. OVERVIEW OF THE DOCUMENTS TO BE SUBMITTED

Administrative proposal

- Identification forms
- Power of Attorney (The statutes and any other document required to establish the power of attorney of the signer(s)).
- Certificate of registration/incorporation (as applicable)
- Articles of association
- Trading Licence
- **The European Single Procurement Document (ESPD)**
- Financial Identification Form (along with an account confirmation letter from the bank. This account shall not change throughout the contract duration and implementation)
- Integrity form
- Declaration on honour - Exclusion grounds
- List of subcontractors

Where the tender is submitted by a group of economic operators (Joint venture or consortium), it must include a copy of the following documents for each of the participants in the group:

- Identification forms
- Financial Identification Form signed by all participants
- Certificate of registration/incorporation (as applicable)
- Articles of association
- Trading Licence
- **The European Single Procurement Document (ESPD)**
- Power of Attorney (The statutes and any other document required to establish the power of attorney of the signer(s)).
- The association agreement signed by each participant, clearly showing who represents the association.
- Integrity form
- Declaration on honour - Exclusion grounds

2. LIST OF SUBCONTRACTORS

I (we) declare that the share of the public contract to be subcontracted is as indicated below.

List of subcontractors planned to be engaged in the implementation of the contracts				
Name and legal form	Address / Registered office	Object of engagement	LOT in which will be engaged (if applicable)	Other entity within the meaning of paragraph 1 ^{er} of Article 73 of the R.D. of 18 April 2017 (YES/NO)*

* In accordance with Article 73 of the Royal Decree of 18 April 2017, where an economic operator wants to rely on the capacities of other entities (particularly subcontractors or independent subsidiaries) for economic and financial capacity criteria and technical and professional aptitude criteria, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect.

Where a candidate or tenderer relies on the capacity of other entities in the meaning of paragraph 1, the candidate or tenderer, as appropriate, answers the question given in part II, C, of the European Single Procurement Document (ESPD) referred to in Article 38 of the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors. He also mentions for which part of the public contract he will rely on such capacity and which other entities he proposes. The tender also includes **a separate ESPD** for the entities in the meaning of paragraph 1.

Any change of subcontractor compared to those indicated in the tender submitted will be submitted for approval to the contracting authority before intervention in contract performance, in particular in order to verify that the latter has the required capacity and does not subject to a reason for exclusion (Art. 73 – the Royal Decree of 18 April 2017 on the award of public contracts in the classical sectors; Art. 12-13 – Royal Decree of 14 January 2013 establishing the general rules for the execution of public contracts).

3. FINANCIAL PROPOSAL

Lot 1: Supply and delivery of tailoring equipment, materials and inputs

Tender form - Prices

By submitting this tender, the tenderer commits to performing this public contract in conformity with the provisions of the Tender Specifications/ – and explicitly declares accepting all conditions listed in the Tender Specifications and renounces any derogatory provisions such as his own general sales conditions.

The unit prices and the global prices for each item in the inventory are established relative to the value of these items in relation to the total value of the tender. All general and financial costs as well as the profits are distributed between the various items in proportion to their weight.

The value added tax is dealt with on a separate line in the summary bill of quantities or the inventory, to be added to the tender's value.

The tenderer commits to performing the public contract in accordance with the provisions of the Tender Specifications for the following prices, given in **Euros** and exclusive of VAT:

Should this tender be approved, the performance bond will be constituted under the conditions and deadlines stipulated in the Tender Specifications.

The confidential information and/or the information relating to technical or business secrets is indicated clearly in the tender.

In order to correctly compare the tenders, the duly signed information or documents mentioned under preparation of Tenders.

No.	Item	Item description	Unit of Measure	Estimated Quantity	Unit rate in Euro excl. VAT
1.	Domestic straight stitch sewing machine	Manual sewing machine: they can be surmounted with motor to use electricity during operation. Motors are purchased separately	piece	1	
2.	Overlock / serger machine	Industrial 3- or 4-thread overlock machine, high-speed ($\geq 5,000$ stitches/min), differential feed, adjustable cutting width, suitable for finishing school uniforms, sportswear and knit fabrics. Complete stand, motor and accessories included.	Piece	1	
3.	Overlock / serger machine	Domestic 3- or 4-thread overlock/serger machine, moderate-speed ($\sim 1,300$ – $1,500$ stitches/min), differential feed, adjustable	Piece	1	

		cutting width, suitable for finishing school uniforms, sportswear, and knit fabrics. Compact and portable, electric foot-pedal operated, with all necessary accessories included.			
4.	Knitting sweater machine	Electronic flat knitting sweater machine, gauge suitable for medium-weight sweaters (approx. 7–9 gauge), programmable stitch patterns, suitable for commercial production of school sweaters and training. Includes control unit and accessories.	Piece	1	
5.	Knitting sweater machine	Manual knitting sweater machines; standard gauge (4.5mm) for fine knits and bulky/chunky gauge (9mm) for thick, winter-style garments. They can be moved from one room to another; easy to carry by hand and learn.	set	1	
6.	Industrial steam generator iron	Commercial steam generator iron with boiler (minimum 3.5–5 litres), stainless steel tank, continuous steam output, safety pressure valve, suitable for professional garment finishing.	Piece	1	
7.	Wooden cutting table (large)	Heavy-duty wooden cutting table, minimum size 3.0 m × 1.2 m × 0.9 m height, reinforced frame, smooth laminated cutting surface, suitable for bulk fabric spreading and pattern cutting.	Piece	1	
8.	Dress forms / mannequins	Adjustable professional dress forms for female, adjustable bust/chest, waist and hip sizes 36, with stand and height adjustment, suitable for fitting, pattern development and teaching.	Piece	1	
9.	Dress forms / mannequins	Adjustable professional dress forms for male adjustable bust/chest size 34, waist,	Piece	1	

		with stand and height adjustment, suitable for fitting, pattern development and teaching			
10.	Sewing workstations	Complete sewing workstation set comprising industrial sewing table, motorized stand, adjustable chair, power sockets and foot pedal area, ergonomically suitable for student training and commercial work	set	1	
11.	Sewing workstation chairs	Adjustable chairs/wooden chairs - Mahogany/Stools with metallic stands with a width of 1 meter and length of 2 meters	set	1	
12.	Thread cones	Industrial grade polyester sewing threads, mixed colours, compatible with industrial and overlock machines, minimum 3,000–3500m per cone.	piece	1	
13.	Industrial shears	Heavy-duty fabric cutting shears (10–12 inches), stainless steel blades suitable for daily workshop use.	Piece	1	
14.	Tailor scissors	smaller finishing scissors of length 12 IN/30.48 CM, width 3.74 IN/9.5 CM., suitable for daily workshop use.	Piece	1	
15.	Fabric cutting machines	Industrial fabric cutting machine with cutting width of 180 - 225 cm and length of 120 cm	Piece	1	
16.	Pressing / ironing boards (Fabric Ironing table)	professional ironing boards, reinforced wooden or steel frame, heat resistant padding, adjustable height measuring Width of 326mm Height: 525mm Depth: 130mm Ironing board size: 300mm wide x 950mm long. Turns 180 degrees when open.	Piece	1	

17.	Assorted notions & consumables kit	Starter production kit including industrial needles, bobbins, zippers (various sizes), buttons, interfacing, chalk, tracing paper, marking pens, seam rippers, measuring tapes, elastic, bias tape and pins.	Piece	1	
18.	Pattern drafting	(rolls), for sewing and traings measuring 48 inches to 80 inches	Piece	1	
19.	French curves	French curves for drafting patterns and curved lines for hips, Necklines and waist of 60-80 cm	piece	1	
20.	Grading rulers	Plastic, flexible and transparent grading rulers measuring 50-60 CM	Piece	1	
21.	Tape measures	a flexible, soft ribbon tape measure typically made of reinforced fiberglass or vinyl with units measuring up to 150 cm long	piece	1	
22.	Instructor guides for tailoring and garment construction	Instructor guides and curriculum manuals for tailoring and garment construction provide structured methodologies for drafting patterns, fabric cutting, sewing operations, and tailoring finishing	pieces	1	
23.	Storage shelving / cupboards	Lockable metal storage shelves/cabinets, minimum 5-tier, for fabrics, threads, tools and accessories, rust-resistant, heavy-duty (minimum 100 kg per shelf).	Piece	1	
24.	Safety equipment & fire extinguisher	fire extinguisher for smothering fire flames measuring 5kg	Piece	1	
25.	Protective gloves	lightweight, grip-enhancing flexible hand gloves used while sewing with a diameter of 6 -10 cm	Piece	1	
26.	Electricity/ fire Labels	15cm width x 20 cm length - Fire Extinguisher Sign High Visibility	piece	1	

27.	Maintenance tools & spare parts kit	Workshop maintenance kit including machine belts, motor carbon brushes, spare bobbin cases, needle packs, oil cans, screwdrivers, pliers, spanners, lubricants, replacement foot pedals and power cords.	Full kit	1	
Total price in Euro excl. VAT					
VAT % if applicable					

Transport costs to be charged across lots will be determined based on the unit rate of vehicle hire per day and fuel shall be reimbursed based on fuel consumption receipts (to be verified), the actual millage travelled and the consumption rates provided in the table below.

Vehicle size	Consumption rate in KM/ Ltr	Cost of vehicle hire per day
SUV 4*4	8.0 KM/L	
2-ton vehicle	7.0 KM/L	
4-ton vehicle	6.0 KM. L	
7-ton vehicle	4.0 KM/L	
10-ton vehicle	3.5 KM/L	
11–15-ton vehicle	3.0 KM/L	
16- 20-ton Vehicle	2.5 KM/L

No.	Item	Item description	Unit of Measure	Estimated Quantity	Unit price in Euro excl. VAT
1.	Electric Deck Oven –	Stainless steel, 240V, double deck, 50–350°C, 12–16 trays capacity	Piece	1	
2.	Cake mixer	Planetary mixer, 20L bowl, 230V, stainless bowl and attachments	Piece	1	
3.	Bread dough mixer	Spiral electric mixer, 50kg dough capacity, single phase	Piece	1	
4.	Fermentation proofer	16-tray electric proofer, humidity and temperature control	Piece	1	
5.	Dough sheeter	500 mm belt width, adjustable thickness, electric	Piece	1	
6.	Stainless working tables	Food-grade stainless steel table, 1.5 m × 0.8 m, heavy duty frame	Piece	1	
7.	Bread slicer	Electric bread slicer, stainless body of 11 mm by 13mm	Piece	1	

8.	Baking trays	Aluminium trays, 60 cm × 40 cm	Piece	1	
9.	Muffin trays	Non-stick aluminium, 12 cavities	Piece	1	
10.	Bread tins (450g)	Aluminium, quarter loaf size	Piece	1	
11.	Bread tins/pan of 500grams	Aluminium, half loaf size Rectangular Pans – 2 inch (5 cm) tall 11×7 inches (28 x 18 cm)	Piece	1	
12.	Bread tins of 1kg	Aluminium, large loaf size with Interior Dimensions (Length × Width × Depth): 9 × 5 × 2.5 to 3 inches (23 × 13 × 6.5 to 7.5 cm)	Piece	1	
13.	Digital weighing scale	30 kg capacity, rechargeable	Piece	1	
14.	Rotary cooling racks	Stainless steel, 15-tray slots with tray size of 400mm by 600mm	piece	1	
15.	Frying pans & utensils	Industrial aluminium pans, stainless ladles and spoons (46cm with 200ml capacity)	Set	1	
16.	Rolling pins	Rolling pins (with handles) measuring 10–12 inches for the roller, with an overall length of 18–24 inches	Set	1	
17.	knives	Knives with blade of 200 mm long, 45 mm high	piece	1	
18.	measuring cups	Measuring cups with capacity of 250ml to 500ml	Dozen	1	
19.	Instant dry yeast (bread)	Instant dry yeast (Commercial grade) packed in 500grams	Kg	1	
20.	Sugar (bread line)	Food-grade bulk sugar in packets of 10 kg	kg	1	
21.	Salt	Food-grade cartons with 24 pieces each measuring 250grams	Carton	1	
22.	Margarine / butter	Baking grade packed in tins measuring 1kg each	Kg	1	
23.	Bread improver	Commercial bakery improver sealed packets /pouches of 1kg each	Kg	1	

24.	Bread flour	High-protein flour packed in poly-woven or laminated bags measuring 10 kg	kg	1	
25.	Bread flour	High-protein flour packed in poly-woven or laminated bags measuring 50 kg	kg	1	
26.	Cake flour	Low-protein baking flour packed in Cake Flour Bag measuring 25 kg	kg	1	
27.	Baking powder	Commercial grade Sackets measuring 500 grams each	Dozen	1	
28.	Sugar (cake line)	Food-grade bulk sugar in bags of 10 kg each	Bag	1	
29.	Instant dry yeast (cake line)	Commercial grade packed in Sackets of 1kg each	Kg	1	
30.	Milk powder	Full cream baking grade measuring 2.5kg per tin	Tin	1	
31.	Cooking oil	Packed in Jerricans measuring 20-litres each	piece	1	
32.	Vinegar	Food-grade Vinegar packed in bottles measuring 700ml with a composition of 4% to 8% acidity level	Bottle	1	
33.	Cocoa powder	Baking grade in Sackets measuring 500grams	Kg	1	
34.	Sealing machine	• Table-top impulse heat sealer suitable for bakery and food packaging • Sealing length: minimum 300 mm (12 inches) • Maximum sealing width: 2–3 mm • Adjustable temperature / sealing time control knob • Suitable for sealing polyethylene (PE), polypropylene (PP), laminated and food-grade plastic bags • Power supply: 220–240 V, 50 Hz • Power rating: 300–500 W	Piece	1	

		• Heating element and Teflon strip replaceable • Manual or foot-pedal operation (table-top type acceptable) • Strong metal body with heat-resistant handle • Suitable for continuous daily school production use			
35.	Transportation boxes	• Heavy-duty reusable food-grade plastic crates / boxes • Material: high-density polyethylene (HDPE) or equivalent food-safe plastic • Capacity: minimum 50–60 litres/ltr per box Stackable and nestable design for easy storage and transport • ventilated or closed type (closed preferred for bakery products to reduce contamination) • Smooth internal surfaces for easy cleaning • Resistant to moisture, cracking and impact during motorcycle transport • Fitted handgrips on both sides • Suitable for transporting bread, buns and packaged snacks	Piece	1	
36.	Head gears	• Food-grade hair nets / head covers for bakery staff • Material: breathable, lightweight non-woven or nylon mesh • Fully covers hair and ears • Elasticated edge for firm fit • Washable and reusable (minimum 20 wash cycles) • One-size-fits-all design	Piece	1	

		• Colour: preferably white or light colour for hygiene monitoring • Compliant with basic food-handling hygiene requirements			
37.	Aprons	• Heavy-duty kitchen/bakery aprons • Material: poly-cotton blend (minimum 65% polyester / 35% cotton) or equivalent • Fabric weight: minimum 180–220 gsm • Full-length coverage (minimum 85 cm long) • Adjustable neck strap and strong waist ties • Colour fast and washable at high temperatures (60–90°C) • Resistant to flour dust, light oil and moisture • Reinforced stitching at stress points • Suitable for daily institutional bakery operations	Piece	1	
Total price in Euro excl. VAT					
VAT % if applicable					

Transport costs to be charged across lots will be determined based on the unit rate of vehicle hire per day and fuel shall be reimbursed based on fuel consumption receipts (to be verified), the actual millage travelled and the consumption rates provided in the table below.

Vehicle size	Consumption rate in KM/ Ltr	Cost of vehicle hire per day
SUV 4*4	8.0 KM/L	
2-ton vehicle	7.0 KM/L	
4-ton vehicle	6.0 KM. L	
7-ton vehicle	4.0 KM/L	
10-ton vehicle	3.5 KM/L	
11–15-ton vehicle	3.0 KM/L	

16- 20-ton Vehicle	2.5 KM/L

Tender form - Prices

By submitting this tender, the tenderer commits to performing this public contract in conformity with the provisions of the Tender Specifications/ – and explicitly declares accepting all conditions listed in the Tender Specifications and renounces any derogatory provisions such as his own general sales conditions.

The unit prices and the global prices for each item in the inventory are established relative to the value of these items in relation to the total value of the tender. All general and financial costs as well as the profits are distributed between the various items in proportion to their weight.

The value added tax is dealt with on a separate line in the summary bill of quantities or the inventory, to be added to the tender's value.

The tenderer commits to performing the public contract in accordance with the provisions of the Tender Specifications for the following prices, given in **Euros** and exclusive of VAT:

Should this tender be approved, the performance bond will be constituted under the conditions and deadlines stipulated in the Tender Specifications.

The confidential information and/or the information relating to technical or business secrets is indicated clearly in the tender.

In order to correctly compare the tenders, the duly signed information or documents mentioned under preparation of Tenders.

No.	Item	Item Description	Unit of Measure	Estimated Quantity	Unit price in Euro excl. VAT
1.	Dairy cows (improved breeds, in-calf)	Crossbred Holstein- minimum 75% exotic blood; age 24–30 months; confirmed in-calf (3–6 months); body condition score ≥ 2.75 ; vaccinated, dewormed, tick-treated; average milk potential 15–25 litres/day; milk fat 3.5–4.5%; supplied with veterinary health certificate	Head	1	
2.	Portable vacuum milking machine (electric, bucket type)	Single-cluster portable milker; electric motor (0.75–1.1 kW); 25 L stainless steel bucket; pulsator (60:40 ratio); vacuum pump ≥ 180 L/min; food-grade hoses; spare liners and gaskets included	Set	1	
3.	Milk cooling tank	200 L direct-expansion bulk electric milk cooler; stainless inner tank; digital temperature controller; rapid cooling to	Piece	1	

		≤4°C within 2 hours; single phase/3-phase compatible; agitator and drain valve included			
4.	Stainless steel milk cans (40 L)	40 L capacity; food-grade AISI 304 stainless steel; seamless interior; tight-fitting lid; carrying handles	Piece	1	
5.	Small milk jugs (10L)	10L stainless steel jugs; food-grade; measuring scale marked; easy-pour spout	Piece	1	
6.	Feed mixer / hammer mill (small)	Small hammer mill combined mixer; 5–7 HP electric or diesel motor; capacity 200–400 kg/hour; suitable for maize, bran and concentrate mixing; discharge chute and safety guards	piece	1	
7	Feed mixer / hammer mill (small)	Small hammer mill combined mixer; 5–7 HP diesel motor; capacity 200–400 kg/hour; suitable for maize, bran and concentrate mixing; discharge chute and safety guards	Piece	1	
8.	Fodder chopper	Electric fodder chopper; capacity ≥300 kg/hour; suitable for Napier grass and forage legumes; hardened steel blades; safety cover	piece	1	
9	Fodder chopper	Manual fodder chopper; capacity ≥300 kg/hour; suitable for Napier grass and forage legumes; hardened steel blades; safety cover	Piece	1	
10.	Feeding troughs	Long metal troughs; minimum 2–2.5 m length; raised design to minimise wastage; suitable for group feeding	Piece	1	
11	Water storage tank (5,000L)	UV-stabilised food-grade plastic tank; 5,000 litres; outlet fittings; elevated steel or masonry stand	Piece	1	
12.	Lactometer	Glass lactometer for measuring milk density and purity measuring 15 to 22 cm	piece	1	

		(6 to 8.5 inches) long with a stem diameter of about 0.5 to 1.5 cm.			
13	Digital thermometer	digital Armpit (Axillary) Thermometers for monitoring animal health	Piece	1	
14.	Foot and Mouth Disease vaccine	Foot and Mouth Disease vaccine; cold-chain compliant; manufacturer's batch number	Dose	1	
15.	LSD vaccine	Lumpy Skin Disease vaccine; live/attenuated; cold-chain compliant appropriate for storage under temperatures ranging +2° C and +8° C	Dose	1	
16.	CBPP vaccine	Contagious Bovine Pleuropneumonia vaccine; cold-chain compliant in doses per vial with diluent vial containing 25 ml, 50 ml	Dose	1	
17.	Brucellosis vaccine	Brucella vaccine for heifers and cows; cold-chain compliant for Vaccinating heifers between 4 and 10 months of age each doze containing 5ml	Dose	1	
18.	Blackleg / clostridial vaccine	Multivalent clostridial vaccine packed in 2 mL to 5 mL per dose (blackleg and related diseases)	Dose	1	
19.	BVD / respiratory complex vaccine	Combined vaccine covering BVD and respiratory pathogens which Protects against IBR, BVD Types 1 and 2, PI3	Dose	1	
20	Albendazole 10% (1L)	Broad-spectrum oral dewormer for gastrointestinal and lung worms for 10 months heifers and bulls packed in bottles measuring 1Litre each	Bottle	1	
21.	Ivermectin injectable (50 ml)	Injectable endectocide for internal and external parasites packed in bottles of 50ml	Litres	1	
22.	Levamisole tablets	Oral deworming tablets for light to moderate infections sealed in Sackets containing 6 tablets	Sacket	1	

23.	Amitraz pour-on / spray	External parasite control for ticks and mites packed in tins containing 12.5% Amitraz	tins	1	
24.	Cypermethrin dip / spray	Tick and fly control chemical with 10% to 20% as an Emulsifiable Concentrate	Litre	1	
25.	Drenching gun	Drenching gun for administer liquid medications with capacity of 200 mL to 300 mL per gun and p	Set	1	
26	Spray nozzles	Spray nozzles with an efficiency rate of 80% to 95% on surface coverage	Piece	1	
27.	Knapsack sprayer (15–20 L)	Heavy-duty knapsack sprayer for acaricides and disinfectants	Unit	1	
28.	Injectable antibiotics	a) Broad-spectrum injectable antibiotic 10% (100 ml)	Bottle	1	
		b) Injectable antibiotic combination for bacterial infections (100 ml)	Bottle	1	
29.	Vitamin and mineral supplement	Injectable or oral multivitamin–mineral preparation for lactating cows	Pack	1	
30.	Disinfectants (iodine / Virkon or equivalent)	5L farm-grade disinfectant for milking area and equipment (5L)	Jerry can	1	
31.	Insulated vaccine carrier	Insulated vaccine carrier with ice packs and withholding capacity of between 2.5 and 3.5 Liters of medical supplies,	Piece	1	
32.	Mineral supplements & salt licks	Mineral blocks and salt licks for dairy cattle measuring between 2.5 to 3 kg per block	Piece	1	
33.	Medium-duty safety gumboots	PVC/rubber; slip-resistant sole; mid-calf or knee-length; sizes 42 and 44	Pair	1	
34.	Heavy-duty safety gumboots	Industrial-grade gumboots; reinforced sole and toe; waterproof; chemical-resistant	Pair	1	
35.	Overalls – medium size (M)	Cotton or poly-cotton; long-sleeve; washable; farm work standard	Piece	1	

36.	Overalls – large size (L)	Cotton or poly-cotton; long-sleeve; farm work standard	Piece	1	
37.	Overalls – extra-large size (XL)	Cotton or poly-cotton; long-sleeve; farm work standard	Piece	1	
38.	Milking parlour fittings	Cow stand/crush; raised platform; basic stainless-steel rails and fittings; milk line supports	Set	1	
39.	Parlour cleaning kit	Small pressure washer; water hoses; floor brushes; detergents and foaming equipment	Set	1	
40.	Re-usable gloves	Rubber or nitrile; chemical-resistant; medium-heavy duty	Pair	1	
41.	Milk-can trolley / mobile cart	Stainless steel or powder-coated steel trolley; suitable for 40 L cans; lockable wheels	Piece	1	
42.	Chilling accessories & spares	Cold packs; spare sensors; thermistors; basic compressor service parts	piece	1	
Total price excl. VAT

Layers input

No.	Item	Item Description	Unit of Measure	Estimated Quantity	Unit price in Euro excl. VAT
1.	Layer chicks	Day-old commercial layer strain (sexe; vaccinated at hatchery (Marek's, ND); healthy and uniform; minimum 38–40 g; supplied with vaccination card and hatchery certificate	Bird	1	
2.	Mature Layer Chicken	1 month old fully vaccinated from New Castle, Gomboro disease with no deformity	Bird	1	
3.	Coffee husks	Clean, dry, mould-free; free from sharp objects and chemicals; moisture <15%; packed in 90–100 kg PP bags	Bag	1	

4.	Small drinkers	Plastic manual drinkers; 1.5–3 L; for 1–14-day chicks; food-grade, easy-clean	Piece	1	
5.	Chick feeders	Plastic/galvanised circular feeders; 3–5 kg capacity; anti-spill lip; for 1–4 weeks	Piece	1	
6.	Wooden trough – chick	Approx. 30–40 cm × 8–10 cm × 8–12 cm	Piece	1	
7.	Wooden trough – grower	Approx. 60–80 cm × 12–15 cm × 10–15 cm	Piece	1	
8.	Wooden trough – layer	Approx. 100–120 cm × 18–22 cm × 15–18 cm	Piece	1	
9.	Brooding papers	Heavy-duty kraft/corrugated; non-slip; approx. 1 m × 1 m; for first 5–7 days	Sheet	1	
10.	Rake	Steel head; 12–14 teeth; ≥1.2 m handle	Piece	1	
11.	Spade	Heavy-duty steel blade; reinforced handle	Piece	1	
12.	Gumboots – medium duty	PVC/rubber; slip-resistant; mid-calf/knee length; sizes 42 & 44	Pair	1	
13.	Gumboots – heavy duty	Industrial grade; reinforced sole; waterproof	Pair	1	
14.	Spray pump	Knapsack sprayer 15–20 L; adjustable lance; bio-security use	Piece	1	
15.	Overalls – M	Cotton / poly-cotton	Piece	1	
16.	Overalls – L	Cotton / poly-cotton	Piece	1	
17.	Overalls – XL	Cotton / poly-cotton	Piece	1	
18.	Wheelbarrow	Heavy-duty tray; 80–100 L; pneumatic tyre	Piece	1	
19.	Solar lighting system	Panels sized 50–60 W (small brooders) or 150–200 W (large); battery 12 V 40–60 Ah (small) / 100 Ah (large); 10–20 A controller; LED lights and wiring	System	1	

20.	Panga	Hardened steel; 18–22" blade	Piece	1	
21.	Jerrycan (20 L)	Food-grade; screw cap	Piece	1	
22.	Gloves	Re-usable rubber/nitrile; chemical-resistant	Pair	1	
23.	Hoe	Heavy-duty steel head; hardwood handle	Piece	1	
24.	Charcoal	Hardwood; dry; low ash; 50 kg bags	Bag	1	
25.	Brooder charcoal pots	Height 45–50 cm; Ø 30–35 cm; 3–5 kg charcoal capacity; stable base	Piece	1	
26.	Medium drinkers	Plastic; 6–8 L; for growers (4–18 weeks)	Piece	1	
27.	Grower feeders	Plastic grower feeding troughs of 8–10 kg; anti-spill	Piece	1	
28.	De-beakers	Manual Electric de-beakers used for beak trimming for birds with adjustable temperature and a safety stand	Piece	1	
29.	Disinfectant (general)	Broad-spectrum; for houses, equipment, footbaths 5L	Bottle	1	
30.	Large drinkers	Plastic; 10–12 L; for layers	Piece	1	
31.	Chick mash (0–8 weeks)	CP 18–20%; ME 2,800–2,900 kcal/kg; 50 kg Bags	Bag	1	
32.	Grower mash (9–18 weeks)	CP 15–16%; ME 2,700–2,800 kcal/kg; 50 kg Bags	Bag	1	
33.	Layer mash (19–72 weeks)	CP 16–18%; Ca 3.5–4.0%; 50 kg bags	Bag	1	
34.	Layers mash	For 1 month's old chick in 50 Kg bag	Bag	1	
35.	Layer concentrate 20%	To be mixed in a ratio of 1:2 with maize brand. 50kg	Bag	1	
36.	Water tank 5,000 L	UV-resistant plastic; outlet & lid	Piece	1	
37.	Vaccine – Newcastle (Day 7)-1000vial	Applied through drinking water and eye-drop containing 500 to 1,000-dose vials	Dose	1	
38.	Vaccine – Gumboro	(Day 14) - 1000vial. Applied in Drinking water for birds	Dose	1	

39.	Vaccine – Gumboro	(Day 21)- 1000vial. Applied through drinking water and eye-drop	Dose	1	
40.	Vaccine – Newcastle booster	(Day 21–28)- 1000vial. Applied through drinking water and eye-drop	Dose	1	
41.	Oral solutions	10% Oral solution; respiratory/systemic infections (total 600 ml)	Bottle	1	
42.	Coccidiosis Vaccine	Coccidiosis control Vaccine used to trigger natural, lifelong immunity against <i>Eimeria</i> parasites in poultry packed in bottles containing liquid suspension vials or bottles ranging from 6 mL to 100 mL	bottle	1	
43.	Bacteria dewormer	Bacteria Dewormer used to treat internal parasites packed in bottles measuring 100ml each	bottle	1	
44.	Piperazine salt	Piperazine salt used for the treatment of ascarids in poultry in tablet form each tablet containing 500grams	Pieces	1	
45.	Multivitamin	Liquid powder used for maintaining bird immunity, boosting egg production, and reducing mortality during stressful periods containing Vitamin B Complex Supplement for Poultry	Bottle	1	
46.	Electrolytes + Vit C	Powder combines 100 mg of vitamin C with electrolytes (calcium, magnesium, potassium, sodium, chloride, zinc, and chromium).	Pieces	1	
47.	Disinfectant for poultry	Disinfectant used general cleaning and sanitation containing iodine compounds for equipment, and chlorine-based solutions (like bleach) for floors and surfaces.	Litre	1	

48.	Egg trays	Plastic or cardboard, reusable/stackable 30 pieces egg trays	Pieces	1	
49.	Maize brand	bags of 100kgs each_ Maize brand	Bags	1	
50.	Broken Maize	Bags of 100kgs_ to feed two months chicks and above	Bags	1	
Total price in Euro excl. VAT					
VAT % if applicable					

Kuroiler Inputs

No.	Item	Item Description	Unit of Measure	Estimated Quantity	Unit price in Euro excl. VAT
1.	Kuroiler chicks	Day-old, sex-mixed Kuroiler chicks; hatchery vaccinated (Marek's & ND), good navel closure, uniform weight ≥ 38 g, lively and free from deformities	Bird	1	
2.	Coffee husks	Clean, dry, mould-free, moisture <15%, free from sharp/chemical contamination, packed in 90–100 kg PP bags	Bag	1	
3.	Small drinkers	Manual plastic drinkers, 1.5–3 L, food-grade plastic, suitable for 1–14 days, easy-wash design	Piece	1	
4.	Chick feeders	Plastic/galvanised circular feeders, 3–5 kg capacity, anti-spill lip, suitable for 1–4 weeks	Piece	1	
5.	Wooden trough – chick	30–40 cm $\times$ 8–10 cm $\times$ 8–12 cm, smooth-finished timber, raised edge to reduce wastage	Piece	1	
6.	Wooden trough – grower	60–80 cm $\times$ 12–15 cm $\times$ 10–15 cm, heavy-duty timber, reinforced joints	Piece	1	
7.	Wooden trough – layer	100–120 cm $\times$ 18–22 cm $\times$ 15–18 cm, heavy-duty timber, suitable for adult birds	Piece	1	

8.	Brooding papers	Heavy-duty kraft/corrugated sheets, non-slip surface, approx. 1 m × 1 m coverage, for first 5–7 days	Sheet	1	
9.	Rake	Steel head, 12–14 teeth, wooden/fibreglass handle ≥1.2 m	Piece	1	
10.	Spade	Heavy-duty steel blade, square/round mouth, reinforced handle	Piece	1	
11.	Gumboots (medium duty)	PVC/rubber waterproof, slip-resistant sole, mid-calf/knee-length; sizes 42 & 44	Pair	1	
12.	Gumboots (heavy-duty)	Industrial/farm grade, reinforced sole, high abrasion resistance	Pair	1	
13.	Spray pump	Knapsack sprayer 15–20 L, adjustable lance, suitable for disinfectants	Piece	1	
14.	Overalls – M	Cotton/poly-cotton, washable, long-sleeve farm coverall	Piece	1	
15.	Overalls – L	Cotton/poly-cotton, washable, long-sleeve farm coverall	Piece	1	
16.	Overalls – XL	Cotton/poly-cotton, washable, long-sleeve farm coverall	Piece	1	
17.	Wheelbarrow	Heavy-duty steel tray, 80–100 L, pneumatic tyre	Piece	1	
18.	Solar lighting system	Complete system (panel, battery, controller, wiring & LED lamps). Panel 50–60 W for small brooders; battery 12 V 40–60 Ah; controller 10–20 A; scalable to 150–200 W & 100 Ah for larger brooder sections	system	1	
19.	Panga	Hardened steel blade 18–22", reinforced handle	Piece	1	
20.	Jerry can	Food-grade plastic, 20 L, screw cap	Piece	1	
21.	Gloves	Reusable rubber/nitrile, chemical-resistant used while cleaning with a diameter of 8 to 10 cm	Pair	1	

22.	Hoe	Heavy-duty steel head, hardwood handle	Piece	1	
23.	Charcoal	Dry hardwood charcoal, low ash, packed in 50 kg bags	Bag	1	
24.	Clay charcoal pots	Brooder heating pots, height 45–50 cm, diameter 30–35 cm, stable base, 3–5 kg charcoal capacity	Piece	1	
25.	Medium drinkers	6–8 L, plastic, suitable for growers (4–18 weeks), easy-wash	Piece	1	
26.	Grower feeders	Plastic/galvanised, 8–10 kg, anti-spill design	Piece	1	
27.	De-beaker	Manual Electric de-beakers used for beak trimming for birds with adjustable temperature and a safety stand	Piece	1	
28.	General disinfectant	Broad-spectrum poultry disinfectant (bacteria, viruses, fungi), with dilution & safety data	Litre	1	
29.	Large drinkers	10–12 L, suitable for adult birds, stable base	Piece	1	
30.	Starter mash	20–22% CP; ME 2,800–2,900 kcal/kg; fresh (<21 days); 50 kg labelled bags	kg	1	
31.	Grower mash	16–18% CP; ME 2,700–2,850 kcal/kg; aflatoxin-safe; labelled 50 kg bags	kg	1	
32.	Finisher/layer feed	Dual-purpose; 16–18% CP; finisher Ca $\leq$ 1.2%; layer Ca 3.5–4.0%	kg	1	
33.	Layer concentrate 30%	30% CP; fortified; mix ratio 1:2 with maize bran/maize; clear mixing instructions of 50 kg	kg	1	
34.	Water tank	Roto moulded UV-stabilised food-grade tank, lockable lid, 1" outlet	piece	1	
35.	ND vaccine (Day 7)	Live ND vaccine, 500/1000-dose vial, water/eye-drop route	Dose	1	
36.	Gumboro (Day 14)	Live IBD vaccine, 500/1000-dose vial	Dose	1	
37.	Gumboro (Day 21)	Live IBD vaccine, booster	Dose	1	

38.	ND booster (Day 21–28)	Live ND booster vaccine	Dose	1	
39.	Coop washing disinfectant	Detergent–disinfectant or rotation products (QAC/iodine/phenolic)	Litre	1	
40.	Dewormer – round worm control	Levamisole Hydrochloride Water-soluble, roundworm control, administered in drinking water 30% w/w powder or 75 mg/ml solution,	Kg	1	
41.	Dewormer – Piperazine	Piperazine Citrate, Water-soluble, roundworm control, White crystalline powder, 25 g per 20 litres of clean drinking water (approximately 100 birds)	Kg	1	
42.	Multivitamins & minerals	Any of these vaccines can be procured. E.g. Aminovit®, Avavite®, Vitapower®, Introvit A+ WS®, and Vitaflash Amino Acid®. Liquid or powder administered through drinking water, for stress and immunity support	Bottle	1	
43.	Electrolyte + Vitamin C	Similar products are widely available in Uganda under brands such as Amilyte®, Vetilyte C+®, Novalyte-C®, and Electrolyte-C®. Water-soluble powder, administered through drinking water.	Kg	1	
44.	Enrofloxacin 10%	Oral solution, respiratory & systemic infections measuring 1,200ml	Bottle	1	
45.	Bacteria solution to treat inflammation	Water-soluble powder used to treat Inflammatory Bowel Disease (IBD), Ulcerative Colitis, and infectious diarrhoea packed in insulated boxes of 500grams each.	Kg	1	
46.	Anticoccidial mix	Anticoccidial powder for treating prevent and treat coccidiosis packed in Sackets of 1 kg each.	Kg	1	

47.	Syringes & needles	1 ml & 2 ml syringes, 22G needles used for vaccination	Set	1	
48.	Egg trays	30-egg plastic trays, stackable and reusable	Tray	1	
Total price excl. VAT					
VAT % if applicable					

Broilers Input

No.	Item	Item description	Unit of measure	Estimated Quantity	Unit rate in Euro excl. VAT
1.	Broiler chicks	5-day-old broiler chicks vaccinated against Gumboro and New Castle. Should be healthy, active and uniform in size, free from physical deformities or signs of illness and accompanied by veterinary certification and a brief care sheet with guidelines on early brooding management	Bird	1	
2.	Broiler starter feeds	For 1-2 weeks broilers in a bag of 50 kgs, expiry date of at least 3 months after manufacture date	Bag	1	
3.	Broiler grower feeds	For 3-4 weeks broilers in a bag of 50 kgs, expiry date of at least 3 months after manufacture date	Bag	1	
4.	Broiler finisher	For 5- 6 weeks broiler in a bag of 50 kgs, expiry date of at least 3 months after manufacture date	Bag	1	
5.	Plastic chicken drinker	Small size, 1.5L, plastic suitable for young chicks	Piece	1	
6.	Plastic chicken drinker	Medium size; 4L suitable for growing chicks	Piece	1	
7.	Plastic chicken drinker	Large size; 12L, plastic suitable for mature broilers	Piece	1	

8.	Chicken Feeder	Small size, 1.5kg, wooden, linear feeders	Piece	1	
9.	Chicken Feeder	Large size, 6 kgs plastic, circular for older chicks	Piece	1	
Total price excl. VAT					
VAT % if applicable					

Transport costs to be charged across lots will be determined based on the unit rate of vehicle hire per day and fuel shall be reimbursed based on fuel consumption receipts (to be verified), the actual millage travelled and the consumption rates provided in the table below.

Vehicle size	Consumption rate in KM/ Ltr	Cost of vehicle hire per day
SUV 4*4	8.0 KM/L	
2-ton vehicle	7.0 KM/L	
4-ton vehicle	6.0 KM. L	
7-ton vehicle	4.0 KM/L	
10-ton vehicle	3.5 KM/L	
11–15-ton vehicle	3.0 KM/L	
16- 20-ton Vehicle	2.5 KM/L

Tender form - Prices

By submitting this tender, the tenderer commits to performing this public contract in conformity with the provisions of the Tender Specifications/ – and explicitly declares accepting all conditions listed in the Tender Specifications and renounces any derogatory provisions such as his own general sales conditions.

The unit prices and the global prices for each item in the inventory are established relative to the value of these items in relation to the total value of the tender. All general and financial costs as well as the profits are distributed between the various items in proportion to their weight.

The value added tax is dealt with on a separate line in the summary bill of quantities or the inventory, to be added to the tender's value.

The tenderer commits to performing the public contract in accordance with the provisions of the Tender Specifications for the following prices, given in **Euros** and exclusive of VAT:

Should this tender be approved, the performance bond will be constituted under the conditions and deadlines stipulated in the Tender Specifications.

The confidential information and/or the information relating to technical or business secrets is indicated clearly in the tender.

In order to correctly compare the tenders, the duly signed information or documents mentioned under preparation of Tenders.

No.	Item	Item description	Unit of measure	Estimated Quantity	Unit price in Euro excl. VAT
1.a	Goats – Female (breeding does)	Healthy hybrid goat breeding does, aged 6–12 months, with a minimum live weight of 18–25 kg, body condition score $\geq 2.5/5$, bright eyes, and a smooth coat. Animals should be free from lameness, hernia, mastitis, nasal discharge, or diarrhoea, and sourced from known and reputable farms. Must be vaccinated and dewormed prior to delivery, with accompanying basic health records. Only pure hybrid goats or their well-adapted crosses should be considered.	Head	1	

1.b	Goats – Female	Female Mubende breed goat aged 8 months old with a minimum of 25 kgs, long back, well tagged and vaccinated against PPR	Head	1	
2.a	Goats – Male (breeding bucks)	Sound breeding hybrid goat bucks, aged 8–18 months, with a minimum live weight of 25–35 kg, well-developed and symmetrical testicles, strong legs and hooves, good body conformation, and an active, alert demeanour. Bucks must be unrelated to the supplied females and certified free from visible reproductive defects. All animals should be vaccinated and dewormed prior to supply, with basic health records provided.	Head	1	
2.b	Goats – Male	Male Boer goat breed aged 9 months with a minimum of 30 kgs well tagged and vaccinated against PPR	Head	1	
3.	Feeding troughs	Raised wooden, plastic or concrete troughs with smooth inner surface and rounded edges; anti-spill lip; mounted 30–45 cm above ground. Allow minimum linear feeding space of 35–40 cm per adult goat. For 60 goats, total feeding space ≈ 21–24 m (equivalent to 8 troughs of 3 m each).	Piece	1	
4.	Water storage (5000 L tank)	Rotational-moulded, UV-stabilised, food-grade plastic (5000L) tank with tight-fitting lid, screened inlet, 1-inch outlet fitting and tap/valve; mounted on a raised stand for gravity flow to	Piece	1	

		drinkers; suitable for daily cleaning and periodic disinfection.			
5.	Gumboots Medium-Duty Safety Gumboots Size 8/42 Size 10/44	- Designed for heavier farm and workshop use with better durability and comfort. - PVC or rubber waterproof boots - Mid-calf or knee-length - Slip-resistant sole - Suitable for farm and wash-down areas	Pair	1	
6.	Overalls for farm workers	Medium (M) size, cotton, poly-cotton blend.	Piece	1	
7.	Overalls for farm workers	Large (L) size, cotton, poly-cotton blend.	Piece	1	
8.	Overalls for farm workers	Extra- large (XL) size, cotton, poly-cotton blend.	piece	1	
9.	Petit ruminants Vaccine	Peste des Petits Ruminants (PPR) Vaccine: a highly contagious viral disease-causing fever, oral lesions, diarrhoea and high mortality in goats and sheep. - Vaccine type: Live attenuated PPR vaccine (I-2 strain). - Form/packing: Injectable vaccine, typically supplied in 100-dose vials with diluent. - Dose/route: 1 ml subcutaneous (S/C) per goat. - Schedule: Initial vaccination at ~3 months or above; annual booster recommended.	Dose	1	
10.	Vaccine to protect mycoplasma	Contagious Caprine Pleuropneumonia (CCPP) Vaccine: Protects against Mycoplasma	Dose	1	

	capricolum lung infection	capricolum lung infection causing severe pneumonia, respiratory distress and high mortality. • Vaccine type: Injectable inactivated or oil-adjuvanted vaccine. • Form/packing: Often supplied in 100-dose vials. • Dose/route: 2 ml S/C per goat. • Schedule: Annual vaccination, often at dry season onset (local guidance). • Quantity per school: 1 × 100-dose vial.			
11.	Vaccine: Goat Pox Vaccine	Goat Pox Vaccine: Protects against goat pox (a poxvirus infection) causing skin lesions, fever and decreased productivity. • Vaccine type: Live attenuated poxvirus vaccine. • Form/packing: Usually supplied in 100-dose vials. • Dose/route: 1–2 ml S/C per goat. • Schedule: Annual vaccination in endemic areas or pre-risk seasons. • Quantity per school: 1 × 100-dose vial.	Dose	1	
12.	Vaccine: Foot-and-Mouth Disease (FMD) Vaccine	Foot-and-Mouth Disease (FMD) Vaccine Prevents FMD, a transboundary viral disease that affects goats, cattle, sheep and pigs; important due to periodic outbreaks in	Dose	1	

		Uganda and regional vaccination campaigns. • Vaccine type: Inactivated polyvalent FMD vaccine (targeting multiple serotypes). • Form/packing: Multi-dose vials sized for livestock programs. • Dose/route: S/C injection, volume per label. • Schedule: Generally bi-annual (twice per year) in endemic risk areas. • Quantity per school: 1 × multi-dose vial (enough for entire goat herd).			
13.	Vaccine against enterotoxaemia and tetanus	Protects against enterotoxaemia and tetanus caused by <i>Clostridium perfringens</i> types C & D; critical for kids and adults. • Vaccine type: Clostridial toxoid vaccine (C & D), often marketed as CDT or multivalent clostridial. • Form/packing: 100 ml vial (multi-dose) with diluent. • Dose/route: 1–2 ml S/C, as per label. • Schedule: Primary dose with booster 2–4 weeks later; then annual boosters recommended. • Quantity per school: 1 × 100 ml vial (multi-dose).	Dose	1	

14.a	Dewormers for endo and ectoparasite control Injectable (1%)	Broad-spectrum endo- and ectoparasite control; effective against internal worms (roundworms, lungworms) and external parasites (lice, mange). Supplied with sterile single-use syringes or bulk vial with clear dosing instructions (0.2 mg/kg body weight).	Dose	1	
14.b	Dewormers	Albendazole suspension in jerrycans of 5 L	Jerrycan	1	
15.	Oral Suspension dewormer	Broad-spectrum dewormer for GI nematodes and tapeworms; safe for goats >6 weeks; well labelled with dosage rate (10 mg/kg).	Dose	1	
16.	Antibiotics & Antimicrobials (Prescription-only): Oxytetracycline LA (Long Acting)	Broad-spectrum antibiotic for bacterial infections affecting respiratory, reproductive or systemic disease; supplied as 100 ml vial; labelled dosage and withdrawal period required.	Dose	1	
17.	Antibiotics & Antimicrobials (Prescription-only): Procaine Penicillin + Streptomycin (P/S Combo)	Broad-spectrum injectable for common bacterial conditions; supplied in multi-dose vial of 100 ml; labelled with appropriate doses and withdrawal times.	Dose	1	
18.	Anti-Inflammatory & Analgesics: Meloxicam Injectable	NSAID with long-acting pain and inflammation control measuring 50ml; clearly labelled; safe dosage with withdrawal instructions.	Dose	1	
19.	Vitamins & Electrolytes (Water-Soluble): Vitamin A,	Water-soluble mix with vitamins A, D ₃ , E, C and electrolytes (Na, K, Cl) of 500 grams to support immunity, recovery from heat stress and	Bottle	1	

	D ₃ , E + Electrolyte Powder	vaccination reactions; dissolves fully in drinking water.			
20.	Vitamins & Electrolytes (Water-Soluble): B-Complex Vitamin + C Powder	Supports energy metabolism, appetite and stress recovery; water-soluble of 250 grams, easy dilution instructions included.	Bottle	1	
21.	Mineral and Trace Element Supplements: Mineral Salt + Trace Elements (Loose)	Loose powder containing Ca, P, Na, Mg, Zn, Cu, Se, Iodine; supports bone formation, fertility, immunity and growth; clearly labelled with feeding instructions.	Kgs	1	
22.	Mineral and Trace Element Supplements: Mineral Blocks / Licks	Compressed blocks ideal for free-access mineral supplementation; weather-resistant and safe; labelled for goats.	Blocks	1	
23.	Topical / External Parasite Control: Amitraz Dip / Spray	External parasite (ticks, mites) control; must be diluted and used as per label; avoid overdose; protective gear required.	Litres	1	
24.	Tropical / External Parasite Control: Permethrine Pour-On / Spray	Broad-spectrum external parasite control of 500 ml; labelled safe dosage instructions; repeat per manufacturer guidance.	Litres	1	
Total price excl. VAT					
VAT % if applicable					

Transport costs to be charged across lots will be determined based on the unit rate of vehicle hire per day and fuel shall be reimbursed based on fuel consumption receipts (to be verified), the actual millage travelled and the consumption rates provided in the table below.

Vehicle size	Consumption rate in KM/ Ltr	Cost of vehicle hire per day
SUV 4*4	8.0 KM/L	
2-ton vehicle	7.0 KM/L	
4-ton vehicle	6.0 KM. L	
7-ton vehicle	4.0 KM/L	
10-ton vehicle	3.5 KM/L	

11–15-ton vehicle	3.0 KM/L

In order to correctly compare the tenders, the duly signed information or documents mentioned under preparation of Tenders.

No.	Item	Item description	Unit of measure	Estimated Quantity	Unit price in Euro excl. VAT
1.a	Female piglets (gilts)	Healthy weaned gilts, approximately 3 months old, minimum live weight 18–25 kg, body condition score $\geq 3/5$, free from lameness, hernia, skin disease and respiratory signs. From known local or improved crossbreed (Large White $\times$ Landrace or local crosses). Vaccinated and dewormed prior to delivery.	Head	1	
1.b	Female piglets (gilts)	Six-month old female gilt (10 - 12 Tits) - cambrough breed, well tagged, vaccinated and with no deformity	Head	1	
2.a	Male piglet (boar)	Healthy young breeding boar, 3–4 months old, minimum weight 20–30 kg, strong legs and feet, well-developed testes, active and alert. Unrelated to	Head	1	

		supplied gilts. From a recognised breeding source.			
2.b	Male piglet	Seven-month-old male pig (1 cambrough breed from a different lineage), well tagged, vaccinated and with no deformity	Head	1	
3.	Feeding troughs	Heavy-duty plastic or reinforced concrete feeders; smooth inner surfaces to prevent injuries; raised 20–30 cm from floor to minimise wastage; minimum 1.2–1.5 m linear feeding space per trough.	Piece	1	
4.	Water tank	5,000-litre UV-stabilised, food-grade plastic tank with tight-fitting cover, screened inlet, 1-inch outlet tap, raised stand for gravity supply.	Piece	1	
5.	Starter feed (weaners)	Commercial pig starter feed for 8–12-week pigs; crude protein 18–20%, ME $\geq$ 3,100 kcal/kg, balanced amino acids (lysine $\geq$ 1.1%), vitamin–mineral premix, mould-free, clearly labelled with manufacturer, batch number and expiry date.	Bag	1	
6.	Grower feed	Commercial grower ration for 3–5-month pigs; crude protein 16–18%, ME $\geq$ 3,100 kcal/kg, balanced Cap ratio (1.2–1.5:1) measuring 50kg, clearly labelled and within shelf life.	Bag	1	
7.	Sow & boar feed	Breeder ration for mature gilts and boar; crude protein 14–16%, of 50 kg fortified with vitamins A, D, E, selenium and trace minerals; suitable for flushing and maintenance.	kg	1	
8.	Salt / mineral lick	Veterinary-grade mineral blocks or loose mineral mix containing Ca, P, Na,	kg	1	

		Zn, Cu, Se and iodine; weather-resistant packaging and clear feeding instructions.			
9.	Dewormers endo /ectoparasite - 1% Injectable	Broad-spectrum endo/ectoparasite control of 50ml; effective against roundworms, lungworms, mange mites, lice; intended for injectable use only. Must include clear dosing instructions: 0.2 mg/kg body weight.	Liters	1	
10.	Dewormers for gastrointestinal nematode- Oral Suspension	Broad-spectrum dewormer for gastrointestinal nematodes and tapeworms of 100ml; labelled dosage and withdrawal periods included.	Bottle	1	
11.	Broad-spectrum Dewormers in Soluble Powder	Water-soluble broad-spectrum dewormer of 500 grams; use with correct dosage guide and clean drinking water.	Packet	1	
12.	Antibiotics & Antimicrobials	Broad-spectrum antibiotic of 100ml for bacterial infections (respiratory, systemic); supplied as multi-dose injectable; labelled with dosing instructions and withdrawal time.	Liters	1	
13.	Antibiotics & Antimicrobials for systemic bacterial diseases	Bactericidal injectable combo 100ml; used for systemic bacterial diseases; must be supervised by a vet with correct dose/withdrawal guidance.	Liters	1	
14.	Anti-Inflammatory & Pain Relief Medicines	NSAID for inflammation 100ml, fever and pain relief; labelled instructions for use in pigs; vet-prescription required.	Liters	1	
15.	Anti-Inflammatory & Pain Relief Medicines	NSAID for pain and inflammation 50ml; long acting and safe when administered correctly; withdrawal periods must be observed.	Liters	1	
16.	Vitamins & Electrolytes	Water-soluble powder containing vitamins A, D3, E, C, B-complex +	Kgs	1	

	(Water-Soluble / Feed Additive): Multivitamin + Electrolyte Powder	electrolytes (Na/K/Cl) of 500grams to support immune response, hydration and post-stress recovery (e.g., heat, vaccination). Complete dosing instructions included.			
17.	Vitamins & Electrolytes (Water-Soluble / Feed Additive): B-Complex with C Powder	Water-soluble B-complex vitamins plus vitamin C Of 250 g for improved appetite, metabolism and stress resilience.	Kgs	1	
18.	Mineral & Trace Element Supplements: Mineral Salt + Trace Elements (Loose)	Loose powder mineral premix with Ca, P, Na, Mg, Zn, Cu, Se, I, essential for skeletal growth, fertility and immunity of 5 kg; clearly labelled instructions.	Kgs	1	
19.	Mineral & Trace Element Supplements: Mineral Lick Blocks	Compressed blocks containing essential macro and micro minerals; weather-resistant and labelled for pigs; free access to animals.	Blocks	1	
20.	Topical / External Parasite Control: Amitraz Dip / Spray Concentrate	Controls ticks, mites and lice; supplied as concentrate; must be diluted per instructions; use safety gear on operators. 1 × 1 L concentrate	Liters	1	
21.	Tropical / External Parasite Control: Permethrine Pour-On / Spray	External parasite control spray 1 × 500 ml bottle; labelled for safe use on pigs; repeat applications per label.	Bottle	1	
22.	Disinfectant	Broad-spectrum disinfectant (QAC, iodine or phenolic based) effective against bacteria and viruses; suitable for floors, pens, equipment and boots; supplied with dilution guide.	Litres	1	

23.	Gumboots Medium-Duty Safety Gumboots Size 8/42 Size 10/44	- Designed for heavier farm and workshop use with better durability and comfort. - PVC or rubber waterproof boots - Mid-calf or knee-length - Slip-resistant sole - Suitable for farm and wash-down areas	Pair	1	
24.	Overalls for farm workers	Medium (M) size, cotton, poly-cotton blend.	Piece	1	
25.	Overalls for farm workers	Large (L) size, cotton, poly-cotton blend.	Piece	1	
26.	Overalls for farm workers	Extra- large (XL) size, cotton, poly-cotton blend.	Piece	1	
27.	Maize brand	Sacks of maize brand in 100kg per sack	Bag	1	
Total price excl. VAT

1.	Poly bags	Nursery bags for raising cocoa seedlings. Approx. 10 cm × 25 cm	Piece	1	
2.	Cocoa seeds/seedlings	Certified hybrid cocoa seeds or seedlings. 3–6 months for polybag nursery seedlings. Seedlings should have a straight, strong stem, 4–6 true green leaves and be free of lesions or pest damage.	Seedling	1	
3.	Shade nets and poles	Installation of a large nursery shade structure using net roll size of 3 meters width by 50 meters Length to be supported with wooden poles of 8 to 10 feet height above-ground and a pole diameter of 3 to 5 inches.	Shade	1	

4.	Labour	Land preparation, filling poly bags, sowing, and nursery setup	Person-days	1	
5.	Soil and manure	Fertile topsoil and organic manure. 100Kgs	Bag	1	
7.	Pest and disease control pesticides	Nursery pesticides and disease management. 1L	Litre	1	
8.	Wire mess for fencing, security, of potting shade	Wire mess roll of 25-30 M for security and protection from animals measuring 4.0 mm to 5.0 mm wire thickness with a height of 2.0 m to 2.4 m above the ground	Roll	1	
9.	Cabbage seeds	Cabbage seeds 10g	Sacket	1	
10.	Carrot seeds	Carrot seeds (50g Tins)	Tin	1	
11.	Egg plants seeds	Egg plants seeds 50g tin	Tin	1	
12.	Liquid Fertilizer	Liquid Fertilizer: Liter Bottle of 1L	Bottle	1	
13.	Pesticide	Pesticide Liters of organic pesticides of 1L	Bottle	1	
14.	Knapsack sprayer	20 Liter capacity. Plastic heavy-duty knapsack sprayer features a dual-piston pump, providing the benefit of achieving high pressure if required with the piston pump. Portable, worn on the back to dispense liquids such as chemicals, with a manual pump lever to build pressure Tank capacity: 20 Liters Usage: Agricultural Fumigation Tank property: Plastic Net weight (empty): 3.5kgs	Piece	1	
15.	Watering Can	Plastic Watering Can of 10 Liter capacity, 0.4kg net weight fitted with its nozzle	Piece	1	
Total price excl. VAT

No.	Item	Item description	Unit of measure	Estimated Quantity	Unit rate in Euro excl. VAT
1.	Modern Langstroth beehives (complete)	Standard 10-frame Langstroth hives made of treated timber, fitted with brood chamber, super chamber, inner cover, lid, and frames with wax foundation. Designed for honey production and colony management. Dimensions: • Brood chamber: 42.5 × 21.3 × 24.1 cm (17" × 8.5" × 9.5") • Super chamber: 42.5 × 21.3 × 17.8 cm (17" × 8.5" × 7") • Frames: 48.3 × 23.5 cm (19" × 9.25") • Inner cover: 51 × 26 × 2.5 cm (20" × 10.25" × 1") • Outer lid: 53 × 28 × 5 cm (21" × 11" × 2")	Piece	1	

2.	Catcher box bee hives	Small wooden hives or trap boxes used for baiting and attracting wild swarms for colony multiplication. Durable and weather resistant. Dimensions: - Box body: 30 × 30 × 30 cm (12" × 12" × 12") - Entrance slit: 2–3 cm height × full width - Lid: 32 × 32 × 5 cm (12.5" × 12.5" × 2")	Piece	1	
3.	Colonies	Healthy, productive bee colonies with a queen, workers, and brood. Sourced from local beekeepers or certified apiaries. Disease-free and adapted to local environment. 1 Queen, Workers, Brood, Honey/Pollen stores, Minimum 3–5 frames with brood and bees (for Langstroth colonies).	Piece	1	
4.	Beehive stands (Treated wood)	Elevated platforms to keep hives off the ground, prevent flooding, and deter termites. Must support hive weight and allow for air circulation. Dimensions: Height: 30–40 cm, Width: 45–50 cm, Depth: 25–30 cm, Leg thickness: 5 × 5 cm, Top platform: 42.5 × 21.3 cm (same as hive base)	pieces	1	
5.	Bee suits (protective gear)	Full body suits made of breathable, sting-proof material. Includes veil, zippers, and elastic cuffs. Size for youths/children: - Chest: 70–90 cm - Height: 120–150 cm - Sleeve: 45–55 cm - Leg length: 60–75 cm With adjustable straps or elastic in the waist for better fit.	piece	1	
6.	Bee suits (protective gear)	Full body suits made of breathable, sting-proof material. Includes veil, zippers, and elastic cuffs. Sizes for adults: Chest: 90–120 cm	Piece	1	

		• Height: 150–190 cm • Sleeve: 55–65 cm • Leg length: 75–100 cm With adjustable straps or elastic in the waist for better fit.			
7.	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Small size: Hand circumference of 18-20 cm, Arm length of 20-22 cm.	Pairs	1	
8.	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Medium size: Hand circumference of 21-23 cm, Arm length of 22-25 cm.	Pairs	1	
9.	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Large size: Hand circumference of 24-26 cm, Arm length of 25-28 cm.	Pairs	1	
10.a	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Extra-large size: Hand circumference of 27-29 cm, Arm length of 28-30 cm.	Pairs	1	
10.b	Hand gloves (heavy-duty)	Thick, sting-resistant gloves made from leather or treated rubber. Provide arm-length protection during hive inspections. Small size: Hand circumference of 18-20 cm, Arm length of 20-22 cm	Pairs	1	
11.	Bee smokers	Stainless steel smokers with heat guards and bellows. Used to calm bees during hive inspections. Fuel chamber must accommodate natural fuels like dry leaves or wood shavings.	Piece	1	

		Fuel chamber; Diameter: 10–12 cm, Height: 20–25 cm Bellows length: 15–20 cm Overall height: 25–30 cm Weight: 0.8–1.5 kg			
12.	Hive tools (flat prying end, curved or L-shaped end, scraper edge, pointed tip, handle)	Multipurpose flat metal tools for prying hive parts, scraping propolis, and lifting frames. Rust-resistant and sturdy. Size: Length: 25-30 cm, Width: 2.5-3 cm, Thickness: 3-5mm, Weight: 100-150g	Set	1	
13.	Bee brush and queen cage set	Soft-bristled brush for gently removing bees from frames. Queen cage used for introducing or transporting queen bees safely. Dimensions: • Bee brush: Handle of 12-15 cm and brush of 5-7 cm wide. • Queen cage: 7 X 2 X 2 cm	Set	1	
14.	Honey extractor (manual, 4-frame)	Hand-cranked, stainless-steel extractor with 4-frame capacity. Operates without electricity and is food-grade certified. Dimensions: • Height of 60 – 70 cm. • Diameter of 35 – 40 cm (main drum). • Basket size: Fits 4 frames (standard 42.5 X 21.3 cm). • Crank length: 25 – 30 cm, ergonomic for hand operation. • Weight: 12 – 15 Kg (empty). • Overall footprint: 40 X 40 cm. Warranty of 1 year.	Pieces	1	

15.	Buckets & storage containers (Food-Grade)	Airtight, BPA-free plastic or stainless-steel buckets with lids. Used for collecting, settling, and storing honey. Capacity: 20–25L each.	Piece	1	
16.	Beeswax (starter for baiting hives)	Clean, natural beeswax used to attract swarms by coating hive frames or interiors. Must be free of additives or contaminants.	Kg	1	
17.	Honey harvesting knives	Material: Food grade stainless steel blade, sharp and durable	Piece	1	
18.	Packaging Containers (500ml containers)	Material: food grade plastic safe for honey Secure lid for safety and freshness 500g capacity to meet market expectations for honey	Piece	1	
19.	Gumboots	Size: minimum 6 Material: Durable waterproof rubber High cut design to protect feet and legs Light weight and comfortable for farm use Color: white	Pair	1	
Total price excl. VAT					
VAT % if applicable

1	Fish seeds and Fingerlings transportation and stocking services	African Catfish (<i>Clarias gariepinus</i>); Healthy and active; Size: 1-2 g; Produced by a registered hatchery; Accompanied by stocking/hatchery certificate. Transport in oxygenated bags or aerated tanks; Acclimatization support at stocking; Minimum survival guarantee upon delivery.	Fingerlings	1	
2	Fish seeds and Fingerlings transportation and stocking services	Nile Tilapia (<i>Oreochromis niloticus</i>); Healthy and active; Monosex (male preferred); Minimum size: 0.5 - 1 g; Produced by a registered hatchery;	Fingerlings	1	

		Accompanied by stocking/hatchery certificate. Transport in oxygenated bags or aerated tanks; Acclimatization support at stocking; Minimum survival guarantee upon delivery.			
3	Fish feeds	Tilapia starter feed; powder form feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	10kg bag	1	
4	Fish feeds	Tilapia grower feed; Floating commercial formulated feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	25kg bag	1	
5	Fish feeds	Tilapia finisher feed; Floating commercial formulated feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	25kg bag	1	
6	Fish feeds	Catfish starter feed; powder form formulated feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	10kg bag	1	
7	Fish feeds	Catfish grower feed; Floating or slow-sinking commercial feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	25kg bag	1	

8	Fish feeds	Catfish finisher feed; Floating or sinking commercial feed from approved manufacturers or equivalent; Supplied in sealed bags indicating protein content and manufacturing/expiry dates.	25kg bag	1	
9	Fish handling	Scoop net with corrosion-resistant metal or durable PVC frame; soft knotless nylon mesh to minimize injury to fish; handle length minimum 1.2 m; net opening minimum 30 cm diameter; suitable for harvesting and transferring fingerlings and table-size fish.	Piece	1	
10	Fish harvesting	Seine nets durable nylon seine net suitable for pond harvesting; mesh size appropriate for harvesting fingerlings and grow-out fish; reinforced float line and lead line; UV-resistant and rot-resistant material.	Piece	1	
11	Water quality test kit	Portable aquaculture water quality testing kit capable of measuring minimum parameters: pH and temperature, with DO test capability (meter or chemical test kit); supplied with reagents, accessories, user manual and carrying case; suitable for field use in freshwater aquaculture ponds. Waterproof digital or alcohol-based thermometer suitable for aquaculture pond water monitoring.	Kit	1	
12	Agricultural lime	Finely ground agricultural limestone (calcium carbonate) suitable for aquaculture pond conditioning and water quality improvement; moisture-free; supplied in sealed bags; minimum purity 80% CaCO ₃ equivalent.	25 kg bag	1	

13	Fish grading basket	Durable plastic or fiberglass grading basket/tray designed for tilapia and catfish fingerling grading; fitted with appropriately sized grading slots/openings for size separation; corrosion-resistant, easy to clean, and suitable for field use.	Piece	1	
14	Digital weighing scale	Portable digital weighing scale with minimum capacity 50 kg and accuracy ± 0.1 kg; battery operated; suitable for weighing fish and feed.	Piece	1	
15	Gumboots – medium duty	PVC/rubber; slip-resistant; mid-calf/knee length; different sizes.	Pair	1	
16	Overalls – different sizes	Cotton or poly-cotton; long-sleeved; washable; farm work standard	Piece	1	
17	Fish biosecurity kit	Basic fish health management kit including aquaculture-approved disinfectants for cleaning nets, containers and Equipment; supplied with instructions for safe use.	Kit	1

4. DECLARATION ON HONOUR - EXCLUSION GROUNDS

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer/beneficiary/partner/co-contractor declare that the tenderer is not in any of the following cases of exclusion:

** Please tick the boxes to confirm each situation*

☐ **The counterparty or one of its directors has not been convicted by a final judicial decision of any of the following offenses:**

- a. Participation in a criminal organization;
- b. Corruption;
- c. Fraud;
- d. Terrorist offenses, offenses linked to terrorist activities or incitement to commit such offenses, complicity, or attempt;
- e. Money laundering or terrorism financing;
- f. Child labor and other forms of trafficking in human beings;
- g. Employment of third-country nationals in illegal residence;
- h. Creation of offshore companies.

☐ **The counterparty fulfills its obligations related to the payment of taxes, duties, and social security contributions for an amount exceeding €3,000, unless it can demonstrate that it holds one or more certain, due, and unencumbered claims against a contracting authority for at least the amount corresponding to the overdue tax or social debt.**

☐ **The counterparty is not in a state of bankruptcy, liquidation, cessation of activities, judicial reorganization, has not admitted bankruptcy, is not the subject of liquidation or judicial reorganization, or any analogous situation derived from similar procedures in other national regulations.**

☐ **The counterparty has not committed any serious professional misconduct that questions its integrity.**

Serious professional misconduct particularly includes:

- a. Breach of Enabel's policy on sexual exploitation and abuse;
- b. Breach of Enabel's policy on fraud and corruption risk management;
- c. Violation of local legislation concerning sexual harassment at work;
- d. Serious false statements or use of false documents in providing information required for exclusion checks or selection criteria, or concealing information;
- e. Evidence sufficient to conclude anti-competitive acts, agreements, or arrangements;

Regarding conflict of interest:

Please tick the applicable box

- ☐ The counterparty or its directors have no actual or potential conflict of interest, no real or potential business or family relationship, nor appear to have such, with any member of Enabel's Board, personnel, or others involved in tender preparation, selection, or contract execution.

or

- ☐ The counterparty informs Enabel of any actual, potential, or reasonably perceived conflict of interest that may affect or appear to affect impartiality in the procurement, granting, selection, or contract execution process.

➔ *A detailed description of any such conflicts, including nature and persons involved, will be annexed to this declaration.*

- ☐ The counterparty has not committed any serious or persistent failures during the execution of a prior essential contractual obligation with another contracting authority resulting in measures, damages, or comparable sanctions.
- ☐ The counterparty attests that no restrictive measures have been taken against it related to international peace and security violations such as terrorism, human rights violations, destabilization of sovereign states, or proliferation of WMD.
- ☐ The counterparty does not appear on any sanction lists maintained by the United Nations, European Union and Belgium, as well as Tax clearance certificate, Social security contribution certificate and certificate of good conduct from Interpol.

I/we commit to promptly inform Enabel of any change in the above points, including sanctions or embargo measure adopted by the United Nations, the European Union and/or Belgium occurring after our signature of this Declaration.

5. INTEGRITY STATEMENT FOR THE TENDERERS

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- I have / we have read and understood the articles about deontology and anticorruption included in the Tender Documents (see 1.7.), as well as *Enabel's Policy regarding sexual exploitation and abuse* of June 2019 and *Enabel's Policy regarding fraud and corruption risk management* of June 2019 and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.
- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the abovementioned advantages in cash. Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
