N°	Issue / question raised	Response
1.	Section 5 (Terms of Reference) states that the contractor shall provide 90 Mbps unlimited dedicated internet connection and indicates an estimated list of 49 schools where the services may be delivered. The tender also states that the framework contract has a maximum value of EUR 216,000 over four years. Could you kindly clarify whether: - the 90 Mbps dedicated internet connection is required per individual school; or - the 90 Mbps requirement refers to a shared or aggregated service under the framework?	The 90 Mbps dedicated link shall be required per individual school. the 90 Mbps requirement shall not be a shared or aggregated service. Every site shall receive a capacity of 90 Mbps.
2.	Additionally, are the estimated 49 schools expected to be connected concurrently, or will services be ordered progressively through individual call-off orders during the framework period?	Yes, all the 49 schools shall be connected concurrently.
3.	Framework Quantities Section 2.6 states that quantities will be determined through order forms and that the	As stated under Section 2.6 The presumed quantities indicated under section 5. Terms of

	contracting authority does not commit to the estimated quantities indicated in the Terms of Reference. Could you kindly clarify whether the list of 49 schools is provided only for estimation purposes and whether the actual number of schools to be connected will depend on individual orders issued during the framework contract?	reference are given for information purposes Only, during the call off of the framework, shall the actual numbers of the schools be issued by the contracting authority.
4.	Delivery Technology The Terms of Reference specify that the 90 Mbps dedicated internet connection shall be delivered wirelessly, with Microwave or Line of Sight being the preferred method. However, the Financial Form requests pricing for fiber delivery and installation costs by region and a monthly charge for internet delivered via fiber optic cable. Could you kindly confirm: • whether bidders should propose wireless (Microwave/LoS) delivery in accordance with the Terms of Reference; • fiber optic delivery; or • either technology, provided that the required service levels are achieved?	The preferred delivery method is wireless (Microwave/LoS) in accordance with the Terms of Reference. Bidders are required to propose only wireless (Microwave/LoS).
3.	I would like to inquire whether you could provide us with the accurate pinned locations (GPS coordinates) for the schools included in this project, to obtain the correct ones	Bidders shall be required to use the location and distance in km from Kampala stated in the tender document under section 5 terms of reference to come up with their estimates.
