Contract title: Public Contract for Provision of Post Training Support to Formalize Businesses of 80 youth enterprises and Provision of consultancy services to facilitate and conduct Innovation Challenge for Trainers of Trainers (ToTs) in Mini Hubs

Reference: UGA22003-10452

N°	Issue / question raised	Response
1.	What is the contract Value for Lot 1 and which currency are you looking at Ugx or Euros.	The contract value is not disclosed at this stage since this is a competitive tender and financial proposal forms part of the evaluation. The currency is in Euros.
2.	The meaning of 11-month implementation Versus 15-month duration.	Meaning all field activities must end within 11months, the rest of the months can be for reports and closure.
3.	The exact definition of the 80 youth enterprises in relation to the number of beneficiaries to the tender.	This is clearly broken down in the tender document under targets, refer to pages 37 and 38
4.	What is the distribution in terms of geography compared to Districts in West Nile as this are spread out and have implication to the budget.	Target not less than 3 districts out of the 6. The budget remains the same.
5.	If the contractor is responsible for supporting registration who pays the licensing fees and what does formalization mean in relation to this call.	The cost of registration depends on the proposal of the contractor all cost is factored in the proposed budget. On the issue of the meaning of formalization, kindly refer to the described Objectives and expected results under 2.0 Objectives of the public contract and expected results. Read through from pages 36 to 38.
6.	Does Enabel have predetermined booster kits for specific enterprises, or this are determined by the assessment.	This is clearly defined in the tender document Refer to pages 55 to 65 under Tender form - Prices - lot 1 and 2. All items and quantities are defined there.

7.	Are the enterprises already existing or mobilization has to be done sometime, as a company we would like to manage the risk in case there is any from the word go.	All the enterprises are existing and lists and locations are available, however field mobilization is part of the role of the consultant. Enable will only provide list and location of the enterprises.
8.	How do you define evidence and verification of outcomes , clarify the parameters.	The targets are clearly defined in tender documents under 2.0 Objectives of the public contract and expected results. Read through from pages 36 to 38. However, evidence will be based on the documents certifying the specific task has been completed for example -Bank account opening-account number. -Business Registration-Registration certificate, trading license. -Booster kits-distribution lists. -Trainings conducted- Signed attendance sheets. However, it's advised that there must be evidence for work done including photos and clear documents.
9.	Clarify the boundary between Enabel and Contractor backstopping principle after project closure.	This is a one-off contract all engagements end with the project closure. However, the hired consultant may be reached mutually not binding after the project closure especially for follow up of participants for tracer studies or future impact assessments by Enabel without costs.
10.	Incase of delays between Enabel and the contractor are there renewals.	There are no renewals in regard to delays, since this is results-based financing, meaning the consultant is reimbursed for work done after verification and issue of certificate of completion per the specified % under payment modalities defined in Pages 33-35 without prefinancing. Any delays on the side on the consultant to meet deadlines is a loss on the side of the

		consultant and may result in discontinuation of the contract.
