1 Technical Specifications

1.1 Requirements for the goods

1.1.1 Technical requirements and quantities

The supplies must be new and guaranteed of origin. They must be free of any flaw or defect that could harm their appearance and proper functioning. They shall conform to the technical specifications here under;

No	Technical specifications	Unit of measure	Qty
1.	Smart solar dryer: • Dryer dimensions: approximately 8 m wide × 30 m long; recommended sidewall height of 2.5 m and ridge height of approximately 4.0 m. • Nominal capacity: Approximately 4,000 kg per batch for grains or products suitable for a loading specification density of approximately 15 kg/m². Capacity for fruits, vegetables and herbs shall be declared separately. • Drying period: Target of 2–3 days, depending on the crop, initial moisture, final moisture and weather conditions. • Structure: Corrosion-protected galvanized-steel frame, structurally designed and securely anchored for site wind conditions. • Covering: Minimum 200-micron UV-stabilized greenhouse-grade polyethylene, securely tensioned and rainproof. • Floor: Smooth, washable concrete floor with dark, non-toxic solar-absorbing finish and controlled drainage. • Drying racks: Minimum 48 modular rack units arranged in four longitudinal banks, with three drying levels. An equivalent arrangement may be accepted provided it delivers the required drying area and accessibility. • Side rack modules: 24 units, each approximately 2.0 m long × 0.6 m wide × 1.7–1.75 m high. • Central rack modules: 24 units, each approximately 2.0 m long × 1.2 m wide × 1.7–1.75 m high and accessible from both sides. • Total drying area: Minimum 259 m². • Drying trays: Approximately 432 removable trays, each about 1.0 m × 0.6 m × 0.05 m deep. • Tray material: Food-grade stainless steel, minimum Grade 304, with crop-appropriate mesh openings and at least 50% open area. • Rack construction: Corrosion-resistant steel frame with minimum 40 × 40 × 1.5 mm uprights, adequate cross-bracing and a minimum shelf loading capacity of 30 kg/m². • Rack spacing: Lowest shelf at least 300 mm above the floor, with approximately 550–600 mm vertical spacing between drying levels. • Working aisles: Minimum 1.0 m between central rack banks and 1.1 m between side and central racks.	Piece	1

	• Handling tables: Two stainless-steel tables, each approximately 2.0 m long × 0.9 m wide × 0.85 m high, with a minimum load capacity of 200 kg. • Exhaust fans: Six heavy-duty, energy-efficient axial exhaust fans, each rated at not more than 50 W and delivering at least 2,200 m³/hour at 25 Pa. • Fan arrangement: Installed on the exhaust end wall in two rows of three and controlled in three stages of two fans each. • Total airflow: Minimum 13,200 m³/hour when all fans operate. • Fan control: Automatic staged operation based on temperature, relative humidity and vapour-pressure difference, with variable-speed control and manual override. • Air inlets: Minimum 1.8 m² net free inlet area, or approximately 3.0 m² gross screened area, with adjustable dampers and airflow-distribution baffles • Environmental sensors: At least six internal temperature and humidity sensors and one external sensor; minimum accuracy of ±0.5°C and ±3% relative humidity. • Monitoring system: Farm Shield™, Farm Cloud™ or equivalent system providing real-time monitoring, alarms, automatic fan control and downloadable batch records. Minimum 12-month platform subscription shall be included. • Solar PV system: Minimum 1.65 kWp, comprising three 550 W monocrystalline modules or equivalent, complete with mounting structure, protection and cabling • Battery storage: Minimum 5.12 kWh LiFePO₄ battery with integrated battery-management system and at least 4 kWh usable capacity. • Hybrid inverter: Minimum 2 kVA, 48/51.2 V DC input and 230 V, 50 Hz AC output, with MPPT controller and grid or generator backup input. • Moisture meter: Calibrated handheld digital moisture meter suitable for the specified crops, with accuracy of ±0.5 percentage points or better. • Weighing scale: Calibrated digital platform scale with a minimum capacity of 1,000 kg. • Documentation: Structural and electrical drawings, equipment datasheets, crop-specific drying procedures, operation and maintenance manuals and commissioning report. • Installation and training: Complete site installation, testing and training of at least four operators in loading, controls, hygiene, moisture measurement, maintenance and recordkeeping. • Warranty: Minimum 12-month comprehensive system warranty; separate manufacturer warranties for the structure, PV modules, battery, inverter, fans and sensors.		
2.	Cassava chipping machine: • Application: Chipping fresh cassava roots for drying, flour production, animal feed or further processing • Rated inputs capacity: Not less than 500 kg of fresh cassava roots per hour	Piece	1

	• Guaranteed continuous capacity: Not less than 500 kg of fresh cassava roots per hour • Feeding method: Manual, continuous gravity feeding through a suitably inclined hopper • Cutting mechanism: Replaceable-blade rotary disc or equivalent proven chipping mechanism • Chip form: Uniform slices or chips suitable for efficient sun or mechanical drying • Standard chip thickness: Adjustable within approximately 3–10 mm • Preferred operating setting: Approximately 5–8 mm, unless otherwise directed by the purchaser • Chipping efficiency: At least 90% by mass of the material discharged as acceptable chips • Unprocessed or oversized material: Not more than 5% by mass, excluding unavoidable end pieces • Product loss: Not more than 5% by mass during normal operation • Engine type: Four-stroke, single-cylinder, air-cooled petrol engine • Engine rated power: Minimum 5 hp (3.7 kW); preferably 6.5 hp (4.8 kW) to provide adequate starting torque and operating reserve • Engine starting system: Recoil/manual start; electric start may be offered as an additional feature • Fuel: Unleaded petrol • Fuel tank capacity: Minimum 3 liters • Engine controls: On/off switch, throttle control, fuel shut-off valve and choke • Power transmission: Heavy-duty V-belt and pulley drive, or an equivalent protected transmission system • Cutting disc speed: Selected by the manufacturer to achieve the guaranteed throughput and chip quality; normally approximately 400–900 rpm, depending on cutter design • Shaft: Corrosion-resistant or food-grade stainless-steel shaft, minimum 25 mm diameter, or manufacturer's equivalent proven design • Bearings: Heavy-duty sealed bearings, greaseable or maintenance-free, readily available in Uganda • Cutting blades: Hardened food-grade stainless steel, removable, sharpenable and replaceable • Number of blade sets supplied: One installed set plus at least one complete spare set • Food contact parts: Minimum AISI 304 stainless steel, including the hopper, cutting chamber, blades and discharge chute		
--	--	--	--

	• Non-food contact frame: Heavy-duty welded mild-steel angle or box section, protected by food-safe primer and corrosion-resistant finish • Hopper design: Adequately sized, inclined hopper that prevents cassava roots from bouncing out and limits operator access to moving blades • Discharge chute: Stainless-steel chute positioned for safe collection of chips in trays, sacks or containers • Frame: Rigid, stable and vibration-resistant frame, suitable for operation on a level concrete floor • Mobility: At least two heavy-duty wheels and handles, or another arrangement allowing safe movement • Stability: Locking wheels, stabilizing legs or anchoring points to prevent movement during operation • Safe guards: Full guarding of belts, pulleys, shafts, bearings and rotating cutting components • Feed safety: Hopper throat or feed arrangement designed to prevent the operator's hands reaching the cutting mechanism • Emergency stopping: Clearly accessible engine stop switch or emergency shut-off control • Noise and vibration: Machine shall operate without abnormal vibration, excessive noise or movement • Cleaning: Cutting chamber, hopper and discharge chute shall be readily accessible for cleaning without specialized tools • Drainage & hygiene: No inaccessible pockets that retain cassava residues or wash water. • Corrosion resistance: All exposed surfaces shall resist humid tropical operating conditions and contact with cassava • Operating environment: Suitable for outdoor sheltered or rural agro-processing use in Uganda. • Manuals: English-language operating, cleaning, maintenance and safety manuals • Identification: Permanent nameplate showing manufacturer, model, serial number, rated capacity, engine power and year of manufacture. • Spare parts support: Supplier shall guarantee availability of engine, bearing, belt and blade replacements for at least 5 years. • Warranty: Minimum 12 months from commission or 1,000 operating hours, whichever occurs first.		
--	--	--	--

1.2 Requirements for ancillary services

1.2.1 Place and time of delivery

The supplies shall be delivered to Rwetech Farmers' Cooperative Society Limited between 8:00 am to 5:00 pm on weekdays excluding public holidays at the address indicated below:

No.	Location	Address	Distance from Kampala (Approximated in Km)
-----	----------	---------	--

1.	Rwetech Farmers' Cooperative Society Limited	Jinja industrial area, Jinja city	114
----	--	--------------------------------------	-----

1.2.2 Duration of performance

This public contract duration is 14 months. The implementation period under this public contract starts with an award notification and lasts for 2 months. Thereafter, a warranty period of 12 months shall be observed.

1.2.3 Installation and user training

The contractor shall supply, deliver, install the equipment and conduct user training on operational maintenance.

1.3 Qualifications & Competences of the Expert

The contractor shall present a key expert that can cover installation and technical users training for the equipment.

The expert shall include:

Technical Trainer

Mandatory requirements:

- Diploma in mechanical engineering or related fields.
- At least 3 years of demonstrated practical experience in installation of equipment and training users.

2. Contract conditions

2.1 General remarks

Except when specified otherwise in the order or any related contractual document of the contracting authority, these conditions apply to public contracts for services awarded in the name and on behalf of Enabel (contracting authority).

2.2 Subcontracting

The contractor may, under their sole responsibility, call upon subcontractors for certain components of this contract. Subcontracting is under the sole responsibility of the contractor and does in no way discharge the contractor of performance obligations under the contract vis-à-vis the contracting authority, which recognizes no legal relation with subcontracting third parties.

2.3 Cession

One contracting party may not cede its rights and relinquish its obligations resulting from the order to a third party, without having obtained in advance the written approval of the other party.

2.4 Conformity of performance

The goods must comply in all respects with the contract documents. Even in the absence of specifications in the procurement documents, the services must comply in all aspects with good practice.

2.5 Execution modalities

This public contract duration is 14 months. The implementation period under this public contract starts with an award notification and lasts for 2 month. Thereafter, a warranty period of 12 months shall be observed.

The start date, the performance deadlines agreed as well as the instructions about the performance place must be strictly observed.

Any exceeding the performance deadline and this for whatever reason shall result as of right and by the expiry of the deadline in the application of a fine for late performance of 0.07% of the amount of the order per commenced week of delay. This fine is limited to a maximum of 10% of the total amount of the order.

In the event of excessive delay or other non-performance, the contracting authority can terminate the public contract and launch another request for price quote and have the services delivered by another provider. Any possible extra cost shall be borne by the defaulting contractor.

Any costs to which the contracting authority would be exposed and attributable to the defaulting contractor are borne by the latter and deducted from amounts owed.

2.6 Acceptance of goods

The contractor delivers only goods that have no apparent and/or hidden defects and that correspond strictly to the Terms of Reference of this public contract and, if necessary, to the prescriptions of related documents as well as applicable regulations, in compliance with good practice and the state of the art and for the purposes that the contracting authority has in mind, which the contractor knows or at least should know.

Acceptance of the goods or final acceptance only takes place after the complete inspection by the contracting authority of the conformity services delivered. An acceptance reports confirms such acceptance.

The signature of (a staff member of) the contracting authority, in particular in electronic reception devices, upon delivery of the report or other required output, does consequently only count as evidence of taking possession and does not concern the acceptance of the report or the output.

The contracting authority disposes of a maximum verification term of thirty days starting on the end date of delivery of services to be accepted and to notify the result to the contractor.

2.7 Invoicing and payment

The contractor sends (one copy only) of the invoices to the following address:

Kevin Atim

Kevin.atim@enabel.be

Financial Controller, WeWork, Busoga

Invoices in due form and not disputed are paid within 30 calendar days after acceptance.

Costs and Payment Schedule

The payment shall be **100% after full acceptance** of supplies.

The invoice shall be in Uganda Shillings (UGX).

Advance payment:

By way of derogation from the foregoing, and in accordance with Articles 12/1 to 5 of the Law of 17 June 2016, inserted by the Law of 22 December 2023 amending the regulations relating to public contracts with a view to promoting access by SMEs to the said contracts, the contracting authority shall pay an advance when the successful tenderer proves to be an SME within the meaning of Article 163, § 3, subparagraph 2, of the Law of 17 June 2016.

The amount of the advance payment is calculated by applying the following percentages to a reference value determined in accordance with Article 12/5 of the Law of 17 June 2016:

1° if the successful tenderer is a micro-enterprise, i.e. an enterprise that employs fewer than ten (10) people and whose annual turnover or annual balance sheet total does not exceed two million euros (2M euro), the percentage to be taken into account is twenty per cent (20%);

2° if the successful tenderer is a small business, i.e. a business that employs fewer than fifty (50) people and whose annual turnover or annual balance sheet total does not exceed ten million euros (10M euro), the percentage to be taken into account is ten per cent (10%);

3° where the successful tenderer is a medium-sized company, i.e. a company employing fewer than two hundred and fifty (250) people and whose annual turnover does not exceed fifty million euros (50M euro) or whose annual balance sheet total does not exceed forty-three million euros (43M euro), the percentage to be taken into account is five per cent (5%).

According to Article 12/5 of the Law of 17 June 2016, the reference value relevant for calculating the advance in a framework agreement is equal to the amount of each order, including all taxes.

The first half of the advance shall be set off against the sums due to the contractor when the value of the services performed reaches thirty per cent of the original order amount and the second half of the advance shall be set off against the sums due to the contractor when the value of the services performed reaches sixty per cent of the original order amount. The aforementioned amounts shall be understood as amounts inclusive of value-added tax.

The supplier must provide an **advance bank guarantee** prior to any advance payment.

The amount of the advance will be deducted from the final invoice of each order.

No advance will be paid when implementation duration of an order is less than 60 days.

2.8 Taxes

1. VAT

All prices shall be quoted exclusive of VAT.

However, at the time of invoicing, the contractor must include VAT on the invoice.

2. Withholding tax

This contract is subjected to Ugandan withholding tax. For national entities 6% is deducted at payment, for international entities 15% is deducted according to the withholding tax regulation of Uganda.

2.9 Insurance

The contractor is bound to take out any obligatory insurance and to take out or renew any necessary insurance for the good performance of this contract, especially insurance covering 'civil liability' work accidents' and 'transport-related risks', and this for the whole period of the assignment.

The contractor will send the contracting authority, upon simple demand, a copy of the insurance policies taken out by the contractor and proof of regular payment of the premiums that are borne by him.

2.10 Intellectual property rights

The contractor integrally, definitively and exclusively and without any financial compensation on top of the price(s) quoted in his tender, cedes any author rights or industrial property rights that it holds or will create in the context of this contract to Enabel. This cession will take place at the time of acceptance of the works that are protected by copyrights.

The contractor must cover the contracting authority against any third-party claims of violation of intellectual property rights on the goods or services delivered.

The contractor must assume, without limitation as to the amount, all payments of compensation, costs or expenditure ensuing from and borne by the contracting authority in a legal action, which is based on such a claim, provided the contractor has the right to overview the defense and negotiations with a view to an amicable settlement.

2.11 Obligation of confidentiality

The contractor and its employees are bound by a duty of reserve concerning the information which comes to their knowledge during performance of this public contract. This information may not under any circumstances be communicated to third parties without the written consent of the contracting authority. The contractor may, nevertheless, list this contract as a reference, provided that he indicates its status correctly (e.g., 'in performance') and that the contracting authority has not withdrawn this consent due to poor contract performance.

Any commercial, organisational and/or technical information (all data, including, and this without limitation, the passwords, documents, schedules, plans, prototypes, figures) that the contractor gets hold of through this public contract remain the property of the contracting authority.

The Contractor shall respect the protection of personal data.

2.12 Deontological clauses

Any failure to comply with one or more of the deontological clauses given below may lead to the termination of this contract and to the exclusion of the contractor from other public contracts for Enabel.

For the duration of the contract, the contractor and his staff respect human rights and undertake not to go against political, cultural or religious customs of the country where services are delivered.

In accordance with Enabel's Policy regarding sexual exploitation and abuse (add link to text), the contractor and his staff have the duty to behave in an irreproachable manner towards the beneficiaries of the projects implemented by Enabel and towards the population in general. They must abstain from any acts that could be considered a form of sexual exploitation or abuse and they must abide by the basic principles and guidelines laid down in this policy. In application of Enabel's Policy regarding sexual exploitation and abuse there will be zero tolerance towards any misconduct referred to in its Policy regarding sexual exploitation and abuse that could impact the professional credibility of the contracting parties.

Any attempt by a contractor to obtain confidential information, to make illicit agreements with competitors or to influence the contracting authority in any way will result in the rejection of his tender.

Moreover, in order to avoid any impression of risk of partiality or connivance in the followup and control of the performance of the public contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to appointees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.

In accordance with Enabel's Policy regarding sexual exploitation and abuse of June 2019 and Enabel's Policy regarding fraud and corruption risk management complaints relating to issues of integrity (fraud, corruption, etc.) must be sent to the Integrity desk through the <https://www.enabelintegrity.be> website.

2.13 Complaints management and competent courts

Only Belgian law applies to this public contract.

The parties commit to sincerely perform their engagements to ensure the good performance of this contract.

In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution. Where needed, the contractor may request mediation via e-mail complaints@enabel.be cf. <https://www.enabel.be/content/complaints-management>

Any litigation about the orders and these contract conditions are the exclusive competence of the Brussels Courts.

3.1 Procurement procedure

CONTACT PERSON AT ENABEL during the procedure	
NAME:	Contracts Service Center

INFORMATION REGARDING THE PROCEDURE		
RECEPTION OF TENDERS	TENDER SUBMISSION DATE	28nd September 2026 at 10:00 am, Kampala time
SUBMISSION DETAILS		The tenderer submits his tender as follows: - The duly completed and signed tender shall be submitted only by e-mail and only as attachments and not via a link to a platform. The files shall be clearly named and structured and submitted in a compressed zip folder. The tenderer is solely responsible for the accessibility and legibility of files. The tenderer shall not submit at the last minute. Untimely submission, incomplete submission or indirect submission of documents that are inaccessible or illegible may lead to the rejection of the tender. - The subject of the e-mail shall clearly mention the procurement reference number and the contract title, as stated on the cover page of the tender specifications, as well as the name of tenderer.

	- It shall be submitted by email to: uga_csc_tenders@enabel.be. NOTE: Upon the electronic submission of your tender, you will receive an automatic reply from the Enabel contracts service center as confirmation of receipt of your tender. In case you don't receive the automatic reply after you submit a tender, please contact Enabel immediately using the email addresses stated under the section on "information" in this tender document or through telephone No. 0393-256-370 as most likely, your tender may not have reached the Enabel servers.
VALIDITY PERIOD OF THE TENDER	90 calendar days
CONTENT OF THE TENDER	<u>Administrative proposal</u> - Identification form. - Legal identification form (Private/public law body with legal form). - Financial identification form (along with an account confirmation letter from the bank. This account shall not change throughout the contract duration and implementation). - Declaration on honor – Grounds for exclusion. - Integrity Statement of the tenderers. - Subcontractors. - Economic and financial capacity form. - Technical and professional capacity form. (List of 1 main similar assignment for supply of furniture completed in the last 3 years). <u>Technical proposal</u> - Indication that the supplies conform to the technical specifications and time schedule for delivery. May be presented in free format but must include colored photos/pictures of equipment. Relatedly, the technical specifications that allow comparability of the offers. <u>Financial proposal</u> - Signed financial offer form.

3.2 Evaluation criteria

Exclusion criteria

The tenderer shall be evaluated with regard to compliance with exclusion grounds stated in the enclosed Declaration on Honour as well as the Enabel integrity policy

Selection Criteria

Moreover, by means of the documents requested in the Annexes - Administrative Proposal, the tenderer must prove that he is sufficiently capable, from an economic and financial as well as from a technical point of view, to successfully perform this public procurement contract.

1	Sufficient Economic and Financial Capacity
1.1	Sufficient turn-over
Minimum Standard	Minimum average annual turn-over of at least UGX 70,000,000 during the past three financial years.
2	Sufficient experience
Minimum Standard	Minimum of 1 similar assignment for supply and delivery of solar dryer and/or cassava chipping machine or relevant equipment successfully completed in the past three years.
2.1	Qualifications and experience of the expert
Minimum Standard	Signed CV and academic documents of the expert meeting the profile defined in the technical specifications.

Award criteria

- Price: 100%

With regards to the 'price' criterion, the following formula will be used:

Points tender A = $\frac{\text{Lowest tender}}{\text{amount of tender A}} * 100$

Final score

The procurement contract will be awarded to the tenderer with the highest final score, after the contracting authority has verified the accuracy of the Declaration on honour of this tenderer and provided the control shows that the Declaration on honour corresponds with reality.

4.1.4 Declaration on honour – Grounds for exclusion

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer declare that the tenderer is not in any of the following cases of exclusion:

1. The tenderer nor any of its directors was found guilty following an indefeasible **judgement** for one of the following offences:
 - 1° Involvement in a **criminal organisation**
 - 2° **Corruption**
 - 3° **Fraud**
 - 4° **Terrorist** offence, offence linked to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
 - 5° **Money laundering or financing of terrorism**
 - 6° **Child labour** and other trafficking in human beings
 - 7° Employment of foreign citizens **under illegal status**
 - 8° Creating a shell company.

The exclusions on the basis of this criterion apply for a 5-year term from the date of judgement (or the end of the offence for 7°).

2. The tenderer which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the tenderer can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.
3. The tenderer is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganization, or has admitted bankruptcy, or is the subject of a liquidation procedure or judicial reorganization, or in any similar situation resulting from a procedure of the same kind existing under other national regulations.
4. The tenderer or one of its directors has committed serious professional misconduct which calls into question their integrity.

The following are considered serious professional misconduct, among others:

- a. A breach of Enabel's Policy regarding sexual exploitation and abuse – June 2019 prs-sexual_exploitation_and_abuse_policy_final_en.pdf (enabel.be)
 - b. A breach of Enabel's Policy regarding fraud and corruption risk management – June 2019 https://www.enabel.be/sites/default/files/fraud_policy_en_final.pdf
 - c. A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace;
 - d. The tenderer was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed information;
 - e. Where Enabel has sufficient plausible evidence to conclude that the tenderer has committed acts, entered into agreements or entered into arrangements to distort competition.

The presence of this tenderer on one of Enabel's exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.
5. When a conflict of interest within the meaning of Article 6 of the Law cannot be remedied by other, less intrusive measures;

6. Significant or persistent failures by the tenderer were detected during the execution of an essential obligation incumbent on him in the framework of a previous public contract, a previous contract placed with a contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Failures to respect applicable obligations regarding environmental, social and labour rights under European Union law, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the tenderer on the exclusion list of Enabel because of such a failure serves as evidence.

7. The tenderer nor one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:

For the United Nations, the lists can be consulted at the following address:

<https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-internationales><https://finances.belgium.be/fr/tresorerie/sanctions-financieres/sanctions-internationales-nations-unies>

For the United Nations, the lists can be consulted at the following address: :

For the European Union, the lists can be consulted at the following address:

4.1.5 Integrity Statement of the tenderers

Hereby, I/we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- I have / we have read and understood the articles about deontology of this public contract (see 1.7.) as well as Enabel's Policy regarding sexual exploitation and abuse and Enabel's Policy regarding fraud and corruption risk management and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical rank.
- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to comply with one or more of the deontological clauses will lead to the exclusion of the contractor from this and other public contracts for Enabel.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.
